Sentry Select Primary Metals Corp.

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying financial statements have been prepared by CI Investments Inc., the Manager of the Sentry Select Primary Metals Corp. (the "Fund"), and approved by the Board of Directors. The Fund's Manager is responsible for the information and representations contained in these financial statements and other sections of this report. CI Investments Inc. maintains appropriate processes to ensure that relevant and reliable financial information is produced. The financial statements have been prepared in accordance with International Financial Reporting Standards and include certain amounts that are based on estimates and judgments. The significant accounting policies which management believes are appropriate for the Fund are described in Note 2 to the financial statements.

Independent auditor's report

To the Shareholders of
Sentry Select Primary Metals Corp.

Opinion

We have audited the financial statements of **Sentry Select Primary Metals Corp.** [the "Fund"], which comprise the statements of financial position as at December 31, 2022 and 2021, and the statements of comprehensive income, statements of changes in net assets attributable to holders of redeemable shares and statements of cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ["IFRSs"].

Basis for opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

Management is responsible for the other information. The other information comprises the Management Report of Fund Performance. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information, and in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

We obtained the Management Report of Fund Performance prior to the date of this auditor's report. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact in this auditor's report. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Fraser Whale.

Fund Specific Notes to Financial Statements

Financial Instruments Risks (Note 9)

Concentration Risk

For Concentration Risk as at December 31, 2022, refer to the Schedule of Investment Portfolio.

The table below summarizes the Fund's exposure to concentration risk.

as at December 31, 2021

Categories	Net Assets (%)
Gold	76.60
Diversified Metals & Mining	13.52
Precious Metals & Minerals	4.46
Steel	2.32
Copper	1.89
Other Net Assets (Liabilities)	0.86
Silver	0.18
Metals & Mining	0.17
Total	100.00

Credit Risk

As at December 31, 2022 and 2021, the Fund did not have a significant exposure to credit risk as substantially all of its assets were invested in equities.

Other Price Risk

As at December 31, 2022 and 2021, the Fund was predominantly invested in Canadian equities and therefore was sensitive to changes in general economic conditions in Canada.

As at December 31, 2022, had the fair value of equities in the investment portfolio increased or decreased by 10% (December 31, 2021 - 10%), with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have increased or decreased, respectively, by approximately \$2,082,000 (December 31, 2021 - \$2,801,000). In practice, the actual results may differ from this analysis and the difference may be material.

Currency Risk

The tables below summarize the Fund's exposure to currency risk.

as at December 31, 2022~

Currency	Financial Instruments			Net Assets (%)
	Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	
Australian Dollar	3,569	-	3,569	17.1
U.S. Dollar	579	-	579	2.8
Total	4,148	-	4,148	19.9

as at December 31, 2021~

Currency	Financial Instruments			Net Assets (%)
	Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	
Australian Dollar	3,746	-	3,746	13.3
U.S. Dollar	1,030	-	1,030	3.6
Total	4,776	-	4,776	16.9

~Includes monetary and non-monetary instruments, if any.

Currency Risk (cont'd)

As at December 31, 2022, had the Canadian dollar strengthened or weakened by 10% (December 31, 2021 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have decreased or increased, respectively, by approximately \$415,000 (December 31, 2021 - \$478,000). In practice, the actual results may differ from this analysis and the difference may be material.

Interest Rate Risk

As at December 31, 2022 and 2021, the Fund did not have a significant exposure to interest rate risk as substantially all of its assets were invested in equities.

Fair Value Hierarchy

The tables below summarize the inputs used by the Fund in valuing the Fund's investments and derivatives carried at fair value.

Long Positions at fair value as at December 31, 2022

	Level 1 (in \$000's)	Level 2 (in \$000's)	Level 3 (in \$000's)	Total (in \$000's)
Equities	20,820	-	-	20,820
Total	20,820	-	-	20,820

During the year ended December 31, 2022, investments with a fair value of \$1,104,000 were transferred out of Level 2 into Level 1 as quoted market prices became available for these investments.

There were no transfers between Level 1 and 3 and Level 2 and 3 during the year ended December 31, 2022.

Long Positions at fair value as at December 31, 2021

	Level 1 (in \$000's)	Level 2 (in \$000's)	Level 3 (in \$000's)	Total (in \$000's)
Equities	24,943	3,071	-	28,014
Total	24,943	3,071	-	28,014

There were no transfers between Level 1, 2 and 3 during the year ended December 31, 2021.

Sentry Select Primary Metals Corp.

Notes to the Financial Statements

1. THE FUND

Sentry Select Primary Metals Corp. (the Fund) is a corporation incorporated under the laws of the Province of Ontario by Articles of Incorporation dated April 23, 2007, as amended on June 13, 2007, March 26, 2008 and March 26, 2010. The Fund commenced operations with the closing of an initial public offering on June 14, 2007. The Fund is listed on the Toronto Stock Exchange (TSX), under the symbol PME.

CI Investments Inc. is the manager (the Manager) to the Fund. The Manager is a wholly owned subsidiary of CI Financial Corp. (TSX: CIX; New York Stock Exchange (NYSE): CIXX). Effective October 28, 2022, the CIBC Mellon Trust Company replaced the RBC Investor Services Trust as the custodian (the Custodian) for the Fund.

The Fund's registered office address is 15 York Street, Second Floor, Toronto, Ontario, M5J 0A3.

These financial statements were approved and authorized for issue by Board of Directors on March 20, 2023.

The Fund invests in an actively managed portfolio consisting primarily of securities of mining and exploration issuers, with a current focus on gold issuers. The Fund's investment objectives are to provide shareholders with: (i) long-term capital appreciation; and (ii) monthly cash distributions.

The Statements of Financial Position are as at December 31, 2022 and 2021. The Statements of Comprehensive Income, Statements of Changes in Net Assets Attributable to Holders of Redeemable Shares and Statements of Cash Flows are for the years ended December 31, 2022 and 2021.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These financial statements have been prepared in compliance with *International Financial Reporting Standards* (IFRS) as published by the International Accounting Standards Board.

The following is a summary of the significant accounting policies of the Fund:

a. Classification and recognition of financial instruments

The Fund classifies and measure its investments (such as fixed-income securities, equity securities, investment fund(s), exchange-traded fund(s) and derivatives) based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The Fund's portfolio of financial assets is managed, and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The contractual cash flows of the Fund's debt securities are solely principal and interest; however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments and derivatives are measured at fair value through profit or loss (FVTPL).

The Fund's obligations for net assets attributable to holders of redeemable shares are presented at the redemption amount, which approximates their fair value. All other financial assets and liabilities are measured at amortized cost, which approximates their fair value. Under this method, financial assets and liabilities reflect the amount required to be received or paid, discounted, when appropriate, at the effective rate of interest.

Financial assets and liabilities are offset, and the net amount is presented in the Statements of Financial Position when, and only when, the Fund has a legal right to offset the amounts and intends either to settle

on a net basis or to realize the asset and settle the liability simultaneously. In the normal course of business, the Fund enters into various master netting agreements or similar agreements that do not meet the criteria for offsetting in the Statements of Financial Position, but still allow for the related amounts to be offset in certain circumstances, such as bankruptcy or termination of the contracts.

b. Fair value of financial investments

At the financial reporting date, listed securities are valued based on the last traded market price for financial assets and financial liabilities where the last traded price falls within the day's bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on the existing market conditions. Unlisted securities are valued based on price quotations received from recognized investment dealers, or failing that, their fair value is determined by the Manager based on the latest reported information available. Unlisted warrants, if any, are valued based on a pricing model, that considers factors such as the market value of the underlying security, strike price, and terms of the warrant. Fixed-income securities, debentures and other debt instruments, including short-term investments, are valued at the quotation received from recognized investment dealers.

c. Cash

Cash comprises of cash on deposit and bank overdraft.

d. Cost of investments

Cost of investments represents the amount paid for each security and is determined on an average cost basis excluding commissions and transaction costs.

e. Investment transactions and income recognition

Investment transactions are recorded on the trade date, which is the date on which the Fund commits to purchase or sell the investment. The "Interest for distribution purposes" shown on the Statements of Comprehensive Income represents the coupon interest received by the Fund and is accounted for on an accrual basis and it also includes Interest earned on cash balances.

Dividends from investments are recognized on the ex-dividend/ex-distribution date.

f. Foreign exchange

The Fund's functional and presentation currency is the Canadian dollar. Foreign currency amounts are translated into the functional currency as follows: fair value of investments, foreign currency forward contracts and other assets and liabilities at the closing rate of exchange on each business day; income and expenses, purchases and sales and settlements of investments at the rate of exchange prevailing on the respective dates of such transactions. Foreign exchange gains (losses) relating to cash are presented as "Foreign exchange gain (loss) on cash" and those relating to other financial assets and liabilities are presented within "Net realized gain (loss) on sale of investments and derivatives" and "Change in unrealized appreciation (depreciation) in value of investments and derivatives" in the Statements of Comprehensive Income.

g. Share valuation

Net asset value (NAV) per share is calculated at the end of each day on which the TSX is open for business by dividing the total NAV by outstanding shares.

As at December 31, 2022 and 2021, there were no differences between the NAV used for transactions with shareholders and the net assets attributable to holders of redeemable shares used for reporting purposes under IFRS.

Sentry Select Primary Metals Corp.

Notes to the Financial Statements (cont'd)

h. Classification of shares

The shares of the Fund are classified as financial liabilities in accordance with IAS 32, *Financial Instruments: Presentation* (IAS 32), as they do not meet the definition of puttable instruments to be classified as equity in accordance with IAS 32 for financial reporting purposes.

i. Commissions and other portfolio transaction costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities, are included in "Commissions and other portfolio transaction costs" in the Statements of Comprehensive Income.

j. Increase (decrease) in net assets attributable to holders of redeemable shares

"Increase (decrease) in net assets attributable to holders of redeemable shares per share" in the Statements of Comprehensive Income is calculated by dividing the increase (decrease) in net assets attributable to holders of redeemable shares by the weighted average number of shares outstanding during the year.

k. Withholding taxes

The Fund may, from time to time, incur withholding taxes imposed by certain countries on investment income and capital gains. Such income and gains are recorded on a gross basis and the related withholding taxes are shown separately in the Statements of Comprehensive Income.

l. Harmonized sales tax

Certain provinces including Ontario, Prince Edward Island, Nova Scotia, New Brunswick and Newfoundland, and Labrador (each a Participating Tax Jurisdiction) have harmonized their provincial sales tax (PST) with the federal goods and services tax (GST). The Harmonized Sales Tax (HST) combines the federal GST rate of 5% with the PST rate of the participating province. The Province of Quebec also applies the Quebec sales tax (QST). The provincial HST liability or refund is calculated using the residency of shareholders and the value of their interest in the Fund as at specific times, rather than the physical location of the Fund. The effective sales tax rate charged to the Fund is based on the shareholders' proportionate investments by province, using each province's HST rate, GST rate in the case of non-participating provinces and/or QST rate. All amounts are presented as "Harmonized sales tax" in the Statements of Comprehensive Income.

3. CRITICAL ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities at the reporting date and the reported amounts of income and expenses during the reporting year. The following discusses the most significant accounting judgments and estimates that the Fund has made in preparing its financial statements:

Fair value measurement of investments and derivatives not quoted in active market

The Fund may, from time to time, hold financial instruments that are not quoted in active markets, such as unlisted securities, private securities or derivatives. Unlisted securities are valued based on price quotations from recognized investment dealers, or failing that, their fair value is determined by the Manager based on the latest reported information available. The fair value of private securities is determined by using valuation models that may be based, in part, on assumptions that are not supported by observable market inputs. These methods and procedures may include, but are not limited to, performing comparisons with prices of comparable or similar securities, obtaining valuation related information from issuers and/or other analytical data relating to the investment and using other available indications of value. These values were independently assessed by the Manager based on assumptions and estimates available as at Statement of the Financial Position date. However, because of the inherent uncertainty of valuation, the estimated fair values for these

securities may be materially different from the values that would have been used had a ready market for the investment existed. The fair values of private securities are affected by the perceived credit risks of the issuer, predictability of cash flows and the length of time to maturity.

Valuation models use observable data, to the extent practicable. Areas such as credit risk (both own and counterparty); volatilities, correlations and key assumptions concerning future developments require the Manager to make estimates. Changes in assumptions about these factors could affect the reported fair values of financial instruments.

The Fund considers observable data to be market data that is readily available, regularly distributed and updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

IFRS 10, Consolidated Financial Statements (IFRS 10)

In accordance with IFRS 10, the Manager has determined that the Fund meets the definition of an investment entity, which requires that the Fund obtains funds from one or more investors for the purpose of providing investment management services, commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income, or both; and measures and evaluates the performance of its investments on a fair value basis. Consequently, the Fund does not consolidate its investment in subsidiaries, if any, but instead measures these at FVTPL, as required by the accounting standard.

4. FEES AND OTHER EXPENSES

Management fees

The Fund pays to the Manager an annual fee equal to 1.10% of the NAV of the Fund plus an amount equal to the service fee (described below) payable to the registered dealers. Fees payable to the Manager are calculated and payable monthly, plus applicable taxes.

Operational costs

The Fund is responsible for all expenses incurred in connection with, but not limited to, the operation and administration of the Fund.

Service fees

The Manager will pay to registered dealers of the Fund an annual service fee of 0.40% of the NAV per share for shares held by clients of the sales representatives of the registered dealers, calculated and payable quarterly in arrears, plus applicable taxes.

Absorption

The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing expenses may continue indefinitely or may be terminated at any time without notice to unitholders. Operating expenses absorbed and/or management fees waived by the Manager are disclosed in the Statements of Comprehensive Income.

5. REDEEMABLE SHARES

The Fund is authorized to issue an unlimited number of redeemable shares. Each share represents an undivided interest in the net assets of the Fund. All shares have equal rights and privileges and are entitled to equal participation in any distributions made by the Fund.

Sentry Select Primary Metals Corp.

Notes to the Financial Statements (cont'd)

Annual redemption

Shareholders may tender their shares annually for redemption on the last business day of April (Annual Redemption Date) at the NAV per share. The proceeds of an annual redemption received by shareholders (Annual Net Redemption Proceeds) will be an amount equal to 100% of the Fund's NAV per share on the applicable Annual Redemption Date. Payment of the Annual Net Redemption Proceeds will be paid to shareholders within 15 days of the applicable Annual Redemption Date, provided that all necessary redemption documents have been properly completed and sent to the registrar and transfer agent of the Fund during the applicable redemption notice period, subject to the Fund's right to suspend redemption.

Monthly redemption

Shares may also be surrendered at any time by shareholders for redemption on the relevant monthly redemption date, which is the second last business day of the month in which the shares were surrendered for a monthly redemption in that month (Monthly Redemption Date), subject to the Fund's right to suspend redemptions. Shareholders shall be entitled to receive a price per share (Monthly Redemption Price) equal to the lesser of 90% of the market price of the shares on the principal market on which the shares are quoted for trading during the 20-trading-day period ending immediately before the Monthly Redemption Date, and 100% of the closing market price on the principal market on which the shares are quoted for trading on the Monthly Redemption Date. If shareholders of redeemable shares makes such surrender within the last 10 business days in the case of monthly redemption, the shares will be redeemed on the Monthly Redemption Date in the next month and the shareholders will receive the Monthly Redemption Price determined with reference to the Monthly Redemption date in the next month.

Notwithstanding the Monthly Redemption Price formula above, at no time will the Fund pay out redemption proceeds greater than the Fund's NAV per share as determined on the Monthly Redemption Date for each share being redeemed on such Monthly Redemption Date.

Redeemable share transactions information appears in the Fund Specific Notes to Financial Statements.

6. MARKET PURCHASE PROGRAM

In accordance with the Fund's prospectus, and to enhance liquidity and to provide support to the shares, the Fund has a mandatory Market Purchase Program under which the Fund has the right (but not the obligation), exercisable in its sole discretion, to purchase in the market for cancellation up to 10% of the shares outstanding at the beginning of such period at prices not exceeding the NAV per share. The Fund will offer to purchase shares offered on the TSX at prices that are less than 95% of the latest determined NAV per share where the Manager determines that such purchases are in the best interest of shareholders, up to a maximum amount in any three-month period of 1.25% of the number of shares outstanding at the beginning of such period. Purchases of shares by the Fund will be subject to compliance with any applicable regulatory requirements and limitations. During the years ended December 31, 2022 and 2021, the Fund did not purchase any shares for cancellation under the Market Purchase Program.

7. RELATED PARTY TRANSACTIONS

The Fund may have direct or indirect holdings in CI Financial Corp., or its affiliates or other investment fund(s) managed by the Manager as identified in the Schedule of Investment Portfolio and the Fund Specific Notes to Financial Statements, if applicable.

Inter-fund trading

Inter-fund trading occurs when a Fund purchases or sells a security of any issuer from or to another Fund managed by the Manager. These transactions are executed through market intermediaries and under prevailing market terms and conditions. The Independent Review Committee reviews such transactions during scheduled meetings. During the years ended December 31, 2022 and 2021, the Fund executed inter-fund trades.

8. TAXATION

The Fund presently qualifies as a "mutual fund corporation" as defined in the *Income Tax Act* (Canada). As a mutual fund corporation, the Fund is subject to Part IV federal tax. Taxable dividends received from taxable Canadian corporations are subject to a tax of 38 1/3%. Such taxes are fully refundable upon payment of taxable dividends to its shareholders. The Fund is also subject to Part I tax on other income and taxable capital gain for the year. All tax on net taxable realized capital gains is refundable when the gains are distributed to shareholders as capital gains dividends or through redemption of shares at the request of shareholders, while the Fund qualifies as a mutual fund corporation. Accordingly, the Fund does not record a provision for income taxes in respect of dividends from taxable Canadian corporations and capital gains. Interest income and foreign dividends, net of applicable expenses, are taxed at full corporate rates applicable to mutual fund corporations with credits, subject to certain limitations, for foreign taxes paid.

The Fund may be subject to foreign taxation related to income received, capital gains on the sale of securities and certain foreign currency transactions in the foreign jurisdictions in which it invests. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests. When a capital gain tax is determined to apply the Fund records an estimated tax liability in an amount that would be payable if the securities were disposed of on the valuation date.

Refer to the Loss Carry Forwards table in the Fund Specific Notes to Financial Statements for further information relating to loss carry forwards.

9. FINANCIAL INSTRUMENTS RISK.

Ukraine-Russian Federation conflict

The conflict between Ukraine and the Russian Federation has resulted in significant volatility and uncertainty in financial markets. NATO, EU and G7 member countries, including Canada, have imposed severe and coordinated sanctions against Russia. Restrictive measures have also been imposed by Russia and some securities have materially declined in value and/or may no longer be tradable. These actions have resulted in significant disruptions to investing activities and businesses with operations in Russia. The longer-term impact to geopolitical norms, supply chains and investment valuations is uncertain.

While the situation remains fluid, the Manager continues to monitor ongoing developments and the impact to investment strategies.

Interbank offered rate transition

Effective December 31, 2021, the publication of London Interbank Offered Rate (LIBOR) has ceased for all Sterling, Japanese yen, Swiss franc, and Euro settings as well as the 1-week and 2-month U.S. LIBOR settings. In addition, the overnight one-month, three-month, six-month and 12-month U.S. LIBOR settings will cease to be published after June 30, 2023.

On May 16, 2022, Refinitiv Benchmark Services (UK) Limited, the administrator of Canadian Dollar Offered Rate (CDOR), announced that the calculation and publication of all tenors of CDOR will permanently cease following a final publication on June 28, 2024.

The global benchmark rate reform initiative to transition from LIBOR or CDOR to alternative reference rates may impact a Fund that holds investments that are referenced to LIBOR or CDOR. Market risks arise as the new reference rates are likely to differ from the existing U.S. LIBOR or CDOR rates, which may impact the volatility or liquidity in markets for instruments that currently rely on U.S. LIBOR or CDOR settings. In order to manage these risks, the Manager continues to closely monitor the industry development and is taking all necessary steps to identify, measure and manage the risks relating to the Fund's U.S. LIBOR or CDOR exposure from its portfolio holdings.

Sentry Select Primary Metals Corp.

Notes to the Financial Statements (cont'd)

Risk management

The Fund is exposed to a variety of financial instruments risks: concentration risk, credit risk, liquidity risk and market risk (including other price risk, currency risk and interest rate risk). The level of risk to which the Fund is exposed to depends on the investment objective and the type of investments held by the Fund. The value of the investments within the portfolio can fluctuate daily as a result of changes in prevailing interest rates, economic and market conditions, and company-specific news related to investments held by the Fund. The Manager of the Fund may minimize potential adverse effects of these risks on the Fund's performance by, but not limited to, regular monitoring of the Fund's positions and market events, diversification of the investment portfolio by asset type, country, sector, term to maturity within the constraints of the stated objectives, and through the usage of derivatives to hedge certain risk exposures.

Concentration risk

Concentration risk arises as a result of the concentration of exposures within the same category, whether it is a geographical allocation, product type, industry sector or counterparty.

Details of the Fund's exposure to concentration risk are available in the Fund Specific Notes to Financial Statements.

Credit risk

Credit risk is the risk that a security issuer or counterparty to a financial instrument will fail to meet its financial obligations. The fair value of debt instruments includes consideration of the creditworthiness of the debt issuer. The credit risk exposure of the Fund's other assets is represented by their carrying amount as disclosed in the Statements of Financial Position.

Cash balances as disclosed in the Statements of Financial Position are maintained by the Custodian. The Manager monitors the creditworthiness of the Custodian on a regular basis. The credit rating of the Custodian as at December 31, 2022 for CIBC Mellon Trust was AA (December 31, 2021 - RBC Investor Services Trust - AA-).

All transactions executed by the Fund in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

Liquidity risk

Liquidity risk is the risk that the Fund may not be able to settle or meet its obligations, on time or at a reasonable price. The Fund is exposed to monthly and annual cash redemptions of redeemable shares. Therefore, the Fund aims to invest the majority of its assets in investments that are traded in active markets and can be readily disposed of. In addition, the Fund aims to retain sufficient cash and cash equivalent positions to maintain liquidity. From time to time, the Fund may enter into derivative contracts or invest in unlisted securities that may not trade in an organized market and may be illiquid. All financial liabilities are due within three months.

Market risk

The Fund's investments are subject to market risk, which is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market conditions.

Other price risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from currency risk or interest rate risk). The value of each

investment is influenced by the outlook of the issuer and by general economic and political conditions, as well as industry and market trends. All securities present a risk of loss of capital.

Other assets and liabilities are monetary items that are short-term in nature and therefore are not subject to significant other price risk.

Currency risk

Currency risk arises from financial instruments that are denominated in a currency other than the Canadian dollar, which is the functional currency of the Fund. As a result, the Fund may be exposed to the risk that the value of securities denominated in other currencies will fluctuate due to changes in exchange rates.

Interest rate risk

Interest rate risk is the risk that the fair value of interest-bearing investments and interest rate derivative instruments will fluctuate due to changes in prevailing levels of market interest rates. If interest rates fall, the fair value of existing debt securities may increase due to increase in yield. Alternatively, if interest rates rise, the yield of existing debt securities may decrease, which may then lead to a decrease in their fair value. The magnitude of the decline will generally be greater for long-term debt securities than for short-term debt securities.

Interest rate risk also applies if the Fund invests in convertible securities. The fair value of these securities varies inversely with interest rates, similar to other debt securities. However, since they may be converted into common shares, convertible securities are generally less affected by interest rate fluctuations than other debt securities.

Fair value hierarchy

The Fund is required to classify financial instruments measured at fair value using a fair value hierarchy. Investments whose values are based on quoted market prices in active markets are classified as Level 1. This level may include publicly traded equities, exchange-traded and retail mutual fund(s), exchange-traded warrants, futures contracts and traded options.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified as Level 2. These may include fixed-income securities, mortgage-backed securities, short-term instruments, non-traded warrants, over-the-counter options, structured notes of indexed securities, foreign currency forward contracts, swap instruments, American depositary receipts and Global depositary receipts, if quoted market price is not available.

Investments classified as Level 3 have significant unobservable inputs. Level 3 instruments may include private equities, private term loans, private equity fund(s) and certain derivatives. As observable prices are not available for these securities, the Fund may use a variety of valuation techniques to derive their fair value.

The Fund's policy is to recognize transfers into and out of the fair value hierarchy levels as of the date of the event or change in circumstances giving rise to the transfer.

Details of the Fund's exposure to financial instruments risks, including concentration risk and fair value hierarchy classification, are available in the Fund Specific Notes to Financial Statements.
