

CI WisdomTree International Quality Dividend Growth Index ETF

Management Report of Fund Performance for the period/year ended December 31, 2022

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-800-792-9355, by writing to us at CI Investments Inc., 15 York Street, Second Floor, Toronto, ON, M5J 0A3 or by visiting our website at www.ci.com or SEDAR at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of the CI WisdomTree International Quality Dividend Growth Index ETF (the Fund) is to track, to the extent possible, the price and yield performance of the WisdomTree International Quality Dividend Growth Index CAD (the Benchmark or the Index), before fees and expenses. The Index is a fundamentally weighted index designed to provide exposure to dividend paying developed market companies with growth characteristics.

The investment strategy of the Fund is to invest in and hold a proportionate share of the constituent securities of the Index, or other securities, to track the price and yield performance of the Index. The Fund uses derivative instruments to hedge the foreign currency exposure of the securities attributable to the Hedged Units to the Canadian dollar. Any foreign currency exposure of the securities attributable to the Non-Hedged Units will not be hedged to the Canadian dollar.

For a complete discussion of the Fund's investment objective and strategies, please refer to the Fund's most recently filed simplified prospectus.

RISK

The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the period was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

RESULTS OF OPERATIONS

The Fund's net assets decreased by \$80.3 million to \$152.9 million from December 31, 2021 to December 31, 2022. The Fund had net redemptions of \$37.1 million for the year. The portfolio's performance decreased assets by \$35.7 million. The Fund paid distributions totalling \$7.5 million. Hedged units returned -12.2% after fees and expenses for one-year period ended December 31, 2022. Over the same time period, the Fund's benchmark returned -13.3%. The benchmark is the WisdomTree International Quality Dividend Growth Total Return Index (CAD-Hedged) (the Benchmark or the Index).

Please refer to the "Past Performance" section which outlines the performance of the Fund's other units.

It was a challenging year for both equities and fixed income in 2022. Canadian equities, as measured by the S&P/TSX 60 Composite Index, were down 6.2%, with the information technology and financials sectors contributing most to the decline. U.S. equities, as measured by the S&P 500 Index, declined 18.1%, with the information technology and consumer discretionary sectors leading the decline. Former growth areas suffered the most, while long-time underperformers in the energy sector outperformed, benefiting from Russia's invasion of Ukraine. Global markets were otherwise negatively impacted by rising energy prices as well as China's zero-COVID policy.

Canada's bond market, as measured by the FTSE Canada Universe Bond Index, was down 11.7% as the yield curve inverted while bond yields rose across all terms. While the 30-year bond yield rose 160 basis points (bps) compared to the two-year bond yield rise of 310 bps, 30-year bonds experienced a -28% total return compared to -2% for the two-year bond. Credit spreads (the difference in yield between corporate and government bonds of similar maturities) on corporate bonds widened by approximately 50 bps.

The yield curve inversion (where short-term yields are higher than longer-term yields) and higher bond yields overall were driven by aggressive central bank interest rate increases. The Bank of Canada raised its policy rate by 400 bps in 2022, from 0.25% to 4.25%. Inflation in Canada peaked at 8.1% in June 2022 but trended down to 6.8% by November. On top of supply chain issues and higher commodity prices, the labour market remained tight, which likely contributed to higher inflation. After hitting a low of 4.9% in June 2022, the unemployment rate ended the year at 5.1%.

The Fund outperformed its benchmark for the year. Exposures to the consumer staples, communication services and energy sectors contributed to the Fund's performance. Top individual contributors to the Fund's performance included holdings in Novo Nordisk AS, BHP Group PLC and Hong Kong Exchanges & Clearing Ltd.

The Fund's allocations to the industrials, information technology and materials sectors detracted from performance. The largest individual detractors from the Fund's performance were positions in Anglo American PLC, BHP Group Ltd. and Tokyo Electron Ltd.

Any notable changes in the Fund's holdings were related to rebalancing activity. Portfolios are obtained from WisdomTree Inc. and rebalanced as per their direction with respect to constituents and weightings.

CI WisdomTree International Quality Dividend Growth Index ETF

Management Report of Fund Performance for the period/year ended December 31, 2022

RECENT DEVELOPMENTS

Despite a strong start to equity markets in 2023, consensus expectations are for a mild to moderate recession this year, driven by persistently high inflation, an ongoing energy crisis and tightening monetary activity from central banks. The extreme levels of tightening undertaken by the U.S. Federal Reserve Board (Fed) and other central banks are already causing some areas of the economy to slow, specifically housing and commodities. Consumer spending is expected to slow, given the combined effects of elevated food and energy prices and higher interest rates, all working to reduce disposable income.

Inflation has likely peaked, which should slow the pace of interest rate increases. These factors are likely to have a negative impact on corporate earnings in the early part of 2023. Combined with sustainably higher interest rates, it may be difficult for stock valuations to rise in the first half of the year.

However, while slowing economic performance is likely to occur in the short term, lower inflation and a less aggressive Fed could lay the groundwork for a much more favourable outlook for equities later in 2023. Global equities should also benefit from an eventual full reopening of China from COVID-19 pandemic lockdowns.

Independent Review Committee

Effective October 6, 2022, John Sheedy became a member of the Independent Review Committee (IRC) of CI Funds.

Risk Rating

Effective April 19, 2022, the risk rating for the Fund changed from "Low-to-Medium" to "Medium". This change is the result of an annual review to comply with the methodology mandated by the Canadian Securities Administrators and is not the result of any changes to investment objective, strategies or management of the Fund.

RELATED PARTY TRANSACTIONS

Manager, Investment Advisor and Trustee

CI Investments Inc. is the Manager, Investment Advisor and Trustee of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. The Manager, in consideration of management fees, provided management services required in the day-to-day operations of the Fund.

Management fee rate/rates as at December 31, 2022, for Class or each of the Classes, as applicable, is/are shown below:

	Annual management fee rate (%)
Hedged Units	0.480
Non-Hedged Units	0.480

The Manager received \$0.8 million in management fees for the year.

Management Fees

100% of total management fees were used to pay for investment management and other general administration.

Independent Review Committee

The Manager, in respect of the Fund, received the following standing instructions from the IRC with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager advise the IRC of any material breach of such policies. The Manager's policies and procedures require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; and (c) do not exceed the limitations of the applicable legislation. Annually, the IRC reviews reports describing each instance that the Manager acted in reliance on the standing instructions noted above.

Except as otherwise noted above under Related Party Transactions section, the Fund was not a party to any related party transactions during the period/year ended December 31, 2022. If the Fund invested in related party transactions, it relied on the IRC's standing instructions regarding related party transactions during this reporting period/year.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on unitholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

(5) This information is provided for the period(s)/year(s) ended December 31.

(6) Closing market price.

[^]Historical information pertaining to HST is not available.

PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that distributions made by the Fund in the period(s)/year(s) shown were reinvested in additional units of the Fund or relevant Series/Class of the Fund, as applicable. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following chart/charts shows/show the Fund's annual performance for each of the period(s)/year(s) shown and illustrates/illustrate how the Fund's performance has changed from period/year to period/year. In percentage terms, the chart/charts shows/show how much an investment made on the first day of each financial period/year would have grown or decreased by the last day of each financial period/year, except where noted.

¹ 2016 return is for the period from July 12, 2016 to December 31, 2016.

CI WisdomTree International Quality Dividend Growth Index ETF

Management Report of Fund Performance for the period/year ended December 31, 2022

Annual Compound Returns

The following table shows the Fund's annual compound returns for each year indicated, compared to the WisdomTree International Quality Dividend Growth Index and the MSCI EAFE Net Total Return Index.

The WisdomTree International Quality Dividend Growth Index is a fundamentally weighted Index designed to provide exposure to dividend paying developed market companies. The Index is comprised of the top 300 companies from the WisdomTree International Equity Index with the best combined rank of growth and quality factors. The growth factor ranking is based on long-term earnings growth expectations, while the quality factor ranking is based on three year historical averages for return on equity and return on assets. Companies are weighted in the Index based on annual cash dividends paid. The Index was established with a base value of 200 on November 29, 2013.

The MSCI EAFE Index is an equity index which captures large and mid cap representation across 21 developed markets countries around the world including Australia, Austria, Belgium, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, the Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland and the U.K. and excluding the U.S. and Canada. With 796 constituents, the Index covers approximately 85% of the free float adjusted market capitalization in each country.

A discussion of the performance of the Fund as compared to the benchmark is found in the Results of Operations section of this report.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about the Fund, its future performance, strategies or prospects, and possible future Fund action. The words "may," "could," "should," "would," "suspect," "outlook," "believe," "plan," "anticipate," "estimate," "expect," "intend," "forecast," "objective," and similar expressions are intended to identify forward-looking statements.

Forward-looking statements are not guarantees of future performance. Forward-looking statements involve inherent risks and uncertainties, both about the Fund and general economic factors, so it is possible that predictions, forecasts, projections and other forward-looking statements will not be achieved. We caution you not to place undue reliance on these statements as a number of important factors could cause actual events or results to differ materially from those expressed or implied in any forward-looking statement made by the Fund. These factors include, but are not limited to, general economic, political and market factors in Canada, the United States and internationally, interest and foreign exchanges rates, global equity and capital markets, business competition, technological changes, changes in laws and regulations, judicial or regulatory judgments, legal proceedings and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. All opinions contained in forward-looking statements are subject to change without notice and are provided in good faith but without legal responsibility.
