RESULTS OF OPERATIONS

The Fund's net assets decreased by \$61.1 million to \$676.6 million from March 31, 2023 to September 30, 2023. The Fund had net redemptions of \$55.2 million during the period. The portfolio's performance decreased assets by \$4.9 million. The Fund paid distributions totalling \$1.0 million. Series A shares returned -1.2% after fees and expenses the six-month period ended September 30, 2023. Over the same time period, the Fund's benchmark returned -1.0%. The benchmark is a combination of the FTSE Canada Universe Bond Total Return Index - 40%, the MSCI World Total Return Index - 30% and the S&P/TSX Composite Total Return Index - 30% (the Benchmark or the Index).

The performance of the Fund's other Series is substantially similar to that of Series A shares, except for differences in the structure of fees and expenses. For the returns of the Fund's other Series, please refer to the "Past Performance" section.

It was a rough period, with both bonds and equities declining. Yields kept rising as most market participants do not expect an economic recession in the near term. Rating agency Fitch Ratings Inc. downgraded the United States' "risk free" rating. Equities declined following a solid rebound in the first two quarters of 2023. On a year-to-date basis, equities remained strong, outperforming fixed-income securities.

The Fund slightly underperformed its benchmark for the period. An underweight exposure to U.S. equities detracted from the Fund's performance, as did allocation to global fixed-income securities. The largest individual detractors from the Fund's performance were holdings in CI Canadian Bond Fund, CI Income Fund, CI Select International Equity Managed Fund and CI DoubleLine Total Return Bond US\$ Fund.

Exposure to private assets and an overweight exposure to the energy sector contributed to the Fund's performance, as did its cash allocation. Top individual contributors to the Fund's performance included holdings in CI WisdomTree Japan Equity Index ETF, CI Select U.S. Equity Managed Fund, CI Energy Giants Covered Call ETF and CI Adams Street Global Private Markets Fund.

During the period, we increased the Fund's existing positions in CI WisdomTree Japan Equity Index ETF, CI DoubleLine Total Return Bond US\$ Fund and CI Auspice Broad Commodity ETF. The Fund holdings in CI Income Fund, CI Enhanced Short Duration Bond Fund, CI Select U.S. Energy Managed Fund, CI Energy Giants Covered Call ETF and CI Precious Metals Fund were trimmed.

RECENT DEVELOPMENTS

The U.S. 10-year yield is its highest since 2007. In the near term, the supply and demand imbalance should still dominate as Japanese and Chinese sovereign funds are selling along with the U.S. Federal Reserve Board (Fed), through quantitative tightening. We do not expect fiscal policy to contract to contain supply. Therefore, investors should be cautious, aware of both longer-term opportunities driven by value and the fact that the bottom has not yet been reached.

Equities are better positioned based on our belief of an economic soft landing ahead. This means that an economic slowdown is inevitable, but lower earnings should only be temporary. The U.S. job market is resilient and should continue to be in the coming quarters. However, positive real interest rates and a strong U.S. dollar should at some point affect consumption and earnings. Higher oil prices do not seem to be a big problem as the price of gasoline is holding following the peak demand season.

Canada is in a worse situation as savings accumulated during the COVID-19 pandemic have been depleted and mortgage rates are rising. Most Canadians are refinancing their mortgages from 3% or lower to significantly higher rates. The housing market has slowed, with month-over-month sales reported for September 2023 falling 12%. We expect consumption to slow as Canadians pay more interest.

Even with a yield differential, we prefer Canadian bonds to U.S. bonds as we expect the Bank of Canada to stop or pause interest rate increases before the Fed. It is harder to make a call on relative U.S.- and Canadian-dollar strength given that the current exchange rate has already priced in a persistent interest rate differential.

(1) This information is derived from the Fund's semi-annual and annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on shareholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

(5) This information is provided for the period(s)/year(s) ended September 30, 2023 and March 31.
