Management Report of Fund Performance for the period/year ended March 31, 2025

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-800-792-9355, by writing to us at CI Investments Inc., 15 York Street, Second Floor, Toronto, ON, M5J 0A3 or by visiting our website at www.ci.com or SEDAR+ at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of the CI Select Canadian Equity Managed Fund (the Fund) is to provide capital growth by investing directly or indirectly in equity and equity-related securities of primarily Canadian companies that the portfolio advisors believe represent good value and have the potential for positive total return. Equity-related securities include convertible preferred shares, convertible debt obligations, warrants, mutual funds, and other similar investment vehicles.

This Fund employs a multi-style, multi-manager approach to investing. This approach assists in diversifying the risk associated with an individual portfolio manager's or a portfolio management team's investment process and style.

Each portfolio advisor independently selects a diversified basket of securities that may exhibit core, growth, value or small capitalization characteristics.

The portfolio advisors may use techniques such as fundamental analysis to assess the attractiveness of both new investment opportunities and current holdings. The Fund is expected to be invested in securities diversified across different sectors. The portfolio advisors may also choose to invest the Fund's assets in foreign securities, but it is expected that foreign investments will generally represent less than 10% of the Fund's assets.

The Fund is expected to be broadly diversified, which means that it will not have a significant bias towards either a growth or value style.

CI Investments Inc. may replace a portfolio advisor or reallocate the mix of its portfolio advisors within this Fund.

The portfolio advisors may engage in frequent trading of investments. This increases the possibility that an investor will receive taxable dividends.

For a complete discussion of the Fund's investment objective and strategies, please refer to the Fund's most recently filed simplified prospectus.

RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the period/year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the period/year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

RESULTS OF OPERATIONS

The Fund's net assets decreased by \$89.0 million to \$370.1 million from March 31, 2024 to March 31, 2025. The Fund had net redemptions of \$89.8 million for the year. The portfolio's performance increased assets by \$55.5 million. The Fund paid distributions totalling \$54.7 million. Series I units returned 13.9% after fees and expenses for the year ended March 31, 2025. Over the same time period, the Fund's benchmark returned 15.8%. The benchmark is the S&P/TSX Composite Index (GTR) (the Benchmark or the Index).

Shortly after Donald Trump was inaugurated as U.S. president, financial markets began to take his proposed global tariffs seriously. U.S. equities, as measured by the S&P 500 Index, peaked on February 19, 2025, then declined by 9% through the end of March. Other regions fared better, as Canada saw improved market sentiment in anticipation of new government leadership.

The Bank of Canada (BoC) cut the overnight lending rate twice during the first quarter of 2025, totalling a reduction of 50 basis points. These decisions were driven by relatively subdued inflation and signs of economic weakness. The BoC was widely expected to continue its interest rate-cutting path. As a result, fixed income performed strongly.

The Fund underperformed its benchmark for the year. The Fund's cash allocation detracted from performance, as did an underweight allocation to the materials sector and overweight allocation to the communication services sector. Exposure to the health care sector also detracted from the Fund's performance, as did security selection within the information technology, energy and consumer discretionary sectors. The largest individual detractors from the Fund's performance were holdings in TFI International Inc., Open Text Corp., Canadian Pacific Kansas City Ltd., Canadian Natural Resources Ltd. and Cenovus Energy Inc.

CI Select Canadian Equity Managed Fund

Management Report of Fund Performance for the period/year ended March 31, 2025

Underweight exposures to the energy and industrials sectors and overweight exposure to the utilities sector contributed to the Fund's performance. Security selection within the financials, communication services and utilities sectors also contributed to the Fund's performance. The largest individual contributors to the Fund's performance were holdings in Royal Bank of Canada, Agnico Eagle Mines Ltd., Enbridge Inc., Manulife Financial Corp. and Brookfield Corp.

We added to the Fund new positions in Franco-Nevada Corp., Loblaw Cos. Ltd., GFL Environmental Inc., RB Global Inc. and NVIDIA Corp. Existing positions in Fairfax Financial Holdings Ltd., Agnico Eagle Mines, Toromont Industries Ltd., Suncor Energy Inc. and Tourmaline Oil Corp. were increased. Positions in Open Text, The Bank of Nova Scotia, Boyd Group Services Inc., Nuvei Corp. and Kinaxis Inc. were eliminated from the Fund. Positions in Cenovus Energy, Bank of Montreal, Royal Bank of Canada, Cargojet Inc. and Canadian Natural Resources were trimmed.

RECENT DEVELOPMENTS

The outlook remains uncertain, but the worst-case scenario has been avoided for now. Macroeconomic conditions continue to be unpredictable, largely due to unresolved tariff policies and waning confidence in the current U.S. administration. As a result, capital markets are likely to remain volatile, reacting sharply to news, with investors prioritizing macroeconomic developments over company-specific fundamentals.

Over the next 90 days, we expect the U.S. administration to take a more measured approach to trade negotiations. While some tariffs are still likely to be enacted, the damage to diplomatic relationships and trust among allies has already been done. Lingering anti-American sentiment could persist among global consumers, potentially impacting the performance of U.S. brands abroad and, ironically, worsening the trade deficit.

We anticipate that investors will begin pricing in lower growth expectations for U.S. companies, while relatively higher growth prospects emerge for international counterparts. While not an ideal scenario, it is arguably more favourable than a global recession triggered by widespread supply chain disruptions and aggressive tariff policies. The long-term implications remain uncertain, but this situation could lead to the diminished global influence of the United States, along with weaker demand not only for American goods, but also for the U.S. dollar and Treasury securities.

Given the likelihood of sustained volatility and shifting economic growth dynamics, the Fund remains well-diversified to navigate the road ahead. While periods of uncertainty can be unsettling, they also create opportunities –for clarity, for strategic repositioning and for long-term resilience. We are closely monitoring market developments and will act quickly.

Privatization

On November 25, 2024, CI Financial Corp. announced that it had entered into a definitive agreement with an affiliate of Mubadala Capital, the alternative asset management arm of Mubadala Investment Company, to acquire all issued and outstanding common shares of CI Financial Corp., other than shares held by members of senior management of CI Financial Corp. who enter into equity rollover agreements. The transaction was approved by shareholders of CI Financial Corp. on February 12, 2025, and the Ontario Superior Court of Justice (Commercial List) on February 18, 2025. Subject to regulatory clearances and other customary closing conditions, the transaction is expected to close in the third quarter of 2025. The Manager does not expect the transaction to impact it or the Fund's business, operations or affairs at this time.

RELATED PARTY TRANSACTIONS

Manager, Portfolio Adviser, Trustee and Registrar

CI Investments Inc. is the Manager, Portfolio Adviser, Trustee and Registrar of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. The Manager, in consideration for management fees, provides management services required in the day-to-day operations of the Fund. The Manager bears all of the operating expenses of the Fund (other than taxes, borrowing costs and new governmental fees) in return for an administration fee.

Management fee and administration fee rates as at March 31, 2025, for the Series/Class or for each of the Series/Classes, as applicable, is/are shown below:

	Annual management fee rate (%):	Annual administration fee rate (%):
Series I	Paid directly by investor	Paid directly by investor

The Fund only offers Series I units, thus management and administration fees are negotiated directly with each investor and paid directly to the Manager as per Series I Account Agreement Fee. Please refer to Part A of the simplified prospectus for further details.

Portfolio Sub-Advisor

CI Global Investments Inc., an affiliate of CI Investments Inc., provides investment advice to the Fund.

Related Fund Trading

Related fund trading occurs when a Fund purchases or sells units/shares of another Fund managed by the Manager. During the period/year ended March 31, 2025, the Fund engaged in related fund trading or held position(s) in related fund(s) at the end of the period/year.

Inter Fund Trading

Inter fund trading occurs when a Fund purchases or sells a security of any issuer from or to another Fund managed by the Manager. These transactions are executed through market intermediaries and under prevailing market terms and conditions. The Independent Review Committee (IRC) reviews such transactions during scheduled meetings. During the period/year ended March 31, 2025, the Fund executed inter fund trades.

Independent Review Committee

The Manager, in respect of the Fund, received the following standing instructions from the IRC with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager reports related party transactions periodically to the IRC and advise the IRC of any material breach of such policies. The Manager's policies and procedures require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; (c) do not exceed the limitations of the applicable legislation; and (d) achieve a fair and reasonable result for the Fund.

Except as otherwise noted above under Related Party Transactions section, the Fund was not a party to any related party transactions during the period/year ended March 31, 2025. If the Fund invested in related party transactions, it relied on the IRC's standing instructions regarding related party transactions during this reporting period/year.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on unitholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

(5) This information is provided for the period(s)/year(s) ended March 31.

PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that distributions made by the Fund in the period(s)/year(s) shown were reinvested in additional units of the Fund or relevant Series/Class of the Fund, as applicable. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following chart/charts shows/show the Fund's annual performance for each of the period(s)/year(s) shown and illustrates/illustrate how the Fund's performance has changed from period/year to period/year. In percentage terms, the chart/charts shows/show how much an investment made on the first day of each financial period/year would have grown or decreased by the last day of each financial period/year, except where noted.
