## RESULTS OF OPERATIONS

The Fund's net assets decreased by \$25.2 million to \$449.1 million from March 31, 2023 to September 30, 2023. The Fund had net redemptions of \$18.8 million during the period. The portfolio's performance decreased assets by \$6.4 million. Series I units returned -1.4% after fees and expenses for the six-month period ended September 30, 2023. Over the same time period, the Fund's benchmark returned 1.4%. The benchmark is a combination of the MSCI EAFE Total Return Index - 50% (CAD) and 50% (LC) (the Benchmark or the Index).

It was a rough period, with both bonds and equities declining. Yields kept rising as most market participants do not expect an economic recession in the near term. Rating agency Fitch Ratings Inc. downgraded the United States' "risk free" rating. Equities declined following a solid rebound in the first two quarters of 2023. On a year-to-date basis, equities remained strong, outperforming fixed-income securities.

The Fund underperformed its benchmark for the period. Overweight exposures to the financials and consumer discretionary sectors detracted from the Fund's performance. The largest individual detractors from the Fund's performance were holdings in Tencent Holdings Ltd., Alibaba Group Holding Ltd., Worldline SA, JD.com Inc., CRH PLC and Housing Development Finance Corp. Ltd.

An underweight allocation to the utilities sector contributed to the Fund's performance, as did security selection within the consumer staples and health care sectors. Top individual contributors to the Fund's performance included holdings in Galp Energia SGPS SA, Indus Towers Ltd., Fomento Economico Mexicano SAB de CV, Disco Corp., Grifols SA and Larsen & Toubro Ltd.

During the period, we increased the Fund's existing positions in Ipsen SA, Komatsu Ltd., Taiwan Semiconductor Manufacturing Co. Ltd., Samsung Electronics Co. Ltd. and HDFC Bank Ltd. The Fund holdings in Glencore PLC, Norsk Hydro ASA, Hermes International, Diageo PLC and AstraZeneca PLC were trimmed.

## RECENT DEVELOPMENTS

Equities are better positioned based on our belief of an economic soft landing ahead. This means that an economic slowdown is inevitable, but lower earnings should only be temporary. The U.S. job market is resilient and should continue to be in the coming quarters. However, positive real interest rates and a strong U.S. dollar should at some point affect consumption and earnings. Higher oil prices do not seem to be a big problem as the price of gasoline is holding following the peak demand season.

## RELATED PARTY TRANSACTIONS

### **Manager, Portfolio Adviser, Trustee and Registrar**

CI Investments Inc. is the Manager, Portfolio Adviser, Trustee and Registrar of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. CI Global Investments Inc. is an affiliate of CI Investments Inc. CI Financial Corp., an affiliate of CI Investments Inc., owns a minority interest in Altrinsic Global Advisors, LLC.

## **Inter Fund Trading**

Inter fund trading occurs when a Fund purchases or sells a security of any issuer from or to another Fund managed by the Manager. These transactions are executed through market intermediaries and under prevailing market terms and conditions. The Independent Review Committee (IRC) reviews such transactions during scheduled meetings. During the period/year ended September 30, 2023, the Fund executed inter fund trades.

## **Independent Review Committee**

The Manager, in respect of the Fund, received the following standing instructions from the IRC with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager reports related party transactions periodically to the IRC and advise the IRC of any material breach of such policies. The Manager's policies and procedures require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; (c) do not exceed the limitations of the applicable legislation; and (d) achieve a fair and reasonable result for the Fund.

Except as otherwise noted above under Related Party Transactions section, the Fund was not a party to any related party transactions during the period/year ended September 30, 2023. If the Fund invested in related party transactions, it relied on the IRC's standing instructions regarding related party transactions during this reporting period/year.

(1) This information is derived from the Fund's semi-annual and annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on unitholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

(5) This information is provided for the period(s)/year(s) ended September 30, 2023 and March 31.
