## INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of Sentry All Cap Income Class (the Fund) is to provide long-term returns by investing substantially all of its assets in securities of Sentry All Cap Income Fund (the Underlying Fund).

The investment objective of the Underlying Fund is to provide long-term returns by investing primarily in equity securities of companies anywhere in the world. The portfolio advisor of the Underlying Fund uses a combination of top-down and bottom-up analysis as well as value-oriented analysis to determine the appropriate investments.

The Underlying Fund will primarily focus on equities of Canadian, and to a lesser extent U.S., small to mid-capitalization companies. The portfolio advisor of the Underlying Fund may also invest a portion of the Fund's assets in equities of large capitalization Canadian companies and non-North American companies. The Underlying Fund has the ability to invest in foreign securities in an amount not exceeding approximately 49% of the assets of the Underlying Fund.

For a complete discussion of the Fund's and the Underlying Fund's respective investment objective and strategies, please refer to the Fund's and the Underlying Fund's most recently filed simplified prospectus.

## RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

## RESULTS OF OPERATIONS

The Fund's net assets increased by \$0.3 million to \$7.3 million from March 31, 2020 to March 31, 2021. The Fund had net redemptions of \$2.1 million during the year. The portfolio's performance increased assets by \$2.6 million. The Fund paid distributions totalling \$0.2 million. Series A shares returned 46.8% after fees and expenses for the one-year period ended March 31, 2021. Over the same time period, the Fund's benchmark returned 42.9%. The benchmark is a combination of the S&P/TSX Composite Total Return Index - 70% and the S&P 500 Total Return Index - 30% (the Benchmark or the Index).

The performance of the Fund's other Series is substantially similar to that of Series A shares, except for differences in the structure of fees and expenses. For the returns of the Fund's other Series, please refer to the "Past Performance" section.

The following commentary pertains to the results of operations of the Sentry All Cap Income Fund (the Underlying Fund).

Second and third waves of COVID-19 infection during the year further disrupted economic activity and global supply chains. Significant monetary and fiscal policy interventions allowed for many companies that were directly affected by the pandemic to remain solvent. A move lower in interest rates saw long-term assets, such as money-losing information technology companies, dramatically outperform more traditional value-oriented stocks. Stay-at-home orders coupled with stimulus cheques created a large increase in retail trader activity and levels of margin borrowing. These funds flowed disproportionately toward certain businesses popularized on internet chat forums.

The Underlying Fund outperformed its benchmark for the year, largely driven by security selection, notably in the energy sector. Top individual contributors to the Underlying Fund's performance included Trisura Group Ltd. and FirstService Corp. Trisura Group Ltd. significantly outperformed analyst expectations in 2020 because of strong performance in the United States. FirstService Corp. benefited from lockdown restrictions, which increased the need for professional property management and cleaning services.

Security selection within the consumer discretionary sector detracted from the Underlying Fund's performance as demand declined during the pandemic as a result of consumers reallocating their spending to in-home activities. The largest individual detractors from the Underlying Fund's performance were BBTV Holdings Inc. and Allied Properties REIT. BBTV Holdings Inc. underperformed largely because its business model is currently not well understood. We will maintain the position as we have confidence that, over time, the true economics of the business will show through and lead to share price appreciation. Allied Properties REIT's portfolio of office real estate has been impacted by the pandemic, and investors are unsure about what expect in office demand in the near and long term. This led shares to underperform.

A new position in Boyd Group Services Inc., one of the largest operators of non-franchised collision repair centres in North America, was purchased. The company also has a growing auto glass business. We like the company's consolidation strategy, which has proven sustainable, and its value to insurance companies continues to strengthen. The company has a compelling five-year growth plan to double the business by 2025. An

existing holding in Morneau Shepell Inc. was increased based on the belief that demand for its services should increase as the pandemic has increased consumers' concern for their physical and mental health. People Corp. was eliminated from the Underlying Fund after it was acquired by The Goldman Sachs Group Inc. Brookfield Asset Management Inc. was trimmed after recent share price appreciation.

Overall, the Fund outperformed its benchmark for the year.

## RECENT DEVELOPMENTS

We believe that improving global vaccination rates should allow regions to return to normal over the coming year. Due to differing vaccination rates, we expect the recovery to be uneven, with certain regions recovering faster than others. Aggressive cost-cutting actions should help at firms that were heavily affected by the pandemic, allowing for high incremental margins when revenues return to normalized levels. This has led us to position the Underlying Fund with overweight positions in businesses where we believe the market is too negative on normalized earnings power.

We believe that the pandemic has created structural changes to how society lives and works. As such, we are actively avoiding businesses that we believe are unlikely to recover to 2019 levels of profitability, while seeking to own more of businesses that should benefit from pent-up consumer demand.

Aggressive monetary stimulus, supply chain issues, high consumer saving rates and pent-up demand for certain goods and services are likely to lead to inflation in the near term. We expect the U.S. Federal Reserve and Bank of Canada to remain in an accommodative stance as policy makers have signalled their belief that inflation will prove transitory. It is our view that inflation represents a risk and, as a result, we are focused on owning businesses with the ability to pass on cost increases to customers.

Effective April 3, 2020, Stuart Hensman resigned as a member of the Independent Review Committee (IRC) of CI Funds and effective April 3, 2020, Donna Toth was appointed as a member of the IRC.

## CI Investments Inc. rebrands as CI Global Asset Management Inc.

On November 10, 2020, CI Investments Inc. announced that it is rebranding to CI Global Asset Management Inc. The rebrand is underway and is scheduled to be completed by the end of the first quarter of 2021. With the rebrand, legacy in-house investment boutique brands will be phased out and they will operate under CI Global Asset Management. The affected brands are Cambridge Global Asset Management, Harbour Advisors, Sentry Investment Management, and Signature Global Asset Management.

## RELATED PARTY TRANSACTIONS

### Manager, Portfolio Advisor and Registrar

CI Investments Inc. is the Manager, Portfolio Advisor and Registrar of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. The Manager, in consideration for management fees, provides management services required in the day-to-day operations of the Fund. The Manager bears all of the operating expenses of the Fund (other than borrowing and interest costs, investor meeting costs (as permitted by Canadian securities regulation), the fees and expenses of the Independent Review Committee, the fees, costs and expenses associated with compliance with any new governmental and regulatory

requirements imposed on or after February 16, 2018 and new governmental fees or with any changes to existing governmental and regulatory requirements imposed on or after February 16, 2018 (including increases to regulatory filing fees), any new types of costs, expenses or fees not incurred prior to February 16, 2018, including those arising from new government or regulatory requirements or related to those external services that were not commonly charged in the Canadian mutual fund industry as of February 16, 2018, and operating expenses that were or are outside the normal course of business of the Fund on or after February 16, 2018) in return for an administration fee.

Management fee and administration fee rates as at March 31, 2021, for each of the Series are shown below:

	Annual management fee rate (%)	Annual administration fee rate (%)
Series A	1.950	0.20
Series B	2.250	0.19
Series E	1.900	0.20
Series EF	0.900	0.20
Series F	0.950	0.17
Series I	Paid directly by investor	Paid directly by investor
Series O	Paid directly by investor	0.20
Series P	Paid directly by investor	0.12

The Manager received \$0.1 million in management fees and \$0.01 million in administration fees for the year.

## Management Fees

Approximately 26% of total management fees were used to pay for sales and trailing commissions. The remaining 74% of management fees were used to pay for investment management and other general administration.

## Related Fund Trading

Related fund trading occurs when a Fund purchases or sells units/shares of another Fund managed by the Manager. During the year ended March 31, 2021, the Fund engaged in related fund trading or held position(s) in related fund(s) at the end of the year.

## Independent Review Committee

The Fund has received standing instructions from the Fund's IRC to make or hold an investment in the security of an issuer related to the Manager.

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager advise the IRC of any material breach of such policies. The standing instructions also require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager uninfluenced by

considerations other than the best interests of the Fund; (c) are made in compliance with the Manager's policies and procedures; and (d) achieve a fair and reasonable result for the Fund. Quarterly, the IRC reviews reports which assess compliance with applicable CI policies. Annually, the IRC reviews reports describing each instance that the Manager acted in reliance on the standing instructions noted above.

The Fund relied on the IRC's standing instructions regarding related party transactions during this reporting year.

Except as otherwise noted above, the Fund was not a party to any related party transactions during the year ended March 31, 2021.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on shareholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the year.

(5) This information is provided for the years ended March 31.

## PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that dividends made by the Fund in the years shown were reinvested in additional shares of the relevant Series of the Fund. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

### Year-by-Year Returns

The following charts show the Fund's annual performance for each of the years shown and illustrate how the Fund's performance has changed from year to year. In percentage terms, the charts show how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year, except where noted.

1 2013 return is for the period from January 1, 2012 to March 31, 2013.  
 2 2019 return is for the period from January 30, 2019 to March 31, 2019.  
 3 2015 return is for the period from March 25, 2015 to March 31, 2015.

## Annual Compound Returns

The following table shows the Fund's annual compound returns for each year indicated, compared to the Blended Index composed of: (70% - S&P/TSX Composite Total Return Index and 30% - S&P 500 Total Return Index); the S&P/TSX Composite Total Return Index and the S&P 500 Total Return Index.

The S&P/TSX Composite Index is a float-adjusted market capitalization weighted index, which is the principal broad measure of the Canadian equity market. It includes common stocks and income trust units of companies incorporated in Canada which are listed on the Toronto Stock Exchange.

The S&P 500 Index is an index composed of 500 stocks weighted by capitalization and representing all major U.S. industries. The Index is a broad measure of the stock performance of the largest U.S. companies with market capitalization in excess of US\$5.3 billion.

A discussion of the performance of the Fund as compared to the benchmark is found in the Results of Operations section of this report.
