

CI Precious Metals Fund

Management Report of Fund Performance for the period/year ended March 31, 2024

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-800-792-9355, by writing to us at CI Investments Inc., 15 York Street, Second Floor, Toronto, ON, M5J 0A3 or by visiting our website at www.ci.com or SEDAR+ at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of CI Precious Metals Fund (the Fund) is to provide long-term capital appreciation by investing primarily in equity securities of companies engaged in the precious metals sector. These include securities of issuers engaged in the exploration, mining and production of precious metals, minerals and other gems.

While the Fund invests primarily in Canadian companies, it has the ability to invest in foreign securities in an amount not exceeding approximately 30% of the assets of the Fund.

For a complete discussion of the Fund's investment objective and strategies, please refer to the Fund's most recently filed simplified prospectus.

RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the period/year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the period/year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

RESULTS OF OPERATIONS

The Fund's net assets decreased by \$85.4 million to \$188.2 million from March 31, 2023 to March 31, 2024. The Fund had net redemptions of \$70.8 million during the year. The portfolio's performance decreased assets by \$14.6 million. Series A units returned -4.5% after fees and expenses for the one-year period ended March 31, 2024. Over the same time period, the Fund's benchmark returned -3.5%. The benchmark is the S&P/TSX Global Gold Total Return Index (the Benchmark or the Index).

The performance of the Fund's other Series is substantially similar to that of Series A units, except for differences in the structure of fees and expenses. For the returns of the Fund's other Series, please refer to the "Past Performance" section.

Precious metal prices strengthened during the year because of a number of factors. First, expectations of peak interest rates and the increasing potential for the U.S. Federal Reserve Board (Fed) to start cutting interest rates in 2024 lifted gold prices. Second, rising geopolitical tensions in Israel and the ongoing war in Ukraine continued to buoy gold prices as a "safe haven" asset. Gold was also supported by strong demand from central banks. Despite strength in commodity prices, equities underperformed due to inflation challenges impacting the profitability of mining companies. Furthermore, disappointing 2023 production results and weak 2024 forecasts impacted numerous gold miners.

The Fund underperformed its benchmark during the year, largely as a result of security selection. Stock selection also detracted from the Fund's performance. Individual detractors from the Fund's performance included holdings in SSR Mining Inc., Victoria Gold Corp. and K92 Mining Inc. SSR Mining Inc. was negatively impacted by weak production forecasts. In February 2024, the company also announced a tragic landslide at its heap leach in Turkey that resulted in the closure of all mining at its Turkish operations. Victoria Gold Corp. saw its shares underperform because of higher costs and weak production amid forest fire interruptions. K92 Mining Inc. was affected by an underground mining incident that resulted in a temporary closure of mining activities.

The largest individual contributors to the Fund's performance were positions in SilverCrest Metals Inc. and Bellevue Gold Ltd. and an underweight position in Newmont Corp. SilverCrest Metals Inc.'s shares outperformed following the release of an updated technical report, which updated costs and production for the company's mine in Mexico. Bellevue Gold Ltd.'s stock performed well as the company advanced development of its gold mine in Western Australia. The company completed construction and commenced production on time and on budget. Newmont Corp. underperformed because of the acquisition and integration of Newcrest Mining Ltd. and the announcement of weak combined production forecasts.

We added a new position in Newmont Corp. to the Fund and increased an existing position in Artemis Gold Inc. A holding in SSR Mining Inc. was eliminated and the Fund's position in Osisko Gold Royalties Ltd. was trimmed.

RECENT DEVELOPMENTS

Our outlook remains positive for precious metals. We believe that pricing should remain strong as the Fed embarks on interest rate cuts later in 2024. However, we remain cautious on producer costs, and therefore, have positioned the Fund with an overweight exposure to royalty companies.

CI Precious Metals Fund

Management Report of Fund Performance for the period/year ended March 31, 2024

RELATED PARTY TRANSACTIONS

Manager, Portfolio Adviser, Trustee and Registrar

CI Investments Inc. is the Manager, Portfolio Adviser, Trustee and Registrar of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. The Manager, in consideration for management fees, provides management services required in the day-to-day operations of the Fund. The Manager bears all of the operating expenses of the Fund (other than borrowing and interest costs, investor meeting costs (as permitted by Canadian securities regulation), the fees and expenses of the Independent Review Committee, the fees, costs and expenses associated with compliance with any new governmental and regulatory requirements imposed on or after February 16, 2018 and new governmental fees or with any changes to existing governmental and regulatory requirements imposed on or after February 16, 2018 (including increases to regulatory filing fees), any new types of costs, expenses or fees not incurred prior to February 16, 2018, including those arising from new government or regulatory requirements or related to those external services that were not commonly charged in the Canadian mutual fund industry as of February 16, 2018, and operating expenses that were or are outside the normal course of business of the Fund on or after February 16, 2018) in return for an administration fee.

Management fee and administration fee rates as at March 31, 2024, for the Series/Class or for each of the Series/Classes, as applicable, is/are shown below:

	Annual management fee rate (%):	Annual administration fee rate (%):
Series A	1.900	0.22
Series B	2.150	0.22
Series E	1.825	0.22
Series EF	0.825	0.22
Series F	0.900	0.22
Series I	Paid directly by investor	Paid directly by investor
Series O	Paid directly by investor	0.22
Series P	Paid directly by investor	0.15

The Manager received \$1.5 million in management fees and \$0.2 million in administration fees for the year.

Management Fees

Approximately 26% of total management fees were used to pay for sales and trailing commissions. The remaining 74% of management fees were used to pay for investment management and other general administration.

Inter Fund Trading

Inter fund trading occurs when a Fund purchases or sells a security of any issuer from or to another Fund managed by the Manager. These transactions are executed through market intermediaries and under prevailing market terms and conditions. The Independent Review Committee (IRC) reviews such transactions during scheduled meetings. During the period/year ended March 31, 2024, the Fund executed inter fund trades.

Independent Review Committee

The Manager, in respect of the Fund, received the following standing instructions from the IRC with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager reports related party transactions periodically to the IRC and advise the IRC of any material breach of such policies. The Manager's policies and procedures require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; (c) do not exceed the limitations of the applicable legislation; and (d) achieve a fair and reasonable result for the Fund.

Except as otherwise noted above under Related Party Transactions section, the Fund was not a party to any related party transactions during the period/year ended March 31, 2024. If the Fund invested in related party transactions, it relied on the IRC's standing instructions regarding related party transactions during this reporting period/year.

LEVERAGE

When a Fund makes investments in derivatives, borrows cash for investment purposes, or uses physical short sales on equities or other portfolio assets, leverage may be introduced into the Fund. Leverage occurs when the Fund's notional exposure to underlying assets is greater than the amount invested. It is an investment technique that magnifies gains and losses. Consequently, any adverse change in the value or level of the underlying asset, rate or index may amplify losses compared to those that would have been incurred if the underlying asset had been directly held by the Fund and may result in losses greater than the amount invested in the derivative itself. Leverage may increase volatility, may impair the Fund's liquidity and may cause the Fund to liquidate positions at unfavorable times.

CI Precious Metals Fund

Management Report of Fund Performance for the period/year ended March 31, 2024

To achieve its investment objective the Fund exercise leverage through participating in short selling transactions.

The Fund's aggregated amount of leverage must not exceed three times the Fund's net asset value.

During the period/year ended March 31, 2024, the lowest aggregate amount of leverage exercised by the Fund was \$0.5 million (0.3% of net asset value) and the highest aggregate amount of leverage used during the period/year was \$4.1 million (1.7% of net asset value).

(1) This information is derived from the Fund's audited annual financial statements.

(2) Net assets per unit and distributions per unit are based on the actual number of units outstanding for the relevant Series/Class at the relevant time. The increase (decrease) in net assets from operations per unit is based on the weighted average number of units outstanding for the relevant Series/Class over the fiscal period/year.

(3) Distributions are automatically reinvested in additional units of the Fund.

(4) This information is provided for the period(s)/year(s) ended March 31.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on unitholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

(5) This information is provided for the period(s)/year(s) ended March 31.

CI Precious Metals Fund

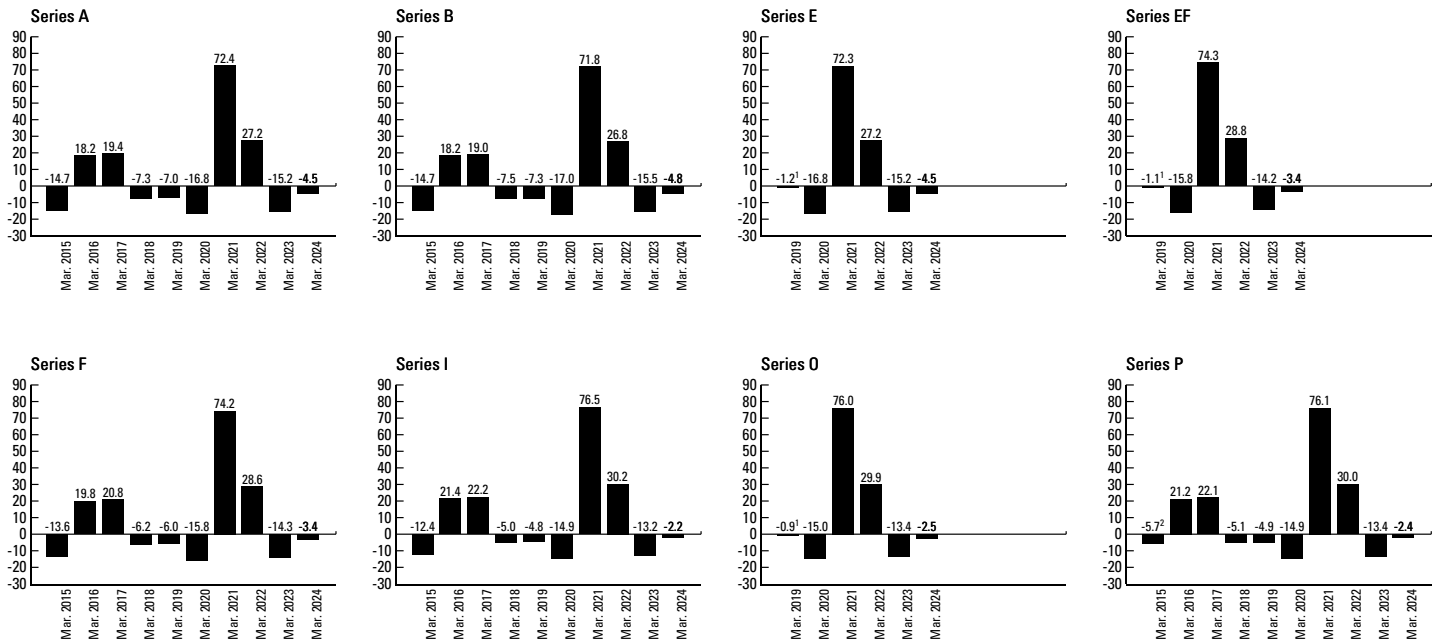

Management Report of Fund Performance for the period/year ended March 31, 2024

PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that distributions made by the Fund in the period(s)/year(s) shown were reinvested in additional units of the Fund or relevant Series/Class of the Fund, as applicable. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following chart/charts shows/show the Fund's annual performance for each of the period(s)/year(s) shown and illustrates/illustrate how the Fund's performance has changed from period/year to period/year. In percentage terms, the chart/charts shows/show how much an investment made on the first day of each financial period/year would have grown or decreased by the last day of each financial period/year, except where noted.

1 2019 return is for the period from January 30, 2019 to March 31, 2019.

2 2015 return is for the period from March 25, 2015 to March 31, 2015.

Annual Compound Returns

The following table shows the Fund's annual compound returns for each year indicated, compared to the S&P/TSX Global Gold Total Return Index.

The S&P/TSX Global Gold Index is a float-adjusted market capitalization weighted index. The constituents of the Index are a subset of the constituents of the S&P/TSX Global Mining Index that have been classified as part of the gold sector according to the Global Industry Classification Standard. Included in this sector are producers of gold and related products, including companies that mine or process gold and the South African finance houses which primarily invest in, but do not operate gold mines.

A discussion of the performance of the Fund as compared to the benchmark is found in the Results of Operations section of this report.

	One Year (%)	Three Years (%)	Five Years (%)	Ten Years (%)	Since Inception (%)

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about the Fund, its future performance, strategies or prospects, and possible future Fund action. The words "may," "could," "should," "would," "suspect," "outlook," "believe," "plan," "anticipate," "estimate," "expect," "intend," "forecast," "objective," and similar expressions are intended to identify forward-looking statements.

Forward-looking statements are not guarantees of future performance. Forward-looking statements involve inherent risks and uncertainties, both about the Fund and general economic factors, so it is possible that predictions, forecasts, projections and other forward-looking statements will not be achieved. We caution you not to place undue reliance on these statements as a number of important factors could cause actual events or results to differ materially from those expressed or implied in any forward-looking statement made by the Fund. These factors include, but are not limited to, general economic, political and market factors in Canada, the United States and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological changes, changes in laws and regulations, judicial or regulatory judgments, legal proceedings and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. All opinions contained in forward-looking statements are subject to change without notice and are provided in good faith but without legal responsibility.
