Management Report of Fund Performance for the period/year ended March 31, 2023

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-800-792-9355, by writing to us at CI Investments Inc., 15 York Street, Second Floor, Toronto, ON, M5J 0A3 or by visiting our website at www.ci.com or SEDAR at www.sedar.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of CI Corporate Bond Class (the Fund) is to provide a return that is similar to the return of CI Corporate Bond Fund (the Underlying Fund).

The Underlying Fund's investment objective is to provide income and the potential for long-term capital appreciation by investing in a portfolio consisting primarily of North American and/or international investment grade and non-investment grade corporate bonds and may also invest in real-return bonds, preferred shares, convertible securities or other fixed-income securities. The Fund purchases primarily Canadian equity securities which it sells forward under a series of forward contracts in order to provide the Fund with a return that is based on the performance of the Underlying Fund. In addition, or in the alternative, the Fund may invest directly in fixed-income securities similar to those held by the Underlying Fund.

The Fund may invest directly in high yielding fixed-income and other fixed-income securities, including non-investment grade fixed-income securities. The Fund will invest in securities which are essentially similar to those held by the Underlying Fund, including fixed-income securities and other mutual funds including those managed by us. Up to 100% of the Fund's net assets may be exposed to the performance of the Underlying Fund or may be invested in securities of other mutual funds, including the Underlying Fund and other mutual funds managed by us. The Fund may invest in a portfolio of North American and/or international equity securities and enter into forward contracts that provide the Fund with a total return that reflects the performance of the Underlying Fund. The Underlying Fund has the ability to invest up to all of its assets in foreign securities.

For a complete discussion of the Fund's and the Underlying Fund's respective investment objective and strategies, please refer to the Fund's and the Underlying Fund's most recently filed simplified prospectus.

RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the period/year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the period/year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

RESULTS OF OPERATIONS

The Fund's net assets decreased by \$4.7 million to \$133.2 million from March 31, 2022 to March 31, 2023. The Fund had net sales of \$7.2 million during the year. The portfolio's performance decreased assets by \$4.1 million. The Fund paid distributions totalling \$7.8 million. Series A shares returned -3.5% after fees and expenses for the one-year period ended March 31, 2023. Over the same time period, the Fund's benchmarks returned -1.6% and -1.2%, respectively. The benchmarks are the ICE BofA Global Corporate and High Yield Total Return Index (70% CAD Hedged) (the New Benchmark) and the ICE BofA Global Corporate and High Yield Total Return Index (75% Hedged) (the Old Benchmark). During the period we changed the reference index of the Fund. We believe that the New Benchmark better reflects the nature of the Fund.

The performance of the Fund's other Series is substantially similar to that of Series A shares, except for differences in the structure of fees and expenses. For the returns of the Fund's other Series, please refer to the "Past Performance" section.

The following commentary pertains to the results of operations of the CI Corporate Bond Fund (the Underlying Fund).

A slowdown in economic growth that resulted from the removal of fiscal stimulus and tighter monetary policy was inevitable as central banks attempted to tame inflation. Negative year-over-year growth began to be priced into the market as central bank policy took an even more aggressive shift mid-2022 in the face of resilient inflation. As U.S. Treasury yields rose, new issue volumes moderated from the rapid pace set in 2021. High-yield bond spreads widened 103 basis points (bps) and U.S. investment-grade bond spreads widened 27 bps. The Canadian investment-grade bond market tends to trade with a lower beta than the more liquid, but lower quality U.S. market. The 1:4 relationship between investment-grade and high-yield bond spreads persisted. But, given the three-year longer duration in investment-grade yields, they increased about 13 bps more than high-yield bonds. Prices in both markets dropped 8.5 basis points. Restrictive monetary policy led to an increase in defaults but from a very low base. On a ratings basis, however, rising stars outnumbered fallen angels.

The Fund underperformed its benchmarks for the year. A holding in Credit Suisse Group AG additional tier 1 notes was a significant detractor from the Fund's performance. The bank had initiated a comprehensive restructuring of its investment bank in the fourth quarter of 2022, the costs of which were offset by an equity capital raise. However, the fragile market and negative headlines in March 2023 precipitated rapid outflows to the point that the Swiss regulator deemed the bank non-viable and helped broker the acquisition of the bank by UBS Group AB. We marked down the Fund's position in Quotient Technology Inc. convertible bonds, which detracted from the Fund's performance, in exchange for equity and warrants, as we restructured the company on a path toward profitability and sale.

CI Corporate Bond Class

Management Report of Fund Performance for the period/year ended March 31, 2023

Security selection contributed to the Fund's performance as did exposure to the U.S. dollar. The Fund's shorter duration (sensitivity to interest rates) positioning also contributed to performance. An American Airlines Group Inc. AAdvantage term loan due 2028 contributed positively to the Fund's performance. Collateralized by a loyalty program, this loan proved resilient in a rising interest rate environment. DCP Midstream Partners L.P. 5.85% hybrid bonds due 2043 contributed to the Fund's performance as the company's acquisition by Phillips 66 Co. meant that these bonds are likely to be redeemed in May 2023.

We added SNC-Lavalin Group Inc. 7.0% bonds due 2026 to the Fund as the company's credit quality seems to be set for improvement as overbudget, fixed-price turnkey projects roll off. Venture Global Calcasieu Pass LLC 3.875% bonds due 2029 were added to the Fund. The bonds are secured by a new-build liquefied natural gas export facility with contracted volumes that we believe can achieve investment-grade bond ratings. Bank of Montreal 7.373% institutional preferred shares were purchased as well. They have essentially the same structure as limited recourse capital notes but pay in dividends instead of interest.

Refinancing activity has been muted since the interest rate structure repriced higher. As a result, fewer bonds were called for early redemption than is typical in a 12-month period. Three bond positions in NGL Energy Partners LP were eliminated from the Fund as the company's operating results have been weak and pending maturities will have to be addressed with additional secured debt. We exited the Fund's position in First Quantum Minerals Ltd. 7.5% bonds due 2025 as we rotated into opportunities with more price appreciation potential.

RECENT DEVELOPMENTS

We expect a short and shallow recession in 2023, though this is not a certainty as financial conditions have now tightened to the point of fragility. The failure of some U.S. regional banks can be attributed to poor risk management rather than a function of bad assets. Data from the U.S. Federal Deposit Insurance Corporation suggest capital has been flowing from deposits to money market funds chasing higher yields since the second half of 2022.

Valuations have adjusted for the increase in downside risks. Prices are important as high-yield bonds are a short-duration asset class, so lower prices provide opportunities for careful credit analysis and can turn into price gains. In our opinion, credit quality (fundamentals) should prove resilient, while credit flow and issuance (technical factors) are favourable.

Independent Review Committee

Effective October 6, 2022, John Sheedy became a member of the Independent Review Committee (IRC) of CI Funds.

Administrator

Effective July 18, 2022, RBC Investor Services Trust ceased acting as the administrator to the Fund and CIBC Mellon Global Securities Services Company started acting as the administrator to the Fund.

RELATED PARTY TRANSACTIONS

Manager, Portfolio Advisor and Registrar

CI Investments Inc. is the Manager, Portfolio Advisor and Registrar of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. The Manager, in consideration for management fees, provides management services required in the day-to-day operations of the Fund. The Manager bears all of the operating expenses of the Fund (other than borrowing and interest costs, investor meeting costs (as permitted by Canadian securities regulation), the fees and expenses of the Independent Review Committee, the fees, costs and expenses associated with compliance with any new governmental and regulatory requirements imposed on or after February 16, 2018 and new governmental fees or with any changes to existing governmental and regulatory requirements imposed on or after February 16, 2018 (including increases to regulatory filing fees), any new types of costs, expenses or fees not incurred prior to February 16, 2018, including those arising from new government or regulatory requirements or related to those external services that were not commonly charged in the Canadian mutual fund industry as of February 16, 2018, and operating expenses that were or are outside the normal course of business of the Fund on or after February 16, 2018) in return for an administration fee.

Management fee and administration fee rates as at March 31, 2023, for the Series/Class or for each of the Series/Classes, as applicable, is/are shown below:

	Annual management fee rate (%)	Annual administration fee rate (%)
Series A	1.200	0.20
Series B	1.200	0.20
Series E	1.050	0.15
Series EF	0.550	0.15
Series F	0.700	0.20
Series I	Paid directly by investor	Paid directly by investor
Series O	Paid directly by investor	0.15
Series P	Paid directly by investor	0.15

The Manager received \$0.9 million in management fees and \$0.2 million in administration fees for the year.

CI Corporate Bond Class

Management Report of Fund Performance for the period/year ended March 31, 2023

Management Fees

Approximately 31% of total management fees were used to pay for sales and trailing commissions. The remaining 69% of management fees were used to pay for investment management and other general administration.

Related Fund Trading

Related fund trading occurs when a Fund purchases or sells units/shares of another Fund managed by the Manager. During the period/year ended March 31, 2023, the Fund engaged in related fund trading or held position(s) in related fund(s) at the end of the period/year.

Independent Review Committee

The Manager, in respect of the Fund, received the following standing instructions from the IRC with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager reports related party transactions periodically to the IRC and advise the IRC of any material breach of such policies. The Manager's policies and procedures require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; (c) do not exceed the limitations of the applicable legislation; and (d) achieve a fair and reasonable result for the Fund.

Except as otherwise noted above under Related Party Transactions section, the Fund was not a party to any related party transactions during the period/year ended March 31, 2023. If the Fund invested in related party transactions, it relied on the IRC's standing instructions regarding related party transactions during this reporting period/year.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on shareholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

(5) This information is provided for the period(s)/year(s) ended March 31.

PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that dividends made by the Fund in the period(s)/year(s) shown were reinvested in additional shares of the Fund or relevant Series/Classes of the Fund, as applicable. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following chart/charts shows/show the Fund's annual performance for each of the period(s)/year(s) shown and illustrates/illustrate how the Fund's performance has changed from period/year to period/year. In percentage terms, the chart/charts shows/show how much an investment made on the first day of each financial period/year would have grown or decreased by the last day of each financial period/year, except where noted.

1 2019 return is for the period from January 30, 2019 to March 31, 2019.

2 2015 return is for the period from March 25, 2015 to March 31, 2015.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about the Fund, its future performance, strategies or prospects, and possible future Fund action. The words “may,” “could,” “should,” “would,” “suspect,” “outlook,” “believe,” “plan,” “anticipate,” “estimate,” “expect,” “intend,” “forecast,” “objective,” and similar expressions are intended to identify forward-looking statements.

Forward-looking statements are not guarantees of future performance. Forward-looking statements involve inherent risks and uncertainties, both about the Fund and general economic factors, so it is possible that predictions, forecasts, projections and other forward-looking statements will not be achieved. We caution you not to place undue reliance on these statements as a number of important factors could cause actual events or results to differ materially from those expressed or implied in any forward-looking statement made by the Fund. These factors include, but are not limited to, general economic, political and market factors in Canada, the United States and internationally, interest and foreign exchanges rates, global equity and capital markets, business competition, technological changes, changes in laws and regulations, judicial or regulatory judgments, legal proceedings and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. All opinions contained in forward-looking statements are subject to change without notice and are provided in good faith but without legal responsibility.
