RESULTS OF OPERATIONS

The Fund's net assets decreased by \$4.5 million to \$18.3 million from March 31, 2023 to September 30, 2023. The Fund had net redemptions of \$1.1 million during the period. The portfolio's performance decreased assets by \$3.4 million. Series A shares returned -16.0% after fees and expenses for the six-month period ended September 30, 2023. Over the same time period, the Fund's benchmark returned -17.1%. The benchmark is the S&P/TSX Global Gold Total Return Index (the Benchmark or the Index).

The performance of the Fund's other Series is substantially similar to that of Series A shares, except for differences in the structure of fees and expenses. For the returns of the Fund's other Series, please refer to the "Past Performance" section.

The following commentary pertains to the results of operations of the CI Precious Metals Fund (the Underlying Fund).

The U.S. Federal Reserve Board's actions and commentary supported restrictive monetary policy during the period and signalled that interest rates would likely remain higher for longer, pending a clear decline in inflation. As a result, the U.S. dollar remained strong, and U.S. 10-year bonds strengthened. This put negative pressure on gold prices.

The Underlying Fund slightly outperformed its benchmark for the period, largely as a result of security selection. The largest individual contributors to the Underlying Fund's performance were holdings in Bellevue Gold Ltd. and G Mining Ventures Corp., and an underweight position in Newmont Corp. Bellevue Gold Ltd. saw its stock price outperform as the company advanced its high-grade underground mine in Australia towards commercial production by the end of 2023. The company continued to reduce risks associated with the project by advancing it on schedule and on budget. G Mining Ventures Corp. is advancing its Tocantinzinho gold mine in Brazil towards production in 2024. The company provided positive progress reports, indicating that the mine is also on schedule and on budget. Newmont Corp.'s share price was negatively pressured by the company's proposed acquisition of Newcrest Mining Ltd. and a four-month worker strike at its Penasquito mine in Mexico.

Stock selection also detracted from the Underlying Fund's performance. Individual detractors from performance included holdings in Victoria Gold Corp. and K92 Mining Inc. Victoria Gold Corp. saw its shares underperform after the company reported disruptions to operations because of wildfires in the Yukon. However, the company remains on track to achieve the low end of its 2023 forecast range. K92 Mining Inc. reported an unfortunate event during the period that resulted in fatalities. This negatively impacted its operations and put the company towards the lower end of its 2023 production forecast.

We added a new position in Metals Acquisition Ltd. to the Underlying Fund. The company recently completed the purchase of the CSA mine in Australia from Glencore PLC, with a strategy to turn around operations and embark on exploration. An existing position in Sandstorm Gold Ltd. was increased on valuation. The Underlying Fund's position in Bellevue Gold Ltd. was eliminated to take profits after strong performance. We trimmed the Underlying Fund's position in Osisko Gold Royalties Ltd. due to changes in the company's CEO and uncertainty of leadership.

Overall, the Fund slightly outperformed its benchmark for the period.

RECENT DEVELOPMENTS

Early indications are that inflation is now slowing but has yet to reach central banks' target levels. As such, we expect interest rates to remain high in the near term, which should continue to pose challenges for precious metals pricing and equities. However, in the medium term, gold prices should benefit from future monetary easing by central banks in a growth slowdown situation.

Gold producers have also been challenged by cost inflation and margin pressures. With easing inflation, gold companies should benefit from improving margins and cash generation. The Underlying Fund remains heavily weighted towards producers and royalty and streaming companies with strong balance sheets and cash generation.

RELATED PARTY TRANSACTIONS

Manager, Portfolio Adviser and Registrar

CI Investments Inc. is the Manager, Portfolio Adviser and Registrar of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. The Manager, in consideration for management fees, provides management services required in the day-to-day operations of the Fund. The Manager bears all of the operating expenses of the Fund (other than borrowing and interest costs, investor meeting costs (as permitted by Canadian securities regulation), the fees and expenses of the Independent Review Committee, the fees, costs and expenses associated with compliance with any new governmental and regulatory requirements imposed on or after February 16, 2018 and new governmental fees or with any changes to existing governmental and regulatory requirements imposed on or after February 16, 2018 (including increases to regulatory filing fees), any new types of costs, expenses or fees not incurred prior to February 16, 2018, including those arising from new government or regulatory requirements or related to those external services that were not commonly charged in the Canadian mutual fund industry as of February 16, 2018, and operating expenses that were or are outside the normal course of business of the Fund on or after February 16, 2018) in return for an administration fee.

Management fee and administration fee rates as at September 30, 2023, for the Series/Class or for each of the Series/Classes, as applicable, is/are shown below:

	Annual management fee rate (%):	Annual administration fee rate (%):
Series A	1.900	0.22
Series B	2.150	0.22
Series E	1.825	0.22
Series EF	0.825	0.22
Series F	0.900	0.22
Series I	Paid directly by investor	Paid directly by investor
Series O	Paid directly by investor	0.22
Series P	Paid directly by investor	0.15

The Manager received \$0.2 million in management fees and \$0.02 million in administration fees for the period.

Management Fees

Approximately 26% of total management fees were used to pay for sales and trailing commissions. The remaining 74% of management fees were used to pay for investment management and other general administration.

Related Fund Trading

Related fund trading occurs when a Fund purchases or sells units/shares of another Fund managed by the Manager. During the period/year ended September 30, 2023, the Fund engaged in related fund trading or held position(s) in related fund(s) at the end of the period/year.

Independent Review Committee

The Manager, in respect of the Fund, received the following standing instructions from the Independent Review Committee (IRC) with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager reports related party transactions periodically to the IRC and advise the IRC of any material breach of such policies. The Manager's policies and procedures require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; (c) do not exceed the limitations of the applicable legislation; and (d) achieve a fair and reasonable result for the Fund.

Except as otherwise noted above under Related Party Transactions section, the Fund was not a party to any related party transactions during the period/year ended September 30, 2023. If the Fund invested in related party transactions, it relied on the IRC's standing instructions regarding related party transactions during this reporting period/year.

(1) This information is derived from the Fund's semi-annual and annual financial statements.

(2) Net assets per share and dividends per share are based on the actual number of shares outstanding for the relevant Series/Class at the relevant time. The increase (decrease) in net assets from operations per share is based on the weighted average number of shares outstanding for the relevant Series/Class over the fiscal period/year.

(3) Dividends are automatically reinvested in additional shares of the Fund.

(4) This information is provided for the period(s)/year(s) ended September 30, 2023 and March 31.

(1) This information is derived from the Fund's semi-annual and annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on shareholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

(5) This information is provided for the period(s)/year(s) ended September 30, 2023 and March 31.

PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that dividends made by the Fund in the period(s)/year(s) shown were reinvested in additional shares of the Fund or relevant Series/Classes of the Fund, as applicable. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following chart/charts shows/show the Fund's semi-annual and annual performance for each of the period(s)/year(s) shown and illustrates/illustrate how the Fund's performance has changed from period/year to period/year. In percentage terms, the chart/charts shows/show how much an investment made on the first day of each financial period/year would have grown or decreased by the last day of each financial period/year, except where noted.

1 2019 return is for the period from January 30, 2019 to March 31, 2019.

2 2015 return is for the period from March 25, 2015 to March 31, 2015.
