## RESULTS OF OPERATIONS

The Fund's net assets decreased by \$7.7 million to \$82.9 million from March 31, 2023 to September 30, 2023. The Fund had net redemptions of \$4.4 million during the period. The portfolio's performance decreased assets by \$2.2 million. The Fund paid distributions totalling \$1.1 million. Series A shares returned -3.0% after fees and expenses for the six-month period ended September 30, 2023. Over the same time period, the Fund's benchmark returned -0.7%. The benchmark is a combination of the S&P/TSX Completion Total Return Index - 70% and the S&P MidCap 400 Total Return Index - 30% (the Benchmark or the Index).

The performance of the Fund's other Series is substantially similar to that of Series A shares, except for differences in the structure of fees and expenses. For the returns of the Fund's other Series, please refer to the "Past Performance" section.

The following commentary pertains to the results of operations of the CI Canadian Small/Mid Cap Equity Income Fund (the Underlying Fund).

Inflation declined during the period due to restrictive monetary policy and higher interest rates, as well as an easing of global supply chain pressures. Residential construction activity contracted amid higher mortgage rates, and there have been early signs of weakness within certain pockets of commercial real estate, such as office and retail. Unemployment remained at near-record lows, but there was upward pressure on wages and increased labour strikes. Inflation and higher interest rates in mortgages, autos and credit card debt dampened consumer spending on discretionary purchases.

The Underlying Fund underperformed its benchmark for the period. Security selection in the financials sector detracted from the Underlying Fund's performance, as did its allocation to the energy sector. The largest individual detractors from the Underlying Fund's performance were Sensata Technologies Holding PLC and Dye & Durham Ltd. Sensata Technologies Holding PLC was negatively impacted by inflation in component and logistics costs and concerns that rising interest rates could reduce demand for new vehicles. Dye & Durham Ltd.'s share price underperformed because of persistently weak free cash flow generation, which has raised concerns about the company's elevated debt and acquisition strategy.

Stock selection in the real estate sector contributed to the Underlying Fund's performance, as did its allocation to the materials sector. Top individual contributors to the Underlying Fund's performance included holdings in Live Nation Entertainment Inc. and Stantec Inc. Live Nation Entertainment Inc. outperformed because demand for live events remained robust relative to other recreational activities and consumers displayed limited sensitivity to the recent rise in ticket prices for premium events. Stantec Inc.'s share price outperformed amid robust demand for infrastructure-related projects, many of which are funded by the U.S. Infrastructure Investment and Jobs Act and Inflation Reduction Act. The business has also successfully expanded its breadth of services and captured more value through pricing.

We added a new position in Park Lawn Corp., an owner and operator of funeral homes, cemeteries and crematoriums across Canada and the United States. We initiated a position in the company because we believe the market has overreacted to a decline in death rates following the COVID-19 pandemic, which caused the company's shares to trade at a discount. An existing position in Superior Plus Corp. was increased based on the company's recent acquisition of Certarus Ltd., which specializes in compressed and renewable natural gas distribution.

A position in Converge Technology Solutions Corp. was eliminated from the Underlying Fund amid concerns that technology spending could slow and due to questionable capital allocation decisions and communication from management. The Underlying Fund position in dentalcorp Holdings Ltd. was trimmed because of weak organic growth and unclear communication from management regarding its capital allocation strategy. However, we remain shareholders of the company because the company benefits from stable underlying demand for dental services.

Overall, the Fund underperformed its benchmark for the period.

## RECENT DEVELOPMENTS

We expect elevated inflation to persist over the near term and thus favour businesses that have sustainable competitive advantages that allow them to exercise pricing power. Globally, central banks have raised interest rates aggressively to combat inflation. This has put pressure on the valuations of high-growth information technology companies and companies in cyclical sub-sectors, including housing, luxury goods and industrial components. While we do not position the Underlying Fund based on specific macroeconomic factors, we believe the recent valuation pullback has presented compelling opportunities to build positions in high-quality companies within these spaces.

## Management Report of Fund Performance for the period/year ended September 30, 2023

In our opinion, the Russia-Ukraine conflict has reshaped the global energy supply chain. The North American energy sector has benefited from elevated pricing and is well-positioned to ramp up volumes to alleviate the shortage of crude oil and natural gas, especially in Europe. However, we remain cognizant of potential offsetting pressure from demand destruction and the economic slowdown induced by central banks to tame inflation.

Consumer budgets have been pressured by elevated inflation and deteriorating housing affordability. While we remain cautious, we expect consumer spending will be fairly resilient amid excess savings accumulated during the COVID-19 pandemic, record home equity and low unemployment. We expect spending to remain especially resilient in travel, entertainment and experiences, which consumers were unable to enjoy during the pandemic.

We continue to favour companies that can endure any economic environment as well as businesses with short-term challenges that are trading at prices well below our estimate of their intrinsic value. We continue to place an emphasis on balance sheet resilience and liquidity, which enables businesses to continue investing through an economic downturn and ultimately emerge stronger when conditions recover.

### RELATED PARTY TRANSACTIONS

#### **Manager, Portfolio Adviser and Registrar**

CI Investments Inc. is the Manager, Portfolio Adviser and Registrar of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. The Manager, in consideration for management fees, provides management services required in the day-to-day operations of the Fund. The Manager bears all of the operating expenses of the Fund (other than borrowing and interest costs, investor meeting costs (as permitted by Canadian securities regulation), the fees and expenses of the Independent Review Committee, the fees, costs and expenses associated with compliance with any new governmental and regulatory requirements imposed on or after February 16, 2018 and new governmental fees or with any changes to existing governmental and regulatory requirements imposed on or after February 16, 2018 (including increases to regulatory filing fees), any new types of costs, expenses or fees not incurred prior to February 16, 2018, including those arising from new government or regulatory requirements or related to those external services that were not commonly charged in the Canadian mutual fund industry as of February 16, 2018, and operating expenses that were or are outside the normal course of business of the Fund on or after February 16, 2018) in return for an administration fee.

## **Independent Review Committee**

The Manager, in respect of the Fund, received the following standing instructions from the Independent Review Committee (IRC) with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager reports related party transactions periodically to the IRC and advise the IRC of any material breach of such policies. The Manager's policies and procedures require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; (c) do not exceed the limitations of the applicable legislation; and (d) achieve a fair and reasonable result for the Fund.

Except as otherwise noted above under Related Party Transactions section, the Fund was not a party to any related party transactions during the period/year ended September 30, 2023. If the Fund invested in related party transactions, it relied on the IRC's standing instructions regarding related party transactions during this reporting period/year.

(1) This information is derived from the Fund's semi-annual and annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on shareholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

(5) This information is provided for the period(s)/year(s) ended September 30, 2023 and March 31.

## PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that dividends made by the Fund in the period(s)/year(s) shown were reinvested in additional shares of the Fund or relevant Series/Classes of the Fund, as applicable. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

### Year-by-Year Returns

The following chart/charts shows/show the Fund's semi-annual and annual performance for each of the period(s)/year(s) shown and illustrates/illustrate how the Fund's performance has changed from period/year to period/year. In percentage terms, the chart/charts shows/show how much an investment made on the first day of each financial period/year would have grown or decreased by the last day of each financial period/year, except where noted.

- 1 2015 return is for the period from June 12, 2014 to March 31, 2015.
- 2 2019 return is for the period from January 30, 2019 to March 31, 2019.
- 3 2015 return is for the period from March 25, 2015 to March 31, 2015.
- 4 2020 return is for the period from September 27, 2019 to March 31, 2020.
