RESULTS OF OPERATIONS

The Fund's net assets decreased by \$53.6 million to \$203.6 million from March 31, 2022 to September 30, 2022. The Fund had net redemptions of \$20.9 million during the period. The portfolio's performance decreased assets by \$32.5 million. The Fund paid distributions totalling \$0.2 million. Series A shares returned -13.9% after fees and expenses for the six-month period ended September 30, 2022. Over the same time period, the Fund's benchmark returned -14.1%. The benchmark is the MSCI EAFE Total Return Index (the Benchmark or the Index).

The performance of the Fund's other Series is substantially similar to that of Series A shares, except for differences in the structure of fees and expenses. For the returns of the Fund's other Series, please refer to the "Past Performance" section.

The following commentary pertains to the results of operations of the CI International Equity Fund (the Underlying Fund).

During the period, riskier assets experienced volatility as investors came to terms with central banks' resolve to lower inflation through higher interest rates. Global stocks, as measured by the MSCI ACWI Index, declined 21.4% in U.S.-dollar terms, while bonds, as defined by the Bloomberg Global Aggregate Index, declined 14.6%. Rising interest rates brought down expectations for economic growth. Markets were also rattled by the ongoing war in Ukraine, continued supply chain disruptions, high energy prices in Europe and an economic crisis in the United Kingdom.

The Underlying Fund outperformed its benchmark for the period. Stock selection in the industrials, information technology, financials and communication services sectors contributed to the Underlying Fund's performance. Top individual contributors to performance included ICICI Bank Ltd., Worldline SA and Glanbia PLC. ICICI Bank Ltd. announced strong second-quarter results, with net interest income rising 21% year-over-year. It reported digital momentum across retail and corporate segments. Worldline SA posted a better-than-expected rise in second-quarter revenue amid strong performance in its merchant services business, given increased demand for digital transactions. Glanbia PLC reported strong first-half results and increased its expectations for sales and profits for the full year.

Stock selection in the consumer discretionary, health care, consumer staples and energy sectors detracted from the Fund's performance. The largest individual detractors from performance were Rakuten Group Inc., Grifols SA and Accor SA. Rakuten Group Inc. delivered revenue growth in all three segments for the first half of fiscal year 2022. However, its significant investment in 4G base stations led to losses in its mobile division. Grifols SA's net profit for the first half of the year fell 46% year-over-year

given the higher financial impact of blood plasma acquisition, even though revenues and plasma collection rose. Accor SA saw a rebound in all regions, but while its results beat expectations, conservative forecasts disappointed investors. Like all hotel groups, the company has been impacted by staff shortages in hospitality after thousands of workers left the sector during the pandemic.

We added new positions in Essity AB, NICE Ltd. and RS Group PLC to the Underlying Fund. Essity AB is a leading health and hygiene company with a strategic focus is on higher-margin valued-added categories in personal care. NICE Ltd. is an Israeli enterprise software company. It provides on-premises and cloud-based software applications for workforce engagement management and workforce optimization. The company also sells anti-money-laundering, risk management and fraud prevention software. RS Group PLC is a global omni-channel distributor of industrial and electronics products to industrial businesses and suppliers. Its specialist and expert knowledge help it retain high customer satisfaction scores.

We eliminated a position in Koninklijke Boskalis Westminster NV after its share price rose following a buyout offer from its majority shareholder, HAL Holding NV. GlaxoSmithKline PLC was sold from the Underlying Fund. Its shares have performed well given its renewed focus on innovative biopharmaceuticals and the plan to spin out its consumer health care business, Haleon. We took the opportunity to sell the position and allocate to ideas with higher future potential.

Overall, the Fund outperformed its benchmark for the period.

RECENT DEVELOPMENTS

Inflation has proved to be higher and more persistent than expected. The risks of policy missteps remain high as central banks warn of further tightening to contain inflation but risk choking off economic growth and pushing toward a recession. The European Union and the United Kingdom appear to be at greater risk of a near-term recession, but growth continues to slow in other major economic regions, including China and the United States.

We do not position the Underlying Fund based on a short-term market view as predictions based on what the market or economy will do in the short term are inherently unreliable. The companies held in the Underlying Fund are market leaders that can grow their market share. We buy companies based on their underlying fundamentals, including their ability to grow future cash flows and earnings, but we are cognizant of valuation. Valuations are more attractive than they were 12 months ago, which has expanded our investment opportunities.

The Manager received \$0.7 million in management fees and \$0.1 million in administration fees for the period.

Management Fees

Approximately 27% of total management fees were used to pay for sales and trailing commissions. The remaining 73% of management fees were used to pay for investment management and other general administration.

Related Fund Trading

Related fund trading occurs when a Fund purchases or sells units/shares of another Fund managed by the Manager. During the period ended September 30, 2022, the Fund engaged in related fund trading or held position(s) in related fund(s) at the end of the period.

Independent Review Committee

The Manager, in respect of the Fund, received the following standing instructions from the IRC with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager advise the IRC of any material breach of such policies. The Manager's policies and procedures require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; and (c) do not exceed the limitations of the applicable legislation. Annually, the IRC reviews reports describing each instance that the Manager acted in reliance on the standing instructions noted above.

Except as otherwise noted above under Related Party Transactions section, the Fund was not a party to any related party transactions during the period ended September 30, 2022. If the Fund invested in related party transactions, it relied on the IRC's standing instructions regarding related party transactions during this reporting period.

(1) This information is derived from the Fund's semi-annual and annual financial statements.

(2) Net assets per share and dividends per share are based on the actual number of shares outstanding for the relevant Series at the relevant time. The increase (decrease) in net assets from operations per share is based on the weighted average number of shares outstanding for the relevant Series over the fiscal period.

(3) Dividends are automatically reinvested in additional shares of the Fund.

(4) This information is provided for the period ended September 30, 2022 and the years ended March 31.

(1) This information is derived from the Fund's semi-annual and annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on shareholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period. The higher a Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period.

(5) This information is provided for the period ended September 30, 2022 and the years ended March 31.

PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that dividends made by the Fund in the periods shown were reinvested in additional shares of the relevant Series of the Fund. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following charts show the Fund's semi-annual and annual performance for each of the periods shown and illustrate how the Fund's performance has changed from period to period. In percentage terms, the charts show how much an investment made on the first day of each financial period would have grown or decreased by the last day of each financial period, except where noted.
