[collectively, the “Funds”]

Opinion

We have audited the financial statements of the Funds, which comprise the statements of financial position as at March 31, 2025 and 2024 [as applicable], and the statements of comprehensive income, statements of changes in net assets attributable to holders of redeemable units / shares and statements of cash flows for the periods then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Funds as at March 31, 2025 and 2024 [as applicable], and their financial performance and their cash flows for the periods then ended in accordance with International Financial Reporting Standards [“IFRSs”].

Basis for opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor’s responsibilities for the audit of the financial statements* section of our report. We are independent of the Funds in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

Management is responsible for the other information. The other information comprises the Management Report of Fund Performance of the Funds.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information, and in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

We obtained the Management Report of Fund Performance of the Funds prior to the date of this auditor’s report. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact in this auditor’s report. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Funds’ ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Funds or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Funds’ financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Osbert Liu.

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at March 31, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Funds	63,880,296		

The above investments are valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investments valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

as at March 31, 2024

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	34,034,781		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable shares of the Fund as at March 31, 2025 and 2024.

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at March 31, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Funds	127,923,806		

The above investments are valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investments valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

as at March 31, 2024

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	57,451,101		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable units of the Fund as at March 31, 2025 and 2024.

Level 3 Reconciliation (cont'd)

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at March 31, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Funds	183,465,037		

The above investments are valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investments valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

as at March 31, 2024

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	101,737,703		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable units of the Fund as at March 31, 2025 and 2024.

Level 3 Reconciliation (cont'd)

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at March 31, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Funds	483,392,582		

The above investments are valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investments valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

as at March 31, 2024

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	225,255,790		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable units of the Fund as at March 31, 2025 and 2024.
