### **INVESTMENT OBJECTIVE AND STRATEGIES**

The investment objective of the CI Synergy Canadian Corporate Class (the Fund) is long-term capital growth by investing primarily in equity and equity-related securities of Canadian companies that represent the growth style. The Fund may also invest in foreign securities.

Momentum managers invest in companies that are changing for the better and whose underlying fundamentals are improving more rapidly than the overall stock market. They typically have a shorter investment horizon than other types of fund managers. They seek to be rewarded by significant upward movements in stock prices that can occur over shorter time periods. Since change is the catalyst, this style tends to generate relatively high portfolio turnover.

A quantitative model assists in the search for stocks that exhibit characteristics such as earnings acceleration, upward changes in analysts' earnings forecasts for a company, and positive earnings surprises. Once a list of potential investments exhibiting these criteria is identified, the major fundamental aspects of each company are analyzed, including the quality of the company's earnings streams and how it is positioned to benefit from the current economic environment. A reasonably well diversified portfolio is then constructed. The portfolio is continually monitored with the objective of quickly identifying companies with deteriorating fundamentals, so they can be sold before their relative performance declines significantly.

Investments in foreign securities will generally be no more than 49% of the Fund's assets.

The Fund may use derivatives, but only as permitted by securities regulations. In order to earn additional income, the Fund may enter into securities lending transactions, repurchase transactions and reverse repurchase transactions, to the extent permitted by securities regulations.

For a complete discussion of the Fund's investment objective and strategies, please refer to the Fund's most recently filed simplified prospectus.

#### RICK

No changes affecting the overall level of risk associated with investing in the Fund were made during the period/year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the period/year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

### **RESULTS OF OPERATIONS**

The Fund's net assets decreased by \$32.1 million to \$652.8 million from March 31, 2023 to March 31, 2024. The Fund had net redemptions of \$137.7 million during the year. The portfolio's performance increased assets by \$114.3 million. The Fund paid distributions totalling \$8.7 million. Series A shares returned 17.8% after fees and expenses for the one-year period ended March 31, 2024. Over the same time period, the Fund's benchmark returned 14.0%. The benchmark is the S&P/TSX Composite Total Return Index (the Benchmark or the Index).

The performance of the Fund's other Series is substantially similar to that of Series A shares, except for differences in the structure of fees and expenses. For the returns of the Fund's other Series, please refer to the "Past Performance" section.

Core inflation continued to decline throughout the year. In the early months of 2024, expectations for the number and speed of U.S. Federal Reserve Board (Fed) interest rate cuts were revised lower.

The rise in equity prices by the end of the year was impressive. Equity markets ended the first quarter of 2024 at all-time highs, with registered equity supply rising to its highest level since late 2021. There were a number of structural themes that drove equity markets, including enthusiasm over artificial intelligence (AI), cloud computing, biotechnology, glucagon-like peptide 1 drugs, onshoring, commercial aerospace, infrastructure, electrification and data center power, to name a few. There was also increased dispersion in the marketplace and correlations were low, which made for a great backdrop for stock pickers.

The Fund outperformed its benchmark for the year. Overweight exposures to the information technology and health care sectors contributed to the Fund's performance. Top individual contributors to the Fund's performance included holdings in NVIDIA Corp., Eli Lilly and Co., Microsoft Corp. and Celestica Inc. NVIDIA Corp. reported strong results, with revenue up 265% year over year, driven by demand for accelerated computing and Al. Eli Lilly and Co. continued to see strong results in the anti-obesity drug category. Microsoft Corp.'s performance was driven by strong growth in its Azure division and Al-related services. Celestica Inc. has been successful in repositioning its business towards higher margins, and the company reported an improved growth outlook driven by capital expenditures associated with hyperscalers.

Underweight exposures to the energy and financials sectors detracted from the Fund's performance. The largest individual detractors from the Fund's performance were underweight positions in Brookfield Corp. and Manulife Financial Corp., and a lack of exposure to Canadian National Railway Co.

Management Report of Fund Performance for the period/year ended March 31, 2024

Brookfield Corp.'s stock rebounded as interest rates pulled back and the capital market outlook improved. Manulife Financial Corp.'s outlook improved following the company's deal to remove a portion of its long-term care exposure. The Fund does not hold a position in Canadian National Railway Co., which performed well, and this also detracted from performance. We have a preference for Canadian Pacific Kansas City Ltd. given the company's opportunity for synergies from its transformational Kansas City Southern acquisition.

We added a new holding in Canadian Imperial Bank of Commerce to increase the Fund's bank exposure. An existing position in Manulife Financial Corp. was increased. The company's outlook improved following its reinsurance deal to remove a portion of its long-term care exposure. Furthermore, life insurance equities will likely perform well in a structurally higher interest rate environment. The Fund's holding in Alimentation Couche-Tard Inc. was eliminated as its valuation reached our target. We also had concerns about the company's slowing same-store sales and a reduction in fuel margins. We trimmed the Fund's position in The Toronto-Dominion Bank in favour of other financials.

#### RECENT DEVELOPMENTS

While global gross domestic product has no shortage of soft spots, the resilience of the U.S. economy has most investors expecting an economic "soft landing" scenario, even though some recession indicators remain, including a still-inverted yield curve. We do not believe this is a good time to embrace equity risk with newly committed capital, as investors must continue to grapple with the Fed's interest rate cut expectations being pushed out. This lack of potential boost for valuations is just one risk and though equity performance seems to have broadened from the narrow leadership of mega-capitalization information technology stocks, corporate earnings expectations still seem weak.

We continue to question whether investors can maintain or expand stock valuations while also seeing corporate earnings expand to drive stocks even higher. As such, we continue to be cautious with respect to sectors or themes in equity markets that bear momentum.

#### Series merger

Effective July 21, 2023, Z Shares merged into A Shares and Insight Shares merged into Y Shares.

### **RELATED PARTY TRANSACTIONS**

### Manager, Portfolio Advisor and Registrar

CI Investments Inc. is the Manager, Portfolio Advisor and Registrar of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. The Manager, in consideration for management fees, provides management services required in the day-to-day operations of the Fund. The Manager bears all of the operating expenses of the Fund (other than taxes, borrowing costs and new governmental fees) in return for an administration fee.

The Manager received \$3.6 million in management fees and \$0.4 million in administration fees for the year.

Management Report of Fund Performance for the period/year ended March 31, 2024

### Management Fees

Approximately 26% of total management fees were used to pay for sales and trailing commissions. The remaining 74% of management fees were used to pay for investment management and other general administration.

### **Independent Review Committee**

The Manager, in respect of the Fund, received the following standing instructions from the Independent Review Committee (IRC) with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager reports related party transactions periodically to the IRC and advise the IRC of any material breach of such policies. The Manager's policies and procedures require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; (c) do not exceed the limitations of the applicable legislation; and (d) achieve a fair and reasonable result for the Fund.

Except as otherwise noted above under Related Party Transactions section, the Fund was not a party to any related party transactions during the period/year ended March 31, 2024. If the Fund invested in related party transactions, it relied on the IRC's standing instructions regarding related party transactions during this reporting period/year.

<sup>(1)</sup> This information is derived from the Fund's audited annual financial statements.

<sup>(2)</sup> Net assets per share and dividends per share are based on the actual number of shares outstanding for the relevant Series/Class at the relevant time. The increase (decrease) in net assets from operations per share is based on the weighted average number of shares outstanding for the relevant Series/Class over the fiscal period/year.

<sup>(3)</sup> Dividends are automatically reinvested in additional shares of the Fund.

<sup>(4)</sup> This information is provided for the period(s)/year(s) ended March 31.

<sup>(5)</sup> The Fund had no Insight Shares and Z Shares outstanding as at March 31, 2024.

<sup>(1)</sup> This information is derived from the Fund's audited annual financial statements.

<sup>(2)</sup> Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on shareholder residency and can be different from 13%.

<sup>(3)</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

<sup>(4)</sup> The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

<sup>(5)</sup> This information is provided for the period(s)/year(s) ended March 31.

<sup>(6)</sup> The Fund had no Insight Shares and Z Shares outstanding as at March 31, 2024.

### PAST PERFORMANCE

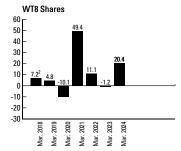

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that dividends made by the Fund in the period(s)/year(s) shown were reinvested in additional shares of the Fund or relevant Series/Classes of the Fund, as applicable. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

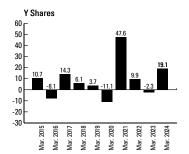

### Year-by-Year Returns

The following chart/charts shows/show the Fund's annual performance for each of the period(s)/year(s) shown and illustrates/illustrate how the Fund's performance has changed from period/year to period/year. In percentage terms, the chart/charts shows/show how much an investment made on the first day of each financial period/year would have grown or decreased by the last day of each financial period/year, except where noted.

- 1 2016 return is for the period from August 04, 2015 to March 31, 2016.
- 2 2018 return is for the period from July 27, 2017 to March 31, 2018.
- 3 2018 return is for the period from May 01, 2017 to March 31, 2018.

### **Annual Compound Returns**

The following table shows the Fund's annual compound returns for each year indicated, compared to the S&P/TSX Composite Total Return Index.

The S&P/TSX Composite Index is a float-adjusted market capitalization weighted index, which is the principal broad measure of the Canadian equity market. It includes common stocks and income trust units of companies incorporated in Canada which are listed on the Toronto Stock Exchange.

A discussion of the performance of the Fund as compared to the benchmark is found in the Results of Operations section of this report.
