INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of the CI Global Smaller Companies Corporate Class (the Fund) is to provide long-term capital growth by investing primarily in common shares of companies located anywhere in the world.

The portfolio advisor may use techniques such as fundamental analysis to assess growth potential and valuation. This means evaluating the financial condition and management of each company, its competitiveness, its industry and the overall economy. As part of this evaluation, the portfolio advisor analyzes financial data and other information sources, assesses the quality of management and conducts company interviews.

For a complete discussion of the Fund's investment objective and strategies, please refer to the Fund's most recently filed simplified prospectus.

RISK

The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the period/year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

RESULTS OF OPERATIONS

The Fund's net assets decreased by \$104.8 million to \$463.1 million from March 31, 2023 to March 31, 2024. The Fund had net redemptions of \$170.7 million during the year. The portfolio's performance increased assets by \$66.0 million. The Fund paid distributions totalling \$0.1 million. Series A shares returned 13.3%, after fees and expenses for the one-year period ended March 31, 2024. Over the same time period, the Fund's benchmark returned 16.1%. The benchmark is the MSCI World Small Cap Total Return Index (the Benchmark or the Index).

The performance of the Fund's other Series is substantially similar to that of Series A shares, except for differences in the structure of fees and expenses. For the returns of the Fund's other Series, please refer to the "Past Performance" section.

Inflation declined during the year due to restrictive monetary policy and higher interest rates. Residential real estate activity remained depressed amid higher mortgage rates and weakness within certain pockets of commercial real estate, such as office and retail. Unemployment remained at near-record lows, which put upward pressure on wages and increased labour strikes between workers and employers. Inflation and higher interest rates in mortgage, auto and credit card debt has damped consumer spending on discretionary purchases.

The initial impact of stimulus spending under the U.S. Infrastructure Investment and Jobs Act (IIJA), Inflation Reduction Act (IRA) and CHIPS and Science Act offset moderation in private sector investment in the United States. The failures of SVB Financial Group, Signature Bank and First Republic Bank and the subsequent regulatory response resulted in more stringent lending standards and reduced availability of debt capital.

Conflicts in Ukraine and the Middle East led to volatility in the energy markets and placed pressure on global supply chains.

The Fund underperformed its benchmark during the year. Security selection in the consumer discretionary and information technology sectors detracted from the Fund's performance. The largest individual detractors from the Fund's performance were positions in Watches of Switzerland Group PLC, Sensata Technologies Holding PLC, Dye & Durham Ltd., Phreesia Inc., Bravida Holding AB and Nordic Semiconductor ASA.

Security selection within the real estate sector contributed to the Fund's performance, as did allocation to the industrials sector. Top individual contributors to the Fund's performance included holdings in CSW Industrials Inc., Construction Partners Inc., Medpace Holdings Inc., BE Semiconductor Industries NV, Bytes Technology Group PLC and Live Nation Entertainment Inc.

We added new positions in ARC Resources Ltd., Badger Meter Inc. and Cargojet Inc. to the Fund. Existing holdings in CONMED Corp., Instalco AB and Watches of Switzerland Group PLC were increased. The Fund's positions in RS Group PLC, Sensata Technologies Holding PLC, Malibu Boats Inc. and Dye & Durham Ltd. were eliminated while holdings in CSW Industrials Inc., Colliers International Group Inc. and Dalata Hotel Group PLC were trimmed.

RECENT DEVELOPMENTS

We expect elevated inflation to persist over the near term, and therefore, we favour businesses that have sustainable competitive advantages that allow them to exercise pricing power.

CI Global Smaller Companies Corporate Class

Management Report of Fund Performance for the period/year ended March 31, 2024

Globally, central banks have raised interest rates aggressively to combat the rapid inflation. This has pressured the valuations of high-growth information technology companies and those in cyclical sectors, including housing, luxury goods and industrial components. Recent turbulence in the U.S. regional banking system may constrain credit availability and put upward pressure on financing costs.

Consumer budgets have been pressured by elevated inflation and deteriorating housing affordability. While we remain cautious, we expect consumer spending should be fairly resilient because of excess savings accumulated during the COVID-19 pandemic, record home equity and low unemployment. We expect spending to remain especially resilient in travel, entertainment and experiences, which consumers were unable to enjoy during the pandemic. Stimulus spending under the IJJA, IRA and the CHIPS and Science Act should partially offset slower economic activity related to higher interest rates.

The Fund holds companies that are better able to endure any economic environment and businesses with some short-term challenges that are trading at prices well below intrinsic value. We continue to place an emphasis on balance sheet resilience and liquidity, which enables businesses to continue investing through an economic downturn and ultimately emerge stronger when conditions recover.

Risk rating

Effective July 13, 2023, the risk rating for the Fund changed from "Medium" to "Medium-to-High". This change is the result of an annual review to comply with the methodology mandated by the Canadian Securities Administrators and is not the result of any changes to investment objective, strategies or management of the Fund.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on shareholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

(5) This information is provided for the period(s)/year(s) ended March 31.

(6) The Fund had no EFT5 Shares outstanding as at March 31, 2020.
