INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of the CI Munro Global Growth Equity Fund (the Fund) is to maximize long-term capital appreciation primarily through exposure to a portfolio of growth-oriented equities issued by companies located anywhere in the world.

The Fund will invest primarily in listed equities from around the world. The investment strategy is designed to identify sustainable growth trends that are under-appreciated and mispriced by the market, and the resulting winning and losing stocks.

The portfolio sub-advisor utilizes its proprietary investment process to generate a focused investment universe and filters these structural growth ideas into a concentrated portfolio of investments. This is achieved by leveraging top-down thematic views and the portfolio sub-advisor's bottom-up stock library to generate high conviction investment ideas.

Key investment ideas are further screened through a combination of clear and defined quantitative and qualitative tests to build a collection of high conviction investments.

Positions are established in companies that the portfolio sub-advisor considers having unrecognized potential. Typically, the Fund will have a concentrated portfolio ranging between 20 and 40 investments. The Fund will generally invest in listed global equities, cash equivalent instruments and over-the-counter equity swaps. There are no regional, market capitalization or sector constraints, and no allocation limits in respect of the location, class or currency of assets.

For a complete discussion of the Fund's investment objective and strategies, please refer to the Fund's most recently filed simplified prospectus.

RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the period/year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the period/year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

RESULTS OF OPERATIONS

The Fund's net assets increased by \$346.8 million to \$1,132.5 million from March 31, 2024 to March 31, 2025. The Fund had net sales of \$334.2 million for the year. The portfolio's performance increased assets by \$129.5 million. The Fund paid distributions totalling \$116.9 million. Series A units returned 14.3% after fees and expenses for the year ended March 31, 2025. Over the same time period, the Fund's benchmark returned 14.0%. The benchmark is the MSCI ACWI Index (NTR) (the Benchmark or the Index).

The performance of the Fund's other Series is substantially similar to that of Series A units, except for differences in the structure of fees and expenses. For the returns of the Fund's other Series, please refer to the "Past Performance" section.

In 2024, equity markets had a year of solid gains across the board. While global economic conditions remained challenging, inflation ultimately peaked, as did interest rates. Despite the difficult economic backdrop, corporate earnings growth was strong, particularly in the United States, where the emergence of artificial intelligence (AI) and the infrastructure required to power it saw strong earnings growth for the cloud-computing infrastructure players and the industrials that help build that infrastructure. During the second half of 2024, central banks around the world began to cut interest rates. This environment, combined with Donald Trump's win in the U.S. presidential election, led investors to anticipate an improving U.S. economy for 2025.

In the first quarter of 2025, equity markets experienced heightened volatility as investors grappled with the impact of tariffs and trade policies on the global economy and corporate earnings. European equities gained with the proposal of additional fiscal stimulus, while Chinese stock rebounded as the country emerged as a contender in the AI race. In contrast, the U.S. equity market fell into correction territory, with the S&P 500 Index faring better than the tech-heavy Nasdaq Composite Index.

Management Report of Fund Performance for the period/year ended March 31, 2025

The Fund slightly outperformed the benchmark for the year. Allocation to equities that are exposed to Al themes and semiconductors contributed to the Fund's performance. The high demand for Al infrastructure intersected with the Fund's climate investments, leading to gains in some power companies and those industries benefiting from rising data center demand. Top individual contributors to the Fund's performance included holdings in Rheinmetall AG, GE Vernova Inc. and NVIDIA Corp. Rheinmetall benefited from a rise in European defence spending, which was driven by historic regulatory changes in Germany. GE Vernova is in a strong position to benefit from the positive electrical demand driven by data center growth, electrification of transport and building, and reshoring back to the United States. NVIDIA benefited from investor enthusiasm for AI.

Following a strong 2024, the first quarter of 2025 was challenging for many Al-exposed companies amid investor fears around the sustainability of Al infrastructure spending. The release of DeepSeek's R1 Al model, which demonstrated improved efficiency and cost-effectiveness, initially wiped off over US\$1 trillion in market capitalization for U.S. and European Al-exposed companies A holding in ASML Holding NV detracted from the Fund's performance. Despite robust second-quarter 2024 earnings, the company's share price faced downward pressure due to concerns over short-term customer demand and China-related restrictions. The Fund's performance was a holding in Wise PLC. The company's June 2024 results were positive, but the company is prioritizing user growth and market share over short-term margins. Our long-term view of the company remains optimistic.

Among the new holdings added to the Fund during the year were Axon Enterprise Inc., CRH PLC, GE Vernova, Howmet Aerospace Inc. and Netflix Inc. Existing positions in Boston Scientific Corp., Eli Lilly and Co., Kingspan Group PLC, Liberty Media Corp.-Formula One and Mastercard Inc. were increased. The Fund's positions in Adobe Inc., Applied Materials Inc., Chipotle Mexican Grill Inc., Intuit Inc. and Novo Nordisk AS were eliminated while positions in Alphabet Inc., Constellation Energy Corp., Microsoft Corp., NVIDIA and Rheinmetall were trimmed.

RECENT DEVELOPMENTS

Despite our positive outlook at the beginning of 2025, our short-term outlook is negative following the uncertainty around tariffs. The Trump administration's tariffs and the activities of the U.S. Department of Government Efficiency are ultimately deflationary to economic growth, but unfortunately, have quickly outweighed any positive outcomes that may come from deregulation, increased investment and mergers and acquisitions. A clear path out of this will take time to evolve, which now depends on whether the U.S. administration is willing to drive the global economy into a recession to achieve its goals.

Observing our stop-loss order processes, we had raised the Fund's maximum cash levels by the end of the first quarter of 2025. We have eliminated less liquid and cyclically exposed Fund positions in favour of less tariff-exposed and digital businesses with strong balance sheets. We continue to observe our risk management processes as this situation evolves.

Privatization

On November 25, 2024, CI Financial Corp. announced that it had entered into a definitive agreement with an affiliate of Mubadala Capital, the alternative asset management arm of Mubadala Investment Company, to acquire all issued and outstanding common shares of CI Financial Corp., other than shares held by members of senior management of CI Financial Corp. who enter into equity rollover agreements. The transaction was approved by shareholders of CI Financial Corp. on February 12, 2025, and the Ontario Superior Court of Justice (Commercial List) on February 18, 2025. Subject to regulatory clearances and other customary closing conditions, the transaction is expected to close in the third quarter of 2025. The Manager does not expect the transaction to impact it or the Fund's business, operations or affairs at this time.

The Manager received \$6.0 million in management fees and \$0.6 million in administration fees for the year.

Management Fees

Approximately 25% of total management fees were used to pay for sales and trailing commissions. The remaining 75% of management fees were used to pay for investment management and other general administration.

Independent Review Committee

The Manager, in respect of the Fund, received the following standing instructions from the Independent Review Committee (IRC) with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager reports related party transactions periodically to the IRC and advise the IRC of any material breach of such policies. The Manager's policies and procedures require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; (c) do not exceed the limitations of the applicable legislation; and (d) achieve a fair and reasonable result for the Fund.

Except as otherwise noted above under Related Party Transactions section, the Fund was not a party to any related party transactions during the period/year ended March 31, 2025. If the Fund invested in related party transactions, it relied on the IRC's standing instructions regarding related party transactions during this reporting period/year.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on unitholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the portfolio soft the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

(5) This information is provided for the period(s)/year(s) ended March 31.

(6) Per units amounts are presented in U.S. dollars.

(7) Closing market price.

PAST PERFORMANCE

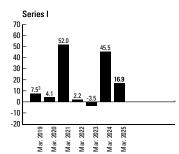

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that distributions made by the Fund in the period(s)/year(s) shown were reinvested in additional units of the Fund or relevant Series/Class of the Fund, as applicable. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

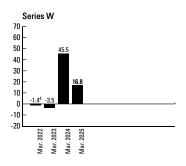

Year-by-Year Returns

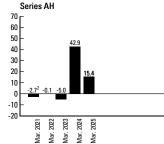

The following chart/charts shows/show the Fund's annual performance for each of the period(s)/year(s) shown and illustrates/illustrate how the Fund's performance has changed from period/ year to period/year. In percentage terms, the chart/charts shows/show how much an investment made on the first day of each financial period/year would have grown or decreased by the last day of each financial period/year, except where noted.

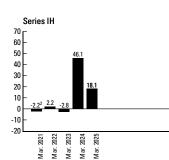

Series F

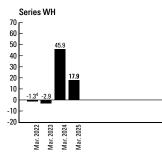

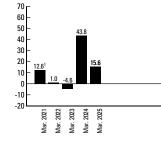

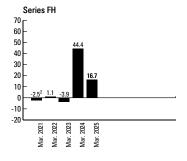

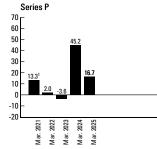

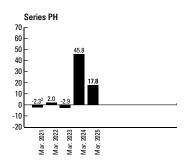

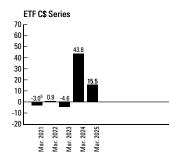

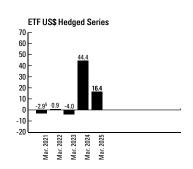

1 2021 return is for the period from August 10, 2020 to March 31, 2021.

2 2021 return is for the period from January 12, 2021 to March 31, 2021.

3 2019 return is for the period from January 14, 2019 to March 31, 2019.

4 2022 return is for the period from February 08, 2022 to March 31, 2022. 5 2021 return is for the period from January 07, 2021 to March 31, 2021.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about the Fund, its future performance, strategies or prospects, and possible future Fund action. The words "may," "could," "should," "would," "suspect," "outlook," "believe," "plan," "anticipate," "estimate," "expect," "intend," "forecast," "objective," and similar expressions are intended to identify forward-looking statements.

Forward-looking statements are not guarantees of future performance. Forward-looking statements involve inherent risks and uncertainties, both about the Fund and general economic factors, so it is possible that predictions, forecasts, projections and other forward-looking statements will not be achieved. We caution you not to place undue reliance on these statements as a number of important factors could cause actual events or results to differ materially from those expressed or implied in any forward-looking statement made by the Fund. These factors include, but are not limited to, general economic, political and market factors in Canada, the United States and internationally, interest and foreign exchanges rates, global equity and capital markets, business competition, technological changes, changes in laws and regulations, judicial or regulatory judgments, legal proceedings and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. All opinions contained in forward-looking statements are subject to change without notice and are provided in good faith but without legal responsibility.
