INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of the CI Global Smaller Companies Fund (the Fund) is to provide long-term capital growth by investing primarily in common shares of companies located anywhere in the world.

The Fund currently achieves its investment objective by investing all of its assets in CI Global Smaller Companies Corporate Class (the Underlying Fund).

When buying or selling securities, the portfolio advisor examines each company's potential for success in light of its current financial condition, its industry position and economic and market conditions. The portfolio advisor considers factors like growth potential, earnings estimates and quality of management.

The portfolio advisor may use techniques such as fundamental analysis to assess investment opportunities. This means evaluating the financial condition, competitiveness and management of each company, its industry and the overall economy. As part of this evaluation, the portfolio advisor analyzes financial data and other information sources, assesses the quality of management and conducts company interviews, where possible.

For a complete discussion of the Fund's and the Underlying Fund's respective investment objective and strategies, please refer to the Fund's and the Underlying Fund's most recently filed simplified prospectus.

RISK

The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the period/year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

RESULTS OF OPERATIONS

The Fund's net assets decreased by \$50.3 million to \$246.2 million from March 31, 2023 to March 31, 2024. The Fund had net redemptions of \$82.1 million during the year. The portfolio's performance increased assets by \$32.0 million. The Fund paid distributions totalling \$0.2 million. Series A units returned 13.3% after fees and expenses for the one-year period ended March 31, 2024. Over the same time period, the Fund's benchmark returned 16.1%. The benchmark is the MSCI World Small Cap Total Return Index (the Benchmark or the Index).

The performance of the Fund's other Series is substantially similar to that of Series A units, except for differences in the structure of fees and expenses. For the returns of the Fund's other Series, please refer to the "Past Performance" section.

The following commentary pertains to the results of operations of the CI Global Smaller Companies Corporate Class (the Underlying Fund).

Inflation declined during the year due to restrictive monetary policy and higher interest rates. Residential real estate activity remained depressed amid higher mortgage rates and weakness within certain pockets of commercial real estate, such as office and retail. Unemployment remained at near-record lows, which put upward pressure on wages and increased labour strikes between workers and employers. Inflation and higher interest rates in mortgage, auto and credit card debt has damped consumer spending on discretionary purchases.

The initial impact of stimulus spending under the U.S. Infrastructure Investment and Jobs Act (IIJA), Inflation Reduction Act (IRA) and CHIPS and Science Act offset moderation in private sector investment in the United States. The failures of SVB Financial Group, Signature Bank and First Republic Bank and the subsequent regulatory response resulted in more stringent lending standards and reduced availability of debt capital.

Conflicts in Ukraine and the Middle East led to volatility in the energy markets and placed pressure on global supply chains.

The Underlying Fund underperformed its benchmark during the year. Security selection in the consumer discretionary and information technology sectors detracted from the Underlying Fund's performance. The largest individual detractors from the Underlying Fund's performance were positions in Watches of Switzerland Group PLC, Sensata Technologies Holding PLC, Dye & Durham Ltd., Phreesia Inc., Bravida Holding AB and Nordic Semiconductor ASA.

Security selection within the real estate sector contributed to the Underlying Fund's performance, as did allocation to the industrials sector. Top individual contributors to the Underlying Fund's performance included holdings in CSW Industrials Inc., Construction Partners Inc., Medpace Holdings Inc., BE Semiconductor Industries NV, Bytes Technology Group PLC and Live Nation Entertainment Inc.

CI Global Smaller Companies Fund

Management Report of Fund Performance for the period/year ended March 31, 2024

We added new positions in ARC Resources Ltd., Badger Meter Inc. and Cargojet Inc. to the Underlying Fund. Existing holdings in CONMED Corp., Instalco AB and Watches of Switzerland Group PLC were increased. The Underlying Fund's positions in RS Group PLC, Sensata Technologies Holding PLC, Malibu Boats Inc. and Dye & Durham Ltd. were eliminated while holdings in CSW Industrials Inc., Colliers International Group Inc. and Dalata Hotel Group PLC were trimmed.

Overall, the Fund underperformed its benchmark during the year.

RECENT DEVELOPMENTS

We expect elevated inflation to persist over the near term, and therefore, we favour businesses that have sustainable competitive advantages that allow them to exercise pricing power.

Globally, central banks have raised interest rates aggressively to combat the rapid inflation. This has pressured the valuations of high-growth information technology companies and those in cyclical sectors, including housing, luxury goods and industrial components. Recent turbulence in the U.S. regional banking system may constrain credit availability and put upward pressure on financing costs.

Consumer budgets have been pressured by elevated inflation and deteriorating housing affordability. While we remain cautious, we expect consumer spending should be fairly resilient because of excess savings accumulated during the COVID-19 pandemic, record home equity and low unemployment. We expect spending to remain especially resilient in travel, entertainment and experiences, which consumers were unable to enjoy during the pandemic. Stimulus spending under the IIJA, IRA and the CHIPS and Science Act should partially offset slower economic activity related to higher interest rates.

The Underlying Fund holds companies that are better able to endure any economic environment and businesses with some short-term challenges that are trading at prices well below intrinsic value. We continue to place an emphasis on balance sheet resilience and liquidity, which enables businesses to continue investing through an economic downturn and ultimately emerge stronger when conditions recover.

Series merger

Effective July 21, 2023, Insight Series merged into Series F.

Risk rating

Effective July 13, 2023, the risk rating for the Fund changed from "Medium" to "Medium-to-High". This change is the result of an annual review to comply with the methodology mandated by the Canadian Securities Administrators and is not the result of any changes to investment objective, strategies or management of the Fund.

RELATED PARTY TRANSACTIONS

Manager, Portfolio Adviser, Trustee and Registrar

CI Investments Inc. is the Manager, Portfolio Adviser, Trustee and Registrar of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. Related Fund Trading

Related fund trading occurs when a Fund purchases or sells units/shares of another Fund managed by the Manager. During the period/year ended March 31, 2024, the Fund engaged in related fund trading or held position(s) in related fund(s) at the end of the period/year.

Independent Review Committee

The Manager, in respect of the Fund, received the following standing instructions from the Independent Review Committee (IRC) with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager reports related party transactions periodically to the IRC and advise the IRC of any material breach of such policies. The Manager's policies and procedures require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; (c) do not exceed the limitations of the applicable legislation; and (d) achieve a fair and reasonable result for the Fund.

Except as otherwise noted above under Related Party Transactions section, the Fund was not a party to any related party transactions during the period/year ended March 31, 2024. If the Fund invested in related party transactions, it relied on the IRC's standing instructions regarding related party transactions during this reporting period/year.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on unitholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

(5) This information is provided for the period(s)/year(s) ended March 31.

(6) The Fund had no Insight Series outstanding as at March 31, 2024.

PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that distributions made by the Fund in the period(s)/year(s) shown were reinvested in additional units of the Fund or relevant Series/Class of the Fund, as applicable. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following chart/charts shows/show the Fund's annual performance for each of the period(s)/year(s) shown and illustrates/illustrate how the Fund's performance has changed from period/year to period/year. In percentage terms, the chart/charts shows/show how much an investment made on the first day of each financial period/year would have grown or decreased by the last day of each financial period/year, except where noted.

1 2018 return is for the period from July 27, 2017 to March 31, 2018.
 2 2020 return is for the period from November 22, 2019 to March 31, 2020.
