INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of CI Real Mid Term Income Trust (the Fund) is to generate income and the potential for capital appreciation by investing primarily in a diversified portfolio of nominal and real return investment grade fixed-income securities with a balance of short- and long-term maturities.

The Fund will invest primarily in nominal and real return fixed-income securities, including federal and provincial government bonds, and may also invest in other fixed-income securities, such as investment grade corporate bonds, floating-rate notes, non-investment grade bonds and loans. The Fund will primarily invest in fixed-income securities with a credit rating of BBB or above and such that the Fund's overall weighted average term to maturity is generally between 10 to 20 years.

The Fund has the ability to invest in foreign fixed-income securities in an amount not exceeding approximately 30% of the assets of the Fund.

For a complete discussion of the Fund's investment objective and strategies, please refer to the Fund's most recently filed simplified prospectus.

RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the period/year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the period/year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

RESULTS OF OPERATIONS

The Fund's net assets decreased by \$0.3 million to \$1.2 million from March 31, 2022 to March 31, 2023. The Fund had net redemptions of \$0.2 million during the year. The portfolio's performance decreased assets by \$0.1 million. Series I units returned -2.9% after fees and expenses for the one-year period ended March 31, 2023. Over the same time period, the Fund's benchmark returned -4.2%. The benchmark is a combination of the FTSE Canada Real Return Bond Total Return Index - 55% and the FTSE Canada All Government Bond Total Return Index - 45% (the Benchmark or the Index).

Central banks around the world continued to raise interest rates throughout the year. Headline inflation (i.e., Consumer Price Index) readings dropped moderately in the latter months of the year, but core measures remained elevated. This led central banks to act aggressively in their tightening of monetary policies. The Canadian and U.S. government bond yield curves began to invert as the year unfolded, in anticipation of weaker economic growth. Economic growth did slow in most interest rate-sensitive sectors as higher borrowing costs and tighter financial conditions impacted spending. However, labour markets remained tight, with low unemployment and strong nominal wage gains.

The Fund outperformed its benchmark for the year. An underweight exposure to government bonds contributed to the Fund's performance. The Fund's shorter duration (sensitivity to interest rates) than the benchmark also contributed to performance. Collectively, our yield curve and currency management contributed to the Fund's performance.

The largest individual detractor from the Fund's performance was a holding of Government of Canada 3.0% Dec. 1, 2036 bonds.

During the year, we reduced the Fund's exposure to both provincial and federal government bonds.

RECENT DEVELOPMENTS

We expect a further slowing of the economy, with a likely recession in 2023. Therefore, our positioning of the Fund will be biased toward longer-duration assets, with only tactical shifts and less exposure to credit.

Independent Review Committee

Effective October 6, 2022, John Sheedy became a member of the Independent Review Committee (IRC) of CI Funds.

Administrator

Effective October 3, 2022, RBC Investor Services Trust ceased acting as the administrator to the Fund and CIBC Mellon Global Securities Services Company started acting as the administrator to the Fund.

RELATED PARTY TRANSACTIONS

Manager, Portfolio Adviser, Trustee and Registrar

CI Investments Inc. is the Manager, Portfolio Advisor, Trustee and Registrar of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. The Manager, in consideration for management fees, provides management services required in the day-to-day operations of the Fund. The Manager bears all of the operating expenses of the Fund (other than borrowing and interest costs, investor meeting costs (as permitted by Canadian securities regulation), the fees and expenses of the Independent Review Committee, the fees, costs and expenses associated with compliance with any new governmental and regulatory requirements imposed on or after February 16, 2018 and new governmental fees or with any changes to existing governmental and regulatory requirements imposed on or after February 16, 2018 (including increases to regulatory filing fees), any new types of costs, expenses or fees not incurred prior to February 16, 2018, including those arising from new government or regulatory requirements or related to those external services that were not commonly charged in the Canadian mutual fund industry as of February 16, 2018, and operating expenses that were or are outside the normal course of business of the Fund on or after February 16, 2018) in return for an administration fee.

Management fee and administration fee rates as at March 31, 2023, for the Series/Class or for each of the Series/Classes, as applicable, is/are shown below:

| | Annual management fee rate (%) | Annual administration fee rate (%) |
|-----------------|---------------------------------------|---|
| Series I | Paid directly by investor | Paid directly by investor |

The Fund only offers Series I units, thus management and administration fees are negotiated directly with each investor and paid directly to the Manager as per Series I Account Agreement Fee. Please refer to Part A of the simplified prospectus for further details.

Independent Review Committee

The Manager, in respect of the Fund, received the following standing instructions from the IRC with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager reports related party transactions periodically to the IRC and advise the IRC of any material breach of such policies. The Manager's policies and procedures require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; (c) do not exceed the limitations of the applicable legislation; and (d) achieve a fair and reasonable result for the Fund.

Except as otherwise noted above under Related Party Transactions section, the Fund was not a party to any related party transactions during the period/year ended March 31, 2023. If the Fund invested in related party transactions, it relied on the IRC's standing instructions regarding related party transactions during this reporting period/year.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on unitholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that distributions made by the Fund in the period(s)/year(s) shown were reinvested in additional units of the Fund or relevant Series/Class of the Fund, as applicable. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following chart/charts shows/show the Fund's annual performance for each of the period(s)/year(s) shown and illustrates/illustrate how the Fund's performance has changed from period/year to period/year. In percentage terms, the chart/charts shows/show how much an investment made on the first day of each financial period/year would have grown or decreased by the last day of each financial period/year, except where noted.

¹ 2017 return is for the period from June 24, 2016 to March 31, 2017.

Annual Compound Returns

The following table shows the Fund's annual compound returns for each year indicated, compared to the Blended Index composed of: (55% - FTSE Canada Real Return Bond Total Return Index and 45% - FTSE Canada All Government Bond Total Return Index); the FTSE Canada Real Return Bond Total Return Index and the FTSE Canada All Government Bond Total Return Index.

FTSE Canada Real Return Bond Index is a market capitalization weighted index that measures the performance of inflation-indexed bonds. The Index consists of a broadly diversified range of federal, provincial, municipal and corporate bonds with minimum credit rating of BBB(low). The Index consists of fixed rate bonds denominated in Canadian dollars, with remaining term to maturity greater than one year.

The FTSE Canada All Government Bond Index is a market capitalization weighted index that measures the performance of the Canadian investment-grade fixed income market covering government bonds. The Index is a sub-sector of the FTSE Canada Universe Bond Index.

A discussion of the performance of the Fund as compared to the benchmark is found in the Results of Operations section of this report.
