

CI Global Unconstrained Bond Fund (formerly CI Global Unconstrained Bond Private Pool)

Management Report of Fund Performance for the period/year ended September 30, 2024

This semi-annual management report of fund performance contains financial highlights but does not contain the complete semi-annual or annual financial statements of the investment fund. You can get a copy of the semi-annual or annual financial statements at your request, and at no cost, by calling 1-800-792-9355, by writing to us at CI Investments Inc., 15 York Street, Second Floor, Toronto, ON, M5J 0A3 or by visiting our website at www.ci.com or SEDAR+ at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

RESULTS OF OPERATIONS

The Fund's net assets increased by \$86.8 million to \$134.1 million from March 31, 2024 to September 30, 2024. The Fund had net sales of \$83.7 million for the period. The portfolio's performance increased assets by \$4.3 million. The Fund paid distributions totalling \$1.2 million. Series A units returned 5.4% after fees and expenses for the six-month period ended September 30, 2024. Over the same time period, the Fund's benchmarks returned 3.9% and 2.3%, respectively. The benchmarks are the Bloomberg Global Aggregate Bond Index (TR) (CAD-Hedged) (new) and the Canadian Government Bond 3 Month Bill + 150 bps (TR) (old) (the Benchmark/Benchmarks or the Index/Indices), respectively. During the period we changed the reference index of the Fund. We believe that the New Benchmark better reflects the nature of the Fund.

The performance of the Fund's other Series is substantially similar to that of Series A units, except for differences in the structure of fees and expenses. For the returns of the Fund's other Series, please refer to the "Past Performance" section.

Facing a weaker Canadian economy and more indebted consumer, the Bank of Canada cut its overnight lending rate by 25 basis points (bps) three times during the period. The U.S. Federal Reserve Board (Fed) finally cut the federal funds rate in September, with a reduction of 50 bps. With inflation now within their target ranges, central banks have the flexibility to support the labour market and extend the economic cycle. Revisions to prior period payroll data over the summer of 2024 was some cause for concern, but unemployment was still low by historical standards.

The Fund outperformed its benchmarks for the period as a result of strong performance from corporate bonds, government bonds and preferred shares. The largest individual contributors to the Fund's performance were holdings in Government of Canada (GoC) 3.0% Jun. 1, 2034 and 3.25% Dec. 1, 2033 bonds. The bonds performed well because of their duration (sensitivity to interest rates) in an environment of declining interest rates.

A holding of MPH Acquisition Holdings LLC 5.75% Sep. 1, 2028 bonds detracted from the Fund's performance as lawsuits accumulated and the company's debt level remained elevated despite it reaffirming its forecast for 2024. As a result, the holding was liquidated. The Fund's position in New Fortress Energy Inc. 8.75% Feb. 15, 2029 bonds also detracted from performance amid concerns over the company's liquidity, potential challenges in refinancing near-term maturities and delays in the company's fast liquefied natural gas projects.

New positions in AltaGas Ltd. 7.2% Oct. 15, 2054 and a term loan (+200 bps due Sep. 10, 2031) issued by Formula One were added to the Fund. Both companies have been familiar to the investment team for many years. Holdings in GoC 4.5% Feb. 1, 2026 and GoC 3.25% Sep. 1, 2028 bonds were eliminated from the Fund.

RECENT DEVELOPMENTS

Central bank interest rate cuts are underway globally, with the exception of Japan. China's late entry likely supports commodity markets, and Canada indirectly, over the intermediate term. While we are optimistic the Fed can avoid recession in the United States, we have a more cautious outlook for Canada given its greater interest rate sensitivity and lower productivity growth. Nonetheless, the two countries' economies are interconnected, and recession in Canada, should it occur, would likely be mild.

As we progress into the fourth quarter of 2024, the financial markets will face U.S. presidential election headlines and geopolitical uncertainty, and corporate earnings guidance for 2025. Resilient earnings and a lack of supply in the face of rampant demand probably supports credit spreads in 2025. If interest rate cuts are met with an economic "soft landing," corporate bonds and riskier assets should exhibit competitive returns. We view the current investment environment as favourable.

Risk rating

Effective August 29, 2024, the risk rating for the Fund changed from "Low-to-Medium" to "Low". This change is the result of an annual review to comply with the methodology mandated by the Canadian Securities Administrators and is not the result of any changes to investment objective, strategies or management of the Fund.

CI Global Unconstrained Bond Fund (formerly CI Global Unconstrained Bond Private Pool)

Management Report of Fund Performance for the period/year ended September 30, 2024

RELATED PARTY TRANSACTIONS

Manager, Portfolio Adviser, Trustee and Registrar

CI Investments Inc. is the Manager, Portfolio Adviser, Trustee and Registrar of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. The Manager, in consideration for management fees, provides management services required in the day-to-day operations of the Fund. The Manager bears all of the operating expenses of the Fund (other than taxes, borrowing costs and new governmental fees) in return for an administration fee.

Management fee and administration fee rates as at September 30, 2024, for the Series/Class or for each of the Series/Classes, as applicable, is/are shown below:

	Annual management fee rate (%):	Annual administration fee rate (%):
Series A	1.050	0.15
ETF C\$ Series	0.550	0.15
Series F	0.550	0.15
Series I	Paid directly by investor	Paid directly by investor
Series P	Paid directly by investor	0.15
Series W	Paid directly by investor	0.09

The Manager received \$0.3 million in management fees and \$0.1 million in administration fees for the period.

Management Fees

Approximately 25% of total management fees were used to pay for sales and trailing commissions. The remaining 75% of management fees were used to pay for investment management and other general administration.

Inter Fund Trading

Inter fund trading occurs when a Fund purchases or sells a security of any issuer from or to another Fund managed by the Manager. These transactions are executed through market intermediaries and under prevailing market terms and conditions. The Independent Review Committee (IRC) reviews such transactions during scheduled meetings. During the period/year ended September 30, 2024, the Fund executed inter fund trades.

Independent Review Committee

The Manager, in respect of the Fund, received the following standing instructions from the IRC with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager reports related party transactions periodically to the IRC and advise the IRC of any material breach of such policies. The Manager's policies and procedures require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; (c) do not exceed the limitations of the applicable legislation; and (d) achieve a fair and reasonable result for the Fund.

Except as otherwise noted above under Related Party Transactions section, the Fund was not a party to any related party transactions during the period/year ended September 30, 2024. If the Fund invested in related party transactions, it relied on the IRC's standing instructions regarding related party transactions during this reporting period/year.

(1) This information is derived from the Fund's semi-annual and annual financial statements.

(2) Net assets per unit and distributions per unit are based on the actual number of units outstanding for the relevant Series/Class at the relevant time. The increase (decrease) in net assets from operations per unit is based on the weighted average number of units outstanding for the relevant Series/Class over the fiscal period/year.

(3) Distributions are automatically reinvested in additional units of the Fund.

(4) This information is provided for the period(s)/year(s) ended September 30, 2024 and March 31.

(1) This information is derived from the Fund's semi-annual and annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on unitholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

(5) This information is provided for the period(s)/year(s) ended September 30, 2024 and March 31.

(6) Closing market price.

Management Report of Fund Performance for the period/year ended September 30, 2024

PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that distributions made by the Fund in the period(s)/year(s) shown were reinvested in additional units of the Fund or relevant Series/Class of the Fund, as applicable. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following chart/charts shows/show the Fund's semi-annual and annual performance for each of the period(s)/year(s) shown and illustrates/illustrate how the Fund's performance has changed from period/year to period/year. In percentage terms, the chart/charts shows/show how much an investment made on the first day of each financial period/year would have grown or decreased by the last day of each financial period/year, except where noted.

1 2019 return is for the period from October 29, 2018 to March 31, 2019.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about the Fund, its future performance, strategies or prospects, and possible future Fund action. The words “may,” “could,” “should,” “would,” “suspect,” “outlook,” “believe,” “plan,” “anticipate,” “estimate,” “expect,” “intend,” “forecast,” “objective,” and similar expressions are intended to identify forward-looking statements.

Forward-looking statements are not guarantees of future performance. Forward-looking statements involve inherent risks and uncertainties, both about the Fund and general economic factors, so it is possible that predictions, forecasts, projections and other forward-looking statements will not be achieved. We caution you not to place undue reliance on these statements as a number of important factors could cause actual events or results to differ materially from those expressed or implied in any forward-looking statement made by the Fund. These factors include, but are not limited to, general economic, political and market factors in Canada, the United States and internationally, interest and foreign exchanges rates, global equity and capital markets, business competition, technological changes, changes in laws and regulations, judicial or regulatory judgments, legal proceedings and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. All opinions contained in forward-looking statements are subject to change without notice and are provided in good faith but without legal responsibility.
