Other Price Risk
As at September 30, 2025 and March 31, 2025, the Fund was invested in U.S. equities and therefore was sensitive to changes in general economic conditions in the United States.

As at September 30, 2025, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$2,585,000 (March 31, 2025 - \$3,909,000). In practice, the actual results may differ from this analysis and the difference may be material.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have increased or decreased, respectively, by approximately \$11,239,000 (March 31, 2025 - \$11,081,000). In practice, actual results may differ from this analysis and the difference may be material.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have increased or decreased, respectively, by approximately \$11,711,000 (March 31, 2025 - \$11,222,000). In practice, actual results may differ from this analysis and the difference may be material.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have increased or decreased, respectively, by approximately \$5,857,000 (March 31, 2025 - \$6,080,000). In practice, actual results may differ from this analysis and the difference may be material.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have increased or decreased, respectively, by approximately \$3,952,000 (March 31, 2025 - \$3,546,000). In practice, actual results may differ from this analysis and the difference may be material.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have increased or decreased, respectively, by approximately \$792,000 (March 31, 2025 - \$657,000). In practice, actual results may differ from this analysis and the difference may be material.

Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at September 30, 2025~

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	1,937	(919)	1,018	12.7
Euro	-	35	35	0.4
Total	1,937	(884)	1,053	13.1

as at March 31, 2025~

U.S. Dollar	1,241	(631)	610	9.1
Total	1,241	(631)	610	9.1

~Includes monetary and non-monetary instruments, if any.

As at September 30, 2025, had the Canadian dollar strengthened or weakened by 10% (March 31, 2025 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have decreased or increased, respectively, by approximately \$105,000 (March 31, 2025 - \$61,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

Credit Risk

As at September 30, 2025 and March 31, 2025, the Fund's exposure to credit risk through derivative instruments was insignificant.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund was predominantly invested in Canadian equities and therefore was sensitive to changes in general economic conditions in Canada.

As at September 30, 2025, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$35,931,000 (March 31, 2025 - \$36,764,000). In practice, the actual results may differ from this analysis and the difference may be material.

Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at September 30, 2025~

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	14,131	(1,329)	12,802	3.5
Total	14,131	(1,329)	12,802	3.5

as at March 31, 2025~

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	17,289	(4,398)	12,891	3.5
Euro	3	-	3	0.0
Total	17,292	(4,398)	12,894	3.5

~Includes monetary and non-monetary instruments, if any.

As at September 30, 2025, had the Canadian dollar strengthened or weakened by 10% (March 31, 2025 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$1,280,000 (March 31, 2025 - \$1,289,000). In practice, the actual results may differ from this analysis and the difference may be material.

Credit Risk

As at September 30, 2025 and March 31, 2025, the Fund's exposure to credit risk through derivative instruments was insignificant.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund was predominantly invested in U.S. equities and therefore was sensitive to changes in general economic conditions in the United States.

As at September 30, 2025, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$21,622,000 (March 31, 2025 - \$23,968,000). In practice, the actual results may differ from this analysis and the difference may be material.

Currency Risk (cont'd)

As at September 30, 2025, had the Canadian dollar strengthened or weakened by 10% (March 31, 2025 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$5,371,000 (March 31, 2025 - \$18,240,000). In practice, the actual results may differ from this analysis and the difference may be material.

Interest Rate Risk

As at September 30, 2025 and March 31, 2025, the Fund did not have a significant exposure to interest rate risk as substantially all of its assets were invested in equities and derivatives.

Fair Value Hierarchy

The table/tables below summarizes/summarize the inputs used by the Fund in valuing the Fund's investments and derivatives carried at fair value.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have increased or decreased, respectively, by approximately \$10,634,000 (March 31, 2025 - \$8,694,000). In practice, the actual results may differ from this analysis and the difference may be material.

As at September 30, 2025, had the Canadian dollar strengthened or weakened by 10% (March 31, 2025 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have decreased or increased, respectively, by approximately \$708,000 (March 31, 2025 - \$123,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at September 30, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Funds	4,476,933		

The above investments are valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investments valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

as at March 31, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Funds	4,345,439		

The above investments are valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investments valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable shares of the Fund as at September 30, 2025 and March 31, 2025.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have increased or decreased, respectively, by approximately \$16,868,000 (March 31, 2025 - \$15,410,000). In practice, the actual results may differ from this analysis and the difference may be material.

Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at September 30, 2025~

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at September 30, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	5,791,083		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

as at March 31, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	5,587,310		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable shares of the Fund as at September 30, 2025 and March 31, 2025.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have increased or decreased, respectively, by approximately \$42,456,000 (March 31, 2025 - \$40,303,000). In practice, the actual results may differ from this analysis and the difference may be material.

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at September 30, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	15,214,839		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Level 3 Reconciliation (cont'd) as at March 31, 2025			
Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	14,679,471		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable shares of the Fund as at September 30, 2025 and March 31, 2025.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have increased or decreased, respectively, by approximately \$62,989,000 (March 31, 2025 - \$60,429,000). In practice, the actual results may differ from this analysis and the difference may be material.

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at September 30, 2025

Asset Type	Fair Value	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	21,728,134		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Level 3 Reconciliation (cont'd)
as at March 31, 2025

Asset Type	Fair Value	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	20,963,581		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable shares of the Fund as at September 30, 2025 and March 31, 2025.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have increased or decreased, respectively, by approximately \$39,655,000 (March 31, 2025 - \$39,007,000). In practice, the actual results may differ from this analysis and the difference may be material.

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at September 30, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	13,425,631		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Level 3 Reconciliation (cont'd)
as at March 31, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	12,953,220		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable shares of the Fund as at September 30, 2025 and March 31, 2025.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have increased or decreased, respectively, by approximately \$22,286,000 (March 31, 2025 - \$22,343,000). In practice, the actual results may differ from this analysis and the difference may be material.

Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at September 30, 2025~

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	18,385	28	18,413	8.0
Total	18,385	28	18,413	8.0

as at March 31, 2025~

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	15,616	445	16,061	6.9
Total	15,616	445	16,061	6.9

~Includes monetary and non-monetary instruments, if any.

As at September 30, 2025, had the Canadian dollar strengthened or weakened by 10% (March 31, 2025 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have decreased or increased, respectively, by approximately \$1,841,000 (March 31, 2025 - \$1,606,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at September 30, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	6,995,534		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Level 3 Reconciliation (cont'd)
as at March 31, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	6,749,380		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable shares of the Fund as at September 30, 2025 and March 31, 2025.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have increased or decreased, respectively, by approximately \$21,920,000 (March 31, 2025 - \$22,604,000). In practice, the actual results may differ from this analysis and the difference may be material.

Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at September 30, 2025~

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	17,057	17	17,074	7.5
Total	17,057	17	17,074	7.5

as at March 31, 2025~

U.S. Dollar	14,377	265	14,642	6.3
Total	14,377	265	14,642	6.3

~Includes monetary and non-monetary instruments, if any.

As at September 30, 2025, had the Canadian dollar strengthened or weakened by 10% (March 31, 2025 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have decreased or increased, respectively, by approximately \$1,707,000 (March 31, 2025 - \$1,464,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at September 30, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	6,931,910		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Level 3 Reconciliation (cont'd)
as at March 31, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	6,687,995		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable shares of the Fund as at September 30, 2025 and March 31, 2025.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have increased or decreased, respectively, by approximately \$21,036,000 (March 31, 2025 - \$21,699,000). In practice, the actual results may differ from this analysis and the difference may be material.

Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at September 30, 2025~

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	13,751	16	13,767	6.3
Total	13,751	16	13,767	6.3

as at March 31, 2025~

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	12,960	253	13,213	5.9
Total	12,960	253	13,213	5.9

~Includes monetary and non-monetary instruments, if any.

As at September 30, 2025, had the Canadian dollar strengthened or weakened by 10% (March 31, 2025 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have decreased or increased, respectively, by approximately \$1,377,000 (March 31, 2025 - \$1,321,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

**Change in unrealized gain (loss) related to investments held at March 31, 2025 was \$785,446.

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at September 30, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	6,026,844		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Level 3 Reconciliation (cont'd)
as at March 31, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	5,814,776		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable shares of the Fund as at September 30, 2025 and March 31, 2025.

Credit Risk

As at September 30, 2025 and March 31, 2025, the Fund's exposure to credit risk through derivative instruments was insignificant.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund was predominantly invested in Canadian equities and therefore was sensitive to changes in general economic conditions in Canada.

As at September 30, 2025, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have increased or decreased, respectively, by approximately \$8,535,000 (March 31, 2025 - \$7,983,000). In practice, the actual results may differ from this analysis and the difference may be material.

Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at September 30, 2025~

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)

Euro	1	-	1	0.0
Total	3,963	(965)	2,998	3.7

~Includes monetary and non-monetary instruments, if any.

As at September 30, 2025, had the Canadian dollar strengthened or weakened by 10% (March 31, 2025 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have decreased or increased, respectively, by approximately \$358,000 (March 31, 2025 - \$300,000). In practice, the actual results may differ from this analysis and the difference may be material.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Fund.

As at September 30, 2025 and March 31, 2025, the Underlying Fund was invested in foreign equities and therefore was sensitive to changes in general economic conditions across the world.

As at September 30, 2025, had the fair value of equities in the investment portfolio of the Underlying Fund increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have increased or decreased, respectively, by approximately \$35,601,000 (March 31, 2025 - \$37,718,000). In practice, the actual results may differ from this analysis and the difference may be material.

Currency Risk

As at September 30, 2025 and March 31, 2025, the Fund had no significant direct exposure to currency risk.

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the currency risk exposure of the Underlying Fund.

The table/tables below summarizes/summarize the Underlying Fund's exposure to currency risk.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund was predominantly invested in foreign equities and therefore was sensitive to changes in general economic conditions across the world.

As at September 30, 2025, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have increased or decreased, respectively, by approximately \$6,519,000 (March 31, 2025 - \$6,322,000). In practice, the actual results may differ from this analysis and the difference may be material.

Credit Risk

As at September 30, 2025 and March 31, 2025, the Fund's exposure to credit risk through derivative instruments was insignificant.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund was predominantly invested in U.S. equities and therefore was sensitive to changes in general economic conditions in the United States.

As at September 30, 2025, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have increased or decreased, respectively, by approximately \$8,509,000 (March 31, 2025 - \$8,113,000). In practice, the actual results may differ from this analysis and the difference may be material.

Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at September 30, 2025~

Other Price Risk

As at September 30, 2025, the Fund's direct exposure to other price risk through its investment in equities was insignificant.

As at March 31, 2025, the Fund did not invest directly in equities and therefore was not subject to other price risk.

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$289,590,000 (March 31, 2025 - \$269,995,000). In practice, the actual results may differ from this analysis and the difference may be material.

Total	215,448	(32,064)	183,384	6.5

~Includes monetary and non-monetary instruments, if any.

As at September 30, 2025, had the Canadian dollar strengthened or weakened by 10% (March 31, 2025 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$11,459,000 (March 31, 2025 - \$18,338,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at September 30, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	109,178,554		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Level 3 Reconciliation (cont'd)
as at March 31, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	105,336,860		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable units of the Fund as at September 30, 2025 and March 31, 2025.

Other Price Risk

As at September 30, 2025, the Fund's direct exposure to other price risk through its investment in equities was insignificant.

As at March 31, 2025, the Fund did not invest directly in equities and therefore was not subject to other price risk.

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$160,296,000 (March 31, 2025 - \$149,024,000). In practice, the actual results may differ from this analysis and the difference may be material.

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at September 30, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	61,432,639		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Level 3 Reconciliation (cont'd) as at March 31, 2025			
Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	59,270,993		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable units of the Fund as at September 30, 2025 and March 31, 2025.

Other Price Risk

As at September 30, 2025, the Fund's direct exposure to other price risk through its investment in equities was insignificant.

As at March 31, 2025, the Fund did not invest directly in equities and therefore was not subject to other price risk.

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$79,204,000 (March 31, 2025 - \$77,218,000). In practice, the actual results may differ from this analysis and the difference may be material.

Total	74,582	(1,091)	73,491	9.2

~Includes monetary and non-monetary instruments, if any.

As at September 30, 2025, had the Canadian dollar strengthened or weakened by 10% (March 31, 2025 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$4,516,000 (March 31, 2025 - \$7,349,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at September 30, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Funds	38,685,318		

The above investments are valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investments valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Level 3 Reconciliation (cont'd) as at March 31, 2025			
Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Funds	37,685,793		

The above investments are valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investments valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable units of the Fund as at September 30, 2025 and March 31, 2025.

Other Price Risk

As at September 30, 2025, the Fund's direct exposure to other price risk through its investment in equities was insignificant.

As at March 31, 2025, the Fund did not invest directly in equities and therefore was not subject to other price risk.

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$85,000,000 (March 31, 2025 - \$82,241,000). In practice, the actual results may differ from this analysis and the difference may be material.

Total	69,407	2,385	71,792	8.4

~Includes monetary and non-monetary instruments, if any.

As at September 30, 2025, had the Canadian dollar strengthened or weakened by 10% (March 31, 2025 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$5,173,000 (March 31, 2025 - \$7,179,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at September 30, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Funds	41,033,654		

The above investments are valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investments valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Level 3 Reconciliation (cont'd) as at March 31, 2025			
Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Funds	39,926,003		

The above investments are valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investments valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable units of the Fund as at September 30, 2025 and March 31, 2025.

Other Price Risk

As at September 30, 2025, the Fund's direct exposure to other price risk through its investment in equities was insignificant.

As at March 31, 2025, the Fund did not invest directly in equities and therefore was not subject to other price risk.

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$115,910,000 (March 31, 2025 - \$102,417,000). In practice, the actual results may differ from this analysis and the difference may be material.

The accompanying notes are an integral part of these financial statements.

Total	75,043	(23,802)	51,241	4.8

~Includes monetary and non-monetary instruments, if any.

As at September 30, 2025, had the Canadian dollar strengthened or weakened by 10% (March 31, 2025 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$3,385,000 (March 31, 2025 - \$5,124,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at September 30, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	39,680,484		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Level 3 Reconciliation (cont'd) as at March 31, 2025			
Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	38,284,237		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable units of the Fund as at September 30, 2025 and March 31, 2025.

Other Price Risk

As at September 30, 2025, the Fund's direct exposure to other price risk through its investment in equities was insignificant.

As at March 31, 2025, the Fund did not invest directly in equities and therefore was not subject to other price risk.

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$155,946,000 (March 31, 2025 - \$152,435,000). In practice, the actual results may differ from this analysis and the difference may be material.

The accompanying notes are an integral part of these financial statements.

Total	207,473	1,241	208,714	13.2

~Includes monetary and non-monetary instruments, if any.

As at September 30, 2025, had the Canadian dollar strengthened or weakened by 10% (March 31, 2025 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$10,397,000 (March 31, 2025 - \$20,871,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at September 30, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Funds	73,059,562		

The above investments are valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investments valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Level 3 Reconciliation (cont'd) as at March 31, 2025			
Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Funds	70,908,317		

The above investments are valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investments valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable units of the Fund as at September 30, 2025 and March 31, 2025.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$64,601,000 (March 31, 2025 - \$50,852,000). In practice, the actual results may differ from this analysis and the difference may be material.

Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at September 30, 2025~

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
Japanese Yen	-	14,709	14,709	2.2

Total	90,405	(124,323)	(33,918)	(5.2)

~Includes monetary and non-monetary instruments, if any.

As at September 30, 2025, had the Canadian dollar strengthened or weakened by 10% in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$3,392,000. In practice, the actual results may differ from this analysis and the difference may be material.

As at March 31, 2025, the Fund had no significant exposure to currency risk as most of the Fund's investments were denominated in Canadian dollars, the functional currency of the Fund.

Refer to Note 10 for discussion of other financial instrument risks.

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at September 30, 2025

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	17,921,981		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Level 3 Reconciliation (cont'd) as at March 31, 2025			
Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
		Net asset value as reported by underlying fund's investment manager	Net asset value
Fund	17,291,355		

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investment valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable units of the Fund as at September 30, 2025 and March 31, 2025.

Financial Instruments Risks (Note 10)

Concentration Risk

For Concentration Risk as at September 30, 2025, refer to the Schedule of Investment Portfolio.

The table/tables below summarizes/summarize the Fund's exposure to concentration risk.

as at March 31, 2025

Categories	Net Assets (%)
Financials	38.3
Energy	22.6
Industrials	10.9
Utilities	7.7
Consumer Discretionary	7.0
Consumer Staples	6.0

Total	100.0

Credit Risk

As at September 30, 2025 and March 31, 2025, the Fund did not have a significant exposure to credit risk as substantially all of its assets were invested in equities.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund was predominantly invested in Canadian equities and therefore was sensitive to changes in general economic conditions in Canada.

As at September 30, 2025, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$8,574,000 (March 31, 2025 - \$7,789,000). In practice, the actual results may differ from this analysis and the difference may be material.

Currency Risk

As at September 30, 2025 and March 31, 2025, the Fund's investments were denominated in Canadian dollars, the functional currency of the Fund. As a result, the Fund was not exposed directly to currency risk.

Interest Rate Risk

As at September 30, 2025 and March 31, 2025, the Fund did not have a significant exposure to interest rate risk as substantially all of its assets were invested in equities.

Fair Value Hierarchy

The table/tables below summarizes/summarize the inputs used by the Fund in valuing the Fund's investments and derivatives carried at fair value.

Credit Risk

As at September 30, 2025 and March 31, 2025, the Fund had no significant direct exposure to credit risk.

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the credit risk exposure of the Underlying Fund.

As at September 30, 2025 and March 31, 2025, the Underlying Fund did not have a significant exposure to credit risk as substantially all of its assets were invested in equities.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Fund.

As at September 30, 2025 and March 31, 2025, the Underlying Fund was predominantly invested in Canadian equities and therefore was sensitive to changes in general economic conditions in Canada.

As at September 30, 2025, had the fair value of equities in the investment portfolio of the Underlying Fund increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$1,336,000 (March 31, 2025 - \$1,213,000). In practice, the actual results may differ from this analysis and the difference may be material.

as at March 31, 2025~

	Net Assets
Currency	(%)
U.S. Dollar	9.3
Total	9.3

~Includes monetary and non-monetary instruments, if any.

As at September 30, 2025, had the Canadian dollar strengthened or weakened by 10% (March 31, 2025 - 10%) in relation to all other foreign currencies held in the Underlying Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$134,000 (March 31, 2025 - \$113,000). In practice, the actual results may differ from this analysis and the difference may be material.

Interest Rate Risk

As at September 30, 2025 and March 31, 2025, the Fund had no significant direct exposure to interest rate risk.

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the interest rate risk exposure of the Underlying Fund.

As at September 30, 2025 and March 31, 2025, the Underlying Fund did not have a significant exposure to interest rate risk as substantially all of its assets were invested in equities.

Credit Risk

As at September 30, 2025 and March 31, 2025, the Fund did not have a significant exposure to credit risk as substantially all of its assets were invested in equities.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund was predominantly invested in global equities and therefore was sensitive to changes in general economic conditions across the world.

As at September 30, 2025, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$14,648,000 (March 31, 2025 - \$15,306,000). In practice, the actual results may differ from this analysis and the difference may be material.

Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at September 30, 2025~

Credit Risk

As at September 30, 2025 and March 31, 2025, the Fund's exposure to credit risk through derivative instruments was insignificant.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund was predominantly invested in global equities and therefore was sensitive to changes in general economic conditions across the world.

As at September 30, 2025, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$48,396,000 (March 31, 2025 - \$35,860,000). In practice, the actual results may differ from this analysis and the difference may be material.

Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at September 30, 2025~

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$7,383,000 (March 31, 2025 - \$7,002,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

Financial Instruments Risks (Note 10)

Concentration Risk

For Concentration Risk as at September 30, 2025, refer to the Schedule of Investment Portfolio.

The table/tables below summarizes/summarize the Fund's exposure to concentration risk.

as at March 31, 2025

Categories	Net Assets (%)
U.S.A.	64.3
Canada	14.1
U.K.	9.1
Japan	3.4

Total	100.0

Credit Risk

As at September 30, 2025 and March 31, 2025, the Fund's exposure to credit risk through derivative instruments was insignificant.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund was predominantly invested in global equities and therefore was sensitive to changes in general economic conditions across the world.

As at September 30, 2025, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$6,844,000 (March 31, 2025 - \$6,535,000). In practice, the actual results may differ from this analysis and the difference may be material.

As at September 30, 2025, had the Canadian dollar strengthened or weakened by 10% (March 31, 2025 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$4,826,000 (March 31, 2025 - \$4,688,000). In practice, the actual results may differ from this analysis and the difference may be material.

Interest Rate Risk

As at September 30, 2025 and March 31, 2025, the Fund did not have a significant exposure to interest rate risk as substantially all of its assets were invested in equities and derivatives.

Credit Risk

As at September 30, 2025 and March 31, 2025, the Fund did not have a significant exposure to credit risk as substantially all of its assets were invested in equities.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund was predominantly invested in global equities and therefore was sensitive to changes in general economic conditions across the world.

As at September 30, 2025, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$1,499,000 (March 31, 2025 - \$1,335,000). In practice, the actual results may differ from this analysis and the difference may be material.

Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

Credit Risk

As at September 30, 2025 and March 31, 2025, the Fund did not have a significant exposure to credit risk as substantially all of its assets were invested in equities.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund was predominantly invested in foreign equities and therefore was sensitive to changes in general economic conditions across the world.

As at September 30, 2025, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$5,073,000 (March 31, 2025 - \$4,447,000). In practice, the actual results may differ from this analysis and the difference may be material.

Credit Risk

As at September 30, 2025 and March 31, 2025, the Fund did not have a significant exposure to credit risk as substantially all of its assets were invested in equities.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund was predominantly invested in foreign equities and therefore was sensitive to changes in general economic conditions across the world.

As at September 30, 2025, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$589,000 (March 31, 2025 - \$2,596,000). In practice, the actual results may differ from this analysis and the difference may be material.

Credit Risk

As at September 30, 2025 and March 31, 2025, the Fund's exposure to credit risk through derivative instruments was insignificant.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund was predominantly invested in global equities and therefore was sensitive to changes in general economic conditions across the world.

As at September 30, 2025, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$2,207,000 (March 31, 2025 - \$2,324,000). In practice, the actual results may differ from this analysis and the difference may be material.

Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at September 30, 2025~

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Fund.

As at September 30, 2025 and March 31, 2025, the Underlying Fund was predominantly invested in U.S. equities and therefore was sensitive to changes in general economic conditions in the United States.

As at September 30, 2025, had the fair value of equities in the investment portfolio of the Underlying Fund increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$4,841,000 (March 31, 2025 - \$4,617,000). In practice, the actual results may differ from this analysis and the difference may be material.

Currency Risk

As at September 30, 2025 and March 31, 2025, the Fund had no significant direct exposure to currency risk.

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the currency risk exposure of the Underlying Fund.

The table/tables below summarizes/summarize the Underlying Fund's exposure to currency risk.

~Includes monetary and non-monetary instruments, if any.

As at September 30, 2025, had the Canadian dollar strengthened or weakened by 10% (March 31, 2025 - 10%) in relation to all other foreign currencies held in the Underlying Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$4,881,000 (March 31, 2025 - \$4,622,000). In practice, the actual results may differ from this analysis and the difference may be material.

Interest Rate Risk

As at September 30, 2025 and March 31, 2025, the Fund had no significant direct exposure to interest rate risk.

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the interest rate risk exposure of the Underlying Fund.

As at September 30, 2025 and March 31, 2025, the Underlying Fund did not have a significant exposure to interest rate risk as substantially all of its assets were invested in equities and option(s).

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund was invested in global equities and therefore was sensitive to changes in general economic conditions across the world.

As at September 30, 2025, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$84,279,000 (March 31, 2025 - \$75,799,000). In practice, the actual results may differ from this analysis and the difference may be material.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund was exposed to other price risk as some of its assets were invested in equities and Exchange-Traded Fund(s).

As at September 30, 2025, had the fair value of equities and Exchange-Traded Fund(s) in the investment portfolio increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$93,000 (March 31, 2025 - \$97,000). In practice, the actual results may differ from this analysis and the difference may be material.

Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at September 30, 2025~

Other Price Risk

As at September 30, 2025, the Fund was exposed to other price risk as some of its assets were invested in equities.

As at September 30, 2025, had the fair value of equities in the investment portfolio increased or decreased by 10%, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$8,000. In practice, the actual results may differ from this analysis and the difference may be material.

As at March 31, 2025, the Fund's exposure to other price risk through its investment in equities was insignificant.

Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at September 30, 2025~

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)

Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at September 30, 2025~

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	1,485	(1,293)	192	0.9
Total	1,485	(1,293)	192	0.9

~Includes monetary and non-monetary instruments, if any.

As at September 30, 2025, had the Canadian dollar strengthened or weakened by 10% in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$19,000. In practice, the actual results may differ from this analysis and the difference may be material.

As at March 31, 2025, the Fund had no significant exposure to currency risk as most of the Fund's investments were denominated in Canadian dollars, the functional currency of the Fund.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$2,612,000 (March 31, 2025 - \$1,120,000). In practice, actual results may differ from this analysis and the difference may be material.

Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at September 30, 2025~

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	4,272	(1,397)	2,875	10.8
Total	4,272	(1,397)	2,875	10.8

as at March 31, 2025~

U.S. Dollar	1,936	-	1,936	16.9
Total	1,936	-	1,936	16.9

~Includes monetary and non-monetary instruments, if any.

As at September 30, 2025, had the Canadian dollar strengthened or weakened by 10% (March 31, 2025 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$288,000 (March 31, 2025 - \$194,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$48,953,000 (March 31, 2025 - \$43,639,000). In practice, actual results may differ from this analysis and the difference may be material.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$38,088,000 (March 31, 2025 - \$31,869,000). In practice, actual results may differ from this analysis and the difference may be material.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$17,081,000 (March 31, 2025 - \$15,973,000). In practice, actual results may differ from this analysis and the difference may be material.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$22,339,000 (March 31, 2025 - \$18,745,000). In practice, actual results may differ from this analysis and the difference may be material.

Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

Total	28,267	504	28,771	15.0

~Includes monetary and non-monetary instruments, if any.

As at September 30, 2025, had the Canadian dollar strengthened or weakened by 10% (March 31, 2025 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$3,859,000 (March 31, 2025 - \$2,877,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

Other Price Risk

As at September 30, 2025 and March 31, 2025, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at September 30, 2025, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2025 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$12,459,000 (March 31, 2025 - \$12,015,000). In practice, actual results may differ from this analysis and the difference may be material.

CI Corporate Class Limited

Notes to the Financial Statements (unaudited)

1. THE FUNDS

CI Corporate Class Limited (the Corporation) was incorporated on July 8, 1987 under the laws of the Province of Ontario.

Effective April 7, 2025, Sentry Corporate Class Ltd. amalgamated with CI Corporate Class Limited pursuant to the Business Corporations Act (Ontario) (the Amalgamation). Each corporation was a multi-class mutual fund corporation, with each class of non-voting mutual fund shares or special shares, as applicable, having represented a separate mutual fund with a separate investment objective. Each of the outstanding classes of the corporations became separate classes of an amalgamated multi-class mutual fund corporation pursuant to the Amalgamation. The newly amalgamated corporation is referred to as CI Corporate Class Limited.

CI Investments Inc. is the manager (the Manager) of the Funds. The Manager is a wholly owned subsidiary of CI Financial Corp. Effective August 12, 2025, Mubadala Capital, a global alternative asset management platform and subsidiary of Mubadala Investment Company, acquired CI Financial Corp. by way of a statutory plan of arrangement (the Arrangement) under the Business Corporations Act (Ontario). Pursuant to the terms of the Arrangement, among other things, Mubadala Capital acquired all issued and outstanding shares of CI Financial Corp., other than shares held by the CEO of CI Financial Corp. who entered into an equity rollover agreement with Mubadala Capital. CIBC Mellon Trust Company is the administrator (the Administrator) and the custodian (the Custodian) for the Funds. The Bank of New York Mellon is a lending agent (the Lending Agent) for the Funds.

The Corporation's registered office address is 15 York Street, Second Floor, Toronto, Ontario, M5J 0A3.

These financial statements were authorized for issue by the Manager on November 20, 2025.

The Corporation is authorized to issue an unlimited number of non-cumulative, redeemable, restricted voting, convertible special shares of various designated Classes and an unlimited number of common shares. Each designated Class of shares holds a separate proprietary right in the investments and net assets acquired specifically for that Class of shares. Each Class of shares has a right of conversion to any other Class of shares of the Corporation.

Each Class of shares is referred to as a Fund.

The objective of each Fund is to pool and manage money contributed by investors (the shareholders) with similar investment goals. The Funds may invest in equities, fixed income securities, derivatives, underlying fund(s) or some combination thereof according to their specific investment objectives and strategies. Investments may be held for income or capital appreciation, or both. Shareholders share a Fund's income, expenses, and any gains or losses a Fund makes on its investments generally in proportion to the value of the shares they own.

These financial statements only present the financial information of each of the Classes presented as separate reporting entities. If a Class cannot satisfy its obligations, the other Classes may be required to satisfy those obligations using assets attributable to those Classes. The Manager believes the risk of such cross Class liability is remote.

The following Funds are a Class of shares of the Corporation. The "Inception Date" is the date upon which shares of a series of a Fund commenced operations.

Effective as of close of business on April 5, 2025, the following Funds merged:

Terminating Fund	Continuing Fund
CI Resource Opportunities Class	CI Global Resource Corporate Class

The Manager adopted the acquisition method of accounting for the merger of the Funds. Under this method, one of the Funds is identified as the acquiring Fund and is referred to as the "Continuing Fund", and the other Fund involved in the merger is referred to as the "Terminating Fund". This identification is based

on a comparison of the relative net asset value of the Funds as well as consideration of the continuation of such aspects of the Continuing Fund as investment objectives and practices and type of portfolio securities.

Effective as of the close of business on April 5, 2025, the Continuing Fund acquired all of the net assets of the Terminating Fund in exchange for shares in the Continuing Fund. The value of the shares of the Continuing Fund issued in connection with this merger, was equal to the net assets transferred from the Terminating Fund. The cost associated with the merger was borne by the Manager.

The Statements of Financial Position are as at September 30, 2025 and March 31, 2025. The Statements of Comprehensive Income, Changes in Net Assets Attributable to Holders of Redeemable Shares and Cash Flows are for the periods ended September 30, 2025 and 2024, except for Funds established during either period, in which case the information provided relates to the period from inception to September 30, 2025 and 2024, as applicable.

2. MATERIAL ACCOUNTING POLICY INFORMATION

These financial statements have been prepared in compliance with *International Financial Reporting Standards* (IFRS) as published by the International Accounting Standards Board.

The following is the material accounting policy information of the Funds:

a. Classification and recognition of financial instruments

The Funds classify and measure their investments (such as fixed income securities, equity securities, investment fund(s), exchange-traded fund(s) and derivatives) based on both the Funds' business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The Funds' portfolios of financial assets are managed, and performance is evaluated on a fair value basis. The Funds are primarily focused on fair value information and use that information to assess the assets' performance and to make decisions. The contractual cash flows of the Funds' debt securities are solely principal and interest; however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Funds' business model's objective. Consequently, all investments and derivatives are measured at fair value through profit or loss (FVTPL). Short sales are classified as financial liabilities at FVTPL. Derivative contracts that have a negative fair value are presented as liabilities at FVTPL.

The Funds' obligations for net assets attributable to holders of redeemable shares are presented at the redemption amount, which approximates their fair value. All other financial assets and liabilities are measured at amortized cost, which approximates fair value. Under this method, financial assets and liabilities reflect the amount required to be received or paid, discounted, when appropriate, at the effective rate of interest.

Financial assets and liabilities are offset, and the net amounts are presented in the Statements of Financial Position when, and only when, the Funds have a legal right to offset the amounts and intend either to settle on a net basis or to realize the asset and settle the liability simultaneously. In the normal course of business, the Funds enter into various master netting agreements or similar agreements that do not meet the criteria for offsetting in the Statements of Financial Position, but still allow for the related amounts to be offset in certain circumstances, such as bankruptcy or termination of the contracts.

b. Fair value of financial instruments

At the financial reporting date, listed securities are valued based on the last traded market price for financial assets and financial liabilities where the last traded price falls within the day's bid-ask spread.

CI Corporate Class Limited

Notes to the Financial Statements (unaudited) (cont'd)

In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on the existing market conditions. Unlisted securities are valued based on price quotations from recognized investment dealers, or failing that, their fair value is determined by the Manager based on the latest reported information available. Unlisted warrants, if any, are valued based on a pricing model that considers factors such as the market value of the underlying security, strike price and terms of the warrant. Fixed income securities, debentures and other debt instruments, including short-term investments, are valued at the quotation received from recognized investment dealers. Underlying fund(s) are valued on each business day at their NAV as reported by the underlying fund's/fund(s) managers.

The fair value of securities where no market price exists is determined by using valuation models that may be based, in part, on assumptions that are not supported by observable market inputs. These methods and procedures may include, but are not limited to, performing comparisons with prices of comparable or similar securities, obtaining valuation-related information from issuers and/or other analytical data relating to the investment and using other available indications of value. These values are independently assessed by the Manager to ensure that they are reasonable. However, because of the inherent uncertainty of valuation, the estimated fair values for these securities may be materially different from the values that would have been used had a ready market for the investment existed. The fair values of securities where no market price exists are affected by the perceived credit risks of the issuer, predictability of cash flows and the length of time to maturity.

c. Cash

Cash comprised of cash on deposit and bank overdraft.

d. Cost of investments

Cost of investments represents the amount paid for each security and is determined on an average cost basis excluding commissions and transactions costs. Average cost does not include amortization of premiums or discounts on fixed income securities with the exception of zero-coupon bonds.

e. Investment transactions and income recognition

Investment transactions are recorded on the trade date - the date on which a Fund commits to purchase or sell the investment. The interest for distribution purposes, disclosed in the Statements of Comprehensive Income, represents the coupon interest received by the Funds and is accounted for on an accrual basis. The Funds do not amortize premiums paid or discounts received on the purchase of fixed income securities except for zero-coupon bonds, which are amortized on a straight-line basis.

Dividends and distributions from investments are recognized on the ex-dividend/ex-distribution date.

Distributions received from income trust(s) and underlying fund(s) holdings are recorded as income, capital gains or a return of capital based on the best information available to the Manager. Due to the nature of these investments, actual allocations could vary from this information. Distributions from income trust(s) and underlying fund(s) that are treated as a return of capital for income tax purposes reduce the average cost of the income trust(s) and underlying fund(s).

f. Functional and presentation currency

The Funds' functional and presentation currency is the Canadian dollar, except for CI U.S. Money Market Corporate Class as this Fund's functional and presentation currency is the U.S. dollar. For Funds that offer Series AH, Series FH, Series IH, Series PH and Series WH shares, the NAV per share for those series is stated in U.S. dollars.

g. Foreign exchange

Foreign currency amounts are translated into the functional currency as follows: fair value of investments, foreign currency forward contracts and other assets and liabilities at the closing rate of exchange on each business day; income and expenses, purchases and sales and settlements of investments at the rate of exchange prevailing on the respective dates of such transactions. Foreign exchange gains (losses) relating to cash are presented as "Foreign exchange gain (loss) on cash" and those relating to other financial assets and liabilities are presented within "Net realized gain (loss) on sale of investments and derivatives" and "Change in unrealized appreciation (depreciation) in value of investments and derivatives" in the Statements of Comprehensive Income.

h. Share valuation

NAV per share of each series is calculated at the end of each day on which the Manager is open for a full day of business by dividing the total NAV of each series of a Fund by the number of shares of that series outstanding.

The NAV of each series is computed by calculating the value of that series' proportionate share of the Fund's assets less that series' proportionate share of the Fund's common liabilities and less series-specific liabilities. Expenses directly attributable to a series are charged to that series. Other income and expenses, and gains and losses, are allocated to each series proportionately based upon the relative total NAV of each series.

As at September 30, 2025, March 31, 2025 and September 30, 2024, there were no differences between the NAV used for transactions with shareholders and the net assets attributable to holders of redeemable shares used for reporting purposes under IFRS.

i. Classification of shares

The shares of each of the Funds are classified as financial liabilities in accordance with IAS 32, *Financial Instruments: Presentation* (IAS 32), as they do not meet the definition of puttable instruments to be classified as equity in accordance with IAS 32 for financial reporting purposes.

j. Commissions and other portfolio transaction costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities, are included in "Commissions and other portfolio transaction costs" in the Statements of Comprehensive Income. Funds that only invest in units/shares of underlying fund(s) are not subject to transaction costs.

k. Increase (decrease) in net assets attributable to holders of redeemable shares per share

"Increase (decrease) in net assets attributable to holders of redeemable shares per share" in the Statements of Comprehensive Income is calculated by dividing the increase (decrease) in net assets attributable to holders of redeemable shares of each series of a Fund by the weighted average number of shares of that series outstanding during the period.

l. Foreign currency forward contract(s)

A Fund may, from time to time, enter into foreign currency forward contracts. Foreign currency forward contracts are valued on each valuation day based on the difference between the contract rate and the current forward rates at the measurement date applied to the contract's notional amount and adjusted for counterparty risk. All unrealized gains (losses) arising from foreign currency forward contracts are recorded as part of "Change in unrealized appreciation (depreciation) in value of investments and derivatives" in the Statements of Comprehensive Income and "Unrealized gain (loss) on futures and foreign currency forward contracts" in the Statements of Financial Position until the contracts are closed out or expire, at which time the gains (losses) are realized and reported as "Net realized gain (loss) on sale of investments and derivatives" in the Statements of Comprehensive Income.

CI Corporate Class Limited

Notes to the Financial Statements (unaudited) (cont'd)

m. Option contract(s)

Over-the-counter (OTC) options are valued using the Black-Scholes model, whereas exchange-traded options are valued at the last traded price taken from the exchange. Option contracts are valued on each valuation day according to the gain or loss that would be realized if the contract were closed out. All unrealized gains (losses) arising from option contracts are recorded as part of "Change in unrealized appreciation (depreciation) in value of investments and derivatives" in the Statements of Comprehensive Income until the contracts are closed out or expire, at which time the gains (losses) are realized and reflected in the Statements of Comprehensive Income in "Net realized gain (loss) on sale of investments and derivatives". Any expired option premiums are recorded as part of "Derivative income (loss)" in the Statements of Comprehensive Income.

n. Short selling

When a Fund sells a security short, it will borrow that security from a broker to complete the sale. As the Fund borrows a security from the broker, the Fund is required to maintain a margin account with the broker containing cash or liquid securities. The liquid securities held on margin in respect of short sale activity is included in the "Investments pledged as collateral" in the Statements of Financial Position. The maximum loss on securities sold short can be unlimited. The Fund will incur a loss because of a short sale if the price of the borrowed security increases between the date of the short sale and the date on which the Fund closes out its short position by buying that security. The Fund will realize a gain if the security declines in price between those dates. The gain or loss that would be realized if the position was to be closed out on the valuation date is reflected in the Statements of Comprehensive Income as part of "Change in unrealized appreciation (depreciation) in value of investments and derivatives" and in the Statements of Financial Position in "Investments sold short". When the short position is closed out, gains and losses are realized and included in "Net realized gain (loss) on sale of investments and derivatives" in the Statements of Comprehensive Income. Fees paid to a broker for borrowing a security are included in "Securities borrowing fees" in the Statements of Comprehensive Income.

o. Offsetting of financial instruments

The disclosures set out in the Offsetting of Financial Instruments tables in the Fund Specific Notes to Financial Statements of each Fund, where applicable, include foreign currency forward contract assets and liabilities that are subject to an enforceable master netting arrangement. Transactions with individual counterparties are governed by separate master netting agreements. Each agreement allows for net settlement of certain open contracts where the Funds and respective counterparty both elect to settle on a net basis. In the absence of such an election, contracts will be settled on a gross basis. However, each party to the master netting agreement will have the option to settle all open contracts on a net basis in the event of default of the other party. All other derivative instruments held by the Funds are settled on a gross basis.

International Swaps and Derivatives Association Inc. Master Agreements (ISDA Master Agreements) govern OTC financial derivative transactions entered into by the Funds and select counterparties. The ISDA Master Agreements maintain provisions for general obligations, representations, agreements, collateral and events of default or termination. Events of termination include conditions that may entitle counterparties to elect to terminate early and cause settlement of all outstanding transactions under the applicable ISDA Master Agreement. Any election to terminate early could be material to the financial statements. The fair value of OTC financial derivative transactions net of collateral received in or pledged by a counterparty is disclosed in the Fund Specific Notes to Financial Statements.

Funds may be subject to various master agreements or netting arrangements with select counterparties. These master agreements reduce the counterparty risk associated with relevant transactions by specifying credit protection mechanisms and providing standardization that improves legal certainty.

Since different types of transactions have different mechanics and are sometimes traded out of different legal entities of a particular counterparty organization, each type of transaction may be covered by a different master agreement resulting in the need for multiple agreements with a single counterparty. As the master agreements are specific to unique operations of different asset types, they allow the Funds to close out and net their total exposure to a counterparty in the event of a default with respect to the transactions governed under a single agreement with a counterparty.

p. Investments in associates, joint ventures, subsidiaries and unconsolidated structured entities

Subsidiaries are entities, including investments in other investment entities, over which a Fund has control. A Fund controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity, and has the ability to affect those returns through its power over the entity. Associates and joint ventures are investments over which a Fund has significant influence or joint control. A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factors in deciding who controls the entity, or when voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements.

The Manager has determined that underlying fund(s) or exchange-traded fund(s) (ETF(s)) held typically by the Funds meet the definition of structured entities. The Funds account for their investments in unconsolidated structured entities at FVTPL.

The Funds that invest in underlying fund(s) are subject to the terms and conditions of the respective underlying fund's offering documents and are susceptible to market price risk arising from uncertainties about future values of those underlying fund(s). All of the underlying fund(s) in the investment portfolio are managed by portfolio managers who are compensated by the respective underlying fund for their services. Such compensation generally consists of an asset-based fee and is reflected in the valuation of each of the underlying fund(s), except when the Funds invest in certain series/classes of the underlying fund(s) where the compensation to portfolio managers is negotiated and paid outside each of the underlying fund(s). The underlying fund(s) finance their operations by issuing redeemable units/shares that entitle the holders to an equal beneficial interest in a respective underlying fund. The Funds can redeem their investments in the underlying fund(s) on a daily basis.

Certain Funds invest in ETF(s). The ETF(s) finance their operations by issuing redeemable shares, which are puttable at the holder's option and entitle the holder to a proportional stake in each ETF's NAV. The ETF(s) are domiciled in Canada, the U.S. and Japan and listed on recognized public stock exchanges.

The Funds' investments in underlying fund(s) or ETF(s) are accounted for at FVTPL and included in "Investments" in the Statements of Financial Position. All unrealized gains (losses) arising from these investments are recorded as part of "Change in unrealized appreciation (depreciation) in value of investments and derivatives" in the Statements of Comprehensive Income until these investments are sold, at which time the gains (losses) are realized and reflected in the Statements of Comprehensive Income in "Net realized gain (loss) on sale of investments and derivatives".

The Funds' maximum exposure to loss from their interest in underlying fund(s) and ETF(s) is equal to the total fair value of their investments in these unconsolidated structured entities.

Additional information related to Interest in Unconsolidated Structured Entities for each of the Funds appears under the Fund Specific Notes to Financial Statements.

CI Corporate Class Limited

Notes to the Financial Statements (unaudited) (cont'd)

q. Withholding taxes

A Fund may, from time to time, incur withholding taxes imposed by certain countries on investment income and capital gains. Such income and gains are recorded on a gross basis and the related withholding taxes are shown separately in the Statements of Comprehensive Income.

r. Harmonized Sales Tax

Certain provinces including Ontario, Prince Edward Island, Nova Scotia, New Brunswick and Newfoundland and Labrador (each a Participating Tax Jurisdiction) have harmonized their provincial sales tax (PST) with the federal goods and services tax (GST). The Harmonized Sales Tax (HST) combines the federal GST rate of 5% with the PST rate of the participating provinces. The Province of Quebec also applies the Quebec sales tax (QST). The provincial HST liability or refund is calculated using the residency of shareholders and the value of their interest in a Fund as at specific times, rather than the physical location of a Fund. The effective sales tax rate charged to each series of a Fund is based on the shareholders' proportionate investments by province, using each province's HST rate, GST rate in the case of non-participating provinces and/or QST rate. All amounts are presented as "Harmonized Sales Tax" in the Statements of Comprehensive Income.

s. Non-cash transactions

Non-cash transactions included in the Statements of Cash Flows include reinvested distributions from the underlying mutual fund(s) and stock dividends from equity investments as well as acquisition of assets from terminated funds. Reinvested distributions from the underlying mutual fund(s) and stock dividends from equity investment amounts represent non-cash income recognized in the Statements of Comprehensive Income.

The "Proceeds from issuance of redeemable shares" and "Amounts paid on redemption of redeemable shares" in the Statements of Cash Flows exclude non-cash transactions.

t. New standards, amendments and interpretations not yet effective

A number of new standards, amendments to standards and interpretations are not yet effective as of September 30, 2025 and have not been applied in preparing these financial statements.

i) *Classification and Measurement of Financial Instruments* (Amendments to IFRS 9 and IFRS 7)

In May 2024, the IASB issued amendments to IFRS 9 and IFRS 7. Among other amendments, IASB clarified that a financial liability is derecognised on the 'settlement date' and introduced an accounting policy choice to derecognise financial liabilities settled using an electronic payment system before the settlement date. These amendments are effective for annual periods beginning on or after January 1, 2026, with early adoption permitted.

ii) *IFRS 18 Presentation and Disclosure in Financial Statements*

In April 2024, the IASB issued IFRS 18, which replaces IAS 1 *Presentation of Financial Statements*. It introduces several new requirements that are expected to impact the presentation and disclosure of the financial statements. These include:

- The requirement to classify all income and expense into specified categories and provide specified totals and subtotals in the statement of profit or loss.
- Enhanced guidance on the aggregation, location and labeling of items across the financial statements and the notes to the financial statements.
- Required disclosures about management-defined performance measures.

IFRS 18 is effective for annual periods beginning on or after January 1, 2027, with early adoption permitted.

The Funds are currently assessing the effect of the above standard and amendments. No other new standards, amendments and interpretations are expected to have a material effect on the financial statements of the Funds.

3. CRITICAL ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of these financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities at the reporting date and the reported amounts of income and expenses during the reporting period. The following discusses the most significant accounting judgments and estimates that the Funds have made in preparing their financial statements:

Fair value measurement of investments and derivatives not quoted in an active market

The Funds may, from time to time, hold financial instruments that are not quoted in active markets, such as unlisted securities, private securities or derivatives. Unlisted securities are valued based on price quotations from recognized investment dealers, or failing that, their fair value is determined by the Manager based on the latest reported information available. The fair value of private securities is determined by using valuation models that may be based, in part, on assumptions that are not supported by observable market inputs. These methods and procedures may include, but are not limited to, performing comparisons with prices of comparable or similar securities, obtaining valuation-related information from issuers and/or other analytical data relating to the investment and using other available indications of value. These values were independently assessed by the Manager based on assumptions and estimates on parameters available when the financial statements were prepared. However, because of the inherent uncertainty of valuation, the estimated fair values for these securities may be materially different from the values that would have been used had a ready market for the investment existed. The fair values of private securities are affected by the perceived credit risks of the issuer, predictability of cash flows and the length of time to maturity.

Valuation models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities, correlations and key assumptions concerning future developments require the Manager to make estimates. Changes in assumptions about these factors could affect the reported fair values of financial instruments.

The Funds consider observable data to be market data that is readily available, regularly distributed and updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The fair value of investments in underlying fund(s) that are not quoted in active markets is determined primarily by reference to the latest available NAV of such units/shares for each underlying fund, as determined by the underlying fund's/funds' managers.

IFRS 10, Consolidated Financial Statements (IFRS 10)

In accordance with IFRS 10, the Manager has determined that the Funds meet the definition of an Investment Entity, which requires that the Funds obtain funds from one or more investors for the purpose of providing investment management services; commit to their investors that their business purpose is to invest funds solely for returns from capital appreciation, investment income, or both; and measure and evaluate the performance of their investments on a fair value basis. Consequently, the Funds do not consolidate their investments in subsidiaries, if any, but instead measure these at FVTPL, as required by the accounting standard.

Notes to the Financial Statements (unaudited) (cont'd)

4. REDEEMABLE SHARES

Redeemable shares issued and outstanding represent the capital of each Fund.

Each Fund is authorized to issue an unlimited number of redeemable, transferable shares of each series. Generally, the Funds have no restrictions or specific capital requirements, except for the minimum subscription/redemption amounts. The relevant changes pertaining to subscription and redemption of each Fund's shares are disclosed in the Statements of Changes in Net Assets Attributable to Holders of Redeemable Shares. In accordance with the objectives and risk management policies outlined in Notes 1 and 10, the Funds endeavour to invest subscriptions received in appropriate investments while maintaining sufficient liquidity to meet redemptions through utilizing a short-term borrowing facility or disposal of investments when necessary.

Redeemable share transaction information appears in the Fund Specific Notes to Financial Statements of each of the Funds.

In order to establish each individual series, the Manager has made initial investments in certain Funds.

As at September 30, the Manager held investments in the following Funds:

5. FEES AND OTHER EXPENSES

Management fees

The Manager of the Corporation, in consideration for management fees, provides management services required in the day-to-day operations of the Funds including management of the investment portfolios of the Funds and provision of key management personnel.

The management fees are calculated and accrued daily based on a percentage of the NAV of each series of a Fund (other than Series I, DI, IH, IT5, IT8, O, OT5, OT8, P, PH, PP, PT5, PT8 and Series W and WT8 shares of United Corporate Classes and Series offered under Private Client Managed Portfolios) on the preceding business day, and are subject to application taxes including G.S.T., H.S.T. and any applicable provincial sales taxes and fees are generally paid daily or, in certain cases, monthly.

Investors in Series I, DI, IH, IT5, IT8, O, OT5, OT8, P, PH, PP, PT5, PT8 and Series W and WT8 shares of United Corporate Classes and Series offered under Private Client Managed Portfolios are charged management fees directly as negotiated between the investor and the Manager.

The Manager may waive management fees or absorb expenses of certain Funds at its sole discretion and may stop waiving or absorbing such fees or expenses at any time without notice. Amounts waived or absorbed are reported in the Statements of Comprehensive Income, as applicable.

During the period ended September 30, 2025, the Manager absorbed a total of \$16,000 (March 31, 2025 - \$24,000) in management fees for CI Auspice Alternative Diversified Corporate Class.

Administration fees

The Manager bears all of the operating expenses of the Funds (other than certain taxes, brokerage and borrowing costs, new governmental fees, new types of expenses that are not commonly charged in the Canadian mutual fund industry and operating expenses considered outside of the normal course of business of a Fund) in return for administration fee. Administration fees are calculated and accrued daily based on a percentage of the NAV of each series of a Fund (other than Series I, DI, IH, IT5 and IT8) on the preceding business day and are subjected to applicable taxes including G.S.T., H.S.T. and any applicable provincial sales taxes and are paid daily or, in certain cases, monthly.

Investors in Series I, DI, IH, IT5 and IT8 shares are charged administration fees directly as negotiated between the investor and the Manager.

CI Money Market Corporate Class, CI U.S. Money Market Corporate Class and CI Money Market Class pay no administration fee.

Fee rebates

The Manager may reduce the management and/or administration fees based on the size of a shareholder investment or participation in a program offered by the Manager for larger accounts. The Manager may also reduce management fees if a reduced trailing commission has been negotiated between a shareholder and the shareholder representative based on relevant documentation provided to the Manager. Following the end of each quarter, the amount of any management and/or administration fee reduction is rebated to qualified shareholders by the Fund in the form of a reinvestment in additional shares of the respective series of the Fund. The management and/or administration fee rebates, if applicable, are included in "Fees rebate receivable" and in "Fees rebate" as reflected in the Statements of Financial Position and Statements of Comprehensive Income of each Fund, as applicable. The Manager may reduce or waive the management and/or administration fees without giving notice to shareholders.

Investments in underlying fund(s)

A Fund that invests in units/shares of underlying fund(s) will not pay a duplicate management and administration fee on the portion of assets that are invested in units/shares of underlying fund(s). During the reporting period, a Fund may have received a management and/or administration fee rebate from the underlying fund's/fund(s)' manager relating to its investment in the underlying fund(s). The management and/or administration fee rebates, if applicable, are included in "Fees rebate receivable" and in "Fees rebate" as reflected in the Statements of Financial Position and Statements of Comprehensive Income of each of the Funds, as applicable.

Performance fees

The Manager receives a performance fee in respect of each series of shares of CI Auspice Alternative Diversified Corporate Class. Each series of securities of the CI Auspice Alternative Diversified Corporate Class pays a performance fee to the Manager semi-annually at the end of June and December equal to:

(i) 20% (or 15% in the case of Series I and L securities) of the amount by which the NAV per share at the end of such semi-annual period (before giving effect to any distributions by the CI Auspice Alternative Diversified Corporate Class since the High Water Mark (as defined below) was determined, and adjusted to exclude the accrual of the Performance Fee during the semi-annual period) exceeds the High Water Mark multiplied by one plus the Hurdle Rate (as defined below);

multiplied by

(ii) the number of shares of such series outstanding at the end of such semi-annual period.

High Water Mark

For each series of the CI Auspice Alternative Diversified Corporate Class, the "High Water Mark" as at the beginning of each semi-annual period means: (i) the initial NAV per share, (ii) the NAV at the end of the most recently completed semi-annual period for which a Performance Fee was paid after giving effect to all distributions in, and payments of Performance Fees for, such semi-annual period, or (iii) the highest NAV calculated as at the end of any preceding Performance Fee calculation period, after giving effect to all distributions in such period, that was higher than a previously set High Water Mark but less than its Hurdle Rate at the time of calculation.

The High Water Mark will be reduced by the amount of any distribution paid in respect of shares of the CI Auspice Alternative Diversified Corporate Class that represents a return of capital. For greater certainty, the High Water Mark at the beginning of each semi-annual period shall not be set to a value lower than any previous semi-annual period's High Water Mark used for Performance Fee calculation purposes.

CI Corporate Class Limited

Notes to the Financial Statements (unaudited) (cont'd)

Hurdle Rate

The "Hurdle Rate" for the CI Auspice Alternative Diversified Corporate Class is the 90-day Government of Canada Treasury Bill rate.

In the event that the Hurdle Rate for the CI Auspice Alternative Diversified Corporate Class as determined in accordance with the foregoing is negative, the Hurdle Rate will be assumed to be nil for the purposes of calculating the Performance Fee.

If any shares of the CI Auspice Alternative Diversified Corporate Class are redeemed prior to the end of a semi-annual period, a Performance Fee may be payable on the redemption date in respect of each such share, as if the redemption date were the end of the semi-annual period, in the same manner as described above. For greater certainty, the Hurdle Rate for the CI Auspice Alternative Diversified Corporate Class will be prorated in the calculation of the Performance Fee on a share redeemed during the semi-annual period.

Performance Fees are calculated and accrued daily and are subject to applicable taxes.

The Manager reserves the right, in its discretion, to discontinue, decrease or waive the Performance Fee payable by the CI Auspice Alternative Diversified Corporate Class at any time.

Refer to the Management and Administration Fees table in the Fund Specific Notes to the Financial Statements for the management and administrative fee rates applicable to each series of each of the Funds.

6. SECURITIES LENDING

Certain Funds have entered into a securities lending program with the Lending Agent. The aggregate market value of all securities loaned by a Fund cannot exceed 50% of the assets of the Fund. A Fund will receive collateral of at least 102% of the value of securities on loan. Collateral will generally be comprised of cash and obligations of or guaranteed by the Government of Canada or a province thereof, or by the United States government or its agencies, but may include obligations of other governments with appropriate credit ratings. For those Funds participating in the program, amounts for securities loaned and the collateral received as well as reconciliation between gross securities lending revenue and securities lending revenue received by each Fund appears in the Fund Specific Notes to Financial Statements. Revenue from securities lending is included in "Securities lending revenue" in the Statements of Comprehensive Income.

7. INCOME TAXES

The Corporation presently qualifies as a "mutual fund corporation" as defined in the *Income Tax Act* (Canada). The Corporation computes its net income (loss) and net capital gains (losses) for income tax purposes as a single entity. Net losses of one Fund may be used to offset net gains of another Fund to reduce the net income or net gain of the Corporation as a whole. As a mutual fund corporation, the Corporation is subject to Part IV federal tax. Taxable dividends received from taxable Canadian corporations are subject to a tax of 38 1/3%. Such taxes are fully refundable upon payment of taxable dividends to its shareholders. The Corporation is also subject to Part I tax on other income and taxable capital gain for the year. All tax on net taxable realized capital gains is refundable when the gains are distributed to shareholders as capital gains dividends or through redemption of shares at the request of shareholders, while the Corporation qualifies as a mutual fund corporation. Accordingly, the Corporation does not record a provision for income taxes in respect of dividends from taxable Canadian corporations and capital gains. Interest income and foreign dividends, net of applicable expenses, are taxed at full corporate rates applicable to mutual fund corporations with credits, subject to certain limitations, for foreign taxes paid. Income taxes (if any) are allocated to the Funds of the Corporation on a reasonable basis.

Certain Funds may be subject to foreign taxation related to income received, capital gains on the sale of securities and certain foreign currency transactions in the foreign jurisdictions in which it invests. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Funds invest. When a capital gain tax is determined to apply, the Funds record an estimated tax liability in an amount that would be payable if the securities were disposed of on the valuation date.

The tax payable and tax recoverable amounts are included in "Other" in the Statements of Financial Position.

8. REINVESTMENT OF DIVIDENDS

When a Fund pays a dividend to a shareholder, it will be paid in the same currency in which the shares are held. Dividends are automatically reinvested without charge in the same Fund or paid out in cash to the shareholder. The Manager may change the dividend policy at its discretion.

9. RELATED PARTY TRANSACTIONS

The Funds may have direct or indirect holdings in other funds managed by the Manager.

The Manager of the Funds may, from time to time, make initial investments in certain series of certain Funds to help establish a series or a Fund. Details of the investments made by the Manager are disclosed in Note 4.

Related fund trading

Related fund trading occurs when a Fund purchases or sells units/shares of another Fund managed by the Manager. During the periods ended September 30, 2025 and 2024, certain Funds engaged in related fund trading or held position(s) in related fund(s) at the end of each period. With respect to the Fund's investment in CI Private Markets Growth Fund and/or CI Private Markets Income Fund, please note that certain underlying funds are managed by the Manager or an associate of the Manager, including CI Adams Street Global Private Markets Fund and CI HarbourVest Private Infrastructure Income Fund.

Inter-fund trading

Inter-fund trading occurs when a Fund purchases or sells a security of any issuer from or to another Fund managed by the Manager. These transactions are executed through market intermediaries and under prevailing market terms and conditions. The Independent Review Committee reviews such transactions during scheduled meetings. During the periods ended September 30, 2025 and 2024, the Funds executed inter-fund trades.

10. FINANCIAL INSTRUMENTS RISK

Risk management

The Funds are exposed to a variety of financial instruments risks: leverage and short selling risk, concentration risk, credit risk, liquidity risk and market risk (including other price risk, currency risk and interest rate risk). The level of risk to which each Fund is exposed depends on the investment objective and the type of investments the Fund holds. The value of investments within a portfolio can fluctuate daily as a result of changes in prevailing interest rates, economic and market conditions, political changes, global pandemics and company-specific news related to investments held by the Fund. The Manager of the Funds may minimize potential adverse effects of these risks on the Funds' performance by, but not limited to, regular monitoring of the Funds' positions and market events, diversification of the investment portfolio by asset type, country, sector, term to maturity within the constraints of the stated objectives, and through the usage of derivatives to hedge certain risk exposures.

CI Corporate Class Limited

Notes to the Financial Statements (unaudited) (cont'd)

Leverage and short selling risk

When a Fund makes investments in derivatives, borrows cash for investment purposes, or uses physical short sales on equities or other portfolio assets, leverage may be introduced into the Fund. Leverage occurs when the Fund's notional exposure to underlying assets is greater than the amount invested. It is an investment technique the magnifies gains and losses. Consequently, any adverse change in the value or level of the underlying asset, rate or index may amplify losses compared to those that would have been incurred if the underlying asset had been directly held by the Fund and may result in losses greater than the amount invested in the derivative itself. Leverage may increase volatility, may impair the Fund's liquidity, and may cause the Fund to liquidate positions at unfavorable times.

Concentration risk

Concentration risk arises as a result of the concentration of exposures within the same category, whether it is a geographical allocation, asset type, industry sector or counterparty.

Details of each Fund's exposure to concentration risk are available in the Fund Specific Notes to Financial Statements of each of the Funds.

Credit risk

Credit risk is the risk that a security issuer or counterparty to a financial instrument will fail to meet its financial obligations. The fair value of a debt instrument includes consideration for the creditworthiness of the debt issuer. The carrying amount of debt instruments as shown on the Schedule of Investment Portfolio represents the credit risk exposure of each Fund. Credit risk exposure for derivative instruments is based on each Fund's unrealized gain on the contractual obligations with the counterparty as at the reporting date. The credit rating of a counterparty to a derivative instrument is disclosed in the Schedule of Investment Portfolio or in Fund Specific Notes to Financial Statements of each Fund, if applicable. The credit risk exposure of the Fund's other assets is represented by their carrying amount as disclosed in the Statements of Financial Position.

The Funds that only invest in units/shares of underlying fund(s)/ETF(s) may be exposed to indirect credit risk in the event that the underlying fund(s)/ETF(s) invest in debt instruments, preferred securities or derivatives.

Credit ratings for debt securities, preferred securities and derivative instruments are obtained from S&P Global Ratings, where available; otherwise, ratings are obtained from: Moody's Investors Service or Dominion Bond Rating Service, respectively.

Credit ratings can be either long-term or short-term. Short-term credit ratings are generally assigned to those obligations and derivative instruments considered short-term in nature. The table below provides a cross-reference between the long-term credit ratings disclosed in the Credit Risk table inclusive of the short-term credit ratings disclosed in the derivatives schedules in the Schedule of Investment Portfolio.

Credit Rating as per Credit Risk Table	Credit Rating as per Derivatives Schedules
AAA/Aaa/A++	A-1+
AA/Aa/A+	A-1, A-2, A-3
A	B, B-1
BBB/Baa/B++	B-2
BB/Ba/B+	B-3
B	C
CCC/Caa/C++	-
CC/Ca/C+	-
C and Lower	D
Not Rated	WR

Cash balances, with the exception of restricted cash balances and margin accounts, as disclosed in the Statements of Financial Position, are maintained by the Custodian. The Manager monitors the creditworthiness of the Custodian on a regular basis. As at September 30, 2025, the credit rating of the Custodian was AA (March 31, 2025 – AA).

All transactions executed by a Fund in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

Liquidity risk

Liquidity risk is the risk that a Fund may not be able to settle or meet its obligations on time or at a reasonable price. The Funds are exposed to daily cash redemption of redeemable shares. Therefore, the Funds invest the majority of their assets in investments that are traded in active markets and can be readily disposed of. In addition, the Funds retain sufficient cash and cash equivalents positions to maintain liquidity. From time to time, the Funds may enter into derivative contracts or invest in unlisted securities that may not trade in an organized market and may be illiquid. All financial liabilities are due within three months.

Market risk

The Funds' investments are subject to market risk, which is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market conditions.

Other price risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from currency risk or interest rate risk). The value of each investment is influenced by the outlook of the issuer and by general economic and political conditions, as well as industry and market trends. All securities present a risk of loss of capital. Except for options written, future contracts sold short and investments sold short, the maximum risk resulting from financial instruments is equivalent to their fair value. On written call options, short future positions and on equity and debt sold short, the maximum loss of capital can be unlimited.

Other assets and liabilities are monetary items that are short-term in nature and therefore are not subject to significant other price risk.

Currency risk

Currency risk arises from financial instruments that are denominated in a currency other than the functional currency of the Funds. As a result, the Funds may be exposed to the risk that the value of securities denominated in other currencies will fluctuate due to changes in exchange rates. The Schedule of Investment Portfolio identifies all bonds and derivative instruments denominated in foreign currencies. Equities traded in foreign markets are also exposed to currency risk as the prices denominated in foreign currencies are converted to the Funds' functional currency to determine their fair value.

The Funds that only invest in units/shares of underlying fund(s)/ETF(s) may be exposed to indirect currency risk in the event that the underlying fund(s)/ETF(s) invest in financial instruments that are denominated in a currency other than the functional currency of the Funds.

Interest rate risk

Interest rate risk is the risk that the fair value of interest-bearing investments will fluctuate due to changes in prevailing levels of market interest rates. As a result, the value of the Funds that invest in debt securities and/or income trusts will be affected by changes in applicable interest rates. If

CI Corporate Class Limited

Notes to the Financial Statements (unaudited) (cont'd)

interest rates fall, the fair value of existing debt securities may increase due to the increase in yield. Alternatively, if interest rates rise, the yield of existing debt securities may decrease, which may then lead to a decrease in their fair value. The magnitude of the decline will generally be greater for long-term debt securities than for short-term debt securities.

Interest rate risk also applies to convertible securities. The fair value of these securities varies inversely with interest rates, similar to other debt securities. However, since they may be converted into common shares, convertible securities are generally less affected by interest rate fluctuations than other debt securities.

The Funds that only invest in units/shares of underlying fund(s)/ETF(s) may be exposed to indirect interest rate risk in the event that the underlying fund(s)/ETF(s) invest in interest-bearing financial instruments.

Fair value hierarchy

The Funds are required to classify financial instruments measured at fair value using a fair value hierarchy. Investments whose values are based on quoted market prices in active markets are classified as Level 1. This Level includes publicly traded equities, exchange-traded and retail mutual funds, exchange-traded warrants, futures contracts and traded options.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified as Level 2. These include fixed income securities, mortgage-backed securities, short-term instruments, non-traded warrants, OTC options, structured notes of indexed securities, foreign currency forward contracts, swap instruments, American depositary receipts and global depositary receipts, if quoted market price is not available.

Investments classified as Level 3 have significant unobservable inputs. Level 3 instruments include private equities, private term-loans, private equity funds and certain derivatives. As observable prices are not available for these securities, the Funds may use a variety of valuation techniques to derive the fair value.

The Funds' policy is to recognize transfers into and out of the fair value hierarchy levels as at the date of the event or change in circumstances giving rise to the transfer.

Details of each Fund's exposure to financial instruments risks including concentration risk and fair value hierarchy classification are available in the Fund Specific Notes to Financial Statements for each Fund.

CI Mutual Funds

Notes to the Financial Statements (unaudited)

1. THE FUNDS

The following funds (the Funds) are open-ended mutual fund trusts created under the laws of the Province of Ontario by declarations of trust.

CI Investments Inc. is the manager and the trustee (the Manager and the Trustee) of the Funds. The Manager is a wholly owned subsidiary of CI Financial Corp. Effective August 12, 2025, Mubadala Capital, a global alternative asset management platform and subsidiary of Mubadala Investment Company, acquired CI Financial Corp. by way of a statutory plan of arrangement (the Arrangement) under the Business Corporations Act (Ontario). Pursuant to the terms of the Arrangement, among other things, Mubadala Capital acquired all issued and outstanding shares of CI Financial Corp., other than shares held by the CEO of CI Financial Corp. who entered into an equity rollover agreement with Mubadala Capital. CIBC Mellon Trust Company is the administrator (the Administrator) and the custodian (the Custodian) for the Funds. The Bank of New York Mellon is a lending agent (the Lending Agent) for the Funds.

The Funds' registered office address is 15 York Street, Second Floor, Toronto, Ontario, M5J 0A3.

These financial statements were authorized for issue by the Manager on November 20, 2025.

The objective of each Fund is to pool and manage money contributed by investors (the unitholders) with similar investment goals. The Funds may invest in equities, fixed income securities, derivatives, underlying fund(s) or some combination thereof according to their specific investment objectives and strategies. Investments may be held for income or capital appreciation or both. Unitholders share a Fund's income, expenses and any gains or losses a Fund makes on its investments generally in proportion to the value of the units they own.

The "Inception Date" is the date upon which units of a series of a Fund commenced operations.

Effective as of close of business on May 9, 2025, the following Funds merged:

Terminating Fund	Continuing Fund
CI Canadian Core Plus Bond Fund	CI Canadian Bond Fund
CI Global Equity & Income Fund	CI Global Income & Growth Fund

The Manager adopted the acquisition method of accounting for the merger of the Funds. Under this method, one of the Funds is identified as the acquiring Fund and is referred to as the "Continuing Fund", and the other Fund involved in the merger is referred to as the "Terminating Fund". This identification is based on a comparison of the relative net asset value of the Funds as well as consideration of the continuation of such aspects of the Continuing Fund as investment objectives and practices and type of portfolio securities.

Effective as of the close of business on May 9, 2025, the Continuing Fund acquired all of the net assets of the Terminating Fund in exchange for units in the Continuing Fund. The value of the units of the Continuing Fund issued in connection with this merger, was equal to the net assets transferred from the Terminating Fund. The cost associated with the merger was borne by the Manager.

The following mergers occurred on a taxable basis.

		Net Assets	
Terminating Fund	Continuing Fund	Acquired (\$)	Units Issued
CI Canadian Core Plus Bond Fund	CI Canadian Bond Fund	742,652,830	77,329,711

The Terminating Funds' results are not included in these financial statements.

The Statements of Financial Position are as at September 30, 2025 and March 31, 2025, as applicable. The Statements of Comprehensive Income, Changes in Net Assets Attributable to Holders of Redeemable Units and Cash Flows are for the periods ended September 30, 2025 and 2024, except for Funds established during either period, in which case the information provided relates to the period from inception to September 30, 2025 and 2024, as applicable.

2. MATERIAL ACCOUNTING POLICY INFORMATION

These financial statements have been prepared in compliance with *International Financial Reporting Standards* (IFRS) as published by the International Accounting Standards Board.

The following is the material accounting policy information of the Funds:

a. Classification and recognition of financial instruments

The Funds classify and measure their investments (such as fixed income securities, equity securities, investment fund(s), exchange-traded fund(s) and derivatives) based on both the Funds' business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The Funds' portfolios of financial assets are managed, and performance is evaluated on a fair value basis. The Funds are primarily focused on fair value information and use that information to assess the assets' performance and to make decisions. The contractual cash flows of the Funds' debt securities are solely principal and interest; however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Funds' business model's objective. Consequently, all investments and derivatives are measured at fair value through profit or loss (FVTPL). Short sales are held for trading and are consequently classified as financial liabilities at FVTPL. Derivative contracts that have a negative fair value are presented as liabilities at FVTPL.

The Funds' obligations for net assets attributable to holders of redeemable units are presented at the redemption amount, which approximates their fair value. All other financial assets and liabilities are measured at amortized cost, which approximates their fair value. Under this method, financial assets and liabilities reflect the amount required to be received or paid, discounted, when appropriate, at the effective rate of interest.

Financial assets and liabilities are offset, and the net amounts are presented in the Statements of Financial Position when, and only when, the Funds have a legal right to offset the amounts and intend either to settle on a net basis or to realize the asset and settle the liability simultaneously. In the normal course of business, the Funds enter into various master netting agreements or similar agreements that do not meet the criteria for offsetting in the Statements of Financial Position, but still allow for the related amounts to be offset in certain circumstances, such as bankruptcy or termination of the contracts.

b. Fair value of financial instruments

At the financial reporting date, listed securities are valued based on the last traded market price for financial assets and financial liabilities where the last traded price falls within the day's bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on the existing market conditions. Unlisted securities are valued based on price quotations from recognized investment dealers or failing that, their fair value is determined by the Manager based on the latest reported information available. Unlisted warrants, if any, are valued based on a pricing model that considers factors such as the market value of the underlying security, strike price and terms of the warrant. Fixed income securities, debentures and other debt instruments, including short-term investments, are valued at the quotation received from recognized investment dealers. Underlying fund(s) are valued on each business day at their NAV as reported by the underlying fund's/fund(s) managers.

The fair value of securities where no market price exists is determined by using valuation models that may be based, in part, on assumptions that are not supported by observable market inputs. These methods and procedures may include, but are not limited to, performing comparisons with prices of comparable or similar securities, obtaining valuation-related information from issuers and/or other analytical data relating to the investment and using other available indications of value. These values are independently assessed by the Manager to ensure that they are reasonable. However, because of the inherent uncertainty

CI Mutual Funds

Notes to the Financial Statements (unaudited) (cont'd)

of valuation, the estimated fair values for these securities may be materially different from the values that would have been used had a ready market for the investment existed. The fair values of securities where no market price exists are affected by the perceived credit risks of the issuer, predictability of cash flows and the length of time to maturity.

c. Cash

Cash comprised of cash on deposit and bank overdraft.

d. Cost of investments

Cost of investments represents the amount paid for each security and is determined on an average cost basis excluding commissions and transaction costs. Average cost does not include amortization of premiums or discounts on fixed income securities with the exception of zero-coupon bonds.

e. Investment transactions and income recognition

Investment transactions are recorded on the trade date - the date on which a Fund commits to purchase or sell an investment. The interest for distribution purposes disclosed in the Statements of Comprehensive Income represents the coupon interest received by the Funds and is accounted for on an accrual basis. The Funds do not amortize premiums paid or discounts received on the purchase of fixed income securities, except for zero-coupon bonds, which are amortized on a straight-line basis.

Dividends and distributions from investments are recognized on the ex-dividend/ex-distribution date.

Distributions received from income trust(s) and underlying fund(s) holdings are recorded as income, capital gains or a return of capital based on the best information available to the Manager. Due to the nature of these investments, actual allocations could vary from this information. Distributions from income trust(s) and underlying fund(s) that are treated as a return of capital for income tax purposes reduce the average cost of the income trust(s) and underlying fund(s).

f. Functional and presentation currency

The Funds' functional and presentation currency is the Canadian dollar, except for CI U.S. Money Market Fund, CI U.S. Income US\$ Fund, CI U.S. Dividend US\$ Fund, CI Bitcoin Fund, CI Ethereum Fund and CI Solana Fund, as those Funds' functional and presentation currency is the U.S. dollar. For Funds that offer Series AH, Series FH, Series IH, Series PH and Series WH units, the NAV per unit for those series is stated in U.S. dollars.

g. Foreign exchange

Foreign currency amounts are translated into the functional currency as follows: fair value of investments, foreign currency forward contracts and other assets and liabilities at the closing rate of exchange on each business day; income and expenses, purchases and sales and settlements of investments at the rate of exchange prevailing on the respective dates of such transactions. Foreign exchange gains (losses) relating to cash are presented as "Foreign exchange gain (loss) on cash", and those relating to other financial assets and liabilities are presented within "Net realized gain (loss) on sale of investments and derivatives" and "Change in unrealized appreciation (depreciation) in value of investments and derivatives" in the Statements of Comprehensive Income.

h. Unit valuation

NAV per unit of each series is calculated at the end of each day on which the Manager is open for a full day of business by dividing the total NAV of each series of a Fund by the number of units of that series outstanding.

The NAV of each series is computed by calculating the value of that series' proportionate share of the Fund's assets less that series' proportionate share of the Fund's common liabilities and less series-specific

liabilities. Expenses directly attributable to a series are charged to that series. Other income, expenses, gains and losses are allocated to each series proportionately based upon the relative total NAV of each series.

As at September 30, 2025, March 31, 2025 and September 30, 2024, there were no differences between the NAV used for transactions with unitholders and the net assets attributable to holders of redeemable units used for reporting purposes under IFRS.

i. Classification of units

The units of each of the Funds are classified as financial liabilities in accordance with IAS 32, *Financial Instruments: Presentation* (IAS 32), as they do not meet the definition of puttable instruments to be classified as equity in accordance with IAS 32 for financial reporting purposes.

j. Commissions and other portfolio transaction costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities, are included in "Commissions and other portfolio transaction costs" in the Statements of Comprehensive Income. Funds that only invest in units of underlying fund(s) are not subject to transaction costs.

k. Increase (decrease) in net assets attributable to holders of redeemable units per unit

"Increase (decrease) in net assets attributable to holders of redeemable units per unit" in the Statements of Comprehensive Income is calculated by dividing the increase (decrease) in net assets attributable to holders of redeemable units of each series of a Fund by the weighted average number of units of that series outstanding during the period.

l. Foreign currency forward contract(s)

A Fund may, from time to time, enter into foreign currency forward contracts. Foreign currency forward contracts are valued on each valuation day based on the difference between the contract rate and the current forward rate at the measurement date applied to the contract's notional amount and adjusted for counterparty risk. All unrealized gains (losses) arising from foreign currency forward contracts are recorded as part of "Change in unrealized appreciation (depreciation) in value of investments and derivatives" in the Statements of Comprehensive Income and "Unrealized gain (loss) on futures and foreign currency forward contracts" in the Statements of Financial Position until the contracts are closed out or expire, at which time the gains (losses) are realized and reported as "Net realized gain (loss) on sale of investments and derivatives" in the Statements of Comprehensive Income.

m. Option contract(s)

Over-the-counter (OTC) options are valued using the Black-Scholes model, whereas exchange-traded options are valued at the last traded price taken from the exchange. Option contracts are valued each valuation day according to the gain or loss that would be realized if the contracts were closed out. All unrealized gains (losses) arising from option contracts are recorded as part of "Change in unrealized appreciation (depreciation) in value of investments and derivatives" in the Statements of Comprehensive Income until the contracts are closed out or expire, at which time the gains (losses) are realized and reflected in the Statements of Comprehensive Income in "Net realized gain (loss) on sale of investments and derivatives". Any expired option premiums are recorded as part of "Derivative income (loss)" in the Statements of Comprehensive Income.

n. Futures contract(s)

Futures contracts are valued on each valuation day using the closing price posted on the relevant public exchange. Cash and cash equivalents are held as margin against futures contracts which are reflected in the "Daily variation margin on derivative instruments" in the Statements of Financial Position. All unrealized gains (losses) arising from futures contracts are recorded as part of "Change in unrealized

CI Mutual Funds

Notes to the Financial Statements (unaudited) (cont'd)

appreciation (depreciation) in value of investments and derivatives" in the Statements of Comprehensive Income and "Unrealized gain (loss) on futures and foreign currency forward contracts" in the Statements of Financial Position until the contracts are closed out or expire, at which time the gains (losses) are realized and reported as "Net realized gain (loss) on sale of investments and derivatives" in the Statements of Comprehensive Income.

o. Total return swap contract(s)

Total return swaps are agreements between a Fund and a counterparty where single or multiple cash flows are exchanged based on the price of an underlying reference asset and based on a fixed or variable rate. Over the term of the contract, the Fund will pay to the counterparty a periodic stream of payments based on fixed or variable rate. Such periodic payments paid are accrued daily and are included in the Statements of Comprehensive Income in "Interest expense". At the maturity date, a net cash flow is exchanged where the total return is equivalent to the return of the underlying reference asset less a rate, if any. As a receiver, the Fund would receive payments based on any net positive total return and would owe payments in the event of a net negative total return. The unrealized gain or loss on total return swap is reflected in the Statements of Comprehensive Income as part of "Change in unrealized appreciation (depreciation) in value of investments and derivatives". When the total return swaps contracts are closed out, any gains (losses) are recorded as "Net realized gain (loss) on sale of investments and derivatives" in the Statements of Comprehensive Income.

p. Short selling

When a Fund sells a security short, it will borrow that security from a broker to complete the sale. As the Fund borrows a security from the broker, the Fund is required to maintain a margin account with the broker containing cash or liquid securities. The liquid securities held on margin in respect of short sale activity is included in the "Investments pledged as collateral" in the Statements of Financial Position. The maximum loss on securities sold short can be unlimited. The Fund will incur a loss because of a short sale if the price of the borrowed security increases between the date of the short sale and the date on which the Fund closes out its short position by buying that security. The Fund will realize a gain if the security declines in price between those dates. The gain or loss that would be realized if the position was to be closed out on the valuation date is reflected in the Statements of Comprehensive Income as part of "Change in unrealized appreciation (depreciation) in value of investments and derivatives" and in the Statements of Financial Position in "Investments sold short". When the short position is closed out, gains and losses are realized and included in "Net realized gain (loss) on sale of investments and derivatives" in the Statements of Comprehensive Income. Fees paid to a broker for borrowing a security are included in "Securities borrowing fees" in the Statements of Comprehensive Income.

q. Mortgage-backed and asset-backed securities

Certain Funds invest in mortgage-related and other asset-backed securities. These securities may include: mortgage pass-through securities, collateralized mortgage obligations, commercial mortgage-backed securities, asset-backed securities, collateralized debt obligations and other securities that directly or indirectly represent a participation in, or are secured by and payable from, mortgage loans on real property. The debt and equity securities issued by these securities may include tranches with varying levels of subordination. These securities may provide a monthly payment that consists of both interest and principal payments.

Mortgage-related securities are created from pools of residential or commercial mortgage loans, including mortgage loans made by savings and loan institutions, mortgage bankers, commercial banks and others. Asset-backed securities are created from many types of assets, including auto loans, credit card receivables, home equity loans and student loans.

Mortgage-related and asset-backed securities are issued as separate tranches, or classes, of securities within each deal. The securities are also normally valued by pricing service providers that use broker-dealer quotations or valuation estimates from their internal pricing models. The pricing models for these securities usually consider tranche-level attributes, current market data, estimated cash-flows, and market-based yield spreads for each tranche and incorporate deal collateral performance, as available. The carrying values of mortgage-related and other asset-backed securities are included in "Investments" in the Statements of Financial Position. The changes in fair values of mortgage-related and other asset-backed securities are included in the Statements of Comprehensive Income in "Change in unrealized appreciation (depreciation) in value of investments and derivatives".

r. Offsetting of financial instruments

The disclosures set out in the Offsetting of Financial Instruments tables in the Fund Specific Notes to Financial Statements of each Fund, where applicable, include foreign currency forward contract assets and liabilities that are subject to an enforceable master netting arrangement. Transactions with individual counterparties are governed by separate master netting agreements. Each agreement allows for net settlement of certain open contracts where the Funds and respective counterparty both elect to settle on a net basis. In the absence of such an election, contracts will be settled on a gross basis. However, each party to the master netting agreement will have the option to settle all open contracts on a net basis in the event of default of the other party. All other derivative instruments held by the Funds are settled on a gross basis.

International Swaps and Derivatives Association Inc. Master Agreements (ISDA Master Agreements) govern OTC financial derivative transactions entered into by the Funds and select counterparties. The ISDA Master Agreements maintain provisions for general obligations, representations, agreements, collateral and events of default or termination. Events of termination include conditions that may entitle counterparties to elect to terminate early and cause settlement of all outstanding transactions under the applicable ISDA Master Agreement. Any election to terminate early could be material to the financial statements. The fair value of OTC financial derivative transactions net of collateral received in or pledged by a counterparty is disclosed in the Fund Specific Notes to Financial Statements.

Funds may be subject to various master agreements or netting arrangements with select counterparties. These master agreements reduce the counterparty risk associated with relevant transactions by specifying credit protection mechanisms and providing standardization that improves legal certainty. Since different types of transactions have different mechanics and are sometimes traded out of different legal entities of a particular counterparty organization, each type of transaction may be covered by a different master agreement resulting in the need for multiple agreements with a single counterparty. As the master agreements are specific to unique operations of different asset types, they allow the Funds to close out and net their total exposure to a counterparty in the event of a default with respect to the transactions governed under a single agreement with a counterparty.

s. Investments in associates, joint ventures, subsidiaries and unconsolidated structured entities

Subsidiaries are entities, including investments in other investment entities, over which a Fund has control. A Fund controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity, and has the ability to affect those returns through its power over the entity. Associates and joint ventures are investments over which a Fund has significant influence or joint control. A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factors in deciding who controls the entity, or when voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements.

CI Mutual Funds

Notes to the Financial Statements (unaudited) (cont'd)

The Manager has determined that underlying fund(s) or exchange-traded fund(s) (ETF(s)) held typically by the Funds meet the definition of structured entities. Mortgage-backed securities or asset-backed securities are also considered to be unconsolidated structured entities. The Funds account for their investments in unconsolidated structured entities at FVTPL.

The Funds that invest in underlying fund(s) are subject to the terms and conditions of the respective underlying fund's offering documents and are susceptible to market price risk arising from uncertainties about future values of those underlying fund(s). All of the underlying fund(s) in the investment portfolio are managed by portfolio managers who are compensated by the respective underlying fund for their services. Such compensation generally consists of an asset-based fee and is reflected in the valuation of each of the underlying fund(s), except when the Funds invest in certain series/classes of the underlying fund(s) where the compensation to portfolio managers is negotiated and paid outside each of the respective underlying fund. The underlying fund(s) finance their operations by issuing redeemable units/shares that entitle the holders to an equal beneficial interest in a respective underlying fund. The Funds can redeem their investments in the underlying fund(s) on a daily basis.

Certain Funds invest in ETF(s). The ETF(s) finance their operations by issuing redeemable units/shares, that are puttable at the holder's option and entitle the holder to a proportional stake in each ETF's NAV. The ETF(s) are domiciled in Canada, the U.S. and Japan and listed on recognized public stock exchanges.

The Funds' investments in underlying fund(s) or ETF(s) are accounted for at FVTPL and included in "Investments" in the Statements of Financial Position. All unrealized gains (losses) arising from these investments are recorded as part of "Change in unrealized appreciation (depreciation) in value of investments and derivatives" in the Statements of Comprehensive Income until these investments are sold, at which time the gains (losses) are realized and reflected in the Statements of Comprehensive Income in "Net realized gain (loss) on sale of investments and derivatives".

The Funds' maximum exposure to loss from their interest in underlying fund(s), ETF(s) and mortgage/asset-backed securities is equal to the total fair value of their investments in these unconsolidated structured entities.

Additional information related to Interest in Unconsolidated Structured Entities for each of the Funds appears under the Fund Specific Notes to Financial Statements.

t. Withholding taxes

A Fund may, from time to time, incur withholding taxes imposed by certain countries on investment income and capital gains. Such income and gains are recorded on a gross basis and the related withholding taxes are shown separately in the Statements of Comprehensive Income.

u. Harmonized Sales Tax

Certain provinces including Ontario, Prince Edward Island, Nova Scotia, New Brunswick and Newfoundland and Labrador (each a Participating Tax Jurisdiction) have harmonized their provincial sales tax (PST) with the federal goods and services tax (GST). The Harmonized Sales Tax (HST) combines the federal GST rate of 5% with the PST rate of the participating provinces. The Province of Quebec also applies the Quebec sales tax (QST). The provincial HST liability or refund is calculated using the residency of unitholders and the value of their interest in a Fund as at specific times, rather than the physical location of a Fund. The effective sales tax rate charged to each series of a Fund is based on the unitholders' proportionate investments by province, using each province's HST rate, GST rate in the case of non-participating provinces and/or QST rate. All amounts are presented as "Harmonized Sales Tax" in the Statements of Comprehensive Income.

v. Non-cash transactions

Non-cash transactions included in the Statements of Cash Flows include reinvested distributions from the underlying mutual fund(s) and stock dividends from equity investments as well as acquisition of assets from terminated funds. Reinvested distributions from the underlying mutual fund(s) and stock dividends from equity investment amounts represent non-cash income recognized in the Statements of Comprehensive Income.

The "Proceeds from issuance of redeemable units" and "Amounts paid on redemption of redeemable units" in the Statements of Cash Flows exclude non-cash transactions.

w. New standards, amendments and interpretations not yet effective

A number of new standards, amendments to standards and interpretations are not yet effective as of September 30, 2025 and have not been applied in preparing these financial statements.

i) Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7)

In May 2024, the IASB issued amendments to IFRS 9 and IFRS 7. Among other amendments, IASB clarified that a financial liability is derecognised on the 'settlement date' and introduced an accounting policy choice to derecognise financial liabilities settled using an electronic payment system before the settlement date. These amendments are effective for annual periods beginning on or after January 1, 2026, with early adoption permitted.

ii) IFRS 18 Presentation and Disclosure in Financial Statements

In April 2024, the IASB issued IFRS 18, which replaces IAS 1 *Presentation of Financial Statements*. It introduces several new requirements that are expected to impact the presentation and disclosure of the financial statements. These include:

- The requirement to classify all income and expense into specified categories and provide specified totals and subtotals in the statement of profit or loss.
- Enhanced guidance on the aggregation, location and labeling of items across the financial statements and the notes to the financial statements.
- Required disclosures about management-defined performance measures.

IFRS 18 is effective for annual periods beginning on or after January 1, 2027, with early adoption permitted.

The Funds are currently assessing the effect of the above standard and amendments. No other new standards, amendments and interpretations are expected to have a material effect on the financial statements of the Funds.

3. CRITICAL ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of these financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities at the reporting date and the reported amounts of income and expenses during the reporting period. The following discusses the most significant accounting judgments and estimates that the Funds have made in preparing their financial statements:

CI Mutual Funds

Notes to the Financial Statements (unaudited) (cont'd)

Fair value measurement of investments and derivatives not quoted in an active market

The Funds may, from time to time, hold financial instruments that are not quoted in active markets, such as unlisted securities, private securities or derivatives. Unlisted securities are valued based on price quotations from recognized investment dealers or failing that, their fair value is determined by the Manager based on the latest reported information available. The fair value of private securities is determined by using valuation models that may be based, in part, on assumptions that are not supported by observable market inputs. These methods and procedures may include, but are not limited to, performing comparisons with prices of comparable or similar securities, obtaining valuation-related information from issuers and/or other analytical data relating to the investment and using other available indications of value. These values were independently assessed by the Manager based on assumptions and estimates on parameters available when the financial statements were prepared. However, because of the inherent uncertainty of valuation, the estimated fair values for these securities may be materially different from the values that would have been used had a ready market for the investment existed. The fair values of private securities are affected by the perceived credit risks of the issuer, predictability of cash flows and the length of time to maturity.

Valuation models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities, correlations and key assumptions concerning future developments require the Manager to make estimates. Changes in assumptions about these factors could affect the reported fair values of financial instruments.

The Funds consider observable data to be market data that is readily available, regularly distributed and updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The fair value of investments in underlying fund(s) that are not quoted in active markets is determined primarily by reference to the latest available NAV of such units/shares for each underlying fund, as determined by the underlying fund's/funds' managers.

IFRS 10, Consolidated Financial Statements (IFRS 10)

In accordance with IFRS 10, the Manager has determined that the Funds meet the definition of an Investment Entity, which requires that the Funds obtain funds from one or more investors for the purpose of providing investment management services; commit to their investors that their business purpose is to invest funds solely for returns from capital appreciation, investment income, or both; and measure and evaluate the performance of their investments on a fair value basis. Consequently, the Funds do not consolidate their investments in subsidiaries, if any, but instead measure these at FVTPL, as required by the accounting standard.

4. REDEEMABLE UNITS

Redeemable units issued and outstanding represent the capital of each Fund.

Mutual Funds Series

Each Fund is authorized to issue an unlimited number of redeemable, transferable units of each series. Generally, the Funds have no restrictions or specific capital requirements, except for the minimum subscription/redemption amounts.

ETF Series

Some Funds are authorized to issue an unlimited number of ETF Series units. The ETF Series units are listed on the Toronto Stock Exchange (TSX) or Cboe Canada Inc. (Cboe), as applicable, and unitholders can buy or sell such units on the TSX or Cboe through registered brokers and dealers.

On any trading day, a Designated Broker or an ETF Dealer may place a subscription order for prescribed number of ETF Series units (PNS) or integral multiple prescribe number of units (PNU) of each Fund. A trading day is each day on which the TSX/Cboe is open for business.

If the subscription order is accepted, the Fund will generally issue units to an ETF Dealer or the Designated Broker the PNU (or an integral multiple thereof) within two trading days from the effective day of the subscription order. For each PNS issued, an ETF Dealer or the Designated Broker must deliver subscription proceeds consisting of a group of securities and/or assets determined by the Manager from time to time representing the constituent securities of the Fund (a "Basket of Securities") and cash in an amount sufficient so that the value of the Basket of Securities and cash delivered is equal to the NAV of the PNU of the Fund determined at the valuation time on the effective date of the subscription order plus any applicable subscription fee determined by the Manager.

ETF Series units of each Fund may also be issued to unitholders of such Fund on the automatic reinvestment of certain distributions in accordance with the distribution policy of the Fund.

Unitholders may exchange PNS (or an integral multiple thereof) of each Fund on any trading day for Baskets of Securities and cash, or in the discretion of the Manager, cash only. The exchange price will be equal to the NAV of the applicable PNU tendered for exchange determined at the valuation time on the effective date of the exchange request, payable by delivery of a Basket of Securities (constituted as most recently published prior to the effective date of the exchange request) and cash. The ETF Series units will be redeemed in the exchange.

On any trading day, unitholders of ETF Series units of each Fund may redeem (i) ETF Series units for cash at a redemption price per ETF Series unit equal to 95% of the closing price for the ETF Series units on the TSX/Cboe on the effective day of the redemption less any applicable redemption fee determined by the Manager, in its sole discretion, from time to time, or (ii) a PNU of the Fund or a multiple PNU of the Fund for cash equal to the NAV of that number of ETF Series units less any applicable redemption fee determined by the Manager, in its sole discretion, from time to time.

Unitholders of ETF Series units that have delivered a redemption request prior to the Distribution Record Date for any distribution will not be entitled to receive that distribution.

The relevant changes pertaining to subscription and redemption of each Fund's units are disclosed in the Statements of Changes in Net Assets Attributable to Holders of Redeemable Units. In accordance with the objectives and risk management policies outlined in Notes 1 and 10, the Funds endeavour to invest subscriptions received in appropriate investments while maintaining sufficient liquidity to meet redemptions through utilizing a short-term borrowing facility or disposal of investments when necessary.

Redeemable unit transaction information appears in the Fund Specific Notes to Financial Statements of each of the Funds.

In order to establish each individual series, the Manager has made initial investments in certain Funds.

As at September 30, the Manager held investments in the following Funds:

5. FEES AND OTHER EXPENSES

Management fees

The Manager of each Fund, in consideration for management fees, provides management services required in the day-to-day operations of the Funds, including management of the investment portfolios of the Funds and provision of key management personnel.

The management fees are calculated and accrued daily based on a percentage of the NAV of each series of a Fund (other than Series DI, I, IT5, IT8, IH, O, OO, OT5, OT8, P, PH, PP, PT5, PT8, S and Series offered under Private Client Managed Portfolios) on the preceding business day, and are subject to applicable taxes including G.S.T., H.S.T. and any applicable provincial sales taxes and fees are generally paid daily or, in certain cases, monthly.

Investors in Series DI, I, IT5, IT8, IH, O, OO, OT5, OT8, P, PH, PP, PT5, PT8, S units and Series offered under Private Client Managed Portfolios are charged management fees directly as negotiated between the investor and the Manager.

The Manager may waive management fees or absorb expenses of certain Funds at its sole discretion and may stop waiving or absorbing such fees or expenses at any time without notice. Amounts waived or absorbed are reported in the Statements of Comprehensive Income, as applicable.

During the period ended September 30, 2025, the Manager absorbed a total of \$2,816,000 (March 31, 2025 - \$6,707,000) in management fees for CI High Interest Savings Fund.

Administration fees

The Manager bears all of the operating expenses of the Funds (other than certain taxes, brokerage and borrowing costs, new governmental fees, new types of expenses that are not commonly charged in the Canadian mutual fund industry and operating expenses considered outside of the normal course of business of a Fund) in return for an administration fee. Administration fees are calculated and accrued daily based on a percentage of the NAV of each series of a Fund (other than Series DI, I, IT5, IT8, IH and S) on the preceding business day and are subjected to application taxes including G.S.T., H.S.T. and any applicable provincial sales taxes and are paid daily or, in certain cases, monthly.

Investors in Series DI, I, IT5, IT8, IH and S units are charged administration fees directly as negotiated between the investor and the Manager.

Administration fees are not applicable to CI Money Market Fund, CI U.S. Money Market Fund and CI Select Staging Fund.

Fee rebates

The Manager may reduce the management and/or administration fees based on the size of a unitholder investment or participation in a program offered by the Manager for larger accounts. The Manager may also reduce management fees if a reduced trailing commission has been negotiated between a unitholder and the unitholder representative based on relevant documentation provided to the Manager. Following the end of each quarter, the amount of any management and/or administration fee reduction is distributed to qualified unitholders by the Fund in the form of a reinvestment in additional units of the respective series of the Fund. The management and/or administration fee rebates, if applicable, are included in "Fees rebate receivable" and in "Fees rebate" as reflected in the Statements of Financial Position and Statements of Comprehensive Income of each Fund, as applicable. The Manager may reduce or waive the management and/or administration fees without giving notice to unitholders.

Investments in underlying fund(s)

A Fund that invests in units/shares of underlying fund(s) will not pay a duplicate management and administration fee on the portion of assets that are invested in units/shares of underlying fund(s). During the reporting period, a Fund may have received a management and/or administration fee rebate from the underlying fund's/fund(s)' manager relating to its investment in the underlying fund(s). The management and/or administration fee rebates are included in "Fees rebate receivable" and in "Fees rebate" as reflected in the Statements of Financial Position and Statements of Comprehensive Income of each of the Funds, as applicable.

Performance fees

The Manager receives a performance fee in respect of each AP and FP series (Performance Series) of the CI Canadian Equity Growth Private Pool, CI Global Infrastructure Private Pool, CI Global Small/Mid Cap Equity Private Pool, CI High Yield Bond Private Pool, CI International Equity Growth Private Pool, CI Select Global Equity Private Pool and CI U.S. Equity Private Pool. Each AP and FP series pays a performance fee to the Manager quarterly equal to:

(i.) 30% of the amount by which the total return of the applicable Performance Series of a Fund (the Total Return of the Performance Series) exceeds the total return of a Fund's reference index for the period as at the end of the calendar quarter since the last Performance Fee payment was made (the Performance Fee Calculation Period);

multiplied by

(ii.) the daily NAV of the Performance Series of a Fund.

For greater certainty, Total Return of the Performance Series of a Fund is calculated before giving effect to any distributions or the accrual of Performance Fees, management fees or administration fees made by the Performance Series during the Performance Fee Calculation Period.

If the Total Return of the Performance Series is less than the total return of a Fund's reference index calculated in respect of the Performance Fee Calculation Period, then no Performance Fee will be payable by such Performance Series at the end of such calendar quarter.

If Performance Series securities are redeemed prior to the end of a calendar quarter, a Performance Fee may be payable on the redemption date in respect of such securities, as if the redemption date was at the end of such calendar quarter, in the same manner as described above.

Performance Fees are calculated and accrued daily and are subject to applicable taxes.

The Manager reserves the right, in its discretion, to decrease or waive the Performance Fee payable by Funds' listed above at any time.

Refer to the Management and Administration Fees table in the Fund Specific Notes to the Financial Statements for the management and administrative fee rates applicable to each series of each of the Funds.

6. SECURITIES LENDING

Certain Funds have entered into a securities lending program with the Lending Agent. The aggregate market value of all securities loaned by a Fund cannot exceed 50% of the assets of the Fund. A Fund will receive collateral of at least 102% of the value of securities on loan. Collateral will generally be comprised of cash and obligations of or guaranteed by the Government of Canada or a province thereof, or by the United

CI Mutual Funds

Notes to the Financial Statements (unaudited) (cont'd)

States government or its agencies, but may include obligations of other governments with appropriate credit ratings. For those Funds participating in the program, amounts for securities loaned and the collateral received as well as reconciliation between gross securities lending revenue and securities lending revenue received by each Fund appears in the Fund Specific Notes to Financial Statements. Revenue from securities lending is included in "Securities lending revenue" in the Statements of Comprehensive Income.

7. INCOME TAXES

The Funds, except for CI Balanced Asset Allocation Fund, CI Balanced Growth Asset Allocation Fund, CI Balanced Income Asset Allocation Fund, CI Canadian Income & Growth Private Pool, CI Canadian Long-Term Bond Pool, CI Conservative Asset Allocation Fund, CI Emerging Markets Bond Fund, CI Energy Giants Covered Call Fund, CI Equity Asset Allocation Fund, CI Equity Premium Yield Fund, CI Global Bond Currency Neutral Fund, CI Global Dividend Private Pool, CI Global Green Bond Fund, CI Global Short-Term Bond Fund, CI Global Stock Selection Fund, CI Global Sustainable Infrastructure Fund, CI Growth Asset Allocation Fund, CI Multi-Sector Covered Call Fund, CI Select Canadian Equity Managed Fund, CI Select International Equity Managed Fund, CI Select Staging Fund, CI Select U.S. Equity Managed Fund, CI Select Canadian Equity Private Pool, CI Solana Fund, CI Target 2028 Investment Grade Bond Fund, CI Target 2029 Investment Grade Bond Fund, CI Target 2030 Investment Grade Bond Fund, CI U.S. Aggregate Bond Covered Call Fund, CI U.S. Monthly Income Private Pool, CI U.S. Small/Mid Cap Equity Private Pool and CI U.S. Stock Selection Private Pool qualify as a mutual fund trust under the *Income Tax Act* (Canada). All of the Funds' net income for tax purposes and sufficient net capital gains realized in any year are required to be distributed to unitholders such that no income tax is payable by each of the Funds. As a result, the Funds do not record income taxes. Since the Funds do not record income taxes, the tax benefit of capital and non-capital losses has not been reflected in the Statements of Financial Position as a deferred income tax asset. Income tax on net realized capital gains not paid or payable will generally be recoverable by virtue of refunding provisions contained in the *Income Tax Act* (Canada) and provincial income tax legislation, as redemptions occur. Occasionally, the Funds may distribute more than they earn. This excess distribution is a return of capital and is not taxable to unitholders.

The CI Balanced Asset Allocation Fund, CI Balanced Growth Asset Allocation Fund, CI Balanced Income Asset Allocation Fund, CI Canadian Income & Growth Private Pool, CI Canadian Long-Term Bond Pool, CI Conservative Asset Allocation Fund, CI Emerging Markets Bond Fund, CI Energy Giants Covered Call Fund, CI Equity Asset Allocation Fund, CI Equity Premium Yield Fund, CI Global Bond Currency Neutral Fund, CI Global Dividend Private Pool, CI Global Green Bond Fund, CI Global Short-Term Bond Fund, CI Global Stock Selection Fund, CI Global Sustainable Infrastructure Fund, CI Growth Asset Allocation Fund, CI Multi-Sector Covered Call Fund, CI Select Canadian Equity Managed Fund, CI Select International Equity Managed Fund, CI Select Staging Fund, CI Select U.S. Equity Managed Fund, CI Select Canadian Equity Private Pool, CI Solana Fund, CI Target 2028 Investment Grade Bond Fund, CI Target 2029 Investment Grade Bond Fund, CI Target 2030 Investment Grade Bond Fund, CI U.S. Aggregate Bond Covered Call Fund, CI U.S. Monthly Income Private Pool, CI U.S. Small/Mid Cap Equity Private Pool and CI U.S. Stock Selection Private Pool qualify as a unit trust under the *Income Tax Act* (Canada) and are not subject to tax on their net income, including net realized capital gains for the taxation year, which is paid or payable to their unitholders at the end of the taxation year. However, such part of each Fund's taxable income and net realized capital gains that is not so paid or payable to its unitholders will be taxable to that Fund. It is the intention of each Fund to distribute all net taxable income and sufficient net realized capital gains so that the Funds will not be subject to income tax. As a result, the Funds do not record income taxes. Since the Funds do not record income taxes, the tax benefit of capital and non-capital losses has not been reflected in the Statements of Financial Position as a deferred income tax asset. Occasionally, a Fund may distribute more than it earns. This excess distribution is a return of capital and is not taxable to unitholders.

The tax payable and tax recoverable amounts are included in "Other" in the Statements of Financial Position.

8. REINVESTMENT OF DISTRIBUTIONS

When a Fund pays a distribution to a unitholder, it will be paid in the same currency in which the units are held. Distributions are automatically reinvested without charge in the same Fund or paid out in cash to the unitholder. The Manager may change the distribution policy at its discretion.

ETF Series units

Cash distributions, if any, on ETF Series units are expected to be made at least monthly. The amount of ordinary cash distributions, if any, will be based on the Manager's assessment of anticipated cash flow and anticipated expenses of the Fund from time to time. The date(s) of any ordinary cash distribution of ETF Series of the Funds will be announced in advance by issuance of a press release. Subject to compliance with the investment objectives of the Funds, the Manager may, in its complete discretion, change the frequency of these distributions in respect of the ETF Series of the Funds and any such change will be announced by press release.

9. RELATED PARTY TRANSACTIONS

The Funds may have direct or indirect holdings in other funds managed by the Manager.

The Manager of the Funds may, from time to time, make initial investments in certain series of certain Funds to help establish a series or a Fund. Details of the investments made by the Manager are disclosed in Note 4.

Related fund trading

Related fund trading occurs when a Fund purchases or sells units/shares of another Fund managed by the Manager. During the periods ended September 30, 2025 and 2024, certain Funds engaged in related fund trading or held position(s) in related fund(s) at the end of each period. With respect to the Fund's investment in CI Private Markets Growth Fund and/or CI Private Markets Income Fund, please note that certain underlying funds are managed by the Manager or an associate of the Manager, including CI Adams Street Global Private Markets Fund and CI HarbourVest Private Infrastructure Income Fund.

Inter-fund trading

Inter-fund trading occurs when a Fund purchases or sells a security of any issuer from or to another Fund managed by the Manager. These transactions are executed through market intermediaries and under prevailing market terms and conditions. The Independent Review Committee reviews such transactions during scheduled meetings. During the periods ended September 30, 2025 and 2024, the Funds executed inter-fund trades.

10. FINANCIAL INSTRUMENTS RISK

Risk management

The Funds are exposed to a variety of financial instruments risks: leverage and short selling risk, concentration risk, credit risk, liquidity risk and market risk (including other price risk, currency risk and interest rate risk). The level of risk to which each Fund is exposed depends on the investment objective and the type of investments the Fund holds. The value of investments within a portfolio can fluctuate daily as a result of changes in prevailing interest rates, economic and market conditions, political changes, global pandemics and company-specific news related to investments held by the Fund. The Manager of the Funds may minimize potential adverse effects of these risks on the Funds' performance by, but not limited to, regular monitoring of the Funds' positions and market events, diversification of the investment portfolio by asset type, country, sector, term to maturity within the constraints of the stated objectives, and through the usage of derivatives to hedge certain risk exposures.

Concentration risk

Concentration risk arises as a result of the concentration of exposures within the same category, whether it is a geographical allocation, asset type, industry sector or counterparty.

Details of each Fund's exposure to concentration risk are available in the Fund Specific Notes to Financial Statements of each of the Funds.

Credit risk

Credit risk is the risk that a security issuer or counterparty to a financial instrument will fail to meet its financial obligations. The fair value of a debt instrument includes consideration for the creditworthiness of the debt issuer. The carrying amount of debt instruments as shown on the Schedule of Investment Portfolio represents the credit risk exposure of each Fund. Credit risk exposure for derivative instruments is based on each Fund's unrealized gain on the contractual obligations with the counterparty as at the reporting date. The credit rating of a counterparty to a derivative instrument is disclosed in the Schedule of Investment Portfolio or in Fund Specific Notes to Financial Statements of each Fund, if applicable. The credit risk exposure of the Fund's other assets is represented by their carrying amount as disclosed in the Statements of Financial Position.

The Funds that only invest in units/shares of underlying fund(s)/ETF(s) and may be exposed to indirect credit risk in the event that the underlying fund(s)/ETF(s) invest in debt instruments, preferred securities and derivatives.

Credit ratings for debt securities, preferred securities and derivative instruments are obtained from S&P Global Ratings, where available; otherwise, ratings are obtained from: Moody's Investors Service or Dominion Bond Rating Service, respectively.

Credit ratings can be either long-term or short-term. Short-term credit ratings are generally assigned to those obligations and derivative instruments considered short-term in nature. The table below provides a cross-reference between the long-term credit ratings disclosed in the Credit Risk table inclusive of the short-term credit ratings disclosed in the derivatives schedules in the Schedule of Investment Portfolio.

Credit Rating as per Credit Risk Table	Credit Rating as per Derivatives Schedules
AAA/Aaa/A++	A-1+
AA/Aa/A+	A-1, A-2, A-3
A	B, B-1
BBB/Baa/B++	B-2
BB/Ba/B+	B-3
B	C
CCC/Caa/C++	-
CC/Ca/C+	-
C and Lower	D

Cash balances, with the exception of restricted cash balances and margin accounts, as disclosed in the Statements of Financial Position, are maintained by the Custodian. The Manager monitors the creditworthiness of the Custodian on a regular basis. As at September 30, 2025, the credit rating of the Custodian was AA (March 31, 2025 – AA).

All transactions executed by a Fund in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker

has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

Liquidity risk

Liquidity risk is the risk that a Fund may not be able to settle or meet its obligations on time or at a reasonable price. The Funds are exposed to daily cash redemption of redeemable units. Therefore, the Funds invest the majority of their assets in investments that are traded in active markets and can be readily disposed of. In addition, the Funds retain sufficient cash and cash equivalents positions to maintain liquidity. From time to time, the Funds may enter into derivative contracts or invest in unlisted securities that may not trade in an organized market and may be illiquid. All financial liabilities are due within three months.

Market risk

The Funds' investments are subject to market risk, which is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market conditions.

Other price risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from currency risk or interest rate risk). The value of each investment is influenced by the outlook of the issuer and by general economic and political conditions, as well as industry and market trends. All securities present a risk of loss of capital. Except for options written, future contracts sold short and investments sold short, the maximum risk resulting from financial instruments is equivalent to their fair value. On written call options, short future positions and on equity and debt sold short, the maximum loss of capital can be unlimited.

Other assets and liabilities are monetary items that are short-term in nature and therefore are not subject to significant other price risk.

Currency risk

Currency risk arises from financial instruments that are denominated in a currency other than the functional currency of the Funds. As a result, the Funds may be exposed to the risk that the value of securities denominated in other currencies will fluctuate due to changes in exchange rates. The Schedule of Investment Portfolio identifies all bonds and derivative instruments denominated in foreign currencies. Equities traded in foreign markets are also exposed to currency risk as the prices denominated in foreign currencies are converted to the Funds' functional currency to determine their fair value.

The Funds that only invest in units/shares of underlying fund(s)/ETF(s) and may be exposed to indirect currency risk in the event that the underlying fund(s)/ETF(s) invest in financial instruments that are denominated in a currency other than the functional currency of the Funds.

Interest rate risk

Interest rate risk is the risk that the fair value of interest-bearing investments will fluctuate due to changes in prevailing levels of market interest rates. As a result, the value of the Funds that invest in debt securities and/or income trusts will be affected by changes in applicable interest rates. If interest rates fall, the fair value of existing debt securities may increase due to the increase in yield. Alternatively, if interest rates rise, the yield of existing debt securities may decrease, which may then lead to a decrease in their fair value. The magnitude of the decline will generally be greater for long-term debt securities than for short-term debt securities. Interest rate risk also applies to convertible securities. The fair value of these securities varies inversely with interest rates, similar to other debt

securities. However, since they may be converted into common shares, convertible securities are generally less affected by interest rate fluctuations than other debt securities.

The Funds that only invest in units/shares of underlying fund(s)/ETF(s) and may be exposed to indirect interest rate risk in the event that the underlying fund(s)/ETF(s) invest in interest-bearing financial instruments.

Specific risks associated with digital assets

Some Funds may be indirectly exposed to the following risks that are associated with investing in digital assets.

Speculative nature of digital assets

Investing in digital assets; like bitcoin or ethereum, is speculative, prices are volatile, and market movements are difficult to predict. Supply and demand for digital assets can change rapidly and are affected by a variety of factors, including regulation and general economic trends.

Unforeseeable risks

Digital assets have gained commercial acceptance only within recent periods and, as a result, there is little data on their long-term investment potential. Additionally, due to the rapidly evolving nature of the digital assets market, including advancements in the underlying technology, changes to digital assets may expose investors in a Fund to additional risks that are impossible to predict. This uncertainty makes an investment in the units of a Fund very risky.

Risk associated with the custody of digital assets

When investing in digital assets there is a risk that some or all holdings of digital assets could be lost, stolen, destroyed or inaccessible, potentially by the loss or theft of the private keys held by Custodian and Sub-custodian associated with the public addresses that hold digital assets and/or destruction of storage hardware. Multiple thefts of digital assets from other holders have occurred in the past. Because of the decentralized process for transferring digital assets, thefts can be difficult to trace, which may make digital assets a particularly attractive target for theft.

Access to digital assets could be restricted by natural events (such as an earthquake or flood) or human actions (such as a terrorist attack). Digital assets held in custody accounts may be an appealing target for hackers or malware distributors seeking to destroy, damage or steal the digital assets or private keys.

Security breaches, cyber-attacks, computer malware and computer hacking attacks have been a prevalent concern for the digital asset trading platforms. Any cyber security breach caused by hacking, which involves efforts to gain unauthorized access to information or systems, or to cause intentional malfunctions or loss or corruption of data, software, hardware or other computer equipment, and the inadvertent transmission of computer viruses, could harm business operations or reputation, resulting in loss of assets.

Fair value hierarchy

The Funds are required to classify financial instruments measured at fair value using a fair value hierarchy. Investments whose values are based on quoted market prices in active markets are classified as Level 1. This Level includes publicly traded equities, exchange-traded and retail mutual funds, exchange-traded warrants, futures contracts and traded options.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified as Level 2. These include fixed income securities, mortgage-backed securities, short-term instruments, non-traded warrants, OTC options, structured notes of indexed securities, foreign currency

forward contracts, swap instruments, American depositary receipts and global depositary receipts, if quoted market price is not available.

Investments classified as Level 3 have significant unobservable inputs. Level 3 instruments include private equities, private term loans, private equity funds and certain derivatives. As observable prices are not available for these securities, the Funds may use a variety of valuation techniques to derive the fair value.

The Funds’ policy is to recognize transfers into and out of the fair value hierarchy levels as at the date of the event or change in circumstances giving rise to the transfer.

Details of each Fund’s exposure to financial instruments risks including concentration risk and fair value hierarchy classification are available in the Fund Specific Notes to Financial Statements for each Fund.
