Management Report of Fund Performance for the period/year ended March 31, 2025 (Expressed in US\$)

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-800-792-9355, by writing to us at CI Investments Inc., 15 York Street, Second Floor, Toronto, ON, M5J 0A3 or by visiting our website at www.ci.com or SEDAR+ at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVE AND STRATEGIES

The CI DoubleLine Total Return Bond US\$ Fund (the Fund) seeks to maximize total return by primarily investing in securitized investments and other fixed income securities issued by the U.S. government or other issuers.

To achieve its investment objective, the Fund will primarily invest in mortgage-backed securities, other asset-backed obligations, collateralized loan obligations (CLOs), and obligations of the U.S. government and its agencies, instrumentalities, and sponsored corporations.

The Fund intends to invest more than 50% of its net assets in residential and commercial mortgage-backed securities. These investments may include mortgage-backed securities of any maturity or type, including those guaranteed by the U.S. government, its agencies, instrumentalities or sponsored corporations, and privately issued mortgage-backed securities rated, at the time of investment, Aa3 or higher by Moody's Investor Service, Inc., or AA- or higher by S&P Global Ratings, or the equivalent by any other nationally recognized statistical ratings organization, or unrated securities that are determined by the portfolio sub-adviser to be of comparable quality. These investments also include, among others, government mortgage pass-through securities, collateralized mortgage obligations, multiclass pass-through securities, private mortgages pass-through securities, stripped mortgage securities (interest-only and principal-only securities) and inverse floaters.

The Fund may invest in bonds of any of any credit quality, including those that, at the time of investment, are unrated or rated below investment grade. Bonds and fixed income instruments rated below investment grade, or such instruments that are unrated and determined by the portfolio sub-adviser to be of comparable quality, are high yield, high risk bonds, commonly known as junk bonds.

The Fund may invest up to 33.3% of its net assets in below investment grade corporate obligations, or those unrated but determined by the portfolio sub-adviser to be of comparable quality, and credit default swaps of companies in the high yield universe. In managing the Fund's portfolio, the portfolio sub-adviser typically uses a controlled risk approach. The techniques of this approach attempt to control the principal risk components of the fixed income markets and may include, among other factors, consideration of the portfolio sub-adviser's view of the following: the potential relative performance of various market sectors, security selection available within a given sector, the risk/reward equation for different asset classes, liquidity conditions in various market sectors, the shape of the yield curve and projections for changes in the yield curve, potential fluctuations in the overall level of interest rates and current fiscal policy.

For a complete discussion of the Fund's investment objective and strategies, please refer to the Fund's most recently filed simplified prospectus.

RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the period/year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the period/year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

RESULTS OF OPERATIONS

The Fund's net assets decreased by \$35.3 million to \$108.7 million from March 31, 2024 to March 31, 2025. The Fund had net redemptions of \$34.4 million for the year. The portfolio's performance increased assets by \$6.7 million. The Fund paid distributions totalling \$7.6 million. Series A units returned 11.7% after fees and expenses for the year ended March 31, 2025. Over the same time period, the Fund's benchmark returned 4.9%. The benchmark is the Bloomberg U.S. Aggregate Bond Index (TR) (USD) (the Benchmark or the Index).

The performance of the Fund's other Series is substantially similar to that of Series A units, except for differences in the structure of fees and expenses. For the returns of the Fund's other Series, please refer to the "Past Performance" section.

Moderating inflation and cooling economic data helped set the stage for the U.S. Federal Reserve Board (Fed) to cut the federal funds rate by 50 basis points (bps) in September of 2024. Although the Fed further cut its benchmark rate by a total of 50 bps across two meetings in the fourth quarter of 2024, its shift in tone in December 2024 caused both riskier assets and government securities to sell off.

The U.S. presidential elections in November 2024 brought the return of the "Trump Trade." Anticipation of greater U.S. protectionism and tariffs led to higher economic growth projections, accompanied by a rise in both interest rates and U.S. equity values. The Trump administration's tariffs and government firings dominated headlines in March 2025, stoking investors' anxieties surrounding economic growth and inflation. This led to a shift of capital flows from equities into fixed-income assets.

CI DoubleLine Total Return Bond US\$ Fund

Management Report of Fund Performance for the period/year ended March 31, 2025 (Expressed in US\$)

The Fund outperformed its benchmark for the year. Exposure to credit sectors contributed to the Fund's performance. Asset-backed securities (ABS) was the best-performing asset class, exposure to which contributed to the Fund's performance. Aviation-related ABS as well as consumer debt saw improved investor demand. Exposure to non-agency mortgage-backed securities (MBS) contributed to the Fund's performance as favourable supply and demand drove price appreciation. After lagging in performance last year, non-agency commercial MBS experienced a sharp rebound in the past six months as investor sentiment improved. This exposure also contributed to the Fund's performance.

While every sector within the Fund outperformed its benchmark, the longer-duration (interest rate sensitivity) segments, including U.S. Treasuries and agency MBS, were the worst-performing segments.

We increased the Fund's existing allocations to ABS and non-agency commercial MBS. The Fund's non-agency MBS positions were reduced.

RECENT DEVELOPMENTS

Yields remain attractive relative to levels seen over the past decade, setting the stage for attractive total return over the next economic cycle. We believe the Fed will further reduce its benchmark interest rate over the coming months, though the rate of these reductions may be slower than market participants expect. We see higher risk of a U.S. recession than consensus, but recent interest rate reductions by the Fed may reduce the impact of an economic slowdown.

We favour structured credit over corporate credit as we believe it offers more attractive spread levels while benefiting from structural protections, such as credit enhancements.

Privatization

On November 25, 2024, CI Financial Corp. announced that it had entered into a definitive agreement with an affiliate of Mubadala Capital, the alternative asset management arm of Mubadala Investment Company, to acquire all issued and outstanding common shares of CI Financial Corp., other than shares held by members of senior management of CI Financial Corp. who enter into equity rollover agreements. The transaction was approved by shareholders of CI Financial Corp. on February 12, 2025, and the Ontario Superior Court of Justice (Commercial List) on February 18, 2025. Subject to regulatory clearances and other customary closing conditions, the transaction is expected to close in the third quarter of 2025. The Manager does not expect the transaction to impact it or the Fund's business, operations or affairs at this time.

Merger

Effective April 5, 2024, CI DoubleLine Core Plus Fixed Income US\$ Fund and CI DoubleLine Income US\$ Fund merged into CI DoubleLine Total Return Bond US\$ Fund.

The Manager received \$0.2 million in management fees and \$0.1 million in administration fees for the year.

Management Fees

Approximately 25% of total management fees were used to pay for sales and trailing commissions. The remaining 75% of management fees were used to pay for investment management and other general administration.

Independent Review Committee

The Manager, in respect of the Fund, received the following standing instructions from the Independent Review Committee (IRC) with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager reports related party transactions periodically to the IRC and advise the IRC of any material breach of such policies. The Manager's policies and procedures require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; (c) do not exceed the limitations of the applicable legislation; and (d) achieve a fair and reasonable result for the Fund.

Except as otherwise noted above under Related Party Transactions section, the Fund was not a party to any related party transactions during the period/year ended March 31, 2025. If the Fund invested in related party transactions, it relied on the IRC's standing instructions regarding related party transactions during this reporting period/year.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Net assets per unit and distributions per unit are based on the actual number of units outstanding for the relevant Series/Class at the relevant time. The increase (decrease) in net assets from operations per unit is based on the weighted average number of units outstanding for the relevant Series/Class over the fiscal period/year.

(3) Distributions are automatically reinvested in additional units of the Fund.

(4) This information is provided for the period(s)/year(s) ended March 31.

(5) Per unit amounts are presented in Canadian dollars.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on unitholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

(5) This information is provided for the period(s)/year(s) ended March 31.

(6) Per units amounts are presented in Canadian dollars.

(7) Closing market price.

CI DoubleLine Total Return Bond US\$ Fund

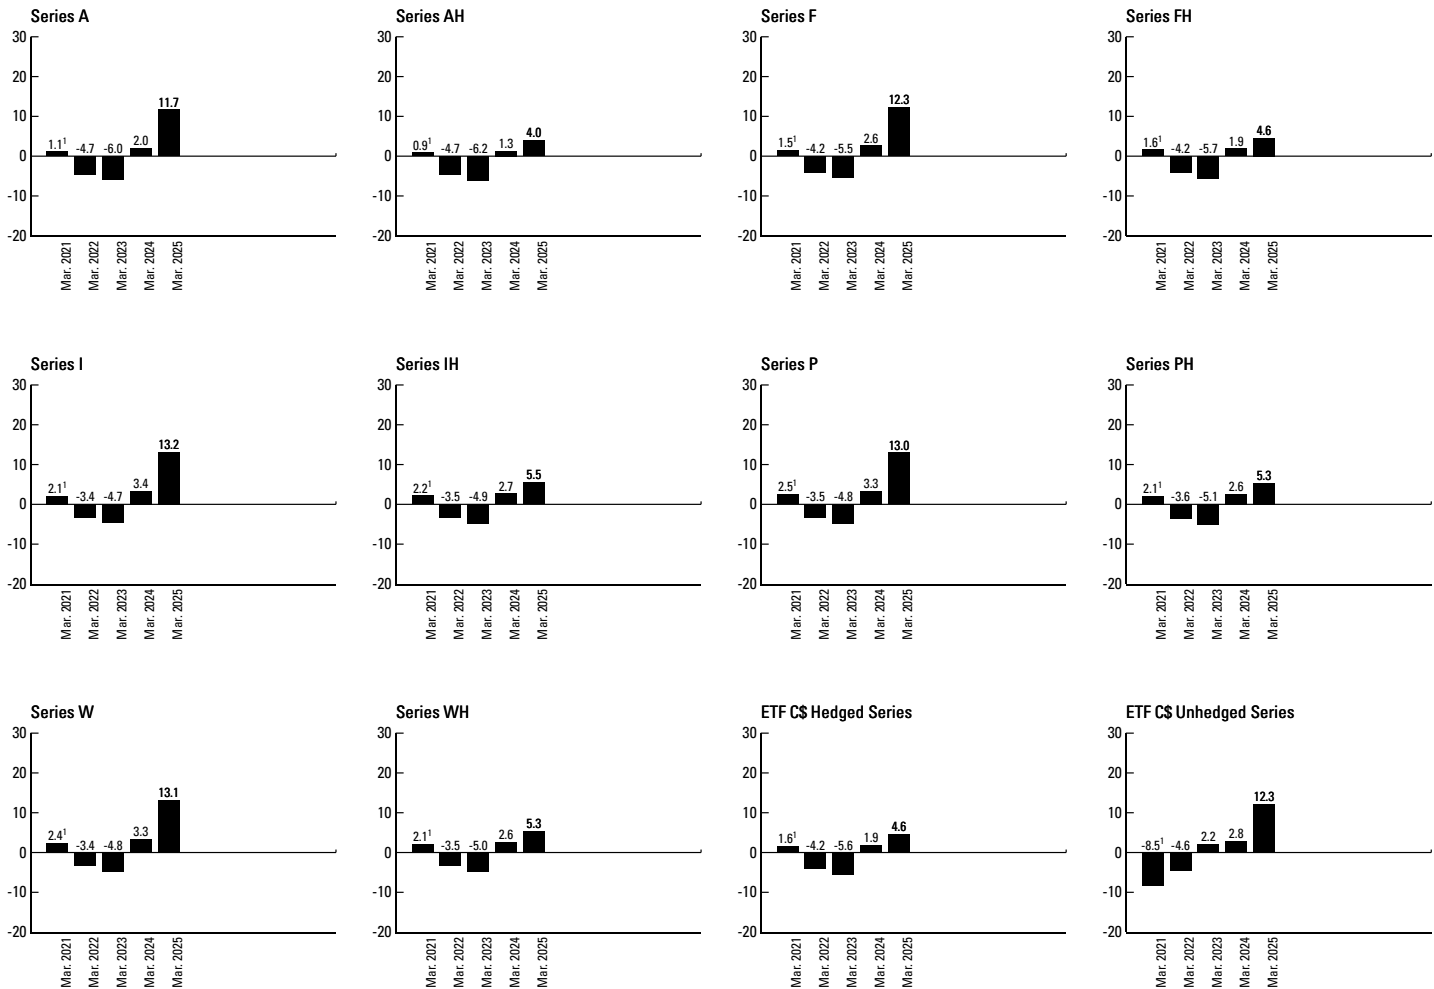

Management Report of Fund Performance for the period/year ended March 31, 2025 (Expressed in US\$)

PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that distributions made by the Fund in the period(s)/year(s) shown were reinvested in additional units of the Fund or relevant Series/Class of the Fund, as applicable. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following chart/charts shows/show the Fund's annual performance for each of the period(s)/year(s) shown and illustrates/illustrate how the Fund's performance has changed from period/year to period/year. In percentage terms, the chart/charts shows/show how much an investment made on the first day of each financial period/year would have grown or decreased by the last day of each financial period/year, except where noted.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about the Fund, its future performance, strategies or prospects, and possible future Fund action. The words “may,” “could,” “should,” “would,” “suspect,” “outlook,” “believe,” “plan,” “anticipate,” “estimate,” “expect,” “intend,” “forecast,” “objective,” and similar expressions are intended to identify forward-looking statements.

Forward-looking statements are not guarantees of future performance. Forward-looking statements involve inherent risks and uncertainties, both about the Fund and general economic factors, so it is possible that predictions, forecasts, projections and other forward-looking statements will not be achieved. We caution you not to place undue reliance on these statements as a number of important factors could cause actual events or results to differ materially from those expressed or implied in any forward-looking statement made by the Fund. These factors include, but are not limited to, general economic, political and market factors in Canada, the United States and internationally, interest and foreign exchanges rates, global equity and capital markets, business competition, technological changes, changes in laws and regulations, judicial or regulatory judgments, legal proceedings and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. All opinions contained in forward-looking statements are subject to change without notice and are provided in good faith but without legal responsibility.
