## Fund Specific Notes to Financial Statements

### Credit Risk

The Fund was invested in fixed income securities, preferred securities and derivative instruments, if any, with the following credit ratings, as per the table/tables below.

as at March 31, 2024

Credit Rating <sup>^*</sup>	Net Assets (%)
A	0.2
BB/Ba/B+	0.7
<b>Total</b>	<b>0.9</b>

as at March 31, 2023

Credit Rating <sup>^*</sup>	Net Assets (%)
A	0.3
BB/Ba/B+	0.4
Not Rated	0.5
<b>Total</b>	<b>1.2</b>

<sup>^</sup>Credit ratings are obtained from S&P Global Ratings, where available, otherwise ratings are obtained from: Moody's Investors Service or Dominion Bond Rating Service, respectively.

\*Refer to Note 10 for Credit Rating Chart reference.

### Other Price Risk

As at March 31, 2024 and 2023, the Fund was predominantly invested in foreign equities and therefore was sensitive to changes in general economic conditions across the world.

As at March 31, 2024, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have increased or decreased, respectively, by approximately \$7,042,000 (March 31, 2023 - \$7,324,000). In practice, the actual results may differ from this analysis and the difference may be material.

As at March 31, 2024, had the Canadian dollar strengthened or weakened by 10% (March 31, 2023 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have decreased or increased, respectively, by approximately \$7,097,000 (March 31, 2023 - \$7,352,000). In practice, the actual results may differ from this analysis and the difference may be material.

## Interest Rate Risk

As at March 31, 2024 and 2023, the Fund did not have a significant exposure to interest rate risk as substantially all of its assets were invested in equities and Exchange-Traded Fund(s).

### Credit Risk

As at March 31, 2024 and 2023, the Fund's exposure to credit risk through derivative instruments was insignificant.

### Other Price Risk

As at March 31, 2024 and 2023, the Fund was predominantly invested in U.S. equities and therefore was sensitive to changes in general economic conditions in the United States.

As at March 31, 2024, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable shares of the Fund would have increased or decreased, respectively, by approximately \$9,457,000 (March 31, 2023 - \$8,872,000). In practice, the actual results may differ from this analysis and the difference may be material.

### Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

## Fund Specific Notes to Financial Statements

### Other Price Risk

As at March 31, 2024 and 2023, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at March 31, 2024, had the fair value of the Underlying Funds of the Underlying Funds increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$296,730,000 (March 31, 2023 - \$306,330,000). In practice, the actual results may differ from this analysis and the difference may be material.

### Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at March 31, 2024-

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	201,632	(84,234)	117,398	3.9
<b>Total</b>	<b>201,632</b>	<b>(84,234)</b>	<b>117,398</b>	<b>3.9</b>

<b>Total</b>	<b>254,797</b>	<b>(125,822)</b>	<b>128,975</b>	<b>4.2</b>

-Includes monetary and non-monetary instruments, if any.

As at March 31, 2024, had the Canadian dollar strengthened or weakened by 10% (March 31, 2023 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$11,740,000 (March 31, 2023 - \$12,898,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

\*\*Change in unrealized gain (loss) related to investments held at March 31, 2023 was (\$410,099).

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at March 31, 2024

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
Fund	89,854,075	Net asset value as reported by underlying fund's investment manager	Net asset value

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investments valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable units of the Fund as at March 31, 2024 and 2023.

## Fund Specific Notes to Financial Statements

### Other Price Risk

As at March 31, 2024 and 2023, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at March 31, 2024, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$164,939,000 (March 31, 2023 - \$167,767,000). In practice, the actual results may differ from this analysis and the difference may be material.

### Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at March 31, 2024-

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	108,984	(51,414)	57,570	3.5
<b>Total</b>	<b>108,984</b>	<b>(51,414)</b>	<b>57,570</b>	<b>3.5</b>

as at March 31, 2023-

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	132,133	(96,657)	35,476	2.1
<b>Total</b>	<b>132,133</b>	<b>(96,657)</b>	<b>35,476</b>	<b>2.1</b>

-Includes monetary and non-monetary instruments, if any.

As at March 31, 2024, had the Canadian dollar strengthened or weakened by 10% (March 31, 2023 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$5,757,000 (March 31, 2023 - \$3,548,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at March 31, 2024

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
Fund	49,776,226	Net asset value as reported by underlying fund's investment manager	Net asset value

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investments valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable units of the Fund as at March 31, 2024 and 2023.

## Fund Specific Notes to Financial Statements

### Other Price Risk

As at March 31, 2024 and 2023, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at March 31, 2024, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$85,768,000 (March 31, 2023 - \$90,825,000). In practice, the actual results may differ from this analysis and the difference may be material.

### Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at March 31, 2024-

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	70,522	(18,687)	51,835	6.0
<b>Total</b>	<b>70,522</b>	<b>(18,687)</b>	<b>51,835</b>	<b>6.0</b>

as at March 31, 2023-

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	80,241	(33,380)	46,861	5.1
<b>Total</b>	<b>80,241</b>	<b>(33,380)</b>	<b>46,861</b>	<b>5.1</b>

-Includes monetary and non-monetary instruments, if any.

As at March 31, 2024, had the Canadian dollar strengthened or weakened by 10% (March 31, 2023 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$5,184,000 (March 31, 2023 - \$4,686,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at March 31, 2024

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
Fund	34,151,765	Net asset value as reported by underlying fund's investment manager	Net asset value

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investments valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable units of the Fund as at March 31, 2024 and 2023.

## Fund Specific Notes to Financial Statements

### Other Price Risk

As at March 31, 2024 and 2023, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at March 31, 2024, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$91,108,000 (March 31, 2023 - \$101,835,000). In practice, the actual results may differ from this analysis and the difference may be material.

### Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at March 31, 2024-

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	66,744	(17,313)	49,431	5.4
<b>Total</b>	<b>66,744</b>	<b>(17,313)</b>	<b>49,431</b>	<b>5.4</b>

as at March 31, 2023-

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	94,518	(34,969)	59,549	5.8
<b>Total</b>	<b>94,518</b>	<b>(34,969)</b>	<b>59,549</b>	<b>5.8</b>

-Includes monetary and non-monetary instruments, if any.

As at March 31, 2024, had the Canadian dollar strengthened or weakened by 10% (March 31, 2023 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$4,943,000 (March 31, 2023 - \$5,955,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

\*\*Change in unrealized gain (loss) related to investments held at March 31, 2023 was (\$134,301).

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at March 31, 2024

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
Fund	25,394,879	Net asset value as reported by underlying fund's investment manager	Net asset value

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investments valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable units of the Fund as at March 31, 2024 and 2023.

## Fund Specific Notes to Financial Statements

### Other Price Risk

As at March 31, 2024 and 2023, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at March 31, 2024, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$106,829,000 (March 31, 2023 - \$98,218,000). In practice, the actual results may differ from this analysis and the difference may be material.

### Currency Risk

-Includes monetary and non-monetary instruments, if any.

As at March 31, 2024, had the Canadian dollar strengthened or weakened by 10% (March 31, 2023 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$3,637,000 (March 31, 2023 - \$1,104,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at March 31, 2024

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
Fund	30,015,725	Net asset value as reported by underlying fund's investment manager	Net asset value

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investments valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable units of the Fund as at March 31, 2024 and 2023.

### Other Price Risk

As at March 31, 2024 and 2023, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at March 31, 2024, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$163,717,000 (March 31, 2023 - \$176,261,000). In practice, the actual results may differ from this analysis and the difference may be material.

### Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at March 31, 2024-

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	200,377	(31,057)	169,320	10.2
<b>Total</b>	<b>200,377</b>	<b>(31,057)</b>	<b>169,320</b>	<b>10.2</b>

as at March 31, 2023-

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	233,175	(69,866)	163,309	9.1
<b>Total</b>	<b>233,175</b>	<b>(69,866)</b>	<b>163,309</b>	<b>9.1</b>

-Includes monetary and non-monetary instruments, if any.

As at March 31, 2024, had the Canadian dollar strengthened or weakened by 10% (March 31, 2023 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$16,932,000 (March 31, 2023 - \$16,331,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

\*\*Change in unrealized gain (loss) related to investments held at March 31, 2023 was (\$235,027).

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at March 31, 2024

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
Fund	43,512,638	Net asset value as reported by underlying fund's investment manager	Net asset value

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investments valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable units of the Fund as at March 31, 2024 and 2023.

## Other Price Risk

As at March 31, 2024 and 2023, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at March 31, 2024, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$50,103,000 (March 31, 2023 - \$43,010,000). In practice, the actual results may differ from this analysis and the difference may be material.

The accompanying notes are an integral part of these financial statements.

<b>Total</b>	<b>31,959</b>	<b>(17,433)</b>	<b>14,526</b>	<b>2.9</b>

~Includes monetary and non-monetary instruments, if any.

As at March 31, 2024, had the fair value of the Underlying Funds increased or decreased by 10%, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$1,453,000. In practice, the actual results may differ from this analysis and the difference may be material.

As at March 31, 2023, the Fund had no significant exposure to currency risk as most of the Fund's investments were denominated in Canadian dollars, the functional currency of the Fund.

Refer to Note 10 for discussion of other financial instrument risks.

\*\*Change in unrealized gain (loss) related to investments held at March 31, 2023 was (\$55,159).

The following section discusses the significant unobservable inputs for individually material Level 3 positions and quantitatively outlines the inputs used to calculate fair value in accordance with IFRS 13, Fair Value Measurement.

The table/tables below presents/present the valuation technique/techniques and the nature of significant input/inputs used to determine the fair value of the Level 3 investments:

as at March 31, 2024

Asset Type	Fair Value \$	Valuation Techniques	Significant Unobservable Inputs
Fund	13,430,253	Net asset value as reported by underlying fund's investment manager	Net asset value

The above investment is valued using the valuation techniques detailed below:

Net asset value: The valuation utilizes net asset value as reported by the underlying fund's investment manager.

For investments valued based on net asset value, a sensitivity analysis to show the potential effect of using reasonably possible alternative assumptions is not applicable.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable units of the Fund as at March 31, 2024 and 2023.

### Financial Instruments Risks (Note 10)

#### Concentration Risk

For Concentration Risk as at March 31, 2024, refer to the Schedule of Investment Portfolio.

The table/tables below summarizes/summarize the Fund's exposure to concentration risk.

as at March 31, 2023

Categories	Net Assets (%)
Financials	36.8
Energy	14.4
Industrials	13.3
Consumer Discretionary	8.4
Consumer Staples	6.1
Utilities	5.0
Communication Services	3.5
Real Estate	3.1
Materials	2.4
Exchange-Traded Fund(s)	2.4
Information Technology	2.3
Other Net Assets (Liabilities)	2.3
<b>Total</b>	<b>100.0</b>

#### Credit Risk

As at March 31, 2024, the Fund did not have a significant exposure to credit risk as substantially all of its assets were invested in equities.

As at March 31, 2023, the Fund did not have a significant exposure to credit risk as substantially all of its assets were invested in equities and Exchange-Traded Fund(s).

#### Other Price Risk

As at March 31, 2024 and 2023, the Fund was predominantly invested in Canadian equities and therefore was sensitive to changes in general economic conditions in Canada.

As at March 31, 2024, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$6,004,000 (March 31, 2023 - \$4,068,000). In practice, the actual results may differ from this analysis and the difference may be material.

#### Currency Risk

As at March 31, 2024 and 2023, the Fund's investments were denominated in Canadian dollars, the functional currency of the Fund. As a result, the Fund was not exposed directly to currency risk.

#### Interest Rate Risk

As at March 31, 2024, the Fund did not have a significant exposure to interest rate risk as substantially all of its assets were invested in equities.

As at March 31, 2023, the Fund did not have a significant exposure to interest rate risk as substantially all of its assets were invested in equities and Exchange-Traded Fund(s).

### Credit Risk

As at March 31, 2024 and 2023, the Fund had no significant direct exposure to credit risk.

As at March 31, 2024 and 2023, the Fund indirectly bears the credit risk exposure of the Underlying Fund.

As at March 31, 2024 and 2023, the Underlying Fund did not have a significant exposure to credit risk as substantially all of its assets were invested in equities.

### Other Price Risk

As at March 31, 2024 and 2023, the Fund indirectly bears the other price risk exposure of the Underlying Fund.

As at March 31, 2024 and 2023, the Underlying Fund was predominantly invested in Canadian equities and therefore was sensitive to changes in general economic conditions in Canada.

As at March 31, 2024, had the fair value of equities in the investment portfolio of the Underlying Fund increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$1,145,000 (March 31, 2023 - \$901,000). In practice, the actual results may differ from this analysis and the difference may be material.

The accompanying notes are an integral part of these financial statements.

	Net Assets (%)
<b>Currency</b>	
U.S. Dollar	9.9
<b>Total</b>	<b>9.9</b>

-Includes monetary and non-monetary instruments, if any.

As at March 31, 2024, had the Canadian dollar strengthened or weakened by 10% (March 31, 2023 - 10%) in relation to all other foreign currencies held in the Underlying Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$114,000 (March 31, 2023 - \$89,000). In practice, the actual results may differ from this analysis and the difference may be material.

### Interest Rate Risk

As at March 31, 2024 and 2023, the Fund had no significant direct exposure to interest rate risk.

As at March 31, 2024 and 2023, the Fund indirectly bears the interest rate risk exposure of the Underlying Fund.

As at March 31, 2024 and 2023, the Underlying Fund did not have a significant exposure to interest rate risk as substantially all of its assets were invested in equities.

## Financial Instruments Risks (Note 10)

### Concentration Risk

For Concentration Risk as at March 31, 2024, refer to the Schedule of Investment Portfolio.

The table/tables below summarizes/summarize the Fund's exposure to concentration risk.

as at March 31, 2023

Categories	Net Assets (%)
U.S.A.	64.5
U.K.	8.7
Canada	6.0
France	4.6
China	3.9
Germany	3.0
Other Net Assets (Liabilities)	2.8
Hong Kong	2.5
Chile	1.4
Austria	1.2
Zambia	0.9
Netherlands	0.5
Foreign Currency Forward Contract(s)	0.0
<b>Total</b>	<b>100.0</b>

### Credit Risk

As at March 31, 2024 and 2023, the Fund's exposure to credit risk through derivative instruments was insignificant.

### Other Price Risk

As at March 31, 2024 and 2023, the Fund was predominantly invested in global equities and therefore was sensitive to changes in general economic conditions across the world.

As at March 31, 2024, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$2,739,000 (March 31, 2023 - \$1,991,000). In practice, the actual results may differ from this analysis and the difference may be material.

### Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at March 31, 2024-

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)

### Financial Instruments Risks (Note 10)

#### Concentration Risk

For Concentration Risk as at March 31, 2024, refer to the Schedule of Investment Portfolio.

The table/tables below summarizes/summarize the Fund's exposure to concentration risk.

as at March 31, 2023

Categories	Net Assets (%)
U.S.A.	33.5
U.K.	23.9
Japan	9.9
Switzerland	7.5
Israel	6.0
Spain	5.6
Mexico	5.4
Singapore	4.5
Other Net Assets (Liabilities)	3.7
<b>Total</b>	<b>100.0</b>

#### Credit Risk

As at March 31, 2024 and 2023, the Fund did not have a significant exposure to credit risk as substantially all of its assets were invested in equities.

#### Other Price Risk

As at March 31, 2024 and 2023, the Fund was predominantly invested in global equities and therefore was sensitive to changes in general economic conditions across the world.

As at March 31, 2024, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$14,820,000 (March 31, 2023 - \$12,608,000). In practice, the actual results may differ from this analysis and the difference may be material.

#### Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at March 31, 2024--

## Financial Instruments Risks (Note 10)

### Concentration Risk

For Concentration Risk as at March 31, 2024, refer to the Schedule of Investment Portfolio.

The table/tables below summarizes/summarize the Fund's exposure to concentration risk.

as at March 31, 2023

Categories	Net Assets (%)
U.S.A.	46.8
Canada	13.9
France	6.2
Australia	5.4
Spain	4.8
Other Net Assets (Liabilities)	4.1

<b>Total</b>	<b>100.0</b>

### Credit Risk

As at March 31, 2024 and 2023, the Fund's exposure to credit risk through derivative instruments was insignificant.

### Other Price Risk

As at March 31, 2024 and 2023, the Fund was invested in global equities and therefore was sensitive to changes in general economic conditions across the world.

As at March 31, 2024, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$32,109,000 (March 31, 2023 - \$35,040,000). In practice, the actual results may differ from this analysis and the difference may be material.

### Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at March 31, 2024--

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)

As at March 31, 2024, had the Canadian dollar strengthened or weakened by 10% (March 31, 2023 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$23,438,000 (March 31, 2023 - \$23,496,000). In practice, the actual results may differ from this analysis and the difference may be material.

## Interest Rate Risk

As at March 31, 2024 and 2023, the Fund did not have a significant exposure to interest rate risk as substantially all of its assets were invested in equities and derivatives.

## Fair Value Hierarchy

The table/tables below summarizes/summarize the inputs used by the Fund in valuing the Fund's investments and derivatives carried at fair value.

#### Other Price Risk

As at March 31, 2024 and 2023, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at March 31, 2024, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$6,901,000 (March 31, 2023 - \$7,806,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

### Financial Instruments Risks (Note 10)

#### Concentration Risk

For Concentration Risk as at March 31, 2024, refer to the Schedule of Investment Portfolio.

The table/tables below summarizes/summarize the Fund's exposure to concentration risk.

as at March 31, 2023

Categories	Net Assets (%)
U.S.A.	59.1
Canada	25.6
Other Net Assets (Liabilities)	4.3
Mexico	3.3

Sweden	0.1
Foreign Currency Forward Contract(s)	0.0
<b>Total</b>	<b>100.0</b>

#### Credit Risk

As at March 31, 2024 and 2023, the Fund's exposure to credit risk through derivative instruments was insignificant.

#### Other Price Risk

As at March 31, 2024 and 2023, the Fund was predominantly invested in global equities and therefore was sensitive to changes in general economic conditions across the world.

As at March 31, 2024, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$9,268,000 (March 31, 2023 - \$10,863,000). In practice, the actual results may differ from this analysis and the difference may be material.

#### Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at March 31, 2024--

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)

As at March 31, 2024, had the Canadian dollar strengthened or weakened by 10% (March 31, 2023 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$6,397,000 (March 31, 2023 - \$7,024,000). In practice, the actual results may differ from this analysis and the difference may be material.

### Interest Rate Risk

As at March 31, 2024 and 2023, the Fund did not have a significant exposure to interest rate risk as substantially all of its assets were invested in equities, derivatives and Exchange-Traded Fund(s).

### Fair Value Hierarchy

The table/tables below summarizes/summarize the inputs used by the Fund in valuing the Fund's investments and derivatives carried at fair value.

## Financial Instruments Risks (Note 10)

### Concentration Risk

For Concentration Risk as at March 31, 2024, refer to the Schedule of Investment Portfolio.

The table/tables below summarizes/summarize the Fund's exposure to concentration risk.

as at March 31, 2023

Categories	Net Assets (%)
U.S.A.	50.6
U.K.	13.5
Sweden	12.1
Canada	8.8
Ireland	7.0
Netherlands	2.2
Italy	1.9

Other Net Assets (Liabilities)	1.0
<b>Total</b>	<b>100.0</b>

### Credit Risk

As at March 31, 2024 and 2023, the Fund did not have a significant exposure to credit risk as substantially all of its assets were invested in equities.

### Other Price Risk

As at March 31, 2024 and 2023, the Fund was predominantly invested in global equities and therefore was sensitive to changes in general economic conditions across the world.

As at March 31, 2024, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$1,339,000 (March 31, 2023 - \$1,616,000). In practice, the actual results may differ from this analysis and the difference may be material.

### Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at March 31, 2024-

## Financial Instruments Risks (Note 10)

### Concentration Risk

For Concentration Risk as at March 31, 2024, refer to the Schedule of Investment Portfolio.

The table/tables below summarizes/summarize the Fund's exposure to concentration risk.

as at March 31, 2023

Categories	Net Assets (%)

<b>Total</b>	<b>100.0</b>

### Credit Risk

As at March 31, 2024 and 2023, the Fund did not have a significant exposure to credit risk as substantially all of its assets were invested in equities.

### Other Price Risk

As at March 31, 2024 and 2023, the Fund was predominantly invested in foreign equities and therefore was sensitive to changes in general economic conditions across the world.

As at March 31, 2024, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$3,731,000 (March 31, 2023 - \$3,527,000). ## Financial Instruments Risks (Note 10)

### Concentration Risk

For Concentration Risk as at March 31, 2024, refer to the Schedule of Investment Portfolio.

The table/tables below summarizes/summarize the Fund's exposure to concentration risk.

as at March 31, 2023

Categories	Net Assets (%)
U.K.	22.2
France	17.1
Germany	12.6
Denmark	6.6

Belgium	2.1
Singapore	1.8
Ireland	1.7
China	0.9
<b>Total</b>	<b>100.0</b>

### Credit Risk

As at March 31, 2024, the Fund did not have a significant exposure to credit risk as substantially all of its assets were invested in equities.

The Fund was invested in fixed income securities, preferred securities and derivative instruments, if any, with the following credit ratings, as per the table/tables below.

as at March 31, 2023

Credit Rating <sup>^*</sup>	Net Assets (%)
Not Rated	2.1
<b>Total</b>	<b>2.1</b>

<sup>^</sup>Credit ratings are obtained from S&P Global Ratings, where available, otherwise ratings are obtained from: Moody's Investors Service or Dominion Bond Rating Service, respectively.

<sup>\*</sup>Refer to Note 10 for Credit Rating Chart reference.

### Other Price Risk

As at March 31, 2024 and 2023, the Fund was predominantly invested in foreign equities and therefore was sensitive to changes in general economic conditions across the world.

As at March 31, 2024, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$2,556,000 (March 31, 2023 - \$2,195,000). In practice, the actual results may differ from this analysis and the difference may be material.

### Other Price Risk

As at March 31, 2024 and 2023, the Fund was invested in global equities and therefore was sensitive to changes in general economic conditions across the world.

As at March 31, 2024, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$59,540,000 (March 31, 2023 - \$52,552,000). In practice, the actual results may differ from this analysis and the difference may be material.

\*\*Change in unrealized gain (loss) related to investments held at March 31, 2023 was \$6,279.

During the year ended March 31, 2023, investments with a fair value of \$308,000 were transferred out of Level 3 into Level 1 as quoted market prices became available for these investments.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable units of the Fund as at March 31, 2024 and 2023.

### Other Price Risk

As at March 31, 2024 and 2023, the Fund was exposed to other price risk as some of its assets were invested in equities.

As at March 31, 2024, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$64,000 (March 31, 2023 - \$39,000). In practice, the actual results may differ from this analysis and the difference may be material.

### Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at March 31, 2024~

## Fund Specific Notes to Financial Statements

### Other Price Risk

As at March 31, 2024 and 2023, the Fund was invested in global equities and therefore was sensitive to changes in general economic conditions across the world.

As at March 31, 2024, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$13,000 (March 31, 2023 - \$15,000). In practice, the actual results may differ from this analysis and the difference may be material.

### Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at March 31, 2024-

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	11,940	(8,459)	3,481	21.6
<b>Total</b>	<b>11,940</b>	<b>(8,459)</b>	<b>3,481</b>	<b>21.6</b>

as at March 31, 2023-

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)

<b>Total</b>	<b>10,637</b>	<b>(8,180)</b>	<b>2,457</b>	<b>18.6</b>

-Includes monetary and non-monetary instruments, if any.

As at March 31, 2024, had the Canadian dollar strengthened or weakened by 10% (March 31, 2023 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$348,000 (March 31, 2023 - \$246,000). In practice, the actual results may differ from this analysis and the difference may be material.

### Interest Rate Risk

The table/tables below summarizes/summarize the Fund's exposure to interest rate risk, categorized by the contractual maturity date.

as at March 31, 2024

	Less than 1 Year (in \$000's)	1 - 3 Years (in \$000's)	3 - 5 Years (in \$000's)	Greater than 5 Years (in \$000's)	Total (in \$000's)

\*\*Change in unrealized gain (loss) related to investments held at March 31, 2023 was \$58,175.

During the year ended March 31, 2023, investments with a fair value of \$82,000 were transferred out of Level 3 into Level 2 as observable market inputs became available for these investments.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable units of the Fund as at March 31, 2024 and March 31, 2023.

## Fund Specific Notes to Financial Statements

### Other Price Risk

As at March 31, 2024 and 2023, the Fund was exposed to other price risk as some of its assets were invested in equities.

As at March 31, 2024, had the fair value of equities in the investment portfolio increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$462,000 (March 31, 2023 - \$195,000). In practice, the actual results may differ from this analysis and the difference may be material.

### Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at March 31, 2024-

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)

<b>Total</b>	<b>9,569</b>	<b>(6,637)</b>	<b>2,932</b>	<b>15.6</b>

-Includes monetary and non-monetary instruments, if any.

As at March 31, 2024, had the Canadian dollar strengthened or weakened by 10% (March 31, 2023 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$421,000 (March 31, 2023 - \$293,000). In practice, the actual results may differ from this analysis and the difference may be material.

### Interest Rate Risk

The table/tables below summarizes/summarize the Fund's exposure to interest rate risk, categorized by the contractual maturity date.

as at March 31, 2024

	Less than 1 Year (in \$000's)	1 - 3 Years (in \$000's)	3 - 5 Years (in \$000's)	Greater than 5 Years (in \$000's)	Total (in \$000's)

\*\*Change in unrealized gain (loss) related to investments held at March 31, 2023 was \$2,540.

During the year ended March 31, 2023, investments with a fair value of \$110,000 were transferred out of Level 3 into Level 1 as quoted market prices became available for these investments.

Investments classified as Level 3 are valued at fair value based on unobservable inputs and assumptions, which may include credit spreads, industry multipliers, and discount rates. Management has assessed that the effect of changing these inputs to reasonably possible alternatives would not have a significant impact on the net assets attributable to holders of redeemable units of the Fund as at March 31, 2024 and 2023.

## Fund Specific Notes to Financial Statements

### Other Price Risk

As at March 31, 2024 and 2023, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at March 31, 2024, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$1,013,000 (March 31, 2023 - 693,000). In practice, actual results may differ from this analysis and the difference may be material.

### Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at March 31, 2024-

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	1,883	-	1,883	18.0
<b>Total</b>	<b>1,883</b>	<b>-</b>	<b>1,883</b>	<b>18.0</b>

as at March 31, 2023-

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	1,279	(136)	1,143	15.8
<b>Total</b>	<b>1,279</b>	<b>(136)</b>	<b>1,143</b>	<b>15.8</b>

-Includes monetary and non-monetary instruments, if any.

As at March 31, 2024, had the Canadian dollar strengthened or weakened by 10% (March 31, 2023 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$188 000 (March 31, 2023 - \$114,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

## Fund Specific Notes to Financial Statements

### Other Price Risk

As at March 31, 2024 and 2023, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at March 31, 2024, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$695,000 (March 31, 2023 - 413,000). In practice, actual results may differ from this analysis and the difference may be material.

### Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at March 31, 2024-

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	1,671	-	1,671	23.3
<b>Total</b>	<b>1,671</b>	<b>-</b>	<b>1,671</b>	<b>23.3</b>

as at March 31, 2023-

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	991	(118)	873	20.3
<b>Total</b>	<b>991</b>	<b>(118)</b>	<b>873</b>	<b>20.3</b>

-Includes monetary and non-monetary instruments, if any.

As at March 31, 2024, had the Canadian dollar strengthened or weakened by 10% (March 31, 2023 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$167,000 (March 31, 2023 - \$87,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

## Fund Specific Notes to Financial Statements

### Other Price Risk

As at March 31, 2024 and 2023, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at March 31, 2024, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$531,000 (March 31, 2023 - \$487,000). In practice, actual results may differ from this analysis and the difference may be material.

### Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at March 31, 2024-

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	665	-	665	12.2
<b>Total</b>	<b>665</b>	<b>-</b>	<b>665</b>	<b>12.2</b>

as at March 31, 2023-

Currency	Financial Instruments Exposure (in \$000's)	Derivatives (in \$000's)	Net Exposure (in \$000's)	Net Assets (%)
U.S. Dollar	595	(65)	530	10.5
<b>Total</b>	<b>595</b>	<b>(65)</b>	<b>530</b>	<b>10.5</b>

-Includes monetary and non-monetary instruments, if any.

As at March 31, 2024, had the Canadian dollar strengthened or weakened by 10% (March 31, 2023 - 10%) in relation to all other foreign currencies held in the Fund, with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have decreased or increased, respectively, by approximately \$67,000 (March 31, 2023 - \$53,000). In practice, the actual results may differ from this analysis and the difference may be material.

Refer to Note 10 for discussion of other financial instrument risks.

## Other Price Risk

As at March 31, 2024 and 2023, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at March 31, 2024, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$42,718,000 (March 31, 2023 - \$37,961,000). In practice, actual results may differ from this analysis and the difference may be material.

## Other Price Risk

As at March 31, 2024 and 2023, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at March 31, 2024, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$28,825,000 (March 31, 2023 - \$22,468,000). In practice, actual results may differ from this analysis and the difference may be material.

## Other Price Risk

As at March 31, 2024 and 2023, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at March 31, 2024, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$16,230,000 (March 31, 2023 - \$15,947,000). In practice, actual results may differ from this analysis and the difference may be material.

## Other Price Risk

As at March 31, 2024 and 2023, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at March 31, 2024, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$16,848,000 (March 31, 2023 - 13,070,000). In practice, actual results may differ from this analysis and the difference may be material.

## Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

as at March 31, 2024--

### Other Price Risk

As at March 31, 2024 and 2023, the Fund indirectly bears the other price risk exposure of the Underlying Funds.

As at March 31, 2024, had the fair value of the Underlying Funds increased or decreased by 10% (March 31, 2023 - 10%), with all other variables held constant, net assets attributable to holders of redeemable units of the Fund would have increased or decreased, respectively, by approximately \$11,417,000 (March 31, 2023 - \$11,347,000). In practice, actual results may differ from this analysis and the difference may be material.

### Currency Risk

The table/tables below summarizes/summarize the Fund's exposure to currency risk.

# CI Corporate Class Limited

## Notes to the Financial Statements

### 1. THE FUNDS

CI Corporate Class Limited (the Corporation) was incorporated on July 8, 1987 under the laws of the Province of Ontario.

CI Investments Inc. is the manager and the trustee (the Manager and the Trustee) of the Funds. The Manager is a wholly owned subsidiary of CI Financial Corp. (Toronto Stock Exchange (TSX): CIX). Effective from July through November 2022, CIBC Mellon Trust Company replaced RBC Investor Services Trust as the fund administrator for the Funds. Effective October and November 2022, CIBC Mellon Trust Company replaced RBC Investor Services Trust as the custodian (the Custodian) for the Funds. The Bank of New York Mellon is a lending agent (the Lending Agent) for the Funds.

The Corporation's registered office address is 15 York Street, Second Floor, Toronto, Ontario, M5J 0A3.

These financial statements were authorized for issue by the Manager on June 20, 2024.

The Corporation is authorized to issue an unlimited number of non-cumulative, redeemable, restricted voting, convertible special shares of various designated Classes and an unlimited number of common shares. Each designated Class of shares holds a separate proprietary right in the investments and net assets acquired specifically for that Class of shares. Each Class of shares has a right of conversion to any other Class of shares of the Corporation.

Each Class of shares is referred to as a Fund.

The objective of each Fund is to pool and manage money contributed by investors (shareholders) with similar investment goals. The Funds may invest in equities, fixed income securities, derivatives, underlying fund(s) or some combination thereof according to their specific investment objectives and strategies. Investments may be held for income or capital appreciation, or both. Shareholders share the Fund's income, expenses, and any gains or losses a Fund makes on its investments generally in proportion to the value of the securities they own.

These financial statements only present the financial information of each of the Classes presented as separate reporting entities. If a Class cannot satisfy its obligations, the other Classes may be required to satisfy those obligations using assets attributable to those Classes. The Manager believes the risk of such cross Class liability is remote.

The following Funds are a Class of shares of the Corporation. The "Inception Date" is the date upon which shares of a series of a Fund commenced operations.

<sup>^</sup>Private Client Managed Portfolios are made available through Assante Private Client, a division of CI Private Counsel LP. The Funds used in the Private Client Managed Portfolios are managed by CI Investments Inc., an affiliate of CI Private Counsel LP.

Effective as of close of business on April 8, 2022, the following Funds merged:

Terminating Fund	Continuing Fund
CI American Managers® Corporate Class	CI U.S. Stock Selection Corporate Class
CI Conservative Balanced Income Class	CI Canadian Balanced Corporate Class
CI Global Dividend Opportunities Class	CI Global Dividend Opportunities Corporate Class
CI High Yield Bond Class	CI High Yield Bond Corporate Class

The Manager adopted the acquisition method of accounting for the merger of the Funds. Under this method, one of the Funds is identified as the acquiring Fund and is referred to as the "Continuing Fund", and the other Fund involved in the merger is referred to as the "Terminating Fund". This identification is based on a comparison of the relative net asset value (NAV) of the Funds, as well as consideration of the continuation of aspects of the Continuing Fund, such as investment objectives and practices and type of portfolio securities.

Effective as of the close of business on April 8, 2022, the Continuing Fund acquired all of the net assets of the Terminating Fund in exchange for securities in the Continuing Fund. The value of the securities of the Continuing Fund issued in connection with this merger was equal to the net assets transferred from the Terminating Fund. The cost associated with the merger was borne by the Manager.

The following mergers occurred on a taxable basis.

Terminating Fund	Continuing Fund	Net Assets	
		Acquired (\$)	Units Issued
CI American Managers® Corporate Class	CI U.S. Stock Selection Corporate Class	49,670,313	2,005,648
CI Conservative Balanced Income Class	CI Canadian Balanced Corporate Class	67,719,338	6,689,246

## Notes to the Financial Statements (cont'd)

---

The Terminating Funds' results are not included in these financial statements.

The Statements of Financial Position are as at March 31, 2024 and 2023. The Statements of Comprehensive Income, Statements of Changes in Net Assets Attributable to Holders of Redeemable Shares and Statements of Cash Flows are for the years ended March 31, 2024 and 2023, except for Funds established during either year, in which case the information provided relates to the period from inception to March 31, 2024 and 2023, as applicable.

### 2. MATERIAL ACCOUNTING POLICY INFORMATION

These financial statements have been prepared in compliance with *International Financial Reporting Standards* (IFRS) as published by the International Accounting Standards Board.

The following is the material accounting policy information of the Funds:

#### a. Classification and recognition of financial instruments

The Funds classify and measure their investments (such as fixed income securities, equity securities, investment fund(s), exchange-traded fund(s) and derivatives) based on both the Funds' business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The Funds' portfolios of financial assets are managed, and performance is evaluated on a fair value basis. The Funds are primarily focused on fair value information and use that information to assess the assets' performance and to make decisions. The contractual cash flows of the Funds' debt securities are solely principal and interest; however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Funds' business model's objective. Consequently, all investments and derivatives are measured at fair value through profit or loss (FVTPL). Short sales are classified as financial liabilities at FVTPL. Derivative contracts that have a negative fair value are presented as liabilities at FVTPL.

The Funds' obligations for net assets attributable to holders of redeemable shares are presented at the redemption amount, which approximates their fair value. All other financial assets and liabilities are measured at amortized cost, which approximates fair value. Under this method, financial assets and liabilities reflect the amount required to be received or paid, discounted, when appropriate, at the effective rate of interest.

Financial assets and liabilities are offset, and the net amounts are presented in the Statements of Financial Position when, and only when, the Funds have a legal right to offset the amounts and intend either to settle on a net basis or to realize the asset and settle the liability simultaneously. In the normal course of business, the Funds enter into various master netting agreements or similar agreements that do not meet the criteria for offsetting in the Statements of Financial Position, but still allow for the related amounts to be offset in certain circumstances, such as bankruptcy or termination of the contracts.

#### b. Fair value of financial instruments

At the financial reporting date, listed securities are valued based on the last traded market price for financial assets and financial liabilities where the last traded price falls within the day's bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on the existing market conditions. Unlisted securities are valued based on price quotations from recognized investment dealers, or failing that, their fair value is determined by the Manager based on the latest reported information available. Unlisted warrants, if any, are valued based on a pricing model that considers factors such as the

market value of the underlying security, strike price and terms of the warrant. Fixed income securities, debentures and other debt instruments, including short-term investments, are valued at the quotation received from recognized investment dealers. Underlying fund(s) are valued on each business day at their NAV as reported by the underlying fund's/fund(s) managers.

The fair value of securities where no market price exists is determined by using valuation models that may be based, in part, on assumptions that are not supported by observable market inputs. These methods and procedures may include, but are not limited to, performing comparisons with prices of comparable or similar securities, obtaining valuation-related information from issuers and/or other analytical data relating to the investment and using other available indications of value. These values are independently assessed by the Manager to ensure that they are reasonable. However, because of the inherent uncertainty of valuation, the estimated fair values for these securities may be materially different from the values that would have been used had a ready market for the investment existed. The fair values of securities where no market price exists are affected by the perceived credit risks of the issuer, predictability of cash flows and the length of time to maturity.

#### c. Cash

Cash comprised of cash on deposit and bank overdraft.

#### d. Cost of investments

Cost of investments represents the amount paid for each security and is determined on an average cost basis excluding commissions and transactions costs. Average cost does not include amortization of premiums or discounts on fixed income securities with the exception of zero-coupon bonds.

#### e. Investment transactions and income recognition

Investment transactions are recorded on the trade date—the date on which a Fund commits to purchase or sell the investment. The interest for distribution purposes, disclosed in the Statements of Comprehensive Income, represents the coupon interest received by the Funds and is accounted for on an accrual basis. The Funds do not amortize premiums paid or discounts received on the purchase of fixed income securities except for zero-coupon bonds, which are amortized on a straight-line basis.

Dividends and distributions from investments are recognized on the ex-dividend/ex-distribution date.

Distributions received from income trust(s) and underlying fund(s) holdings are recorded as income, capital gains or a return of capital based on the best information available to the Manager. Due to the nature of these investments, actual allocations could vary from this information. Distributions from income trust(s) and underlying fund(s) that are treated as a return of capital for income tax purposes reduce the average cost of the income trust(s) and underlying fund(s).

#### f. Functional and presentation currency

The Funds' functional and presentation currency is the Canadian dollar, except for CI U.S. Money Market Corporate Class as this Fund's functional and presentation currency is the U.S. dollar. For Funds that offer Series AH, Series FH, Series IH and Series PH shares, the NAV per share for those series is stated in U.S. dollars.

#### g. Foreign exchange

Foreign currency amounts are translated into the functional currency as follows: fair value of investments, foreign currency forward contracts and other assets and liabilities at the closing rate of exchange on each business day; income and expenses, purchases and sales and settlements of investments at the rate of exchange prevailing on the respective dates of such transactions. Foreign exchange gains (losses) relating

# CI Corporate Class Limited

## Notes to the Financial Statements (cont'd)

---

to cash are presented as "Foreign exchange gain (loss) on cash" and those relating to other financial assets and liabilities are presented within "Net realized gain (loss) on sale of investments and derivatives" and "Change in unrealized appreciation (depreciation) in value of investments and derivatives" in the Statements of Comprehensive Income.

### **h. Share valuation**

NAV per share of each series is calculated at the end of each day on which the TSX is open for business by dividing the total NAV of each series of a Fund by the number of shares of that series outstanding.

The NAV of each series is computed by calculating the value of that series' proportionate share of the Fund's assets less that series' proportionate share of the Fund's common liabilities and less series-specific liabilities. Expenses directly attributable to a series are charged to that series. Other income and expenses, and gains and losses, are allocated to each series proportionately based upon the relative total NAV of each series.

As at March 31, 2024 and 2023, there were no differences between the NAV used for transactions with shareholders and the net assets attributable to holders of redeemable shares used for reporting purposes under IFRS.

### **i. Classification of shares**

The shares of each of the Funds are classified as financial liabilities in accordance with IAS 32, *Financial Instruments: Presentation* (IAS 32), as they do not meet the definition of puttable instruments to be classified as equity in accordance with IAS 32 for financial reporting purposes.

### **j. Commissions and other portfolio transaction costs**

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities, are included in "Commissions and other portfolio transaction costs" in the Statements of Comprehensive Income. Funds that only invest in units/shares of underlying fund(s) are not subject to transaction costs.

### **k. Increase (decrease) in net assets attributable to holders of redeemable shares per share**

"Increase (decrease) in net assets attributable to holders of redeemable shares per share" in the Statements of Comprehensive Income is calculated by dividing the increase (decrease) in net assets attributable to holders of redeemable shares of each series of a Fund by the weighted average number of shares of that series outstanding during the year.

### **l. Foreign currency forward contract(s)**

A Fund may, from time to time, enter into foreign currency forward contracts. Foreign currency forward contracts are valued on each valuation day based on the difference between the contract rate and the current forward rates at the measurement date applied to the contract's notional amount and adjusted for counterparty risk. All unrealized gains (losses) arising from foreign currency forward contracts are recorded as part of "Change in unrealized appreciation (depreciation) in value of investments and derivatives" in the Statements of Comprehensive Income and "Unrealized gain (loss) on futures and foreign currency forward contracts" in the Statements of Financial Position until the contracts are closed out or expire, at which time the gains (losses) are realized and reported as "Net realized gain (loss) on sale of investments and derivatives" in the Statements of Comprehensive Income.

### **m. Option contract(s)**

Over-the-counter (OTC) options are valued using the Black-Scholes model, whereas exchange-traded options are valued at the last traded price taken from the exchange. Option contracts are valued on each valuation day according to the gain or loss that would be realized if the contract were closed out.

All unrealized gains (losses) arising from option contracts are recorded as part of "Change in unrealized appreciation (depreciation) in value of investments and derivatives" in the Statements of Comprehensive Income until the contracts are closed out or expire, at which time the gains (losses) are realized and reflected in the Statements of Comprehensive Income in "Net realized gain (loss) on sale of investments and derivatives". Any expired option premiums are recorded as part of "Derivative income (loss)" in the Statements of Comprehensive Income.

### **n. Mortgage-backed and asset-backed securities**

Certain Funds invest in mortgage-related and other asset-backed securities. These securities may include: mortgage pass-through securities, collateralized mortgage obligations, commercial mortgage-backed securities, asset-backed securities, collateralized debt obligations and other securities that directly or indirectly represent a participation in, or are secured by and payable from, mortgage loans on real property. The debt and equity securities issued by these securities may include tranches with varying levels of subordination. These securities may provide a monthly payment that consists of both interest and principal payments.

Mortgage-related securities are created from pools of residential or commercial mortgage loans, including mortgage loans made by savings and loan institutions, mortgage bankers, commercial banks and others. Asset-backed securities are created from many types of assets, including auto loans, credit card receivables, home equity loans and student loans.

Mortgage-related and asset-backed securities are issued as separate tranches, or classes, of securities within each deal. The securities are also normally valued by pricing service providers that use broker-dealer quotations or valuation estimates from their internal pricing models. The pricing models for these securities usually consider tranche-level attributes, current market data, estimated cash-flows, and market-based yield spreads for each tranche, and incorporate deal collateral performance, as available. The carrying values of mortgage-related and other asset-backed securities are included in "Investments" in the Statements of Financial Position. The changes in fair values of mortgage-related and other asset-backed securities are included in the Statements of Comprehensive Income in "Change in unrealized appreciation (depreciation) in value of investments and derivatives".

### **o. Offsetting of financial instruments**

The disclosures set out in the Offsetting of Financial Instruments tables in the Fund Specific Notes to Financial Statements of each Fund, where applicable, include foreign currency forward contract assets and liabilities that are subject to an enforceable master netting arrangement. Transactions with individual counterparties are governed by separate master netting agreements. Each agreement allows for net settlement of certain open contracts where the Funds and respective counterparty both elect to settle on a net basis. In the absence of such an election, contracts will be settled on a gross basis. However, each party to the master netting agreement will have the option to settle all open contracts on a net basis in the event of default of the other party. All other derivative instruments held by the Funds are settled on a gross basis.

International Swaps and Derivatives Association Inc. Master Agreements (ISDA Master Agreements) govern OTC financial derivative transactions entered into by the Funds and select counterparties. The ISDA Master Agreements maintain provisions for general obligations, representations, agreements, collateral and events of default or termination. Events of termination include conditions that may entitle counterparties to elect to terminate early and cause settlement of all outstanding transactions under the applicable ISDA Master Agreement. Any election to terminate early could be material to the financial statements. The fair value of OTC financial derivative transactions net of collateral received in or pledged by a counterparty is disclosed in the Fund Specific Notes to Financial Statements.

## Notes to the Financial Statements (cont'd)

---

Funds may be subject to various master agreements or netting arrangements with select counterparties. These master agreements reduce the counterparty risk associated with relevant transactions by specifying credit protection mechanisms and providing standardization that improves legal certainty.

Since different types of transactions have different mechanics and are sometimes traded out of different legal entities of a particular counterparty organization, each type of transaction may be covered by a different master agreement resulting in the need for multiple agreements with a single counterparty. As the master agreements are specific to unique operations of different asset types, they allow the Funds to close out and net their total exposure to a counterparty in the event of a default with respect to the transactions governed under a single agreement with a counterparty.

**p. Investments in associates, joint ventures, subsidiaries and unconsolidated structured entities**

Subsidiaries are entities, including investments in other investment entities, over which a Fund has control. A Fund controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity, and has the ability to affect those returns through its power over the entity. Associates and joint ventures are investments over which a Fund has significant influence or joint control. A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factors in deciding who controls the entity, or when voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements.

The Manager has determined that underlying fund(s) or exchange-traded fund(s) (ETF(s)) held typically by the Funds meet the definition of structured entities. Mortgage-backed securities or asset-backed securities are also considered to be unconsolidated structured entities. The Funds account for their investments in unconsolidated structured entities at FVTPL.

The Funds that invest in underlying fund(s) are subject to the terms and conditions of the respective underlying fund's offering documents and are susceptible to market price risk arising from uncertainties about future values of those underlying fund(s). All of the underlying fund(s) in the investment portfolio are managed by portfolio managers who are compensated by the respective underlying fund for their services. Such compensation generally consists of an asset-based fee and is reflected in the valuation of each of the underlying fund(s), except when the Funds invest in certain series/classes of the underlying fund(s) where the compensation to portfolio managers is negotiated and paid outside each of the underlying fund(s). The underlying fund(s) finance their operations by issuing redeemable units that entitle the holders to an equal beneficial interest in a respective underlying fund. The Funds can redeem their investments in the underlying fund(s) on a daily basis.

Certain Funds invest in ETF(s). The ETF(s) finance their operations by issuing redeemable shares, which are puttable at the holder's option and entitle the holder to a proportional stake in each ETF's NAV. The ETF(s) are domiciled in Canada, the U.S. and Japan and listed on recognized public stock exchanges. The Funds' maximum exposure to loss from their interest in ETF(s) is equal to the total fair value of their investments in the ETF(s).

The Funds' investments in underlying fund(s) or ETF(s) are accounted for at FVTPL and included in "Investments" in the Statements of Financial Position. All unrealized gains (losses) arising from these investments are recorded as part of "Change in unrealized appreciation (depreciation) in value of investments and derivatives" in the Statements of Comprehensive Income until these investments are sold, at which time the gains (losses) are realized and reflected in the Statements of Comprehensive Income in "Net realized gain (loss) on sale of investments and derivatives".

The Funds' maximum exposure to loss from their interest in ETF(s), underlying fund(s) and mortgage/asset-backed securities is equal to the total fair value of their investments in these unconsolidated structured entities.

Additional information related to Interest in Unconsolidated Structured Entities for each of the Funds appears under the Fund Specific Notes to Financial Statements, where applicable.

**q. Withholding taxes**

A Fund may, from time to time, incur withholding taxes imposed by certain countries on investment income and capital gains. Such income and gains are recorded on a gross basis and the related withholding taxes are shown separately in the Statements of Comprehensive Income.

**r. Harmonized Sales Tax**

Certain provinces including Ontario, Prince Edward Island, Nova Scotia, New Brunswick and Newfoundland and Labrador (each a Participating Tax Jurisdiction) have harmonized their provincial sales tax (PST) with the federal goods and services tax (GST). The Harmonized Sales Tax (HST) combines the federal GST rate of 5% with the PST rate of the participating provinces. The Province of Quebec also applies the Quebec sales tax (QST). The provincial HST liability or refund is calculated using the residency of shareholders and the value of their interest in the Fund as at specific times, rather than the physical location of the Fund. The effective sales tax rate charged to each series of the Fund is based on the shareholders' proportionate investments by province, using each province's HST rate, GST rate in the case of non-participating provinces and/or QST rate. All amounts are presented as "Harmonized Sales Tax" in the Statements of Comprehensive Income.

**s. Non-cash transactions**

Non-cash transactions included in the Statements of Cash Flows include reinvested distributions from the underlying mutual fund(s) and stock dividends from equity investments as well as acquisition of assets from terminated funds. Reinvested distributions from the underlying mutual fund(s) and stock dividends from equity investment amounts represent non-cash income recognized in the Statements of Comprehensive Income.

The "Proceeds from issuance of redeemable shares" and "Amounts paid on redemption of redeemable shares" in the Statements of Cash Flows exclude non-cash transactions.

**3. CRITICAL ACCOUNTING JUDGMENTS AND ESTIMATES**

The preparation of these financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities at the reporting date and the reported amounts of income and expenses during the reporting year. The following discusses the most significant accounting judgments and estimates that the Funds have made in preparing their financial statements:

***Fair value measurement of investments and derivatives not quoted in an active market***

The Funds may, from time to time, hold financial instruments that are not quoted in active markets, such as unlisted securities, private securities or derivatives. Unlisted securities are valued based on price quotations from recognized investment dealers, or failing that, their fair value is determined by the Manager based on the latest reported information available. The fair value of private securities is determined by using valuation models that may be based, in part, on assumptions that are not supported by observable market inputs. These methods and procedures may include,

# CI Corporate Class Limited

## Notes to the Financial Statements (cont'd)

but are not limited to, performing comparisons with prices of comparable or similar securities, obtaining valuation-related information from issuers and/or other analytical data relating to the investment and using other available indications of value. These values were independently assessed by the Manager based on assumptions and estimates on parameters available when the financial statements were prepared. However, because of the inherent uncertainty of valuation, the estimated fair values for these securities may be materially different from the values that would have been used had a ready market for the investment existed. The fair values of private securities are affected by the perceived credit risks of the issuer, predictability of cash flows and the length of time to maturity.

Valuation models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities, correlations and key assumptions concerning future developments require the Manager to make estimates. Changes in assumptions about these factors could affect the reported fair values of financial instruments.

The Funds consider observable data to be market data that is readily available, regularly distributed and updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The fair value of investments in underlying fund(s) that are not quoted in active markets is determined primarily by reference to the latest available NAV of such units/shares for each underlying fund, as determined by the underlying fund's/funds' managers.

### IFRS 10, Consolidated Financial Statements (IFRS 10)

In accordance with IFRS 10, the Manager has determined that the Funds meet the definition of an Investment Entity, which requires that the Funds obtain funds from one or more investors for the purpose of providing investment management services; commit to their investors that their business purpose is to invest funds solely for returns from capital appreciation, investment income, or both; and measure and evaluate the performance of their investments on a fair value basis. Consequently, the Funds do not consolidate their investments in subsidiaries, if any, but instead measure these at FVTPL, as required by the accounting standard.

### 4. REDEEMABLE SHARES

Redeemable shares issued and outstanding represent the capital of each Fund.

Each Fund is authorized to issue an unlimited number of redeemable, transferable shares of each series. Generally, the Funds have no restrictions or specific capital requirements, except for the minimum subscription/redemption amounts. The relevant changes pertaining to subscription and redemption of each Fund's shares are disclosed in the Statements of Changes in Net Assets Attributable to Holders of Redeemable Shares. In accordance with the objectives and risk management policies outlined in Notes 1 and 10, the Funds endeavour to invest subscriptions received in appropriate investments while maintaining sufficient liquidity to meet redemptions through utilizing a short-term borrowing facility or disposal of investments when necessary.

Redeemable share transaction information appears in the Fund Specific Notes to Financial Statements of each of the Funds.

In order to establish each individual series, the Manager has made initial investments in certain Funds.

As at March 31, the Manager held investments in the following Funds:

## 5. FEES AND OTHER EXPENSES

### Management fees

The Manager of the Corporation, in consideration for management fees, provides management services required in the day-to-day operations of the Funds including management of the investment portfolios of the Funds and provision of key management personnel.

The management fees are calculated based on a percentage of the NAV of each series of a Fund (other than Series I, IH, ITS, IT8, O, OT5, OT8, P, PH, PP, PT5 or PT8 and Series W and WT8 of United Corporate Classes and series offered under Private Client Managed Portfolios) at the end of each business day and are subjected to application taxes including HST, GST and QST. Investors in Series I, IH, ITS, IT8, O, OT5, OT8, P, PH, PP, PT5 or PT8 shares and Series W and WT8 shares of United Corporate Classes and Private Client Managed Portfolios are charged management fees directly as negotiated between the investor and the Manager.

For each Series W and WT8 shares of a United Corporate Class and Private Client Managed Portfolios, management fees are paid directly by investors on a quarterly basis (or monthly at the discretion of the Manager) and are not charged to the Funds.

During the year ended March 31, 2024, the Manager of the Funds absorbed \$153,000 (March 31, 2023 - \$47,000) and U.S. \$16,000 (March 31, 2023 - U.S. \$5,000) in management fees due to the declining yields generated by the following Funds: CI Money Market Corporate Class and CI U.S. Money Market Corporate Class, respectively.

### Administration fees

The Manager bears all of the operating expenses of the Funds (other than certain taxes, borrowing costs and new governmental fees) in return for an annual administration fee. Administration fees are calculated as an annual percentage of the NAV of each series of a Fund (other than Series I, IH, ITS and IT8) at the end of each business day and are subjected to application taxes including HST, GST and QST.

Investors in Series I, IH, ITS and IT8 shares are charged administration fees directly as negotiated between the investor and the Manager.

CI Money Market Corporate Class and CI U.S. Money Market Corporate Class pay no administration fee.

The Manager may waive management fees or absorb expenses of certain Funds at its sole discretion and may stop waiving or absorbing such fees or expenses at any time without notice. Amounts waived or absorbed are reported in the Statements of Comprehensive Income, as applicable.

### Fee rebates

The Manager may reduce the management and/or administration fees based on the size of a shareholder investment or participation in a program offered by the Manager for larger accounts. The Manager may also reduce management fees if a reduced trailing commission has been negotiated between a shareholder and the shareholder representative based on relevant documentation provided to the Manager. Following the end of each quarter, the amount of any management and/or administration fee reduction is rebated to qualified shareholders by the Fund in the form of a reinvestment in additional shares of the respective series of the Fund. The management and/or administration fee rebates, if applicable, are included in "Fees rebate receivable" and in "Fees rebate" as reflected in the Statements of Financial Position and Statements of Comprehensive Income of each Fund, if applicable. The Manager may reduce or waive the management and/or administration fees without giving notice to shareholders.

### Investments in underlying fund(s)

A Fund that invests in units/shares of underlying fund(s) will not pay a duplicate management and administration fee on the portion of assets that are invested in units/shares of underlying fund(s). During the reporting year, a Fund may have received a management and/or administration fee rebate from the underlying fund's/fund(s)' manager relating to its investment in the underlying fund(s). The management and/or administration fee rebates, if applicable, are included in "Fees rebate receivable" and in "Fees rebate" as reflected in the Statements of Financial Position and Statements of Comprehensive Income of each Fund, if applicable.

Refer to the Management and Administration Fees table in the Fund Specific Notes to the Financial Statements for the management and administrative fee rates applicable to each series of each of the Funds.

## 6. SECURITIES LENDING

Certain Funds have entered into a securities lending program with the Lending Agent. The aggregate market value of all securities loaned by a Fund cannot exceed 50% of the assets of the Fund. A Fund will receive collateral of at least 102% of the value of securities on loan. Collateral will generally be comprised of

## Notes to the Financial Statements (cont'd)

cash and obligations of or guaranteed by the Government of Canada or a province thereof, or by the United States government or its agencies, but may include obligations of other governments with appropriate credit ratings. For those Funds participating in the program, amounts for securities loaned and the collateral received as well as reconciliation between gross securities lending revenue and securities lending revenue received by each Fund appear on the Fund Specific Notes to Financial Statements. Revenue from securities lending is included in "Securities lending revenue" in the Statements of Comprehensive Income.

### 7. INCOME TAXES

The Corporation presently qualifies as a "mutual fund corporation" as defined in the *Income Tax Act* (Canada). The Corporation computes its net income (loss) and net capital gains (losses) for income tax purposes as a single entity. Net losses of one Fund may be used to offset net gains of another Fund to reduce the net income or net gain of the Corporation as a whole. As a mutual fund corporation, the Corporation is subject to Part IV federal tax. Taxable dividends received from taxable Canadian corporations are subject to a tax of 38 1/3%. Such taxes are fully refundable upon payment of taxable dividends to its shareholders. The Corporation is also subject to Part I tax on other income and taxable capital gain for the year. All tax on net taxable realized capital gains is refundable when the gains are distributed to shareholders as capital gains dividends or through redemption of shares at the request of shareholders, while the Corporation qualifies as a mutual fund corporation. Accordingly, the Corporation does not record a provision for income taxes in respect of dividends from taxable Canadian corporations and capital gains. Interest income and foreign dividends, net of applicable expenses, are taxed at full corporate rates applicable to mutual fund corporations with credits, subject to certain limitations, for foreign taxes paid. Income taxes (if any) are allocated to the Funds of the Corporation on a reasonable basis.

Certain Funds may be subject to foreign taxation related to income received, capital gains on the sale of securities and certain foreign currency transactions in the foreign jurisdictions in which it invests. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Funds invest. When a capital gain tax is determined to apply, the Funds record an estimated tax liability in an amount that would be payable if the securities were disposed of on the valuation date.

The tax payable and tax recoverable amounts are included in "Other" in the Statements of Financial Position.

As at March 31, 2024, the Corporation had no unused capital and non-capital losses for income tax purposes.

### 8. REINVESTMENT OF DIVIDENDS

When a Fund pays a dividend to a shareholder, it will be paid in the same currency in which the shares are held. Dividends are automatically reinvested without charge in the same Fund or paid out in cash to the shareholder. The Manager may change the dividend policy at its discretion.

### 9. RELATED PARTY TRANSACTIONS

The Funds may have direct or indirect holdings in CI Financial Corp., or its affiliates or other funds managed by the Manager.

The Manager of the Funds may, from time to time, make initial investments in certain series of certain Funds to help establish a series or a Fund. Details of the investments made by the Manager are disclosed in Note 4.

### Related fund trading

Related fund trading occurs when a Fund purchases or sells units/shares of another Fund managed by the Manager. During the years ended March 31, 2024 and 2023, certain Funds engaged in related fund trading or held position(s) in related fund(s) at the end of each year.

### Inter-fund trading

Inter-fund trading occurs when a Fund purchases or sells a security of any issuer from or to another Fund managed by the Manager. These transactions are executed through market intermediaries and under prevailing market terms and conditions. The Independent Review Committee reviews such transactions during scheduled meetings. During the years ended March 31, 2024 and 2023, the Funds executed inter-fund trades.

### 10. FINANCIAL INSTRUMENTS RISK

#### Canadian dollar offered rate transition

On May 16, 2022, Refinitiv Benchmark Services (UK) Limited, the administrator of Canadian Dollar Offered Rate (CDOR), announced that the calculation and publication of all tenors of CDOR will permanently cease following a final publication on June 28, 2024.

The global benchmark rate reform initiative to transition from CDOR to alternative reference rates may impact a Fund that holds investments that are referenced to CDOR. Market risks arise as the new reference rates are likely to differ from the existing CDOR rates, which may impact the volatility or liquidity in markets for instruments that currently rely on CDOR settings. In order to manage these risks, the Manager continues to closely monitor the industry development and is taking all necessary steps to identify, measure and manage the risks relating to the Funds' CDOR exposure from their portfolio holdings.

#### Risk management

The Funds are exposed to a variety of financial instruments risks: concentration risk, credit risk, liquidity risk and market risk (including other price risk, currency risk and interest rate risk). The level of risk to which each Fund is exposed depends on the investment objective and the type of investments the Fund holds. The value of investments within a portfolio can fluctuate daily as a result of changes in prevailing interest rates, economic and market conditions, political changes, global pandemics and company-specific news related to investments held by the Fund. The Manager of the Funds may minimize potential adverse effects of these risks on the Funds' performance by, but not limited to, regular monitoring of the Funds' positions and market events, diversification of the investment portfolio by asset type, country, sector, term to maturity within the constraints of the stated objectives, and through the usage of derivatives to hedge certain risk exposures.

#### Concentration risk

Concentration risk arises as a result of the concentration of exposures within the same category, whether it is a geographical allocation, asset type, industry sector or counterparty.

Details of each Fund's exposure to concentration risk are available in the Fund Specific Notes to Financial Statements of each of the Funds.

#### Credit risk

Credit risk is the risk that a security issuer or counterparty to a financial instrument will fail to meet its financial obligations. The fair value of a debt instrument includes consideration for the creditworthiness of the debt issuer. The carrying amount of debt instruments as shown on the Schedule of Investment Portfolio represents the credit risk exposure of each Fund. Credit risk exposure for derivative instruments

# CI Corporate Class Limited

## Notes to the Financial Statements (cont'd)

is based on each Fund's unrealized gain on the contractual obligations with the counterparty as at the reporting date. The credit rating of a counterparty to a derivative instrument is disclosed in the Schedule of Investment Portfolio or in Fund Specific Notes to Financial Statements of each Fund, if applicable. The credit risk exposure of the Fund's other assets is represented by their carrying amount as disclosed in the Statements of Financial Position.

The Funds that only invest in units/shares of underlying fund(s) may be exposed to indirect credit risk in the event that the underlying fund(s) invest in debt instruments, preferred securities or derivatives.

Credit ratings for debt securities, preferred securities and derivative instruments are obtained from S&P Global Ratings, where available; otherwise, ratings are obtained from: Moody's Investors Service or Dominion Bond Rating Service.

Credit ratings can be either long-term or short-term. Short-term credit ratings are generally assigned to those obligations and derivative instruments considered short-term in nature. The table below provides a cross-reference between the long-term credit ratings disclosed in the Credit Risk table inclusive of the short-term credit ratings disclosed in the derivatives schedules in the Schedule of Investment Portfolio.

Credit Rating as per Credit Risk Table	Credit Rating as per Derivatives Schedules
AAA/Aaa/A++	A-1+
AA/Aa/A+	A-1, A-2, A-3
A	B, B-1
BBB/Baa/B++	B-2
BB/Ba/B+	B-3
B	C
CCC/Caa/C++	-
CC/Ca/C+	-
C and Lower	D
Not Rated	WR

Cash balances, with the exception of restricted cash balances and margin accounts, as disclosed in the Statements of Financial Position, are maintained by the Custodian. The Manager monitors the creditworthiness of the Custodian on a regular basis. As at March 31, 2024, the credit rating of the Custodian was AA (March 31, 2023 – AA).

All transactions executed by a Fund in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

### Liquidity risk

Liquidity risk is the risk that a Fund may not be able to settle or meet its obligations on time or at a reasonable price. The Funds are exposed to daily cash redemption of redeemable shares. Therefore, the Funds invest the majority of their assets in investments that are traded in active markets and can be readily disposed of. In addition, the Funds retain sufficient cash and cash equivalents positions to maintain liquidity. From time to time, the Funds may enter into derivative contracts or invest in unlisted securities that may not trade in an organized market and may be illiquid. All financial liabilities are due within three months.

### Market risk

The Funds' investments are subject to market risk, which is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market conditions.

#### Other price risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from currency risk or interest rate risk). The value of each investment is influenced by the outlook of the issuer and by general economic and political conditions, as well as industry and market trends. All securities present a risk of loss of capital. Except for options written, future contracts sold short and investments sold short, the maximum risk resulting from financial instruments is equivalent to their fair value. On written call options, short future positions and on equity and debt sold short, the maximum loss of capital can be unlimited.

Other assets and liabilities are monetary items that are short-term in nature and therefore are not subject to significant other price risk.

#### Currency risk

Currency risk arises from financial instruments that are denominated in a currency other than the functional currency of the Funds. As a result, the Funds may be exposed to the risk that the value of securities denominated in other currencies will fluctuate due to changes in exchange rates. The Schedule of Investment Portfolio identifies all bonds and derivative instruments denominated in foreign currencies. Equities traded in foreign markets are also exposed to currency risk as the prices denominated in foreign currencies are converted to the Funds' functional currency to determine their fair value.

The Funds that only invest in units/shares of underlying fund(s) may be exposed to indirect currency risk in the event that the underlying fund(s) invest in financial instruments that are denominated in a currency other than the functional currency of the Funds.

#### Interest rate risk

Interest rate risk is the risk that the fair value of interest-bearing investments will fluctuate due to changes in prevailing levels of market interest rates. As a result, the value of the Funds that invest in debt securities and/or income trusts will be affected by changes in applicable interest rates. If interest rates fall, the fair value of existing debt securities may increase due to the increase in yield. Alternatively, if interest rates rise, the yield of existing debt securities may decrease, which may then lead to a decrease in their fair value. The magnitude of the decline will generally be greater for long-term debt securities than for short-term debt securities.

Interest rate risk also applies to Funds that invest in convertible securities. The fair value of these securities varies inversely with interest rates, similar to other debt securities. However, since they may be converted into common shares, convertible securities are generally less affected by interest rate fluctuations than other debt securities.

The Funds that only invest in units/shares of underlying fund(s) may be exposed to indirect interest rate risk in the event that the underlying fund(s) invest in interest-bearing financial instruments.

### Fair value hierarchy

The Funds are required to classify financial instruments measured at fair value using a fair value hierarchy. Investments whose values are based on quoted market prices in active markets are classified as Level 1. This Level includes publicly traded equities, exchange-traded and retail mutual funds, exchange-traded warrants, futures contracts and traded options.

# CI Corporate Class Limited

## Notes to the Financial Statements (cont'd)

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified as Level 2. These include fixed income securities, mortgage-backed securities, short-term instruments, non-traded warrants, OTC options, structured notes of indexed securities, foreign currency forward contracts, swap instruments, American depositary receipts and global depositary receipts, if quoted market price is not available.

Investments classified as Level 3 have significant unobservable inputs. Level 3 instruments include private equities, private term-loans, private equity funds and certain derivatives. As observable prices are not available for these securities, the Funds may use a variety of valuation techniques to derive the fair value.

The Funds' policy is to recognize transfers into and out of the fair value hierarchy levels as at the date of the event or change in circumstances giving rise to the transfer.

Details of each Fund's exposure to financial instruments risks including concentration risk and fair value hierarchy classification are available in the Fund Specific Notes to Financial Statements for each Fund.

## Notes to the Financial Statements

### 1. THE FUNDS

The following funds (the Funds) are open-ended mutual fund trusts created under the laws of the Province of Ontario by declarations of trust.

CI Investments Inc. is the manager and the trustee (the Manager and the Trustee) of the Funds. The Manager is a wholly owned subsidiary of CI Financial Corp. (Toronto Stock Exchange (TSX): CIX). Effective from July through November 2022, CIBC Mellon Trust Company replaced RBC Investor Services Trust as the fund administrator for the Funds. Effective October and November 2022, CIBC Mellon Trust Company replaced RBC Investor Services Trust as the custodian (the Custodian) for the Funds. The Bank of New York Mellon is a lending agent (the Lending Agent) for the Funds.

The Funds' registered office address is 15 York Street, Second Floor, Toronto, Ontario, M5J 0A3.

These financial statements were authorized for issue by the Manager on June 20, 2024.

The objective of each Fund is to pool and manage money contributed by investors (Unitholders) with similar investment goals. The Funds may invest in equities, fixed income securities, derivatives, underlying fund(s) or some combination thereof according to their specific investment objectives and strategies. Investments may be held for income or capital appreciation or both. Unitholders share a Fund's income, expenses and any gains or losses the Fund makes on its investments generally in proportion to the value of the securities they own.

The "Inception Date" is the date upon which units of a series of a Fund commenced operations.

Effective as of close of business on April 14, 2023, the following Funds merged:

Terminating Fund	Continuing Fund
CI Global Equity Income Private Pool Class	CI Global Concentrated Equity Private Pool

The Manager adopted the acquisition method of accounting for the merger of the Funds. Under this method, one of the Funds is identified as the acquiring Fund and is referred to as the "Continuing Fund", and the other Fund involved in the merger is referred to as the "Terminating Fund". This identification is based on a comparison of the relative net asset value (NAV) of the Funds, as well as consideration of the continuation of aspects of the Continuing Fund, such as investment objectives and practices and type of portfolio securities.

Effective as of the close of business on April 14, 2023, the Continuing Fund acquired all of the net assets of the Terminating Fund in exchange for securities in the Continuing Fund. The value of the securities of the Continuing Fund, issued in connection with this merger was equal to the net assets transferred from the Terminating Fund. The cost associated with the merger was borne by the Manager.

The following mergers occurred on a taxable basis.

The Terminating Funds' results are not included in these financial statements.

The Statements of Financial Position are as at March 31, 2024 and 2023, as applicable. The Statements of Comprehensive Income, Statements of Changes in Net Assets Attributable to Holders of Redeemable Units and Statements of Cash Flows are for the years ended March 31, 2024 and 2023, except for Funds established during either year, in which case the information provided relates to the period from inception to March 31, 2024 and 2023, as applicable.

## 2. MATERIAL ACCOUNTING POLICY INFORMATION

These financial statements have been prepared in compliance with *International Financial Reporting Standards* (IFRS) as published by the International Accounting Standards Board.

The following is the material accounting policy information of the Funds:

### a. Classification and recognition of financial instruments

The Funds classify and measure their investments (such as fixed income securities, equity securities, investment fund(s), exchange-traded fund(s) and derivatives) based on both the Funds' business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The Funds' portfolios of financial assets are managed, and performance is evaluated on a fair value basis. The Funds are primarily focused on fair value information and use that information to assess the assets' performance and to make decisions. The contractual cash flows of the Funds' debt securities are solely principal and interest; however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Funds' business model's objective. Consequently, all investments and derivatives are measured at fair value through profit or loss (FVTPL). Short sales are held for trading and are consequently classified as financial liabilities at FVTPL. Derivative contracts that have a negative fair value are presented as liabilities at FVTPL.

The Funds' obligations for net assets attributable to holders of redeemable units are presented at the redemption amount, which approximates their fair value. All other financial assets and liabilities are measured at amortized cost, which approximates their fair value. Under this method, financial assets and liabilities reflect the amount required to be received or paid, discounted, when appropriate, at the effective rate of interest.

Financial assets and liabilities are offset, and the net amounts are presented in the Statements of Financial Position when, and only when, the Funds have a legal right to offset the amounts and intend either to settle on a net basis or to realize the asset and settle the liability simultaneously. In the normal course of business, the Funds enter into various master netting agreements or similar agreements that do not meet

the criteria for offsetting in the Statements of Financial Position, but still allow for the related amounts to be offset in certain circumstances, such as bankruptcy or termination of the contracts.

### b. Fair value of financial instruments

At the financial reporting date, listed securities are valued based on the last traded market price for financial assets and financial liabilities where the last traded price falls within the day's bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on the existing market conditions. Unlisted securities are valued based on price quotations from recognized investment dealers or failing that, their fair value is determined by the Manager based on the latest reported information available. Unlisted warrants, if any, are valued based on a pricing model that considers factors such as the market value of the underlying security, strike price and terms of the warrant. Fixed income securities, debentures and other debt instruments, including short-term investments, are valued at the quotation received from recognized investment dealers. Underlying fund(s) are valued on each business day at their NAV as reported by the underlying fund's/fund(s) managers.

The fair value of securities where no market price exists is determined by using valuation models that may be based, in part, on assumptions that are not supported by observable market inputs. These methods and procedures may include, but are not limited to, performing comparisons with prices of comparable or similar securities, obtaining valuation-related information from issuers and/or other analytical data relating to the investment and using other available indications of value. These values are independently assessed by the Manager to ensure that they are reasonable. However, because of the inherent uncertainty of valuation, the estimated fair values for these securities may be materially different from the values that would have been used had a ready market for the investment existed. The fair values of securities where no market price exists are affected by the perceived credit risks of the issuer, predictability of cash flows and the length of time to maturity.

### c. Cash

Cash comprised of cash on deposit and bank overdraft.

### d. Cost of investments

Cost of investments represents the amount paid for each security and is determined on an average cost basis excluding commissions and transaction costs. Average cost does not include amortization of premiums or discounts on fixed income securities with the exception of zero-coupon bonds.

### e. Investment transactions and income recognition

Investment transactions are recorded on the trade date the date on which a Fund commits to purchase or sell an investment. The interest for distribution purposes disclosed in the Statements of Comprehensive Income represents the coupon interest received by the Funds and is accounted for on an accrual basis. The Funds do not amortize premiums paid or discounts received on the purchase of fixed income securities, except for zero-coupon bonds, which are amortized on a straight-line basis.

Dividends and distributions from investments are recognized on the ex-dividend/ex-distribution date.

Distributions received from income trust(s) and underlying fund(s) holdings are recorded as income, capital gains or a return of capital based on the best information available to the Manager. Due to the nature of these investments, actual allocations could vary from this information. Distributions from income trust(s) and underlying fund(s) that are treated as a return of capital for income tax purposes reduce the average cost of the income trust(s) and underlying fund(s).

## Notes to the Financial Statements (cont'd)

---

### **f. Functional and presentation currency**

The Funds' functional and presentation currency is the Canadian dollar, except for CI U.S. Money Market Fund, CI U.S. Income US\$ Fund, CI U.S. Dividend US\$ Fund, CI Bitcoin Fund and CI Ethereum Fund, as those Funds' functional and presentation currency is the U.S. dollar. For Funds that offer Series AH, Series FH, Series IH, Series PH and Series WH units, the NAV per unit for those series is stated in U.S. dollars.

### **g. Foreign exchange**

Foreign currency amounts are translated into the functional currency as follows: fair value of investments, foreign currency forward contracts and other assets and liabilities at the closing rate of exchange on each business day; income and expenses, purchases and sales and settlements of investments at the rate of exchange prevailing on the respective dates of such transactions. Foreign exchange gains (losses) relating to cash are presented as "Foreign exchange gain (loss) on cash", and those relating to other financial assets and liabilities are presented within "Net realized gain (loss) on sale of investments and derivatives" and "Change in unrealized appreciation (depreciation) in value of investments and derivatives" in the Statements of Comprehensive Income.

### **h. Unit valuation**

NAV per unit of each series is calculated at the end of each day on which the TSX is open for business by dividing the total NAV of each series of a Fund by the number of units of that series outstanding.

The NAV of each series is computed by calculating the value of that series' proportionate share of the Fund's assets less that series' proportionate share of the Fund's common liabilities and less series-specific liabilities. Expenses directly attributable to a series are charged to that series. Other income, expenses, gains and losses are allocated to each series proportionately based upon the relative total NAV of each series.

As at March 31, 2024 and 2023, there were no differences between the NAV used for transactions with unitholders and the net assets attributable to holders of redeemable units used for reporting purposes under IFRS.

### **i. Classification of units**

The units of each of the Funds are classified as financial liabilities in accordance with IAS 32, *Financial Instruments: Presentation* (IAS 32), as they do not meet the definition of puttable instruments to be classified as equity in accordance with IAS 32 for financial reporting purposes.

### **j. Commissions and other portfolio transaction costs**

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities, are included in "Commissions and other portfolio transaction costs" in the Statements of Comprehensive Income. Funds that only invest in units of underlying fund(s) are not subject to transaction costs.

### **k. Increase (decrease) in net assets attributable to holders of redeemable units per unit**

"Increase (decrease) in net assets attributable to holders of redeemable units per unit" in the Statements of Comprehensive Income is calculated by dividing the increase (decrease) in net assets attributable to holders of redeemable units of each series of a Fund by the weighted average number of units of that series outstanding during the year.

### **l. Foreign currency forward contract(s)**

A Fund may, from time to time, enter into foreign currency forward contracts. Foreign currency forward contracts are valued on each valuation day based on the difference between the contract rate and the current forward rate at the measurement date applied to the contract's notional amount and adjusted for

counterparty risk. All unrealized gains (losses) arising from foreign currency forward contracts are recorded as part of "Change in unrealized appreciation (depreciation) in value of investments and derivatives" in the Statements of Comprehensive Income and "Unrealized gain (loss) on futures and foreign currency forward contracts" in the Statements of Financial Position until the contracts are closed out or expire, at which time the gains (losses) are realized and reported as "Net realized gain (loss) on sale of investments and derivatives" in the Statements of Comprehensive Income.

### **m. Option contract(s)**

Over-the-counter (OTC) options are valued using the Black-Scholes model, whereas exchange-traded options are valued at the last traded price taken from the exchange. Option contracts are valued each valuation day according to the gain or loss that would be realized if the contracts were closed out. All unrealized gains (losses) arising from option contracts are recorded as part of "Change in unrealized appreciation (depreciation) in value of investments and derivatives" in the Statements of Comprehensive Income until the contracts are closed out or expire, at which time the gains (losses) are realized and reflected in the Statements of Comprehensive Income in "Net realized gain (loss) on sale of investments and derivatives". Any expired option premiums are recorded as part of "Derivative income (loss)" in the Statements of Comprehensive Income.

### **n. Credit default swap contract(s)**

Credit default swaps are agreements that help to mitigate credit risk exposure to certain issuing entities (Referenced Entity) or to increase credit risk exposure to the Referenced Entity by creating a notional investment position. When a notional investment position is created, the credit risk exposure is comparable to the exposure that would have resulted had a Fund invested directly in the Referenced Entity. Under a credit default swap agreement, the protection buyer, whose intention is to reduce its credit risk exposure to the Referenced Entity, pays a premium to the protection seller, who assumes the credit risk of a default of the bond of a Referenced Entity. This premium is paid at regular intervals over the term of the credit default swap agreement. In return for the premium paid, the protection buyer is entitled to receive from the protection seller full payment for a loss arising from a credit default event of the Referenced Entity. A credit default event may be triggered by bankruptcy, failure to pay or restructuring of the Referenced Entity. If a credit default event occurs, the credit default swap may be settled by either the physical delivery of the bond for proceeds equal to par value or a cash payment equal to the loss amount. Credit default swaps are valued based on dealer-supplied valuations.

Changes in value of credit default swap agreements are recorded as part of "Change in unrealized appreciation (depreciation) in value of investments and derivatives" in the Statements of Comprehensive Income. Premiums paid or received from credit default swap agreements are included in "Derivative income (loss)" in the Statements of Comprehensive Income. When credit default swap agreements expire or are closed out, gains or losses are included in "Net realized gain (loss) on sale of investments and derivatives" in the Statements of Comprehensive Income.

### **o. Mortgage-backed and asset-backed securities**

Certain Funds invest in mortgage-related and other asset-backed securities. These securities may include: mortgage pass-through securities, collateralized mortgage obligations, commercial mortgage-backed securities, asset-backed securities, collateralized debt obligations and other securities that directly or indirectly represent a participation in, or are secured by and payable from, mortgage loans on real property. The debt and equity securities issued by these securities may include tranches with varying levels of subordination. These securities may provide a monthly payment that consists of both interest and principal payments.

# CI Mutual Funds

## Notes to the Financial Statements (cont'd)

Mortgage-related securities are created from pools of residential or commercial mortgage loans, including mortgage loans made by savings and loan institutions, mortgage bankers, commercial banks and others. Asset-backed securities are created from many types of assets, including auto loans, credit card receivables, home equity loans and student loans.

Mortgage-related and asset-backed securities are issued as separate tranches, or classes, of securities within each deal. The securities are also normally valued by pricing service providers that use broker-dealer quotations or valuation estimates from their internal pricing models. The pricing models for these securities usually consider tranche-level attributes, current market data, estimated cash-flows, and market-based yield spreads for each tranche and incorporate deal collateral performance, as available. The carrying values of mortgage-related and other asset-backed securities are included in "Investments" in the Statements of Financial Position. The changes in fair values of mortgage-related and other asset-backed securities are included in the Statements of Comprehensive Income in "Change in unrealized appreciation (depreciation) in value of investments and derivatives".

### p. Offsetting of financial instruments

The disclosures set out in the Offsetting of Financial Instruments tables in the Fund Specific Notes to Financial Statements of each Fund, where applicable, include foreign currency forward contract assets and liabilities that are subject to an enforceable master netting arrangement. Transactions with individual counterparties are governed by separate master netting agreements. Each agreement allows for net settlement of certain open contracts where the Funds and respective counterparty both elect to settle on a net basis. In the absence of such an election, contracts will be settled on a gross basis. However, each party to the master netting agreement will have the option to settle all open contracts on a net basis in the event of default of the other party.

International Swaps and Derivatives Association Inc. Master Agreements (ISDA Master Agreements) govern OTC financial derivative transactions entered into by the Funds and select counterparties. The ISDA Master Agreements maintain provisions for general obligations, representations, agreements, collateral and events of default or termination. Events of termination include conditions that may entitle counterparties to elect to terminate early and cause settlement of all outstanding transactions under the applicable ISDA Master Agreement. Any election to terminate early could be material to the financial statements. The fair value of OTC financial derivative transactions net of collateral received in or pledged by a counterparty is disclosed in the Fund Specific Notes to Financial Statements.

Funds may be subject to various master agreements or netting arrangements with select counterparties. These master agreements reduce the counterparty risk associated with relevant transactions by specifying credit protection mechanisms and providing standardization that improves legal certainty. Since different types of transactions have different mechanics and are sometimes traded out of different legal entities of a particular counterparty organization, each type of transaction may be covered by a different master agreement resulting in the need for multiple agreements with a single counterparty. As the master agreements are specific to unique operations of different asset types, they allow the Funds to close out and net their total exposure to a counterparty in the event of a default with respect to the transactions governed under a single agreement with a counterparty.

### q. Investments in associates, joint ventures, subsidiaries and unconsolidated structured entities

Subsidiaries are entities, including investments in other investment entities, over which a Fund has control. A Fund controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity, and has the ability to affect those returns through its power over the entity. Associates and joint ventures are investments over which a Fund has significant influence or joint control. A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factors in

deciding who controls the entity, or when voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements.

The Manager has determined that underlying fund(s) or exchange-traded fund(s) (ETF(s)) held typically by the Funds meet the definition of structured entities. Mortgage-backed securities or asset-backed securities are also considered to be unconsolidated structured entities. The Funds account for their investments in unconsolidated structured entities at FVTPL.

The Funds that invest in underlying fund(s) are subject to the terms and conditions of the respective underlying fund's offering documents and are susceptible to market price risk arising from uncertainties about future values of those underlying fund(s). All of the underlying fund(s) in the investment portfolio are managed by portfolio managers who are compensated by the respective underlying fund for their services. Such compensation generally consists of an asset-based fee and is reflected in the valuation of each of the underlying fund(s), except when the Funds invest in certain series/classes of the underlying fund(s) where the compensation to portfolio managers is negotiated and paid outside each of the respective underlying fund. The underlying fund(s) finance their operations by issuing redeemable units that entitle the holders to an equal beneficial interest in a respective underlying fund. The Funds can redeem their investments in the underlying fund(s) on a daily basis.

Certain Funds invest in ETF(s). The ETF(s) finance their operations by issuing redeemable shares, that are puttable at the holder's option and entitle the holder to a proportional stake in each ETF's NAV. The ETF(s) are domiciled in Canada, the U.S. and Japan and listed on recognized public stock exchanges. The Funds' maximum exposure to loss from their interest in ETF(s) is equal to the total fair value of their investments in ETF(s).

The Funds' investments in underlying fund(s) or ETF(s) are accounted for at FVTPL and included in "Investments" in the Statements of Financial Position. All unrealized gains (losses) arising from these investments are recorded as part of "Change in unrealized appreciation (depreciation) in value of investments and derivatives" in the Statements of Comprehensive Income until these investments are sold, at which time the gains (losses) are realized and reflected in the Statements of Comprehensive Income in "Net realized gain (loss) on sale of investments and derivatives".

The Funds' maximum exposure to loss from their interest in ETF(s), underlying fund(s) and mortgage/asset-backed securities is equal to the total fair value of their investments in these unconsolidated structured entities.

Additional information related to Interest in Unconsolidated Structured Entities for each of the Funds appears under the Fund Specific Notes to Financial Statements, where applicable.

### r. Withholding taxes

A Fund may, from time to time, incur withholding taxes imposed by certain countries on investment income and capital gains. Such income and gains are recorded on a gross basis and the related withholding taxes are shown separately in the Statements of Comprehensive Income.

### s. Harmonized Sales Tax

Certain provinces including Ontario, Prince Edward Island, Nova Scotia, New Brunswick and Newfoundland and Labrador (each a Participating Tax Jurisdiction) have harmonized their provincial sales tax (PST) with the federal goods and services tax (GST). The Harmonized Sales Tax (HST) combines the federal GST rate of 5% with the PST rate of the participating provinces. The Province of Quebec also applies the Quebec sales tax (QST). The provincial HST liability or refund is calculated using the residency of unitholders and

the value of their interest in the Fund as at specific times, rather than the physical location of the Fund. The effective sales tax rate charged to each series of the Fund is based on the unitholders' proportionate investments by province, using each province's HST rate, GST rate in the case of non-participating provinces and/or QST rate. All amounts are presented as "Harmonized Sales Tax" in the Statements of Comprehensive Income.

### t. Non-cash transactions

Non-cash transactions included in the Statements of Cash Flows include reinvested distributions from the underlying mutual fund(s) and stock dividends from equity investments as well as acquisition of assets from terminated funds. Reinvested distributions from the underlying mutual fund(s) and stock dividends from equity investment amounts represent non-cash income recognized in the Statements of Comprehensive Income.

The "Proceeds from issuance of redeemable units" and "Amounts paid on redemption of redeemable units" in the Statements of Cash Flows exclude non-cash transactions.

### 3. CRITICAL ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of these financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities at the reporting date and the reported amounts of income and expenses during the reporting year. The following discusses the most significant accounting judgments and estimates that the Funds have made in preparing their financial statements:

#### **Fair value measurement of investments and derivatives not quoted in an active market**

The Funds may, from time to time, hold financial instruments that are not quoted in active markets, such as unlisted securities, private securities or derivatives. Unlisted securities are valued based on price quotations from recognized investment dealers or failing that, their fair value is determined by the Manager based on the latest reported information available. The fair value of private securities is determined by using valuation models that may be based, in part, on assumptions that are not supported by observable market inputs. These methods and procedures may include, but are not limited to, performing comparisons with prices of comparable or similar securities, obtaining valuation-related information from issuers and/or other analytical data relating to the investment and using other available indications of value. These values were independently assessed by the Manager based on assumptions and estimates on parameters available when the financial statements were prepared. However, because of the inherent uncertainty of valuation, the estimated fair values for these securities may be materially different from the values that would have been used had a ready market for the investment existed. The fair values of private securities are affected by the perceived credit risks of the issuer, predictability of cash flows and the length of time to maturity.

Valuation models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities, correlations and key assumptions concerning future developments require the Manager to make estimates. Changes in assumptions about these factors could affect the reported fair values of financial instruments.

The Funds consider observable data to be market data that is readily available, regularly distributed and updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The fair value of investments in underlying fund(s) that are not quoted in active markets is determined primarily by reference to the latest available NAV of such units/shares for each underlying fund, as determined by the underlying fund's/funds' managers.

### IFRS 10, Consolidated Financial Statements (IFRS 10)

In accordance with IFRS 10, the Manager has determined that the Funds meet the definition of an Investment Entity, which requires that the Funds obtain funds from one or more investors for the purpose of providing investment management services; commit to their investors that their business purpose is to invest funds solely for returns from capital appreciation, investment income, or both; and measure and evaluate the performance of their investments on a fair value basis. Consequently, the Funds do not consolidate their investments in subsidiaries, if any, but instead measure these at FVTPL, as required by the accounting standard.

### 4. REDEEMABLE UNITS

Redeemable units issued and outstanding represent the capital of each Fund.

#### *Mutual Funds Series*

Each Fund is authorized to issue an unlimited number of redeemable, transferable units of each series. Generally, the Funds have no restrictions or specific capital requirements, except for the minimum subscription/redemption amounts.

#### *ETF Series*

Each Fund is authorized to issue an unlimited number of ETF Series units. The ETF Series units are listed on the TSX and unitholders can buy or sell such units on the TSX through registered brokers and dealers.

On any trading day, a Designated Broker or an ETF Dealer may place a subscription order for prescribed number of ETF Series units (PNS) or integral multiple prescribe number of units (PNU) of each Fund. A trading day is each day on which the TSX is open for business.

If the subscription order is accepted, the Fund will generally issue units to an ETF Dealer or the Designated Broker the PNU (or an integral multiple thereof) within two trading days from the effective day of the subscription order. For each PNS issued, an ETF Dealer or the Designated Broker must deliver subscription proceeds consisting of a group of securities and/or assets determined by the Manager from time to time representing the constituent securities of the Fund (a "Basket of Securities") and cash in an amount sufficient so that the value of the Basket of Securities and cash delivered is equal to the NAV of the PNU of the Fund determined at the valuation time on the effective date of the subscription order plus any applicable subscription fee determined by the Manager.

ETF Series units of each Fund may also be issued to unitholders of such Fund on the automatic reinvestment of certain distributions in accordance with the distribution policy of the Fund.

Unitholders may exchange PNS (or an integral multiple thereof) of each Fund on any trading day for Baskets of Securities and cash, or in the discretion of the Manager, cash only. The exchange price will be equal to the NAV of the applicable PNU tendered for exchange determined at the valuation time on the effective date of the exchange request, payable by delivery of a Basket of Securities (constituted as most recently published prior to the effective date of the exchange request) and cash. The ETF Series units will be redeemed in the exchange.

On any trading day, unitholders of ETF Series units of each Fund may redeem (i) ETF Series units for cash at a redemption price per ETF Series unit equal to 95% of the closing price for the ETF Series units on the TSX on the effective day of the redemption less any applicable redemption fee determined by the Manager, in its sole discretion, from time to time, or (ii) a PNU of the Fund or a multiple PNU of the Fund for cash equal to the NAV of that number of ETF Series units less any applicable redemption fee determined by the Manager, in its sole discretion, from time to time.

## Notes to the Financial Statements (cont'd)

Unitholders of ETF Series units that have delivered a redemption request prior to the Distribution Record Date for any distribution will not be entitled to receive that distribution.

The relevant changes pertaining to subscription and redemption of each Fund's units are disclosed in the Statements of Changes in Net Assets Attributable to Holders of Redeemable Units. In accordance with the objectives and risk management policies outlined in Notes 1 and 10, the Funds endeavour to invest subscriptions received in appropriate investments while maintaining sufficient liquidity to meet redemptions through utilizing a short-term borrowing facility or disposal of investments when necessary.

Redeemable unit transaction information appears in the Fund Specific Notes to Financial Statements of each of the Funds.

In order to establish each individual series, the Manager has made initial investments in certain Funds.

### 5. FEES AND OTHER EXPENSES

#### Management fees

The Manager of each Fund, in consideration for management fees, provides management services required in the day-to-day operations of the Funds, including management of the investment portfolios of the Funds and provision of key management personnel.

The management fees are calculated based on a percentage of the NAV of each series of a Fund (other than Series I, IT5, IT8, IH, O, OO, OT5, OT8, P, PH, PP, PT5, PT8, S and series offered under Private Client Managed Portfolios) at the end of each business day and are subjected to application taxes including HST, GST and QST.

Investors in Series I, IT5, IT8, IH, O, OO, OT5, OT8, P, PH, PP, PT5, PT8, S and series offered under Private Client Managed Portfolios are charged management fees directly as negotiated between the investor and the Manager.

During the year ended March 31, 2024, the Manager of the Funds absorbed a total of nil (March 31, 2023 - \$45,000), \$310,000 (March 31, 2023 - \$1,474,000), \$7,507,000 (March 31, 2023 - \$3,269,000) and U.S. \$13,000 (March 31, 2023 - U.S. \$31,000) in management fees due to the declining yields generated by the following funds: CI Global Infrastructure Private Pool, CI Money Market Fund, CI High Interest Savings Fund and CI U.S. Money Market Fund, respectively.

#### Administration fees

The Manager bears all of the operating expenses of the Funds (other than certain taxes, borrowing costs and new governmental fees) in return for an annual administration fee. Administration fees are calculated as an annual percentage of the NAV of each series of a Fund (other than Series I, IT5, IT8, IH and S) at the end of each business day and are subjected to application taxes including HST, GST and QST.

Investors in Series I, IT5, IT8, IH and S units are charged administration fees directly as negotiated between the investor and the Manager.

Administration fees are not applicable to CI Money Market Fund, CI U.S. Money Market Fund and CI Select Staging Fund.

#### Fee rebates

The Manager may reduce the management and/or administration fees based on the size of a unitholder investment or participation in a program offered by the Manager for larger accounts. The Manager may also reduce management fees if a reduced trailing commission has been negotiated between a unitholder

and the unitholder representative based on relevant documentation provided to the Manager. Following the end of each quarter, the amount of any management and/or administration fee reduction is distributed to qualified unitholders by the Fund in the form of a reinvestment in additional units of the respective series of the Fund. The management and/or administration fee rebates, if applicable, are included in "Fees rebate receivable" and in "Fees rebate" as reflected in the Statements of Financial Position and Statements of Comprehensive Income of each Fund, if applicable. The Manager may reduce or waive the management and/or administration fees without giving notice to unitholders.

#### Investments in underlying fund(s)

A Fund that invests in units/shares of underlying fund(s) will not pay a duplicate management and administration fee on the portion of assets that are invested in units/shares of underlying fund(s). During the reporting year, a Fund may have received a management and/or administration fee rebate from the underlying fund's/fund(s)' manager relating to its investment in the underlying fund(s). The management and/or administration fee rebates are included in "Fees rebate receivable" and in "Fees rebate" as reflected in the Statements of Financial Position and Statements of Comprehensive Income of each Fund, as applicable.

Refer to the Management and Administration Fees table in the Fund Specific Notes to the Financial Statements for the management and administrative fee rates applicable to each series of each of the Funds.

### 6. SECURITIES LENDING

Certain Funds have entered into a securities lending program with their Lending Agent. The aggregate market value of all securities loaned by a Fund cannot exceed 50% of the assets of the Fund. A Fund will receive collateral of at least 102% of the value of securities on loan. Collateral will generally be comprised of cash and obligations of or guaranteed by the Government of Canada or a province thereof, or by the United States government or its agencies, but may include obligations of other governments with appropriate credit ratings. For those Funds participating in the program, amounts for securities loaned and the collateral received as well as reconciliation between gross securities lending revenue and securities lending revenue received by each Fund appear on the Fund Specific Notes to Financial Statements. Revenue from securities lending is included in "Securities lending revenue" in the Statements of Comprehensive Income.

### 7. INCOME TAXES

The Funds, except for CI Emerging Markets Bond Fund, CI Global Green Bond Fund, CI Global Sustainable Infrastructure Fund, CI Global Bond Currency Neutral Fund, CI Global Stock Selection Fund, CI Mosaic ESG Balanced Income ETF Portfolio, CI Select Canadian Equity Managed Fund, CI Select International Equity Managed Fund, CI Select Staging Fund, CI Select U.S. Equity Managed Fund, CI Canadian Long-Term Bond Pool, CI Canadian Short-Term Bond Pool, CI Energy Giants Covered Call Fund, CI Gold+ Giants Covered Call Fund, CI Tech Giants Covered Call Fund, CI WisdomTree U.S. Quality Dividend Growth Index Fund, CI WisdomTree Canada Quality Dividend Growth Index Fund and CI WisdomTree International Quality Dividend Growth Index Hedged Fund qualify as a mutual fund trust under the *Income Tax Act* (Canada). All of the Funds' net income for tax purposes and sufficient net capital gains realized in any year are required to be distributed to unitholders such that no income tax is payable by each of the Funds. As a result, the Funds do not record income taxes. Since the Funds do not record income taxes, the tax benefit of capital and non-capital losses has not been reflected in the Statements of Financial Position as a deferred income tax asset. Income tax on net realized capital gains not paid or payable will generally be recoverable by virtue of refunding provisions contained in the *Income Tax Act* (Canada) and provincial income tax legislation, as redemptions occur. Occasionally, the Funds may distribute more than they earn. This excess distribution is a return of capital and is not taxable to unitholders.

# CI Mutual Funds

## Notes to the Financial Statements (cont'd)

The CI Emerging Markets Bond Fund, CI Global Green Bond Fund, CI Global Sustainable Infrastructure Fund, CI Global Bond Currency Neutral Fund, CI Global Stock Selection Fund, CI Mosaic ESG Balanced Income ETF Portfolio, CI Select Canadian Equity Managed Fund, CI Select International Equity Managed Fund, CI Select Staging Fund, CI Select U.S. Equity Managed Fund, CI Canadian Long-Term Bond Pool, CI Canadian Short-Term Bond Pool, CI Energy Giants Covered Call Fund, CI Gold+ Giants Covered Call Fund, CI Tech Giants Covered Call Fund, CI WisdomTree U.S. Quality Dividend Growth Index Fund, CI WisdomTree Canada Quality Dividend Growth Index Fund and CI WisdomTree International Quality Dividend Growth Index Hedged Fund qualify as a unit trust under the *Income Tax Act* (Canada) and are not subject to tax on their net income, including net realized capital gains for the taxation year, which is paid or payable to their unitholders at the end of the taxation year. However, such part of each Fund's taxable income and net realized capital gains that is not so paid or payable to its unitholders will be taxable to that Fund. It is the intention of each Fund to distribute all net taxable income and sufficient net realized capital gains so that the Funds will not be subject to income tax. As a result, the Funds do not record income taxes. Since the Funds do not record income taxes, the tax benefit of capital and non-capital losses has not been reflected in the Statements of Financial Position as a deferred income tax asset. Occasionally, a Fund may distribute more than it earns. This excess distribution is a return of capital and is not taxable to unitholders.

The remaining tax payable and tax recoverable amounts are included in "Other" in the Statements of Financial Position.

Refer to the Loss Carry Forwards table in the Fund Specific Notes to Financial Statements for further information relating to loss carry forwards.

### 8. REINVESTMENT OF DISTRIBUTIONS

When a Fund pays a distribution to a unitholder, it will be paid in the same currency in which the units are held. Distributions are automatically reinvested without charge in the same Fund or paid out in cash to the unitholder. The Manager may change the distribution policy at its discretion.

Some Funds may pay notional distributions. Notional distributions are automatically reinvested without charge in the same Fund, and then the outstanding units of the Fund will be consolidated on such basis as is necessary to increase the NAV per unit to that which prevailed prior to the distribution and to ensure that the number of units outstanding immediately following such reinvestment and consolidation are the same as the number of units outstanding immediately prior to the reinvestment and consolidation. Accordingly, no payments are made, or new units issued.

Notional distributions are included in the Statements of Changes in Net Assets Attributable to Holders of Redeemable Units.

### 9. RELATED PARTY TRANSACTIONS

The Funds may have direct or indirect holdings in CI Financial Corp., or its affiliates or other funds managed by the Manager.

The Manager of the Funds may, from time to time, make initial investments in certain series of certain Funds to help establish a series or a Fund. Details of the investments made by the Manager are disclosed in Note 4.

#### *Related fund trading*

Related fund trading occurs when a Fund purchases or sells units/shares of another Fund managed by the Manager. During the years ended March 31, 2024 and 2023, certain Funds engaged in related fund trading or held position(s) in related fund(s) at the end of each year.

#### *Inter-fund trading*

Inter-fund trading occurs when a Fund purchases or sells a security of any issuer from or to another Fund managed by the Manager. These transactions are executed through market intermediaries and under prevailing market terms and conditions. The Independent Review Committee reviews such transactions during scheduled meetings. During the years ended March 31, 2024 and 2023, the Funds executed inter-fund trades.

## 10. FINANCIAL INSTRUMENTS RISK

### Canadian dollar offered rate transition

On May 16, 2022, Refinitiv Benchmark Services (UK) Limited, the administrator of Canadian Dollar Offered Rate (CDOR), announced that the calculation and publication of all tenors of CDOR will permanently cease following a final publication on June 28, 2024.

The global benchmark rate reform initiative to transition from CDOR to alternative reference rates may impact a Fund that holds investments that are referenced to CDOR. Market risks arise as the new reference rates are likely to differ from the existing CDOR rates, which may impact the volatility or liquidity in markets for instruments that currently rely on CDOR settings. In order to manage these risks, the Manager continues to closely monitor the industry development and is taking all necessary steps to identify, measure and manage the risks relating to the Funds' CDOR exposure from their portfolio holdings.

### Risk management

The Funds are exposed to a variety of financial instruments risks: leverage and short selling risk, concentration risk, credit risk, liquidity risk and market risk (including other price risk, currency risk and interest rate risk). The level of risk to which each Fund is exposed depends on the investment objective and the type of investments the Fund holds. The value of investments within a portfolio can fluctuate daily as a result of changes in prevailing interest rates, economic and market conditions, political changes, global pandemics and company-specific news related to investments held by the Fund. The Manager of the Funds may minimize potential adverse effects of these risks on the Funds' performance by, but not limited to, regular monitoring of the Funds' positions and market events, diversification of the investment portfolio by asset type, country, sector, term to maturity within the constraints of the stated objectives, and through the usage of derivatives to hedge certain risk exposures.

### Leverage and short selling risk

When a Fund makes investments in derivatives, borrows cash for investment purposes, or uses physical short sales on equities or other portfolio assets, leverage may be introduced into the Fund. Leverage occurs when the Fund's notional exposure to underlying assets is greater than the amount invested. It is an investment technique that magnifies gains and losses. Consequently, any adverse change in the value or level of the underlying asset, rate or index may amplify losses compared to those that would have been incurred if the underlying asset had been directly held by the Fund and may result in losses greater than the amount invested in the derivative itself. Leverage may increase volatility, may impair the Fund's liquidity and may cause the Fund to liquidate positions at unfavorable times.

To achieve its investment objective, the CI Investment Grade Bond Fund and CI Investment Grade Bond Private Pool exercise leverage through participating in short selling transactions.

Each Funds may borrow cash up to a maximum of 20% of the Fund's net assets and may sell securities short, whereby the aggregate market value of securities sold short will be limited to 20% of the Fund's net assets. The combined use of short selling and cash borrowing by the Fund is subject to an overall limit of 20% of the Fund's net assets.

# CI Mutual Funds

## Notes to the Financial Statements (cont'd)

During the year ended March 31, 2024, the lowest aggregated fair value amount of the leverage exercised by the CI Investment Grade Bond Fund was nil (nil of net assets) (March 31, 2023 - \$4.4 million, 0.5% of net assets) and the highest aggregated fair value amount of the leverage used during the period was nil (nil of net assets), (March 31, 2023 - \$7.8 million, 0.8% of net assets).

During the year ended March 31, 2024, the lowest aggregated fair value amount of the leverage exercised by the CI Investment Grade Bond Private Pool was nil (nil of net assets) (March 31, 2023 - nil, nil of net assets) and the highest aggregated fair value amount of the leverage used during the year was nil (nil of net assets) (March 31, 2023 - \$0.2 million, 0.4% of net assets).

### Concentration risk

Concentration risk arises as a result of the concentration of exposures within the same category, whether it is a geographical allocation, asset type, industry sector or counterparty.

Details of each Fund's exposure to concentration risk are available in the Fund Specific Notes to Financial Statements of each of the Funds.

### Credit risk

Credit risk is the risk that a security issuer or counterparty to a financial instrument will fail to meet its financial obligations. The fair value of a debt instrument includes consideration for the creditworthiness of the debt issuer. The carrying amount of debt instruments as shown on the Schedule of Investment Portfolio represents the credit risk exposure of each Fund. Credit risk exposure for derivative instruments is based on each Fund's unrealized gain on the contractual obligations with the counterparty as at the reporting date. The credit rating of a counterparty to a derivative instrument is disclosed in the Schedule of Investment Portfolio or in Fund Specific Notes to Financial Statements of each Fund, if applicable. The credit risk exposure of the Fund's other assets is represented by their carrying amount as disclosed in the Statements of Financial Position.

The Funds that only invest in units/shares of underlying fund(s) and may be exposed to indirect credit risk in the event that the underlying fund(s) invest in debt instruments, preferred securities and derivatives.

Credit ratings for debt securities, preferred securities and derivative instruments are obtained from S&P Global Ratings, where available; otherwise, ratings are obtained from: Moody's Investors Service or Dominion Bond Rating Service, respectively.

Credit ratings can be either long-term or short-term. Short-term credit ratings are generally assigned to those obligations and derivative instruments considered short-term in nature. The table below provides a cross-reference between the long-term credit ratings disclosed in the Credit Risk table inclusive of the short-term credit ratings disclosed in the derivatives schedules in the Schedule of Investment Portfolio.

Cash balances, with the exception of restricted cash balances and margin accounts, as disclosed in the Statements of Financial Position, are maintained by the Custodian. The Manager monitors the creditworthiness of the Custodian on a regular basis. As at March 31, 2024, the credit rating of the Custodian was AA (March 31, 2023 - AA).

All transactions executed by a Fund in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

### Liquidity risk

Liquidity risk is the risk that a Fund may not be able to settle or meet its obligations on time or at a reasonable price. The Funds are exposed to daily cash redemption of redeemable units. Therefore, the Funds invest the majority of their assets in investments that are traded in active markets and can be readily disposed of. In addition, the Funds retain sufficient cash and cash equivalents positions to maintain liquidity. From time to time, the Funds may enter into derivative contracts or invest in unlisted securities that may not trade in an organized market and may be illiquid. All financial liabilities are due within three months.

### Market risk

The Funds' investments are subject to market risk, which is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market conditions.

### Other price risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from currency risk or interest rate risk). The value of each investment is influenced by the outlook of the issuer and by general economic and political conditions, as well as industry and market trends. All securities present a risk of loss of capital. Except for options written, future contracts sold short and investments sold short, the maximum risk resulting from financial instruments is equivalent to their fair value. On written call options, short future positions and on equity and debt sold short, the maximum loss of capital can be unlimited.

Other assets and liabilities are monetary items that are short-term in nature and therefore are not subject to significant other price risk.

### Currency risk

Currency risk arises from financial instruments that are denominated in a currency other than the functional currency of the Funds. As a result, the Funds may be exposed to the risk that the value of securities denominated in other currencies will fluctuate due to changes in exchange rates. The Schedule of Investment Portfolio identifies all bonds and derivative instruments denominated in foreign currencies. Equities traded in foreign markets are also exposed to currency risk as the prices denominated in foreign currencies are converted to the Funds' functional currency to determine their fair value.

The Funds that only invest in units/shares of underlying fund(s) and may be exposed to indirect currency risk in the event that the underlying fund(s) invest in financial instruments that are denominated in a currency other than the functional currency of the Fund.

### Interest rate risk

Interest rate risk is the risk that the fair value of interest-bearing investments will fluctuate due to changes in prevailing levels of market interest rates. As a result, the value of the Funds that invest in debt securities and/or income trusts will be affected by changes in applicable interest rates.

If interest rates fall, the fair value of existing debt securities may increase due to the increase in yield. Alternatively, if interest rates rise, the yield of existing debt securities may decrease, which may then lead to a decrease in their fair value. The magnitude of the decline will generally be greater for long-term debt securities than for short-term debt securities.

Interest rate risk also applies to Funds that invest in convertible securities. The fair value of these securities varies inversely with interest rates, similar to other debt securities. However, since they may be converted into common units, convertible securities are generally less affected by interest rate fluctuations than other debt securities.

The Funds that only invest in units/shares of underlying fund(s) and may be exposed to indirect interest rate risk in the event that the underlying fund(s) invest in interest-bearing financial instruments.

### Specific risks associated with digital assets

Some Funds may be indirectly exposed to the following risks that are associated with investing in digital assets.

#### Speculative nature of digital assets

Investing in digital assets; like bitcoin or ethereum, is speculative, prices are volatile, and market movements are difficult to predict. Supply and demand for digital assets can change rapidly and are affected by a variety of factors, including regulation and general economic trends.

#### Unforeseeable risks

Digital assets have gained commercial acceptance only within recent years and, as a result, there is little data on their long-term investment potential. Additionally, due to the rapidly evolving nature of the digital assets market, including advancements in the underlying technology, changes to digital assets may expose investors in a Fund to additional risks that are impossible to predict. This uncertainty makes an investment in the units of a Fund very risky.

#### Risk associated with the custody of digital assets

When investing in digital assets there is a risk that some or all holdings of digital assets could be lost, stolen, destroyed or inaccessible, potentially by the loss or theft of the private keys held by Custodian and Sub-custodian associated with the public addresses that hold digital assets and/or destruction of storage hardware. Multiple thefts of digital assets from other holders have occurred in the past. Because of the decentralized process for transferring digital assets, thefts can be difficult to trace, which may make digital assets a particularly attractive target for theft.

Access to digital assets could be restricted by natural events (such as an earthquake or flood) or human actions (such as a terrorist attack). Digital assets held in custody accounts may be an appealing target for hackers or malware distributors seeking to destroy, damage or steal the digital assets or private keys.

Security breaches, cyber-attacks, computer malware and computer hacking attacks have been a prevalent concern for the digital asset trading platforms. Any cyber security breach caused by hacking, which involves efforts to gain unauthorized access to information or systems, or to cause intentional malfunctions or loss or corruption of data, software, hardware or other computer equipment, and the inadvertent transmission of computer viruses, could harm business operations or reputation, resulting in loss of assets.

### Fair value hierarchy

The Funds are required to classify financial instruments measured at fair value using a fair value hierarchy. Investments whose values are based on quoted market prices in active markets are classified as Level 1. This Level includes publicly traded equities, exchange-traded and retail mutual funds, exchange-traded warrants, futures contracts and traded options.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified as Level 2. These include fixed income securities, mortgage-backed securities, short-term instruments, non-traded warrants, OTC options, structured notes of indexed securities, foreign currency forward contracts, swap instruments, American depositary receipts and global depositary receipts, if quoted market price is not available.

Investments classified as Level 3 have significant unobservable inputs. Level 3 instruments include private equities, private term loans, private equity funds and certain derivatives. As observable prices are not available for these securities, the Funds may use a variety of valuation techniques to derive the fair value.

The Funds' policy is to recognize transfers into and out of the fair value hierarchy levels as at the date of the event or change in circumstances giving rise to the transfer.

Details of each Fund's exposure to financial instruments risks including concentration risk and fair value hierarchy classification are available in the Fund Specific Notes to Financial Statements for each Fund.
