Management Report of Fund Performance for the period/year ended March 31, 2024

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-800-792-9355, by writing to us at CI Investments Inc., 15 York Street, Second Floor, Toronto, ON, M5J 0A3 or by visiting our website at www.ci.com or SEDAR+ at www.sedarplus.ca.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of the CI International Equity Growth Private Pool (the Fund) is to provide capital growth and income over the long-term by investing primarily in equity securities of issuers outside of North America.

In accordance with its investment objective, the Fund:

- will invest primarily in equity securities of issuers outside of North America using a fundamental, bottom-up approach to investing;
- will invest primarily in non-dividend paying securities, but may also invest in dividend paying securities;
- may invest up to 100% of its assets outside of North America; and
- may invest in private placements or other illiquid equity or debt securities of public or private companies as permitted by securities regulations.

For a complete discussion of the Fund's investment objective and strategies, please refer to the Fund's most recently filed simplified prospectus.

RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the period/year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the period/year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

RESULTS OF OPERATIONS

The Fund's net assets increased by \$3.8 million to \$26.5 million from March 31, 2023 to March 31, 2024. The portfolio's performance increased assets by \$4.3 million. The Fund paid distributions totalling \$0.5 million. Series A units returned 17.2% after fees and expenses for the one-year period ended March 31, 2024. Over the same time period, the Fund's benchmark returned 15.6%. The benchmark is the MSCI EAFE Total Return Index (the Benchmark or the Index).

The performance of the Fund's other Series is substantially similar to that of Series A units, except for differences in the structure of fees and expenses. For the returns of the Fund's other Series, please refer to the "Past Performance" section.

International equities, as defined by the MSCI ACWI ex-USA Index, rose 13.3%, in U.S.-dollar terms. However, equity markets were narrowly led and dominated by large-capitalization stocks and optimism around artificial intelligence, weight-loss drugs and expected monetary policy easing from central bankers. The broader, equal-weighted market, as measured by the MSCI ACWI ex-USA Equally Weighted Index, only rose 2.2%, in U.S.-dollar terms.

U.S. stock valuations appeared stretched, but there were opportunities in smaller- and mid-capitalization companies and in value stocks. Developed market international stocks traded at a significant discount to their U.S. peers. Emerging market equities traded at a low valuation, but concerns over China and other geopolitical challenges led to negative investor sentiment for the region.

The Fund outperformed its benchmark for the year. Overweight exposures to the industrials, consumer discretionary and information technology sectors contributed to the Fund's performance, as did underweight positions in the health care, consumer staples and materials sectors. From a regional standpoint, overweight allocations to France, the United Kingdom and Denmark contributed to the Fund's performance. Underweight exposures to Sweden, Finland and Hong Kong also contributed to the Fund's performance. We engaged in currency hedging during the year through foreign currency forward contracts, which contributed to the Fund's performance. Top individual contributors to the Fund's performance included equity holdings in Novo Nordisk AS, Disco Corp. and SAP SE.

The largest individual detractors from the Fund's performance included holdings in LVMH Moët Hennessy Louis Vuitton SE, Norsk Hydro ASA and Adyen NV.

During the year, we increased the Fund's exposures to the industrials, consumer discretionary and financials sectors and reduced its allocations to the health care, materials and consumer staples sectors. Regionally, we increased the Fund's exposures to Japan, the Netherlands and Italy. At the same time, exposures to the United Kingdom, France and Norway were reduced. The Fund's cash allocation was increased during the year.

We initiated and subsequently exited positions in Adyen NV, Enel SPA and Koninklijke Ahold Delhaize NV. The Fund's existing holdings in Industria de Diseno Textil SA, SAP SE and Komatsu Ltd. were increased.

RECENT DEVELOPMENTS

We expect to see low to moderate economic growth in the coming year. Interest rate cuts will likely be slower to come than current market expectations. We believe that gradual sales growth should provide the potential for margin expansion.

RELATED PARTY TRANSACTIONS

Manager, Portfolio Adviser, Trustee and Registrar

CI Investments Inc. is the Manager, Portfolio Adviser, Trustee and Registrar of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. The Manager, in consideration for management fees, provides management services required in the day-to-day operations of the Fund. The Manager bears all of the operating expenses of the Fund (other than taxes, borrowing costs and new governmental fees) in return for an administration fee.

Management fee and administration fee rates as at March 31, 2024, for the Series/Class or for each of the Series/Classes, as applicable, is/are shown below:

	Annual management fee rate (%):	Annual administration fee rate (%):
Series A	1.700	0.15
Series F	0.700	0.15
Series I	Paid directly by investor	Paid directly by investor

The Manager received \$0.03 million in management fees and \$0.01 million in administration fees for the year.

Management Fees

Approximately 26% of total management fees were used to pay for sales and trailing commissions. The remaining 74% of management fees were used to pay for investment management and other general administration.

Portfolio Sub-Advisor

CI Global Investments Inc., an affiliate of CI Investments Inc., provides investment advice to the Fund.

Inter Fund Trading

Inter fund trading occurs when a Fund purchases or sells a security of any issuer from or to another Fund managed by the Manager. These transactions are executed through market intermediaries and under prevailing market terms and conditions. The Independent Review Committee (IRC) reviews such transactions during scheduled meetings. During the period/year ended March 31, 2024, the Fund executed inter fund trades.

Independent Review Committee

The Manager, in respect of the Fund, received the following standing instructions from the IRC with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager reports related party transactions periodically to the IRC and advise the IRC of any material breach of such policies. The Manager's policies and procedures require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; (c) do not exceed the limitations of the applicable legislation; and (d) achieve a fair and reasonable result for the Fund.

Except as otherwise noted above under Related Party Transactions section, the Fund was not a party to any related party transactions during the period/year ended March 31, 2024. If the Fund invested in related party transactions, it relied on the IRC's standing instructions regarding related party transactions during this reporting period/year.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on unitholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that distributions made by the Fund in the period(s)/year(s) shown were reinvested in additional units of the Fund or relevant Series/Class of the Fund, as applicable. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following chart/charts shows/show the Fund's annual performance for each of the period(s)/year(s) shown and illustrates/illustrate how the Fund's performance has changed from period/year to period/year. In percentage terms, the chart/charts shows/show how much an investment made on the first day of each financial period/year would have grown or decreased by the last day of each financial period/year, except where noted.

¹ 2019 return is for the period from October 29, 2018 to March 31, 2019.
