*Management Report of Fund Performance for the period/year ended March 31, 2023*

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-800-792-9355, by writing to us at CI Investments Inc., 15 York Street, Second Floor, Toronto, ON, M5J 0A3 or by visiting our website at [www.ci.com](http://www.ci.com) or SEDAR at [www.sedar.com](http://www.sedar.com).

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

## INVESTMENT OBJECTIVE AND STRATEGIES

The CI Global Infrastructure Private Pool (the Fund) seeks to provide regular income and capital appreciation by investing primarily in companies with either direct or indirect exposure to infrastructure located anywhere in the world.

The Fund seeks to achieve its investment objective by investing in a globally diversified portfolio of publicly listed global infrastructure companies. Infrastructure can be defined as the physical assets that a society requires to facilitate its orderly operations, which include, but are not limited to:

- transport (toll roads, airports, seaports and rail)
- energy (oil pipelines, gas and electricity transmission, distribution and generation)
- water (distribution and treatment)
- communications (broadcast, satellite and cable).

In accordance with its investment objective, the Fund may also employ several other investment strategies, including:

- investing in fixed-income securities of companies with either direct or indirect exposure to infrastructure;
- investing up to all of the Fund's assets in foreign securities;
- investing up to 20% of the Fund's assets in Canadian securities;
- investing in publicly traded structured products that hold infrastructure-related securities; and
- investing up to 10% the Fund's assets in securities of other investment fund(s), including domestic and foreign exchange-traded fund(s), which may be managed by the Manager.

For a complete discussion of the Fund's investment objective and strategies, please refer to the Fund's most recently filed simplified prospectus.

## RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the period/year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the period/year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

## RESULTS OF OPERATIONS

The Fund's net assets increased by \$68.5 million to \$365.2 million from March 31, 2022 to March 31, 2023. The Fund had net sales of \$72.7 million during the year. The portfolio's performance increased assets by \$10.8 million. The Fund paid distributions totalling \$15.0 million. Series A units returned 1.6% after fees and expenses for the one-year period March 31, 2023. Over the same time period, the Fund's benchmark returned -1.8%. The benchmark is the MSCI World Core Infrastructure Total Return Index (the Benchmark or the Index).

The performance of the Fund's other Series is substantially similar to that of Series A units, except for differences in the structure of fees and expenses. For the returns of the Fund's other Series, please refer to the "Past Performance" section.

Over the year, authorities and financial markets continued to grapple with high inflation, which led most central banks around the world to significantly raise interest rates. This drove down the value of bonds and reduced stock market valuations and returns significantly. Economic growth was maintained, but a slowdown, with the potential for a recession in some regions, began to be expected sometime in 2023. Geopolitically, Russia's war against Ukraine heightened markets' perceptions of geopolitical risks, while the end of China's zero-COVID policy helped to provide a boost to global economic conditions.

# CI Global Infrastructure Private Pool

## Management Report of Fund Performance for the period/year ended March 31, 2023

The Fund outperformed its benchmark for the year. Security selection within the energy, utilities and communication services sectors and the transportation infrastructure sub-sector contributed to the Fund's performance. An overweight allocation to the energy sector and underweight allocation to the utilities sector also contributed to the Fund's performance. Top individual contributors to the Fund's performance were Vinci SA and Cheniere Energy Inc. Vinci SA benefited from good traffic growth across its toll road and airport networks as the global economy emerged from COVID-19 pandemic lockdown. The company also benefited from falling interest rates in the latter part of the year. Cheniere Energy Inc.'s shares performed well as the war in Ukraine as well as economic reopening from the pandemic caused a large increase in global liquefied natural gas demand and prices.

Stock selection in Italy and an underweight allocation to Japan detracted from the Fund's performance. The largest individual detractors from the Fund's performance were SBA Communications Corp. and Crown Castle International Inc. as long-term telecommunications tower companies were impacted by interest rate pressures.

We added a new Fund position in Grupo Aeroportuario del Pacifico SAB de CV and increased existing positions in Vinci SA and Targa Resources Corp. Holdings in Flughafen Wien AG, Vantage Towers AG, Enel SPA and Enbridge Inc. were eliminated from the Fund.

### RECENT DEVELOPMENTS

Looking forward, we expect that economic growth is likely to moderate in most developed markets, but we do not expect a deep recession. With inflation likely to moderate but remain higher than in recent history, we note the value of infrastructure's inflation-protected revenues and stable business models.

The Fund has an overweight exposure to energy infrastructure, consistent with the moderate valuations and high free cash flow yields of many firms in this sub-sector and the growing importance of stable North American energy production. The Fund is also positioned in utility companies that are likely to benefit from energy transition funding and mandates across the world, promoting decarbonization.

### Independent Review Committee

Effective October 6, 2022, John Sheedy became a member of the Independent Review Committee (IRC) of CI Funds.

### Merger

Effective as of close of business on April 8, 2022, CI Active Utility & Infrastructure ETF merged into CI Global Infrastructure Private Pool.

### RELATED PARTY TRANSACTIONS

#### Manager, Portfolio Adviser, Trustee and Registrar

CI Investments Inc. is the Manager, Portfolio Adviser, Trustee and Registrar of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. The Manager, in consideration for management fees, provides management services required in the day-to-day operations of the Fund. The Manager bears all of the operating expenses of the Fund (other than taxes, borrowing costs and new governmental fees) in return for an administration fee.

Management fee and administration fee rates as at March 31, 2023, for the Series/Class or for each of the Series/Classes, as applicable, is/are shown below:

	Annual management fee rate (%)	Annual administration fee rate (%)
Series A	1.700	0.15
ETF CS Series	0.700	0.15
Series F	0.700	0.15
Series I	Paid directly by investor	Paid directly by investor

The Manager received \$2.7 million in management fees and \$0.6 million in administration fees for the year.

During the year ended March 31, 2023, the Manager of the Fund absorbed \$45,000 in management fees.

### Management Fees

Approximately 31% of total management fees were used to pay for sales and trailing commissions. The remaining 69% of management fees were used to pay for investment management and other general administration.

### Inter Fund Trading

Inter fund trading occurs when a Fund purchases or sells a security of any issuer from or to another Fund managed by the Manager. These transactions are executed through market intermediaries and under prevailing market terms and conditions. The IRC reviews such transactions during scheduled meetings. During the period/year ended March 31, 2023, the Fund executed inter fund trades.

# CI Global Infrastructure Private Pool

*Management Report of Fund Performance for the period/year ended March 31, 2023*

---

## **Independent Review Committee**

The Manager, in respect of the Fund, received the following standing instructions from the IRC with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager reports related party transactions periodically to the IRC and advise the IRC of any material breach of such policies. The Manager's policies and procedures require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; (c) do not exceed the limitations of the applicable legislation; and (d) achieve a fair and reasonable result for the Fund.

Except as otherwise noted above under Related Party Transactions section, the Fund was not a party to any related party transactions during the period/year ended March 31, 2023. If the Fund invested in related party transactions, it relied on the IRC's standing instructions regarding related party transactions during this reporting period/year.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Net assets per unit and distributions per unit are based on the actual number of units outstanding for the relevant Series/Class at the relevant time. The increase (decrease) in net assets from operations per unit is based on the weighted average number of units outstanding for the relevant Series/Class over the fiscal period/year.

(3) Distributions are automatically reinvested in additional units of the Fund.

(4) This information is provided for the period(s)/year(s) ended March 31.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on unitholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

(5) This information is provided for the period(s)/year(s) ended March 31.

(6) Closing market price.

## PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that distributions made by the Fund in the period(s)/year(s) shown were reinvested in additional units of the Fund or relevant Series/Class of the Fund, as applicable. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

### Year-by-Year Returns

The following chart/charts shows/show the Fund's annual performance for each of the period(s)/year(s) shown and illustrates/illustrate how the Fund's performance has changed from period/year to period/year. In percentage terms, the chart/charts shows/show how much an investment made on the first day of each financial period/year would have grown or decreased by the last day of each financial period/year, except where noted.

1 2021 return is for the period from May 21, 2020 to March 31, 2021.

# CI Global Infrastructure Private Pool

Management Report of Fund Performance for the period/year ended March 31, 2023

**Annual Compound Returns**

The following table shows the Fund’s annual compound returns for each year indicated, compared to the MSCI World Core Infrastructure Total Return Index.

The MSCI World Core Infrastructure Index is a free float-adjusted market capitalization index which tracks the performance of global listed infrastructure companies that belong to a specific set of eligible sub-industries from the Global Industry Classification Standard (GICS). The weight of each sub-industry is capped at 15% to provide more diversification and the weight of any security is capped at 5% to reduce concentration. Sub-industries included are: Utilities: Electric Utilities, Gas Utilities, Multi-utilities, Water Utilities, Oil & Gas Storage & Transportation and Infrastructure: Railroads, Airport Services, Highways & Railtracks, Marine Ports & Services, Specialized REITS (including only telecommunications infrastructure companies).

A discussion of the performance of the Fund as compared to the benchmark is found in the Results of Operations section of this report.

	One Year (%)	Three Years (%)	Five Years (%)	Ten Years (%)	Since Inception (%)

## A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about the Fund, its future performance, strategies or prospects, and possible future Fund action. The words “may,” “could,” “should,” “would,” “suspect,” “outlook,” “believe,” “plan,” “anticipate,” “estimate,” “expect,” “intend,” “forecast,” “objective,” and similar expressions are intended to identify forward-looking statements.

Forward-looking statements are not guarantees of future performance. Forward-looking statements involve inherent risks and uncertainties, both about the Fund and general economic factors, so it is possible that predictions, forecasts, projections and other forward-looking statements will not be achieved. We caution you not to place undue reliance on these statements as a number of important factors could cause actual events or results to differ materially from those expressed or implied in any forward-looking statement made by the Fund. These factors include, but are not limited to, general economic, political and market factors in Canada, the United States and internationally, interest and foreign exchanges rates, global equity and capital markets, business competition, technological changes, changes in laws and regulations, judicial or regulatory judgments, legal proceedings and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. All opinions contained in forward-looking statements are subject to change without notice and are provided in good faith but without legal responsibility.
