### Investment mix (May 31, 2025)

### How risky is it?

The value of the pool can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a pool's returns change over time. This is called "volatility".

In general, pools with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Pools with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

### Risk rating

CI Global Asset Management has rated the volatility of this pool as **low to medium**.

Generally, the rating is based on how much the pool's returns have changed from year to year. It doesn't tell you how volatile the pool will be in the future. The rating can change over time. A pool with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the pool's returns, see the "What is a Mutual Fund and What are the Risks of Investing in a Mutual Fund?" and "Specific Information About Each of the Mutual Funds Described in this Document" sections of the pool's simplified prospectus.

### No guarantees

Like most mutual funds, this pool doesn't have any guarantees. You may not get back the amount of money you invest.

# CI Canadian Long-Term Bond Pool (Series I units)

## How has the fund performed?

This section tells you how Series I securities of the pool have performed over the past 6 calendar year(s). Returns are after expenses have been deducted. These expenses reduce the pool's returns.

### Year-by-year returns

This chart shows how Series I securities of the pool performed in each of the past 6 calendar year(s). This pool series dropped in value in 2 of the last 6 calendar year(s). The range of returns and change from year to year can help you assess how risky the pool has been in the past. It does not tell you how the pool will perform in the future.

### Best and worst 3-month returns

This table shows the best and worst returns for Series I securities of the pool in a 3-month period over the past 6 calendar year(s). The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	15.0%	December 31, 2023	Your investment would be \$1,150.
Worst return	-13.6%	April 30, 2022	Your investment would be \$864.

### Average return

As at May 31, 2025, a person who invested \$1,000 in Series I securities of the pool since inception has \$1,023. This works out to an annual compounded rate of return of 0.3%.

## Who is this fund for?

### This pool may be suitable for you if you:

- are investing for the medium and/or long term
- can tolerate low to medium risk
- are seeking income and capital appreciation

## A word about tax

In general, you'll have to pay income tax on any money you make on a pool. How much you pay depends on the tax laws of where you live and whether you hold the pool in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your pool in a non-registered account, pool distributions are included in your taxable income, whether you get them in cash or have them reinvested.

# CI Canadian Long-Term Bond Pool (Series I units)

## How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series I securities of the pool. The fees and expenses — including any commissions — can vary among series of a pool and among pools. Higher commissions can influence representatives to recommend one investment over another. Ask about other pools and investments that may be suitable for you at a lower cost.

### 1. Sales charges

There are no sales charges applicable to your series of securities.

### 2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the pool series' returns. As of March 31, 2025, the total pool series' expenses were 0.00%. This equals \$0.00 for every \$1,000 invested.

	Annual rate (as a % of the fund series' value)
<b>Management expense ratio (MER)</b> This is the pool series' Certain Fund Costs.	0.00%
<b>Trading expense ratio (TER)</b> These are the pool series' trading costs.	0.00%
<b>Fund expenses</b>	0.00%

### More about trailing commission

CI Global Asset Management does not pay a trailing commission on your series of securities out of the pool's management fee.

### 3. Other fees

You may have to pay other fees when you buy, hold, sell or switch securities of the pool.

Fee	What you pay
<b>Short-term trading fee</b>	Up to 2% of the net asset value of the securities you redeem, if we determine that you have engaged in inappropriate short-term trading, which may occur if you sell or transfer your securities within 30 days of buying them. This fee goes to the pool.
<b>Transfer fee</b>	Your representative's firm may charge you up to 2% of the net asset value of securities you switch to another fund.
<b>Investment advisory fee</b>	You may be charged an investment advisory fee, the amount of which is negotiated between you and your representative (acting on behalf of the representative's firm) and may be collected by us on behalf of your representative's firm (by redeeming (without charges) a sufficient number of securities from your account on a monthly or quarterly basis). If administered by us, the investment advisory fee must not exceed 1.25% annually of the net asset value of Series I securities of the pool in your account.
<b>Series I account agreement fee</b>	You will be charged a management fee and administration fee directly by us, the total amount of which is negotiated between you and us, and payable directly to us by the redemption of securities (without charges) up to a maximum of 1.35% annually of the net asset value of Series I securities of the fund in your account depending on the asset class of your investment. However, if your investment falls below the minimum investment required for this series of securities, an additional fee of 0.15% per year may be applied.
<b>NSF cheque fee</b>	There is a \$25 charge for all cheques returned because of insufficient funds.

## What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds securities within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

## For more information

Contact CI Global Asset Management or your representative for a copy of the pool's simplified prospectus and other disclosure documents, which have more detailed information. These documents and the Fund Facts make up the pool's legal documents.
