What does the Fund invest in?

The Fund invests either in securities of Invesco NASDAQ 100 ETF (NASDAQ ticker: QQQM) or Invesco NASDAQ 100 Index ETF – CAD Hedged Units (TSX ticker: QQC.F), or directly in companies listed on The Nasdaq Stock Market in order to replicate the Nasdaq-100 Index[®], which measures the performance of the 100 largest non-financial companies listed on The Nasdaq Stock Market. If the Fund invests in shares of Invesco NASDAQ 100 ETF or in securities that make up the Nasdaq-100 Index[®], because these investments are traded in U.S. dollars, the Fund will seek to reduce the risk of exchange-rate fluctuations between the U.S. and Canadian dollars by hedging its U.S.-dollar exposure.

How risky is it?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge the risk is to look at how much a fund's returns change over time. This is called "volatility."

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

Invesco Canada Ltd. has rated the volatility of this Fund as **Medium to high**.

This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the *What are the specific risks of investing in a mutual fund?* section of the Fund's simplified prospectus.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether you hold the fund in a registered plan, such as a registered retirement savings plan or a tax-free savings account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.
