### How risky is it?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge the risk is to look at how much a fund's returns change over time. This is called "volatility."

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

### Risk rating

Invesco Canada Ltd. has rated the volatility of this Fund as **Medium**.

This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the *What are the specific risks of investing in a mutual fund?* section of the Fund's simplified prospectus.

### No guarantees

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

### How has the Fund performed?

<b>Best return</b>	12.9%	January 31, 2021	Your investment would rise to \$1,129
<b>Worst return</b>	-17.9%	March 31, 2020	Your investment would drop to \$821

#### Average return

A person who invested \$1,000 in Series O units of the Fund 10 years ago now has \$2,324. This works out to an annual compound return of 8.80%.

### Who is this Fund for?

#### Investors who:

- Want capital growth and income over the medium to long term
- Want a diversified Canadian balanced investment
- Are comfortable with medium risk

The Fund is not appropriate if you have a short-term investment horizon.

### A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether you hold the fund in a registered plan, such as a registered retirement savings plan or a tax-free savings account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

Fee	What you pay
<b>Short-term trading fee</b>	If you redeem or switch within 30 days of purchase, Invesco Canada Ltd. reserves the right to charge, on behalf of the Fund, a short-term trading fee of 2% on top of any other fees that may apply.
<b>Investment advisory fee</b>	For individual investors, your representative's firm may charge you an annual investment advisory fee, which you negotiate with your representative. This fee is paid by redeeming some of the units you own of the Fund. If one of the 0.25%, 0.50%, 0.75% or 1.00% purchase options is selected, the investment advisory fee is that which is reflected by the purchase option. The purchase option selected is determined by you and your representative. We have also included a purchase option that does not provide for a default fee if you and your representative wish to negotiate a different fee. If that purchase option is selected, then we will collect a fee of up to 1.50% on your behalf and remit that fee to your representative's firm. If that purchase option is selected and we do not receive any documentation, then we will not redeem units and we will assume that your representative's firm will either (i) not charge a fee or (ii) charge you directly. No investment advisory fee is payable by institutional investors.
<b>Management and advisory fee</b>	Investors pay the management and advisory fee for Series O units directly. The annual management and advisory fees are as follows: 0.85% on the first \$500,000 of assets; 0.75% on assets between \$500,000 and \$1,000,000; 0.70% on assets between \$1,000,000 and \$5,000,000; and 0.65% on assets in excess of \$5,000,000.
