Ongoing fund expenses

The fund expense ratio (FER) is the sum of the management expense ratio (MER) and the trading expense ratio (TER). The TER includes the commissions and other portfolio transaction costs payable from the assets of the fund. The MER includes the management fee and operating expenses of the fund. The MER includes the insurance cost of the guarantee. You do not pay these expenses directly. They affect you because they reduce the return you get on your investment. For details, please refer to the Information Folder and Contract.

What if I change my mind?

You can change your mind within two business days of the earlier of the date you received transaction confirmation or five business days after it is forwarded. You have to tell CI Global Asset Management (CI GAM) in writing (by fax or letter) that you want to cancel. The amount returned will be the lesser of the amount you invested or the value of your investment if it has gone down. The amount returned only applies to the specific transaction and will include a refund of any sales charges or other fees you paid.

You can also change your mind about subsequent transactions you make under the contract within two business days from the date you received the transaction confirmation. In this case, the right to cancel only applies to the new transaction. The amount returned will be the lesser of the amount you invested or the value of the fund units attributed to you if it has gone down.
