How has the Fund performed?

Average returns

This section tells you how the Fund did in the past. A person who invested \$1,000 in the Investment Class Fund in August 2012 would have \$1,504.00 in December 2021. This works out to an average of 4.43% a year. The returns are after the MER has been deducted. The insurance fees and other costs will reduce the returns of the Fund. Past returns do not tell you how the Fund will do in the future. Your return will vary based on your guarantee option and personal tax situation.

Year-by-year returns (%)

This chart shows how the Fund has performed in each of the past nine years. In the past nine years, the Fund was up in value seven years and down in value two years.

How risky is it?

The value of your investment can go down. For details, please refer to Section I-7 of the Information Folder and page I-19 of the supplement.
