- MER is displayed for the period ending March 31, 2025.
- The Management Expense Ratio (MER) indicates the trailing 12-month expense ratio, representing the cost of operating the fund. This includes applicable taxes such as HST, GST, and QST, but excludes commissions and other portfolio transaction costs. The MER is expressed as a percentage of the daily average net asset value over the period, including the fund's proportionate share of any expenses from underlying funds, if applicable. Each fund's MER is detailed in its Management Report of Fund Performance (MRFP), which can be found in the Documents tab on [invesco.com/ca](https://www.invesco.com/ca).
- Series A: Invesco Canada Ltd. waived some of the Fund's expenses. If it had not done so, the MER would have been higher.
- On August 11, 2023, Invesco Global Class and Invesco Global Focus Class have merged into this Fund.
- Effective November 28, 2022, the fund's investment strategies, sub advisor and portfolio manager team were changed. The performance of this Fund for the period prior to this date would have been different had the current investment strategies and portfolio manager been in place during that period.

Commissions, trailing commissions, management fees and expenses may be associated with mutual fund investments. The indicated rates of return are the historical annual compounded total returns, including changes in security value and reinvestment of all distributions, and do not take into account sales, redemptions, distribution or optional charges, or income taxes payable by any security holder, which would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. Please read the simplified prospectus before investing.
