What this fund does

The fund is a multi-asset portfolio utilizing a combination of building blocks we view as an attractive allocation for an investor seeking an asset mix of roughly 30% equity and 70% fixed-income. The Fund is continuously monitored and rebalanced to reflect our current strategic and tactical asset allocation views.

Fund overview (as of 03/31/26)

Fund objective	Invesco Diversified Income Portfolio seeks to generate income with the potential for modest capital appreciation. The Portfolio invests in a diversified mix of mutual funds. These mutual funds invest primarily in fixed-income and/or other debt securities. For additional diversification and growth potential, the Portfolio also invests, to a lesser degree, in mutual funds that invest primarily in equity securities. The Portfolio uses strategic asset allocation to allocate assets among mutual funds

For additional series and purchase options, please see [invesco.com/ca-en/mutual-funds](https://www.invesco.com/ca-en/mutual-funds)

- MER is displayed for the period ending March 31, 2025.
- The Management Expense Ratio (MER) indicates the trailing 12-month expense ratio, representing the cost of operating the fund. This includes applicable taxes such as HST, GST, and QST, but excludes commissions and other portfolio transaction costs. The MER is expressed as a percentage of the daily average net asset value over the period, including the fund's proportionate share of any expenses from underlying funds, if applicable. Each fund's MER is detailed in its Management Report of Fund Performance (MRFP), which can be found in the Documents tab on [invesco.com/ca](https://www.invesco.com/ca).
- Invesco Canada Ltd. waived some of the Fund's expenses. If it had not done so, the MER would have been higher.
- Effective November 3, 2023, the investment strategies of the Fund were changed. The performance of this Fund for the period prior to this date would have been different had the current investment strategies been in place during that period.

Commissions, trailing commissions, management fees and expenses may be associated with mutual fund investments. The indicated rates of return are the historical annual compounded total returns, including changes in security value and reinvestment of all distributions, and do not take into account sales, redemptions, distribution or optional charges, or income taxes payable by any security holder, which would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. Please read the simplified prospectus before investing. Copies are available from your advisor or Invesco Canada Ltd.

¹The fund category is that of the Canadian Investment Funds Standards Committee (CIFSC).

²Risk is the chance that your investment may not perform as expected. There are different degrees and types of risk, but, in general, the more investment risk you are willing to accept, the higher your potential returns and the greater your potential losses. No reliance should be placed upon the accuracy or reliability of this volatility meter in making an investment decision. The risks associated with an investment in a Fund are set out in the Invesco Simplified Prospectus, which may be obtained at invesco.com/ca or at sedar.com, or from your Invesco Sales representative.

Portfolio managers are under Invesco Advisers Inc., which is an affiliate of Invesco Canada Ltd. and a sub-advisor of the fund(s) managed by them.

Series F shares or units are available to investors who have fee-based accounts with their dealer or have access to a discount brokerage platform through their dealer. Sales charges and trailing commissions are not payable for Series F shares or units; however, investors holding such series in fee-based accounts pay fees to their dealer for investment advice and other services. The performance of various series may differ due to fees and expenses.

The strategic allocations of the Portfolio were set on December 4, 2024, at which time the Invesco Solutions (Solutions) team began transitioning the Portfolio towards these strategic allocations, subject to any tactical over- or underweighting, as applicable. However, Invesco Canada Ltd. may, in its sole discretion, based in part upon the asset-allocation services provided by the Solutions team, change the strategic allocations and/or remove underlying funds to meet the objectives of the Portfolio set out in the simplified prospectus for the Portfolio. Investor notice is not required.

The Invesco Accumulation Funds are Invesco Canada mutual funds that invest in a portfolio of underlying Invesco mutual funds and ETFs using an asset allocation strategy. This program is designed to assist you in managing your portfolio. You and your advisor are solely responsible for determining whether this program or any other investment, security, strategy, product or program is appropriate or suitable for you based on your investment objectives and personal and financial situation. Invesco Canada Ltd. is not responsible in any manner for direct, indirect, special or consequential damages, however caused, arising out of the use of this program.
