How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

CI Investments Inc. has rated the volatility of this fund as low to medium.

Generally, the rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the "What is a Mutual Fund and What are the Risks of Investing in a Mutual Fund?" section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

Who is this fund for?

This fund may be suitable for you if you:

- want both foreign equity and fixed income securities in a single fund and prefer to have the portfolio advisor make the asset mix decisions
- · are investing for the medium term
- · can tolerate low to medium risk

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws of where you live and whether you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series Z securities of the fund. The fees and expenses — including any commissions — can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the fund series' returns.

The fund series' expenses are made up of the management fee, administration fee, trading costs, and Certain Fund Costs. Series Z's annual management fee is 1.85% of the fund series' value and Series Z's fixed administration fee is 0.22% of the fund series' value. Because Series Z is new, its Certain Fund Costs and trading costs are not available.

More about trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and their firm provide to you.

CI Investments Inc. pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales charge option	Amount of trailing commission		
	in percent (%)	in dollars (\$)	
Initial sales charge	0% to 1.00% of the value of your investment each year	\$0 to \$10.00 each year on every \$1,000 invested	
Standard deferred sales charges	0% to 0.50% of the value of your investment each year	\$0 to \$5.00 each year on every \$1,000 invested	
Low-load sales charges	0% to 0.50% of the value of your investment each year	\$0 to \$5.00 each year on every \$1,000 invested	

The standard deferred sales charge trailing commission rate, and the low-load sales charge trailing commission rate, each change to the initial sales charge trailing commission rate upon completion of your deferred sales charge schedule.

3 Other fees

You may have to pay other fees when you buy, hold, sell or switch securities of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the net asset value of the securities you redeem, if we determine that you have engaged in inappropriate short-term trading, which may occur if you sell or transfer your securities within 30 days of buying them. This fee goes to the fund.
Transfer fee	Your representative's firm may charge you up to 2% of the net asset value of securities you switch to another fund.
Reclassification fee	If you are switching Series A, AH, AT5, AT6, AT8, U, UT6 or Z securities to a different series of securities of the same fund, you may have to pay to us a reclassification fee if you bought your securities under a deferred sales charge option. This fee is equal to the sales charge you would pay if you sold such securities.
NSF cheque fee	There is a \$25 charge for all cheques returned because of insufficient funds.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds securities within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Facts document or financial statements contain a misrepresentation. You must act within the limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.
