Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of CI Canadian Equity Income Private Trust (the Fund) is to provide capital growth and income over the long-term by investing primarily in dividend-paying Canadian equity securities. The Fund uses a fundamental, bottom-up approach to investing.

The Fund may invest in non-dividend-paying securities and may invest in foreign securities in an amount not exceeding approximately 10% of the assets of the Fund.

For a complete discussion of the Fund's investment objective and strategies, please refer to the Fund's most recently filed simplified prospectus.

RISK

No changes affecting the overall level of risk associated with investing in the Fund were made during the period/year. The risks of the Fund remain as discussed in the Fund's most recently filed simplified prospectus or its amendments. The Manager reviews the risk rating for the Fund on an annual basis, at a minimum, based on the methodology mandated by the Canadian Securities Administrators to determine the risk level of the Fund. Any change to the risk rating made during the period/year was as a result of such review and was not a result of any change to the investment objective, strategies or management of the Fund.

RESULTS OF OPERATIONS

The Fund's net assets increased by \$59.5 million to \$389.6 million from March 31, 2023 to March 31, 2024. The Fund had net sales of \$34.4 million during the year. The portfolio's performance increased assets by \$48.2 million. The Fund paid distributions totalling \$23.1 million. Series I units returned 15.5% after fees and expenses for the one-year period ended March 31, 2024. Over the same time period, the Fund's benchmark returned 14.0%. The benchmark is the S&P/TSX Composite Total Return Index (the Benchmark or the Index).

Inflation declined during the year due to restrictive monetary policy and higher interest rates. Residential real estate activity remained depressed amid higher mortgage rates and weakness within certain pockets of commercial real estate, such as office and retail. Unemployment remained at near-record lows, which put upward pressure on wages and increased labour strikes between workers and employers. Inflation and higher interest rates in mortgage, auto and credit card debt has damped consumer spending on discretionary purchases.

The initial impact of stimulus spending under the U.S. Infrastructure Investment and Jobs Act (IIJA), Inflation Reduction Act (IRA) and CHIPS and Science Act offset moderation in private sector investment in the United States. The failures of SVB Financial Group, Signature Bank and First Republic Bank and the subsequent regulatory response resulted in more stringent lending standards and reduced availability of debt capital.

Conflicts in Ukraine and the Middle East led to volatility in the energy markets and placed pressure on global supply chains.

The Fund outperformed its benchmark during the year. Stock selection in the communication services sector and exposure to the materials sector contributed to the Fund's performance. Top individual contributors to the Fund's performance included holdings in Brookfield Corp., Element Fleet Management Corp., WSP Global Inc., Amazon.com Inc. and Boyd Group Services Inc.

Security selection in the health care and information technology sectors detracted from the Fund's performance. The largest individual detractors from the Fund's performance were positions in Kinaxis Inc., Andlauer Healthcare Group Inc., TELUS Corp., Brookfield Renewable Partners L.P. and Nuvei Corp.

We added new positions in Bank of Montreal, UnitedHealth Group Inc. and Canadian Imperial Bank of Commerce to the Fund. Existing holdings in Brookfield Corp., Element Fleet Management Corp., Royal Bank of Canada and WSP Global Inc. were increased. The Fund's positions in GFL Environmental Inc., The Toronto-Dominion Bank and Suncor Energy Inc. were eliminated while holdings in Open Text Corp., CGI Inc. and Amazon.com Inc. were trimmed.

RECENT DEVELOPMENTS

We expect elevated inflation to persist over the near term, and therefore, we favour businesses that have sustainable competitive advantages that allow them to exercise pricing power.

Globally, central banks have raised interest rates aggressively to combat the rapid inflation. This has pressured the valuations of high-growth information technology companies and those in cyclical sectors, including housing, luxury goods and industrial components. Recent turbulence in the U.S. regional banking system may constrain credit availability and put upward pressure on financing costs.

Management Report of Fund Performance for the period/year ended March 31, 2024

Consumer budgets have been pressured by elevated inflation and deteriorating housing affordability. While we remain cautious, we expect consumer spending should be fairly resilient because of excess savings accumulated during the COVID-19 pandemic, record home equity and low unemployment. We expect spending to remain especially resilient in travel, entertainment and experiences, which consumers were unable to enjoy during the pandemic. Stimulus spending under the IJJA, IRA and the CHIPS and Science Act should partially offset slower economic activity related to higher interest rates.

The Fund holds companies that are better able to endure any economic environment and businesses with some short-term challenges that are trading at prices well below intrinsic value. We continue to place an emphasis on balance sheet resilience and liquidity, which enables businesses to continue investing through an economic downturn and ultimately emerge stronger when conditions recover.

RELATED PARTY TRANSACTIONS

Manager, Portfolio Adviser, Trustee and Registrar

CI Investments Inc. is the Manager, Portfolio Adviser, Trustee and Registrar of the Fund. CI Investments Inc. is a subsidiary of CI Financial Corp. The Manager, in consideration for management fees, provides management services required in the day-to-day operations of the Fund. The Manager bears all of the operating expenses of the Fund (other than borrowing and interest costs, investor meeting costs (as permitted by Canadian securities regulation), the fees and expenses of the Independent Review Committee, the fees, costs and expenses associated with compliance with any new governmental and regulatory requirements imposed on or after February 16, 2018 and new governmental fees or with any changes to existing governmental and regulatory requirements imposed on or after February 16, 2018 (including increases to regulatory filing fees), any new types of costs, expenses or fees not incurred prior to February 16, 2018, including those arising from new government or regulatory requirements or related to those external services that were not commonly charged in the Canadian mutual fund industry as of February 16, 2018, and operating expenses that were or are outside the normal course of business of the Fund on or after February 16, 2018) in return for an administration fee.

Management fee and administration fee rates as at March 31, 2024, for the Series/Class or for each of the Series/Classes, as applicable, is/are shown below:

	Annual management fee rate (%):	Annual administration fee rate (%):
Series I	Paid directly by investor	Paid directly by investor

The Fund only offers Series I units, thus management and administration fees are negotiated directly with each investor and paid directly to the Manager as per Series I Account Agreement Fee. Please refer to Part A of the simplified prospectus for further details.

Inter Fund Trading

Inter fund trading occurs when a Fund purchases or sells a security of any issuer from or to another Fund managed by the Manager. These transactions are executed through market intermediaries and under prevailing market terms and conditions. The Independent Review Committee (IRC) reviews such transactions during scheduled meetings. During the period/year ended March 31, 2024, the Fund executed inter fund trades.

Independent Review Committee

The Manager, in respect of the Fund, received the following standing instructions from the IRC with respect to related party transactions:

The applicable standing instructions require, amongst others, that related party transactions be conducted in accordance with the Manager's policies and procedures and applicable law and that the Manager reports related party transactions periodically to the IRC and advise the IRC of any material breach of such policies. The Manager's policies and procedures require that investment decisions in respect of related party transactions (a) are free from any influence by an entity related to the Manager and without taking into account any consideration relevant to an entity related to the Manager; (b) represent the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; (c) do not exceed the limitations of the applicable legislation; and (d) achieve a fair and reasonable result for the Fund.

Except as otherwise noted above under Related Party Transactions section, the Fund was not a party to any related party transactions during the period/year ended March 31, 2024. If the Fund invested in related party transactions, it relied on the IRC's standing instructions regarding related party transactions during this reporting period/year.

(1) This information is derived from the Fund's audited annual financial statements.

(2) Management expense ratio is calculated based on expenses charged to the Fund (excluding commissions and other portfolio transaction costs) and is expressed as an annualized percentage of daily average net assets for the period/year, including the Fund's proportionate share of any underlying fund(s) expenses, if applicable. The Effective HST tax rate is calculated using the attribution percentage for each province based on unitholder residency and can be different from 13%.

(3) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period/year, including the Fund's proportionate share of such expenses of any underlying fund(s), if applicable.

(4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal period/year. The higher a Fund's portfolio turnover rate in a period/year, the greater the trading costs payable by the Fund in the period/year, and the greater the chance of an investor receiving taxable capital gains in the period/year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities for the period/year, and excluding cash and short-term investments maturing in less than one year, and before assets acquired from a merger, if applicable, by the average of the monthly fair value of investments during the period/year.

(5) This information is provided for the period(s)/year(s) ended March 31.

PAST PERFORMANCE

This section describes how the Fund has performed in the past. Remember, past returns do not indicate how the Fund will perform in the future. The information shown assumes that distributions made by the Fund in the period(s)/year(s) shown were reinvested in additional units of the Fund or relevant Series/Class of the Fund, as applicable. In addition, the information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance.

Year-by-Year Returns

The following chart/charts shows/show the Fund's annual performance for each of the period(s)/year(s) shown and illustrates/illustrate how the Fund's performance has changed from period/year to period/year. In percentage terms, the chart/charts shows/show how much an investment made on the first day of each financial period/year would have grown or decreased by the last day of each financial period/year, except where noted.

¹ 2017 return is for the period from November 14, 2016 to March 31, 2017.
